BUCKBEES

BEST OF ALL—HANDSOME COLOR—HARDY BROWER ENCHORMOUSLY PRODUCTIVE—LARGE SIZE—THE BEST KEEPER,

express my gratitude to those who, by their patronage covering a period of more than thirty-three years, have made my success possible. I do not think my patrons would have been foolish enough to purchase my seeds year after year if they had not been right—if they had not been "FULL OF LIFE." Life Vigor, Vitality and Quality up to the brim, are characteristics peculiar to Buckbee's—THE BEST SEEDS THAT MONEY CAN BUY. Let me repeat it: FULL OF LIFE. Whenever you think of LIFE, think of Buckbee'a Seeds and Plants. Of what use is a high-sounding name tacked on to a worthless or a low-vitality seed or plant? I have never asked my patrons to do experimenting for me at their expense. I do my own experimenting, and never ask my friends to do anything doubtful. I want you to remember that Buckbee's Seeds are all tested by an expert, and that his word is law. If he says the seeds are rejected that settles it. "They must be FULL OF LIFE." These are the only instructions he has and they are ample. Of course, I realize that cheap low-vitality seeds are put on the market year after year, and that some people are unwise enough to buy them, but that does not influence me one particle. I say that my seeds Must be Full of Life—that they Must the Best Seeds that Money Can Buy one particle. I say that my seeds Must be Full of Life—that they Must the Best Seeds that Money Can Buy

Each year sees me better equipped to handle the ever increasing volume of orders. My mammoth new seed warehouse is the finest and best equipped plant of its kind in the world. My competitors, who have inspected the building, admit the truth of this assertion. It is this wide-awake, progressive, careful policy that has carried the fame of Buckbee's Seeds and Plants all over the world, until today Buckbee's Seeds and Plants take root and flourish in every crop-growing country

in the world.

My competitors say: "Buckbee is too liberal." I am liberal because I can afford to be, because it is best to be liberal. "Liberality" is one of my watbhwords. I extend this to the size of my packages, to my premiums, to my business dealings. I tell the truth about my seeds and plants. My prices are the lowest at which it is possible to sell first-class seeds and plants. If you will stop and consider the Buckbee Quality, the seeds and plants that are FULL OF LIFE, I am reasonably sure of your orders. Remember that I want your orders, no matter how large or small they are. Send in your orders early. Make them larger than you did in 1904. Get the benefit of our large and liberal Premium Lists by telling your friends and neighbors about Buckbee's Seeds and Plants.

In conclusion, let me thank you again, and ask you to patronize the man who challenges competition, who deals on the square and who insists that his seeds and plants shall be FULL OF LIFE.

H. Buckber

RARE PREMIUMS

In addition to the low prices and special offers abounding throughout my SEED AND PLANT GUIDE FOR 1905, besides the several hundred thousands of novelty presents which I annually distribute with all orders amounting to twenty-five cents or more, I make this Special Inducement to build new business and give my customers an opportunity of testing my new FULL OF LIFE Seed and Plant products a year in advance of the general public—the only reason that I do not offer them in my catalogue this season is due to the scarcity of stock.

With All Seed Orders Amounting to 50c You may select one of the following Rare Seed Bargains With a dollar order, any two; with a dollar and a half order, any three: with a two dollar order, any four, and so on. One packet free (if selected and named in the order) for each fifty cents worth of Seeds purchased.

Please understand that it is necessary for you to state very plainly in each and every order just which "Rare Premium" you desire, otherwise we shall take it for granted that you do not care for any of them. NOTICE!

BEET-Buckbee's Scarlet Ball-Earliest variety grown -----Pkt. 25c CARROT—Home Queen—Best table—Earliest variety grown——Rt. 25c
CARROT—Home Queen—Best table variety——Pkt. 25c

TOMATO—Peerless—Upright grown, very prolific——Pkt. 25c With All Plant Orders amounting to \$1.00 you may select any one of the following RARE PLANT PREMIUMS; any two plants with a Plant Order of \$2.00; any three for \$3.00; the four with a Plant Order of \$4.00 or more.

ROSE, The Princess. One of the finest of all everbloomers, being constantly in bloom. Hundreds of flowers and buds produced and counted upon a single plant. Color a most beautiful rich glowing pink, extremely fragrant, Worth 50c; price 25c.

FUCHSIA, May Blossom. The buds look like a floral wedding bell, and when in full bloom they are perfection in coloring. 5,000 flowers counted on a single plant. Worth 50c; price 25c.

CARNATION, *Innocence.* Flowers of large size, white as the driven snow and very fragrant. Three hundred buds and blossoms often counted upon a single plant of this wonderful everblooming carnation. Worth 50c; price 25c.

CHRYSANTHEMUM, Loviiness. Mammoth free blooming, glistening golden yellow; flowers often measure 11 to 12 inches in diameter. Worth 50c; price 25c.

FULLOF BUCKBEE'S

These Seeds and Plants Will Not be Sold Separately, being distributed only on general orders. Should any of our customers want more of these advance novelties for trial than the amount of their order entitles them to select free, additional varieties can be ordered at the rate stated above for each variety. But not more than two packets or plants of any one variety will be supplied, except on Club Orders for separate planters.

We Save You at Least

PER CENT .-The Dealer's Profit,

Save the Dealer's Profit. Get Better Seeds and more of them.

I GUARANTEE THAT ALL GOODS SOLD BY ME SHALL REACH THE CUSTOMERS IN GOOD CONDITION.

Every order, however large or small, is carefully filled, and, as a rule, forwarded with dispatch after it reaches my office. I take much pride in promptness and accuracy in filling orders.

How to Order.

Please be careful to sign plainly your name, postoffice, county and state on each order that you send. Cash should accompany the order. Money can be sent safely either by postoffice order, bank draft, express order, or the cash by On orders over \$1.00 the cost of remitting by any of these methods may be selected in extra seeds free. We are responsible for the safe receipt of remittances by any of the above methods, excepting postage stamps.

Please write each item of your order on a separate line, and carry out the correct prices.

Also please keep a copy of your order, with which to check off the goods when received, to be sure that you receive just what you order.

We seldom make mistakes, but when we do, want to be notified immediately, so that they can be corrected.

Correspondence Have endeavored to make everything as plain as possible in this catalogue, but in case further information is desired, make your wants known in as few words as possible and on a sheet of paper separate from your order, giving your complete address and enclosing stamp for reply.

Please Order Early. It would be a great accommodation to us if more of our customers would order however, you should postpone ordering January and February, before the rush of our busy season. If, them promptly.

Low Shipping Rates. Owing to the large volume of business which we annually give to the transportation to strongly urge you to order early and have your seeds shipped by freight, thus saving shipping charges, and avoiding, as it does, the heavy rush in the seed business, which occurs during the months of March and April. Remember that the freight charges on 100 lbs. amount to but little more than if the shipment weighs but 10 lbs. to 50 or 75 lbs. In all instances we shall try to save you shipping charges sending your goods by express or freight, whichever is the cheapest for you.

I Prepay Shipping Charges
On all goods except when selected from the wholesale pages, or on Beans, Corn, Peas, and field seeds by one-eighth bushel, one-fourth bushel, one-half bushel and bushel; or in cases where especially noted. In such instances I reserve the privilege of enclosing in the bags or packages such small packets as may be ordered as it does not increase the transportation charges, and in consideration of this I will add enough extrast of fully repay customers for this kindness.

Prepaid Railroad Stations.

Many of my customers live on prepaid railroad stations or near stations where there are no railroad agents, in such cases be sure to give otherwise we will ship the goods to the nearest station given in our shipping guide to this Prepaid Station, as I never prepay freight charges.

Quantity of Seed in a Packet. Customers will please notice that I state the number of seeds in a packet of the leading varieties of vegetable and flower seeds. Full count guaranteed. No less quantity than a packet can be sold. In comparing my prices with those of other seedsmen, you will readily see how reasonable my prices are for liberally filled packets of the best seeds

Culture. On every packet of seeds that I send out is given clear and simple Directions for Planting, Growing, and Cultivation. If more information is desired, I will gladly supply same on request.

My Wholesale Catalogue

For Market Gardeners, Florists, Farmers' Clubs and Agents will be mailed FREE on application to all who are entitled to receive it.

Plant Shipments.

I always recommend having plants sent by express, when there is an express office near, as we can usually send somewhat larger plants, and do not have to wash the soil off the roots (as in the case when sent by mail). We always try to add enough extra plants of our own selection to help pay charges. We always pack express orders in light strong baskets or boxes (which we drynish free). Plants packed in this manner will carry nicely for a great distance, and keep for a week or ten days in a fresh condition. Please remember that purchasers must in all cases pay charges on all express plant orders. Unless otherwise instructed, we shall ship the larger and two-year-old Rose plants, Hydrangeas and all other large plants, except where noted, by express at your expense, as they are in most instances too heavy to go by mail, When plants are ordered by mail I prepay postage, delivering the plants free of all expense to any postoffice in the United States. By care in packing, strong, well-rooted plants can be sent safely by mail and will arrive in good condition for growing at any postoffice in the United States. Kindly write your list of plants all together (not mixed up with the seeds), so as to prevent any mistake upon the part of our clerks in copying the order.

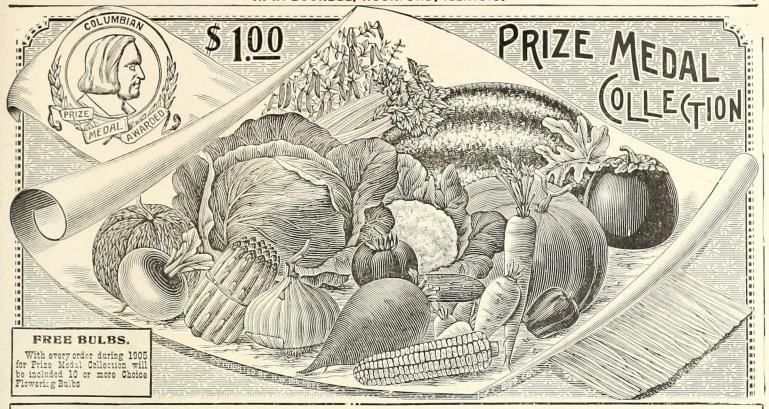

A Few Words about Reliable Seeds. I had a visit in August, 1904, from a customer who has planted my seeds for years. I took him through the Testing House, and he said: "No wonder Buckbee's Seeds are Full of Life. Mr. Buckbee, I believe that this, and your liberality, explains your wonderful success." It has oftentimes been said that, "besides good seeds, good gardeners are necessary in producing a satisfactory crop." We all know how true this is. Seeds of the best quality sometimes fail through improper treatment by sowing the seed too deep or too shallow, in too wet or too dry soil. Some will germinate rapidly at a certain temperature, while others, if sown under the same conditions, are apt to decay. The young plants are liable to various accidents, cold or dry air may check their growth or destroy them. It seeds above and below the ground may attack them and a great many other contingencies may arise to prevent the best seeds from giving satisfaction, and for all these reasons we cannot, of course, guarantee or be responsible for a crop, as success is dependent upon natural causes, which are beyond human control. human control.

From good seeds only can good crops be grown; nothing should induce you to risk planting so-called "Cheap Seeds." We always give value received in Fresh, High-Grade, Tested, Reliable Seeds,

Free Gifts. This year I will distribute one million packets of new and valuable novelty seeds, both vegetable and flower, among my customers. Everyone ordering will receive something, regardless of the size of the order. The larger the order the more Free Gifts will be added.

Special Offers abound throughout this catalogue. Especially on pages 3.6, 7, 8.9, will be found choice collections at low prices. Don't fail to include them in your orders.

ROCKFORD SEED FARMS. FOREST CITY GREENHOUSES. H. W. BUCKBEE. ROCKFORD, ILLINOIS, U. S. A.

MONEY IN ASPARAGUS German Spargel French Asperge Sparragos Sparr

German Spargel Asperge

FULL OF SwedishSparrio BUCKBEE'S

A packer of Berecold of Ed. Droccel to Brus-cold Optout to guaran-

spring vegetables, and would be grown in every garden, were it not for the mistaken idea that it is difficult to grow. The truth of the matter is that it can be grown very easily and cheaply, even by inexperienced people.

FREE. with every order for Asparagus Rocts. I send SPECIAL CONFIDENTIAL DIRECTIONS, if requested to do so, that well insure success to the most inexperienced. These Special Directions are the results of years of practical experience. They never fail if followed

NOTICE—A pkt. of Asparagus Seed contains from 200 to 250 seeds. One oz. of seed will produce about 600 plants. Fifteen pounds of seed is required to plant an acre.

Columbian Mammoth White—The most distinct and valuable Asparagus. The immense shoots are clear white, and in favorable weather remain so until three or four inches above the surface. The crown or bud of the young stalk is considerably smaller than the part just below it, thus further distinguishing the variety. All but a few of the seedlings will produce clear, white shoots and the green ones can readily be distinguished and rejected when setting the permanent bed. Ptt. 40:; 02. 70:; 202. 120:; 14 lb. 180:; 1/2 lb. 340:; 1 lb. 60c.

when setting the permanent bed. Fxt. 40; 0z. 7c; 20z. 12c; 4 lb. 18c; ½ lb. 34c;

Donald's Elmira—This new variety, called by some Vick's Mammoth, is attracting a great deal of attention throughout the country, originating with Mr Donald, a leading market gardener, of Elmira, N. Y. The stalks are exceptionally tender and succulent. Its mammoth size can be realized from the fact that a bunch of 12 stalks will average four pounds in weight. Pkt. 4c; 0z. 7c; 2cz. 12c; ½ lb. 18c; ½ lb. 36c; lb. 60c.

New Palmetto—This new Asparagus. from South Carolina, is now quite extensively grown by Southern gardeners for New York and Philadelphia markets, where it sells at very high prices, owing to its mammoth size and regularity. An average bunch of fifteen shoots will measure thirteen to fourteen inches in circumference. In past seasons this Asparagus has reached northern markets ten days ahead of all other varieties, and sold at fabulous prices. Although of Southern origin, it is equally well adapted to north or south. Pxt. 4c; 0z. 5c; 2c. 10c; ½ lb. 12c; ½ lb. 2cc; lb. 45c.

Barr's Mammoth—This fine variety has brought in market thirty cents a bunch, when other asparagus was selling for ten and fifteen cents. The stalks are very large, frequently an inch in diameter, with few scales, and retain their thickness completely up to the top of the shoots, and have clear, round heads. They are quick growing, stall's very tender and succulent, entirely free from woody fibre, and makes shoots fit for market or family use in one day. Pkt. 3c; 0z 5c; 2 oz. 8c; ½ lb. 12c; ½ lb. 2cc; lb 35c.

Conover's Coloccal—A standard variety of large size and delicious quality. Certainly one of the best varieties grown. Pkt. 2c; 0z. 5c; 2 oz. 8c; ½ lb. 12c; ½ lb. 2cc; lb. 35c.

Conover's Coloccal—A standard variety of large size and delicious quality. Certainly one of the best varieties grown. Pkt. 2c; 0z. 5c; 2 oz. 8c; ½ lb. 2cc; lb. 35c.

Asparagus Roots My Asparagus Roots are grown from the choicest stock seed and are actually well worth double the price asked for them.

A saving of two to three years is effected by planting roots. Those offered below are Select, Strong, Two-Fear-Old Ecots, and am confident they will please you in every way. Den't be misled in planting one-year-old or inferior Ecots. The following low prices are for Roots carefully packed and shipped by express or freight at purchaser's expense, with the exception of price per dozen which is postaged. (If for any reason roots are desired by mail, postage must be added at the rate of fifty cents per hundred to the following prices):

Special notice.

On many occasions we have received requests from our customers to furnish extra large sized Asparagus Roots. To meet this demand we have especially grown a few acres of these roots, which are particularly adapted for the home garden or those gardeners who desire immediate results. Our prices to one and all as long as our extra large sized 3 and 4-year-old roots last will be as follows: Any of the 5 varieties listed on this page only \$1.50 per 100, \$12.50 per 1,000, shipped by express or fieight at bayer's expense

If for any reason roots are desired by mail, postage must be added at the rate of \$1.00 per 100 to prices quoted above. On many occasions we have received

John Myers, Nicholson, Ky., writes:—I am very much pleased with the splendid results of the planting of the 5,000 Columbial Asparagus Roots sent me. They are all up and growing nicely. As remarkable as it may seem I believe scarcely a root will fail. I assure you that I appreciate the care you have taken to select and forward me such a high class of goods and will be pleased to patronize you in the future when in need of anything in your line.

BORECOLE, or KALE. German, Blaetter-Kohl; French, Chon Vert; Spanish, Bretin. One Ounce of Seed for 3,500 Plants.

This is hardier than cabbage, and makes excellent greens for winter and spring use. The leaves are as curly as parsley, tender and of very fine flavor. It is improved by frost. Sow the seed in May or June, transp ant in July and treat same as cabbage Immense quantities of this are grown in the south and suipped to northern markets. We have an excellent strain of it. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ½ lb. 18c.; ½ lb. 30c.; lb. 55c.

Tall Green Curled Scotch—This makes a beautiful plant about two and one-half feet high Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ½ lb. 18c.; ½ lb. 35c; lb. 60c.

Sea Kale—Pkt. 5c.; oz. 30c.

Siberian—Sometimes called "Sprouts" and "German Greens." Not so curly as the Dwarf Green Kale. The plant is low, but spreading, and very hardy Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ½ lb. 55c.

BRUSSELS SPROUTS.

A Most Delicious Vegetable.
German, Sprossen-Kchl; French, Chou de Bruxelles; Swedish, Bryssel-Kal. One Ounce of Seed for 3,500 Plants.

Culture—Should be treated in all respects like winter cabbage or kale.

Improved Parls Market—Very fine new variety, dwarf growth, bearing handsome, solid, round sprouts of best quality, crowded together on the stalk, one to two inches in diameter, resembling cabbage in miniature. The sprouts are used as greens, and lecome very tender and of rich flavor when touched by frost. Sow in May and treat same as winter, cabbage, Pkt. 4c: 02. 10c.; 2 oz. 18c. \(\frac{1}{2}\) 18. \(\frac{3}{2}\) COLULT

Cabbage. Pkt. 4c: oz. 10c.; 2 oz. 18c. 41b. 35c.

BROCCOLI.

German, Spurgel-Echl: Franch. Chru-Brocoll:, Spanish, Broculi.

One Ounce of Seed for 3,500 Plants.

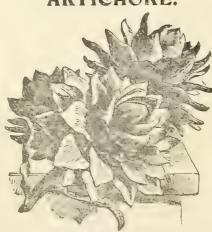

Calture—Same as that given for Cauliflower.

It greatly resembles the Cauliflower, and is grown in the same manner as the latter, but being more hardy can be grown in cooler locations and for late fall use.

Endr Furple Cape—Best variety for our climate. Produces large heads of purple brownish color very close and compact, and of excellent flavor. Pkt. 30.: oz. 30c.

Now White Cape—Very desirable variety. Has medium sized heads, close and compact, of a beautiful. creamy-white color. A sure header. Pkt. 8c., oz. 30c.

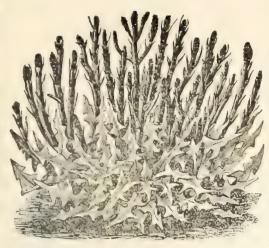

ARTICHOKE.

Large Globe, or Paris.

This is the figure and the set the large flower buds of which are with the veste med by queries, and is very disease throught out of the title by reason tubers. The best site is active rall use. Buds large, hearly round, scales progress, shaling to violet at the base, very think and these, Progress. and the hy. Pkt. Sc.; cz. 25c.

FULL OF

ASPARAGUS CHICORY.

Aside from its valuable quali-ties as an appetizing vegetable, it possesses such medicinal prop-erties which should endear it to the hearts of everyone, especially to those who have an exhausted constitution or weak nerves. The benefit derived from the use of these stems, by persons troubled

with stomach disease or weak digestion, is said to be remarkable. It can be blanched and eaten raw the same as celery, and is preferred by many to that delicious vegetable. It can be kept winter in the cellar the same as celery. Pkt. 10c.; 3 pkts. 25c.; oz. 30c.

CAPER.

Half hardy trailing shrub. Buds are nice just before expanding, and unripe fruit pickled. It makes the famous "Caper Sauce." Pkt. 8c.; oz. 75c.

CARDOON.

German, Kardon; French, Cardon, Spanish, Cardo Hortense. LARGE SPANISH—A wonderful and very desirable vegetable, grown from the mid-rib of leaves, which are blanched same way as celery. Pkt. 4c.; oz. 15c.

CHERVIL.

German, GARTENKERBEL; French, CERFEUIL. Hardy annual, worthy of more general use for flavoring and garnishing. Curled variety more beautiful than parsley.

CURLED—Greatly superior to the old, plain variety; earlier, more handsome, having fully as fine perfume and flavor.

Pkt. 4c.; oz. 7c.; 2 oz. 12c.; ½ lb. 20c.; ½ lb. 35c.; lb. 60c.

CHICORY.

German, CHICORIE; Swedish, CICORIA.

LARGE ROOTED, OR COFFEE-Dried and prepared roots are used quite extensively as a substitute for and an adulterant of coffee. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; 1/4 lb. 18c.; 1/2 lb.30c.; lb. 55c.

CHIVES, (Schnittlauch.)

Perfectly hardy perennial plant of the onion type. Grown for their small leaves, which are produced freely very early in spring. Planted in small clumps in any garden soil, will grow rapidly. Tops appear early in spring; can be shorn off close to ground. If not allowed to flower will produce much longer. Se lected clumps prepaid by mail, 20c., by express at purchaser'sexpense, 10c. each; \$1.00 per dozen.

CHUFUS, or Earth Almond.

In sweetness and flavor very much resembles a cocoanut or almond, and are greatly liked by all children. Vary in size from a large pea to a hazelnut. The nuts grow under and very near the surface of the ground and very easily reached; relished by pigs or poultry. Plant in April two inches apart in rows 2½ feet apart. If the seed is dry, soak well before planting. Very prolific. Pkt. 5c.; ¼ lb. 10c.; ½ lb. 18c.: 1lb. 35c.

COLLARDS.

German, Blætter-Kohl; French, Chou.
A variety of cabbage known in different sections as "Cole,"
"Colewort," or simple "Greens." It is extensively used in the

GEORGIA, SOUTHERN, OR CREOLE—We offer the true white, or green stemmed sort so exclusively used in the south. Forms a large loose open head, or a mass of leaves on tall stem. Freezing does not injure but rather improves their quality. Sow thick in drills, in rich ground, transplanting when 4 inches high and thin to 2 or 3 feet apart in the row when the proper size. In the South sow from January to May, and August to October. Pkt. 3c.; oz. 8c.; 2 oz. 15c.; 1/4lb. 25c.; 1/2lb. 40c.; lb. 75c.

CORN SALAD, Petticus, or Lamb's Lettuce.

This small Salad is used during the winter and spring months as a substitute for lettuce, and is also cooked and used like spinach. In warm weather the plants will mature in four to six weeks. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ¼lb. 18c.; ½lb.; 30c.; lb. 55c.

CRESS.

German, Kresse; French, Cresson; Spanish, Mastruco; Swedish, Krasse

NEW UPLAND CRESS—Has the highly prized flavor of Water Cress. It is so hardy as to be green nearly the whole year, and is ready for use before any other salad in spring. Its

usage should be more general, as it is of as easy culture as spinach. It is a perennial plant,

culture as spinach. It is a perennial plant, and can be grown for several years without renewal. Pkt. 5c.; oz. 30c.

CURLED, OR PEPPER GRASS—This small salad is much used with lettuce, to the flavor of which its warm, pungent taste makes a most agreeable addition. Pkt. 2c.; oz. 6c.; 2 oz. 10c.; 14b. 15c. 15c. 15b. 40c.

TRUE WATER—This is quite distinct from the last, and only the lives when its roots and stems are submerged in water. It is

thrives when its roots and stems are submerged in water. It is one of the most delicious of small salads, and should be planted wherever a suitable place can be found. Pkt. 5c.; oz. 25c. 2 oz. 40c.; 1/4 lb. 75c.

DANDELION.

German, Pardeblume; French, Pisse-en-lit; Spanish, Amar-GON; Swedish, SMORBLOMSTER.

IMPROVED LARGE LEAF-An improved variety, very early and largely cultivated for greens, or if blanched like celery makes a fine and delicious salad. The roots when dried and roasted are often employed as a substitute for coffee. Pkt. 5c.; oz. 40c.

ENDIVE, often called Winter Lettuce.

This is one of the most refreshing of all autumn and winter salads. Endive may be grown at any season of the year, but is more generally used late in the fall.

FINE GREEN CURLED—Is the hardiest variety; very fine, dark green leaves, which blanch to a beautiful white, tender and crisp. Pkt. 3c.; oz. 8c.; 2oz. 15c.; ¼lb. 28c.; ½lb. 50c.; lb. 90c.

NEW MOSS CURLED-Very fine variety, growing considerably denser and having the leaves much finer cut than the Green Curled variety; in fact the whole plant is more compact. Pkt. 3c.; oz. 8c.; 2 oz. 15c.; ½lb. 28c.; ½lb. 50c.; 1 lb, 90c.

FENNEL.

NEW FLORENCE CELERY ROOTED—A desirable variety from Italy, where, owing to its delightful sweet flavor, it is much preferred to celery. Thrives well in our climate, and is of easy culture. Cultivate same as parsley. Sow early in spring. Pkt. 5c.

Mr. J. S. Shaffer, the leading Market Gardener of Smith Centre, Kans., writes:—"The Seeds I bought of you—over thirty different kinds; including such difficult ones to handle as Sage, Parsley, Pepper, etc., are the best I ever planted, everyone grew-not only grew but made No. I results. I took five 1st Premiums at our Fair held early in August on vegetables grown from Buckbee Seeds

GARLIC.

German, KNOBLAUCH; French AIL.

A popular vegetable of the bulbous rooted family, with a strong penetrating odor. Pungent in its taste, and esteemed by many for flavoring soups, stews, etc. We frequently receive orders for Garlic seed, but can supply the bulbs only. Fine Bulbs: 1/4 lb. 8c.; 1/2 lb. 15c.; lb. 25c.

HORSE RADISH.

This valuable vegetable is first grown by planting small lengths of roots called sets. Set out in April, small end down, the top 1 to 2 inches below the surface, in rich. well cultivated soil; forms large sized roots in one season's growth. Before planting, the top of the set should be cut off slantingly to prevent decay from water resting on top. Nice Sets, 15c. per doz.; 75c. per hundred, postpaid by mail.

KOHL RABI.

German, Kohl Rabi; French, Chourabe; Spanish, Calde Nubo. A vegetable intermediate between the cabbage and turnip combining the flavor of both. Edible part is a turnip-shaped bulb formed by swelling of stem. When used for the table this should be cut when quite small, as it is then very tender and delicate

EARLY WHITE VIENNA—Early and small. Handsome white bulbs. Best early variety for table. Pkt. 4c,; oz 18c-

EARLY PURPLE VIENNA-Nearly identical with the last except in color, which is bright purple, with the leaf stems tinged with purple. Pkt. 4c.; oz. 15c.

LEEK.

German, LAUCH; French, POIREAU. Sow the seed and care for young plants the same as for onions.

NEW FLAG-The variety more cultivated in this country than any other. Is hardy and of good quality.

Pkt. 4c.; oz. 8c.; 2 oz. 15c.; $\frac{1}{4}$ lb. 28c.; $\frac{1}{2}$ lb. 50c., lb. 90c.

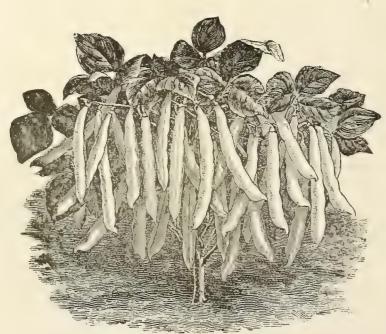

KOHL RABI

Henderson's Bush Lima—Valuable variety on account of its earliness and wonderful productiveness, continuing to grow and set pods until stopped by frost. Its popularity increases every year. Rich, buttery Limas—the true flavor (even better). Vines are without runners, leaves small, bright green and Lima like; flowers small, yellowish white, borne in clusters and often above the foliage. Pods short, flat, and contain from three to five beans, which are of delicious quality. Try it. Pkt. 8c.; 1/2 pt. 12c.; pt. 22c.; qt. 40c.

Burpee's Bush Lima—The bushes grow 18 to 20 inches high, of stout growth and always erect, yet branching so vigorously that each plant develops into a magnificent circular bush from 2 to 3 feet in diameter. Enormously productive, single plants under favorable circumstances yielding from 200 to 350 pods. Handsome large pods being well filled with very large beans, identical in size and luscious flavor with the well-known large Pole Limas. Pkt. 8c.; ½ pt. 12c.; pt. 22c.; qt. 40c.

NEW REFUGEE WAX.

FOR PRICES IN QUANTITY, SEE WHOLESALE PAGES.

Mr. W. D. De Young, of Oakland, Cal., writes: "If you will refer to your order books you will find that I have ordered from you fifteen years. The reason, have always received honorable treatment and quick attention."

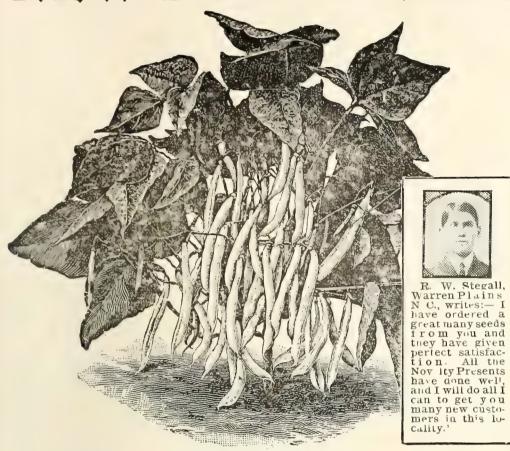

NEW WAX BEAN.

Refugee Wax—Among green beans the Refugee type has always been most valuable. This Wax variety has all the peculiar characteristics of the old Refugee, such as small, dense foliage, great productiveness, roundness of pod and handsome appearance. It will readily be seen that the advantage gained in producing a Wax form of this must be great. A Great Favorite. It produces pods of a clear transparent color. It remains tender longer than any other wax variety, and is practically ever-bearing. It is free from rust, and its dense habit of growth renders it proof against long continued drought. This feature is valuable, and this is the only Wax Bean we Frow of that possesses it. Pkt. 8c.; //2 pt. 15c.; pt. 25c.; qt. 40c.

REMEMBER THAT I PREPAY CHARGES ON BEANS BY THE ONE-

HALF PINT, PINT AND QUART.

NEW DWARF WAX BEANS

BUCKBEE'S RUST-PROOF GOLDEN WAX.

IONES' STRINGLESS WAX.

This is the result of crossing a white-seeded sort with the Yosemite, and in it the good qualities of the latter variety are developed to a superlative degree, being wonderfully productive or uniformly well shaped and handsome pods. The plant is exceedingly hardy, rust-proof and productive. Afine, white-seeded variety with round, stringless pods of unsurpassed beauty and quality. It matures the long, round, fleshy, stringless pods very early and ripens its crop of seed earlier than the earliest of field Beans, so that it will prove a valuable sort for the farm as well as the garden. The ripe Beans are saleable as No. 1 medium and are of superior quality for cullnary purposes. This feature makes the sort of especial value to market gardeners, since if from any reason there is no sale for them as snaps, the value of the dry Beans will make the crop a remunerative one. Every farmer and gardener should try it. Pkt. 8c.; ½ pt. 15c.; pt. 25c.; qt. 40c.

YOSEMITE MAMMOTH WAX.

BUCKBEE'S RUST-PROOF

BUCKBEE'S RUST-PROOF
GOLDEN WAX.

OUR own original stock, unequaled in size, color and quality of pods and Superior to All Others. This bean. Introduced by us, still continues T..o Standard Wax Variety For General Use. In this variety we have a Bean that possesses all the good points of the old favorite, Golden Wax, but is larger in pod and much more prolific; handsome appearance, being of a dark, rich, yellow color and of perfect shape.

CAN'T BE BFAT.

Of grand quality, showing no string or coarseness even when past its best, but is of tender and melting flavor at all stages of its growth. Being so exceedingly prolific, it is not injured by Bean rust. For market gardeners or p.1y.te families no better variety can be planted. Try this great Bean in your garden once, and it will always have a place there. Pkt. 8c.; ½ pt. 15c.; pt. 25c.; qt. 40c.

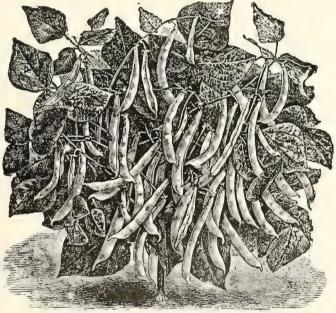

YOSEMITE MAMMOTH WAX

In value, distinctiveness and sterling worth this Bean is a Wonder. We would call attention to the necessity of planting this grand variety nearly twice as wide apart as ordinary bush Beans, The plant is so large and vigorous, and the pods are so solid and pulpy that they require a great deal of light and air to perfect them.

A GRAND GOOD VARIETY.

A GRAND GOOD VARIETY.

The pods frequently attain a length of ten to fourteen inches, with the thickness of a man's finger, and are nearly all solid pulp, the seeds being very small when the pods are fit to use. The pods are a rich golden color, and are absolutely stringless, cookin tender and delicious. This is the popular wax Bean for family or market purposes. It is enormously produc ive, as many as 50 of its monster pods having been counted on one bush. Pkt.

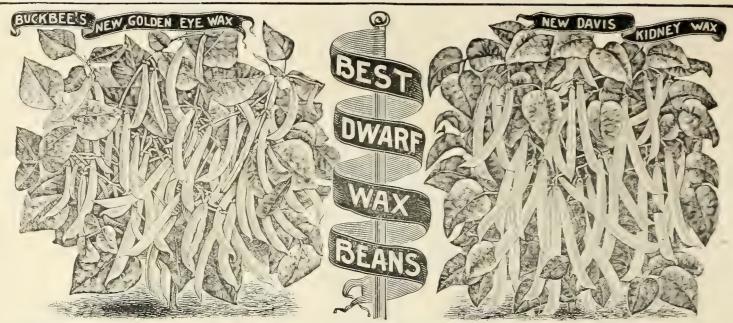

JONES' STRINGLESS WAX.

Dwarf Wax Beans I can also supply the following varieties of Dwarf Wax Beans,

which are too well known to need extended descriptions, at the uniform price of: Pkt. 5c.; 1/2 pt. 10c.; pt. 18c.; qt. 35c.

Keeney's Rustless Golden Wax. Wardwell's Kidney Wax. Improved White Wax or Butter

The Greatest Wax Bean. For prices in quantity. A Splendid Variety.

German, Bohne; French, Harcot; Spanish, Thijorenano; Swedish, Bonar. One quart to 100 feet in drills. Two bushels to the acre in drills. Remember that I prepay charges on Beans by the one-half pint, just and quart, unless particularly noted. Quantities of one-eighth bushel, one-half bushel and one bushel or more will be shipped by freight or express at purchaser's expense.

BUCKBEE'S NEW RUST-PROOF GOLDEN-EYED WAX. Absolutely Stringless. Very Prolific. Positively free from Rust.

STRONG-GROWING bush variety, of remarkable vigor and freedom from rust. It sends out short tendrils, on which pods are formed, in addition to those near the central stalk of the plant, which accounts for its wonderful productiveness, amounting, under favorable conditions, to 100-fold. The pods are meaty and well filled, thick-flat when young and semi-round later; of rich yellow color and fine quality, and entirely stringless, even when old enough to shell. They are also free from that parchment-like lining which makes many varieties tough, unless when very young. If the pods are picked as fast as formed, the plant continues to furnish a bountiful supply for a long season-Pkt. 8c.; ½ pt. 15c.; pt. 25c.; qt. 40c.

NEW EARLY PROLIFIC GERMAN, OR IMPROVED BLACK WAX.

We are so thoroughly satisfied with this improved strain of Black Wax that we have discarded the old stock altogether, this being more vigorous and far more productive, with a longer, whiter, more fleshy pod. Vines medium size, very vigorous and hardy. Flowers reddish-white or purple.

Best Early Black Wax Bean for the Market Gardener—Pods medium length, borne well up among the foliage, curved, cylindrical, fleshy, and of a clear, waxy-white color, with long, slightly curved point; remain a long time in condition for use as snaps. Beans small, oblong, jet black. No one can afford to plant the old Black Wax or Butter Bean, as this is much better in every respect. Pkt. 7c.; ½ pt. 12c.; pt. 20c.; qt. 35c.

ROGER'S LIMA WAX.

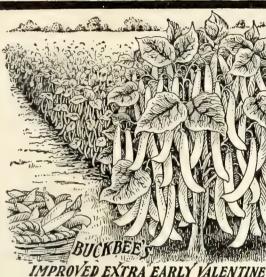

We claim for this variety four essential points: (1) Productiveness, (2) Handsome Color and Tender Pods, (3) Delicious Flavor, (4) White Seeded and will make an Excellent Dry Bean for Baking. They require thin planting (two beans being sumcient for a hill) on very rich soil, and will run true and not sport. The pods are the broadest of all Wax Bush Beans; color transparent, glossy lemon wax, having the yellow waxy appearance very soon after the pods are formed. When picked, will retain their bright, attractive appearance for a long time, and will not become tough. Quality very tender, juicy, and flavor delicate, delicious. Seed small, oval, pure white, which is much in their favor compared with a colored bean. Owing to its tenderness, fine quality and delicious flavor, it cannot help but please those who want the best. Pkt. 8c.; ½ pt. 15c.; pt. 25c.; qt. 40c.

NEW VALENTINE WAX.

An improved extra early Valentine Bean, with round wax pods. A striking acquisition has been obtained in the list of Wax Beans through the introduction of has been no variety of such has been no variety of such prominence among Wax Beans that could compare with that of the Valentine among green Beans. We now have an excellent wax-podded variety possessing, in a remarkable degree, the excellent features of this sort. It is very early for a Wax Bean. A Grand, Good Bean. A planting made June 12 gave us a fair picking by July 28—46 days. Its value as a shipper has been proven. It is very tender, and almost without string; in fact, the pod is free from any toughness whatever, but is remarkably solid throughout. It is handsome in appearance, and so far we have found it perfectly rust proof. You will be pleased with it. Pkt. 8c.; ½ pt. 15c.; pt. 25c.; qt. 40c.

BUCKBEE'S

CHOICE SELECTION OF MONEY-MAKING SORTS

BUCKBEE'S EARLY WONDER.

BUCKBEE'S EARLY WONDER.

This is an ideal Snap Bean Pods are 412 inches long, soft green, perfectly straight and round. Free from that woody inner lining of tough skin which we associate with old beans; what hittle string exists is not developed until pod is quite old Flavor is most delicious; it has the peculiarity of preserving its delicate color almost intact when prepared for the table Remarkably early, ready for use four days in advance of any variety of merit. Its bearing qualities are unexcelled and it matures its crop very regularly, even under adverse conditions. Pkt. 8c.; 1-2 pt. 15c.; pt. 25c., qt. 40c.

New Dwarf Horticultural—Vines compact, upright and very productive Pods. medium length, cylindrical and curved, with splass—of height red on a yellowish ground. The ripe Beans of Arge, plump, oval and neatly covered with splashes—of bright green, and when in this condition the Beams are very large, easily shelled and about equal to the Lina in quality. Pkt., 5c.; 1-2 pt. 10c.; pt. 15c.; qt. 35c.

Early Mohawk—This sort is so much hardier than the others that it can be planted earlier, furnishing Beans fit for use before any other kind. Vines large and stout, with large leaves which will stand a slight frost. Blossoms large, purple; pods long, straight, with long tapering point. Beans long, kidney-shaped, variegated with drab, purple, brown. In favor for forcing; matures quickly, carries good weight of long, large pods. Pkt. 5c.; 1-2 pt. 10c.; pt. 16c.; qt. 30c.

Best of All—This vine is very hardy, vigorous and healthy, producing an abundance of very straight, handsome pods, which, when fit for use as snaps, are round, very brittle and of a peculiar deep green color. As the pods mature they become lighter in color and splashed with bright red. When fit for use as green shelled, the Beans are large, mottled with red, very tender and of the best quality. The dry Beans are mottled in two shades of red. One of the hardiest and best of all. Pkt. 5c.; 1-2 pt. 10c.; pt. 16c.; pt. 16c.; pt. 35c.

NEW EXTRA EARLY REFUGEE.

NEW EXTRA EARLY REFUGEE.

Earliest of the green podded kinds, furnishing a fleshy pod of fine quality. It is usually from two to three weeks earlier than ordinary Refugee. The vines, though a little smaller, are fully as hardy and vigorous as that viriety, and more upright. Pods of the same size and shape, except slightly flatter. By Bean same size, shape and color as common Refugee. Our stock has been selected with great care, and is extremely uniform in ripening. Pkt. 6c.; 1-2 pt. 10c., pt.

18c.; qt. 35c.

New White Valentine—This variety presents improvements of a different kind entirely, and at the same time is distinctly superior to its parent, the Early Red Valentine. The plant is considerably larger than the Early Valentine, though it may be planted at exactly the same distance. It preserves all the character is sties of its parent, particularly in the absence of stringiness. The pods are borne in enormous quantities close to the center of the plant, and are not only longer, but much thicker and more menty than any of this type. Another advantage which will recommend it to all is that the Beans retain their tenderness much longer than any other variety we know of. Pkt. 6c.; 1-2 pt. 12c.; pt. 22c.; ct. 35c.

I can also supply the following varieties of Green-Podded Bush Beans, which following varieties of Green-Podded Bush Beans, which 5c.; 1-2 pt. 8c.; pt. 15c.; qt. 28c.

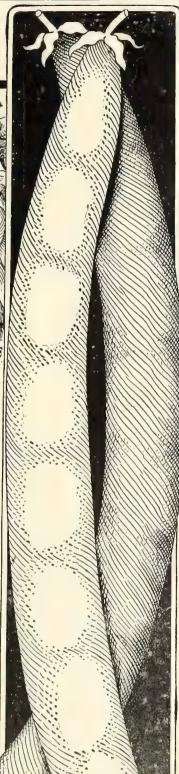

Refugee, or 1000 to 1.

Early China Red Eye.

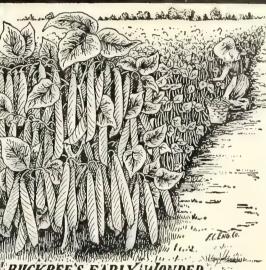

Improved Early Long Yellow Six Weeks.

Improved Large White Marrow.

Early Royal Dwarf White Kidney.

BEST BEANS

BUCKBEE'S EARLY 'WONDER **BUCKBEE'S IMPROVED** EXTRA EARLY VALENTINE

For snaps there is nothing superior to this variety among the green podded sorts, and many prefer it to the wax varieties. Vines erect. with coarse, dark green leaves and large white blossoms. Pods medium length, curved, cylindrical, with crease in back; very fleshy, crisp and tender. Beans medium size, long irregular, pink, marbled with red. Many different strains of Valentines are offered under slightly varying names, each claiming to be a great and distinct improvement. We have carefully examined them all, both in trial and large yield, and have found none which we were willing to substitute for our stock, which combines all the good qualities. Pkt. 7c.; 1-2 pt. 12c.; pt. 20c.; qt. 35c.

MERITORIOUS GREEN-PODDED BUSH BEANS

MERITORIOUS GREEN-PODDED BUSH BEANS

MERITORIOUS GREEN-PODDED BUSH BEANS

New Stringless Green Pod—Is most happily named as it is quite unique—the only absolutely stringless green-podded bean in the market. Pod is round, full, larger and straighter than those of most varieties Quality is most superior. The Michigan State Agricultural College Experiment Station writes: "Plants of medium growth. Pod 41-2 to 51-2 inches long, nearly round, slightly curved, light green, flesh tender and of best quality Pods remain long in edible condition; even when the beans are large, the pods are not stringiness." Pkt. 7c.; 1-2 pt. 12c.; pt. 20c.; qt. 35c.

New Early Round Pod Yellow Six Weeks—While this variety does not differ from the Early Long Yellow Six Weeks in size or general appearance of the vine. the pods are shorter very much thicker more fleshy and quite stringless Moreover, while retaining the vigor and hardiness of the old sort, it is fully one week earlier. Dry Bean color of ordinary Six Weeks, but much shorter Pkt. 6c.; 1-2 pt. 10c.; pt. 18c.; qt. 35c.

ODS wonderfully broad, thick and entirely stringless. They surpass any other variety in the way vines cling to the poles, and every Bean grower will at once acknowledge this is the most important qualification. Pods flattish, ov.l shape, and when fully grown are from 4 to 6 inches long, exceedingly rich, buttery and fine flavored when cooked. They are hardy, easily grown and most productive. Surgassingly fine for an early and late snap sort, also as a dry shell or winter Bean it is unsurpassed, and such is the peculiar taste and pleasing flavor of this Bean that we have known persons who would not eat any other varieties of String Beans after tasting Lazy Wife. Pkt. 8c.; ½ pt. 12c.; pt. 22c.; qt. 40c.

CHILD'S MAMMOTH PODDED HORTI-CULTURAL POLE.

Similar in general character to the London Horticultural, but larger in every way. The mammoth pods are striped and splashed with exceedingly brilliant crinson. The Beans when dry are marked like the pods; when fit for use they are an immense size and of the finest quality. This variety has been sold under many names, such as Worcester, Hampden and Mugwump Pole, but a great deal of the stock offered has been impure, many plants being like London Horticultural. We have developed a stock which is pure and sure to please all who plant it. Pkt. 6c.; ½ pt. 12c.; pt. 22c.; qt. 40c.

Every Packet of Beans Contains Two Ounces or More.

NEW WILLOW-LEAF LIMA.

Five thousand from one. This new and very unique Pole Bean was brought prominently before the public lately. It has such popularity that it is now a standard sort. It differs from all other Beans known by its beautiful deeply cut foliage, aptly described by its name, "Willow Leaf." Hardy and Productive—The beauty of this, although such an attraction, is overlooked as soon as it begins to bloom, because of the profusion of blossoms, which are truly astonishing. The vines are full of bloom, and later become loaded with pods. Vines bloom and bear pods of uniform size for a long time. Pure white beans, exceptionally tender; fine flavor. Pkt. 7c.; ½ pt. 12c.; pt. 22c.; qt. 40c.

EARLY GOLDEN CLUSTER WAX.

A well-known, early and very beautiful sort. Vines large, strong-growing, vigorous, hardy; leaflets large, light green, crimped; flowers yellowish-white; pods 6 to 8 inches long, borne in abundant clusters, each containing from 3 to 6 pods, which are broad, very thick and fleshy, deeply creased along the edge to which the Beans are attached; much curved; color bright golden yellow. Of the very best quality, and staying in condition for use a long time. The Beans are also excellent shelled green. We recommend this variety as furnishing the largest and handsomest pods of any sort in the list. Pkt. 8c.; ½ pt. 12c.; pt. 22c.; qt. 40c.

SEIDERT'S EARLY LIMA.

The earliest true Lima. No other sort so early or so good. As large as the largest, making it the best Lima Bean ever offered. The vine is exceptionally hardy, vigorous, and not only produces gods earlier, but continues bearing longer than any other sort. In earliness, ease of helling, size, beauty and quality of the green beans, this variety is far in advance of all others sorts. The pods and green beans are as large as those of the King of the Garden Lima, and of better quality. Stock is limited this season. Order early. No progressive gardener will fail to try it. Ikt. 8c.; ½ pt. 12c.; pt. 22c.; qt. 40c.

BUCKBELL'S NEW KING OF THE GARDEN LIMA.

(The Bost White Lima.)

The Best White Lima.)

Practical value has been the object aimed at in the development of this grand variety, which is the outcome of skillful selection. It furnishes the largest green Beaus, and is the most easily shelled of any of the Limas.

The vine is so productive that although the pods rarely contain more than four Beans, the yield is enormous and is produced from the very first to the last of the season.

The green shelled Beans are of immense size, but so tender and succulent that they shrink in drying to about the size of the Large White Lima. It is the best Lima Bean ever offered for market gardeners' use.

In yield, ease of shelling, size, beauty and quality of green Beans, this variety is in advance of all other sorts, and is recognized as the best of all the Limas for either the garden or the market. Pkt. 7c.; ½ pt. 12c.; pt. 22c.; qt. 40c.

FAMOUS KINTUCKY WONDER

OR OLD HOLLISTEAD.

This splendid variety, introduced in 1885, has since been offered as Seek No Further, and was

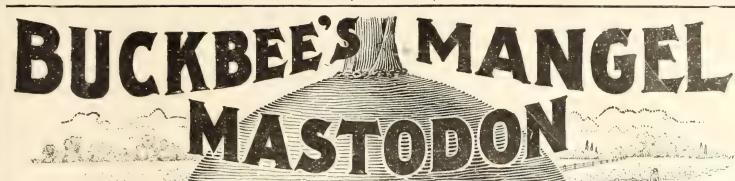

This splendid variety, introduced in 1885, has since been offered as Seek No Further, and was introduced in 1891 as a novelty under the name of Old Homestead. Vine vigorous, climbing well and very productive, bearing its pods in large clusters; blossoms white; pods green, very long, often reaching 9 or 10 inches, nearly round when young, and very crisp, continuing in use for an extended season. Has no Equal. Dry beans long, oval, dun-colored. An early and very prolific sort, with showy pods, which are most excellent for snaps. It is sometimes catalogued as Southern Prolific, but this is an error, as the latter is two weeks later and has shorter pods. Send to Buckbee for the Best Seed, Pkt. 7c.; ½ pt. 12c.; pt. 22c.; qt. 40c.

A REVELATION AMONG MANGELS.

BUCKBEE'S MASTODON

The greatest Mangel of the century. Without doubt the greatest creation in Mangels ever placed before the public. The largest, heaviest and most profitable Mangel offered.

YIELDS OVER 2000 BUSHELS PER ACRE.

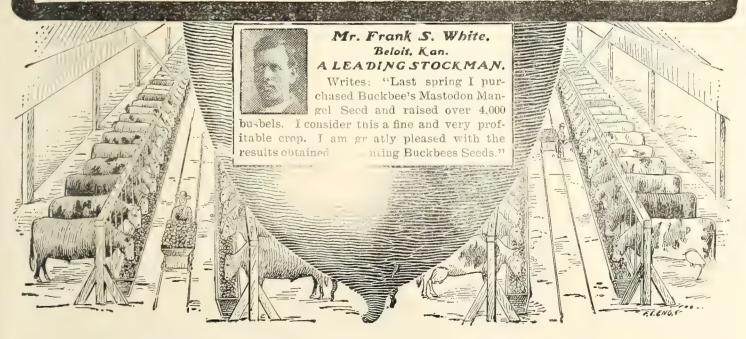

Culture
The best results are obtained on a deep, rich sandy loam, which should be well prepared and thoroughly enriched. Seed should be well prepared and thoroughly enriched. Seed should be sown as soon as ground is nicely settled, in drills 30 inches apart. Cultivate well when young and thin out the plants to 1 foot apart in the row. If these thinnings and will make the larger leaves cut off, they can be reset to fill vacancies, and will make the largest roots. Care should be taken in harvesting not to break or bruise the roots as it hastens their decay. To preserve Mangels during winter, store them in a cool cellar similar to potatoes, or bury in pits in a dry situation, and cover them with a light covering of straw, then a covering of boards and lastly a goodly covering of soil to protect them in severe and wet weather. I would particularly recommend that those interested in growing roots for stock feeding send to the United States Department of Agriculture, Washington, D. C., for a FREE copy of Bulletin No. 11, giving the analysis of American feeding stuffs.

Hon. A. J. Lovejoy, of Roscoe, Ill.,
the eminent stock
specialist, writes:
"The results which
I obtained by
planting Buckbee's
Mangel seed are
truly amazing. I
heartily recommend them to all."

The Greatest Mangel of the Century. >

BUCKBEE'S MASTODON is enormously, wonderfully productive. Its yield is exceedingly fabulous: 1,500 to 1,800 bushels per acre is nothing uncommon on good soil, and many experimental stations and trial tests the past year have produced at the rate of 2,000 to 2,500 bushels per acre. We took many hundreds of specimens from our fields weighing over 60 pounds each, and many reaching the sensational weight of 75 pounds and over. Could anything be more marvelous than this truly wonderful Mangel? In length, Buckbee's Mastodon is about the same as Buckbee's Mammoth Long Red Mangel, but it is particularly remarkable for its handsome shape and broad shoulders, its diameter being greater and its weight very much heavier. The flesh is red, of very fine texture and quality, containing less water and more sugar than any other Mangel, except it be the New Imperial Sugar, making it more nutritious and milk-producing. Sheep and other stock thrive better when fed on it, picking out pieces of it in preference to other kinds. Prominent Mangel authorities consider Buckbee's Mastodon by far the most valuable and profitable of all stock-feeding beets. Please remember that I own and control the entire stock of this grand variety. It is such a shy seeder that the seed cannot be grown as cheaply as other Mangels, yet being desirous of placing this grand Mangel at prices within reach of all, I offer it at the following exceptionally low prices:

Oz. 8c.; ½ lb. 20c.; ½ lb. 35c.; lb. 60c.; 5 lb. \$2.50, prepaid.

PLEASE READ SCHEDULE OF CLUB RATES ON PAGE ONE BEFORE SENDING ORDER.

BUCKBEE'S "FULL OF LIFE" MANGELS

My Thoroughbred Mangel Seed is the acknowledged leader throughout the land for mammoth yield. Desirable shape, uniform large size, long keeping and good quality. The Value of Mangels for stock feeding cannot be over estimated. The results from their use are wonderful, as is shown in the improved health and condition of animals, the increased yield of milk in cows and the great saying of hay. They can be raised at a and the great saving of hay. They can be raised at a trifling cost.

Buckbee's Mammoth Long Red Mangel.

This grand Mangel of my own introduction stands without a rival. It has created a great sensation wherever grown, on account of its extraordinary size, single roots weighing from 30 to 40 pounds being of frequent occurrence. Wonderfully productive, producing on an average the enormous quantity of from 1,000 to 1,500 bushels per acre. Beware of Imitations.

The quality is of the highest order. Its keeping qualities are not excelled. The crop is always uniform. and the color is a beautiful dark red. You cannot afford to be without this best of all Mange's. Oz. 5c.; ¼ lb. 15c.; ¼ lb. 25c.; lb. 40c., or 5 lbs. (for one acre) \$1.75 prepaid.

Golden Tankard Mangel.

This distinct variety is a most important addition to our list of roots for stock feeding, as it contains less water and more sugar than most Mangels. The very best for dairy farming. Sheep and all other stock thrive wonderfully onit. It is early, hardy and a good cropper, for on account of its shape roots can be left standing close in rows. Oz. 5c.; 4 lb. 10c.; ½ lb. 18c.; lb. 30c., or 5 lbs. (for one acres \$1.40 prepaid.

New Golden Monarch Mangel.

This entirely new and distinct Mangel grows to the largest size and is of a beautiful russ tyellow color. It is remarkably even in shape, of vigorous growth; it has a fine neck, large leaves with green stems and a very smooth fine skin. The firsh is white, firm and sweet, greatly relished by cattle and other stock Altogether it is a magnificent root, easily lifted, growing more than half above ground, producing enormous crops, and is an excellent keeper. Oz 5c; ½ lb. 12c.; ½ lb. 20c.; lb. 35c., or 5 lbs. (for one acre) \$1.60 prepaid.

I can also supply the following new and standard varieties of Mangels at the uniform price of 02. 5c.; ¼ lb. 10c.; ½ lb. 16c.; lb. 28c., or 5 lbs. (for one acre) \$1.30 prepaid:

GIANT OR MAMMOTH JUMBO, GIANT INTERMEDIATE GIANT HOLSTEIN, YELLOW LEVIATHAN, LONG YELLOW YELLOW OVOID, EIFFEL TOWER, CHAMPION RED GLOBE, ORANGE GLOBE, MIXED MANGEL SEED.

Champion Yellow Globe Mangel.

One of the best varieties grown for stock feeding; very productive, excellent keeper; small tops and few leaves; uniformly globe shaped, color of skin deep orange yellow; flesh white and of excellent quality. The roots grow almost entirely above ground; well adapted to shallow ground; very easy to harvest 0z. 5c.; 1/4 lb. 10c.; 1/4 lb. 16c; lb. 28c.; or 5 lbs. (for one acre) \$1.30 prepaid.

BUCKBEE'S NEW IMPERIAL SUGAR.

THE grandest and most superior of all Sugar Beets, affording a larger percentage of sugar than any known variety. Very productive, yielding 20 tons and over of the finest beets to the acre; roots are very symmetrical and desirable in shape; grow slightly above the surface. The color is white, slightly washed with red at top, while the balance is of a clear white. Flesh finely grained and very sweet. I sell thousands of pounds each year to the large beet sugar factories through the country, always with the most satisfactory results. Oz.5c; ½ lb. 15c; ½ lb 25c; lb. 40c; 5 lbs. (for one acre) \$1.75 prepaid.

KLEIN WANZLEBEN.

(SUGAR BEET.)

THIS is now acknowledged generally throughout the continent THIS is now acknowledged generally throughout the continent of Europe, and as far as tried in America also, as the best to grow for the manufacture of sugar. We offer German-grown seed the second year from polarized the second year from polarized roots. The polarized parent roots tested eighteen to twenty per cent. of sugar, while the crop varied from fourteen to eighteen per cent. of sugar, according to the season. Special prices will be quoted for large quantities. Oz 50; ¼ lb. 10c.; ½ lb. 16c.; lb. 28c., or 5 lbs. (for one acre) \$1.30 prepaid. \$1.30 prepaid.

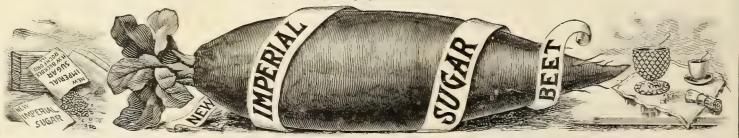

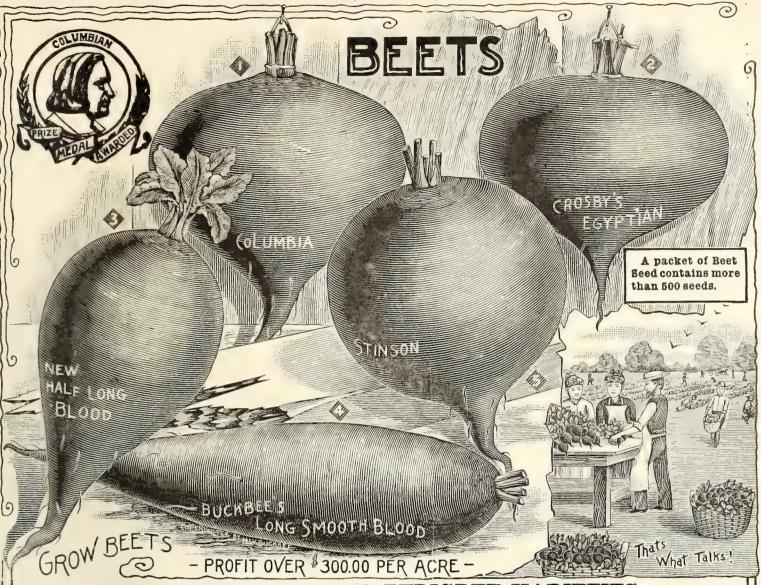

Sugar Beets.

THE SUGAR BEETS are used both for the table and stock feeding, as well as for making sugar, while the Mangels are used principally for feeding stock.
Colture—Same as for Mangels.

I can supply the following new and standard varieties of Sugar Beets, which are too well known to need extended description. at the uniform price of oz. 5c.; ¼ lb. 10c; ½ lb. 16c.; lb. 28c., or 5 lbs. (for one acre)\$1.35 prepaid:

BUCKBEE'S SELECTED PEDIGREE VARIETIES.

German, RUNKEL-RUBE; French, BETTERAVE; Spanish, BETTERAGA; Swedish, BETOR.

One ounce to fifty feet of drill. Five or six pounds to the acre in drills.

CULTURE. The best results are obtained on a deep, rich sandy cutting off the outer leaves. For general crop sow as soon as the ground will permit, in drills 18 inches apart, and thin out to 3 inches inthe row. For winter use the turnip varieties may be sown in June. If possible, sow in freshly prepared soil, which should be pressed firmly over seed. A supply may be had for winter use by storing in cellar and keeping covered with sand or sandy soil to prevent wilting, or they may be kept outdoors in pits.

I can supply the following new and standard varieties of Beets, which are too well known to need extended description, at the uniform price of Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ½ lb. 15c.; ½ lb. 25c.;

price of Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ½ lb. 15c.; ½ lb. 25c.; lb. 40c.

Edmand's Early Blood Turnip—Roots round and smooth, good marketable size; skin and flesh dark blood-red.

Bastian's Blood Turnip—A very desirable late blood-red variety; excellent for either market or home use.

Detroit Dark Red Turnip—One of the most popular turnip shaped varieties; valuable for market or private use.

Lentz Blood Turnip—Tops small, roots turnip-shaped, bright red; flesh crisp, tender and sweet; fine for winter.

New Early Bassano—Good size, excellent for greens; cannot be surpassed for bunching to get into market early.

New Electric—Surprisingly fine variety. Remarkably early, turnip-shaped, rich red flesh, exceedingly tender.

Market Gardeners—One of the most valuable strains of half-long Blood Beets ever offered for early or late use.

Dewing's Improved Blood Turnip—Flesh deep blood-red, very tender and sweet; grows uniformly to a good size.

Early Yellow Turnip—Similar to the blood turnip, except in color, which is bright yellow; of very sweet, fine flavor.

Early Blood Turnip—The old standby; sure to please for early use.

Late Blood Turnip—Popular everywhere. Symmetrical in shape; flesh deep blood-red color, tender and sweet.

COLUMBIA BEET.

1—The roots are of a neat turnip shape, with smooth skin and deep blood-red flesh, of rich, tender quality. It is ready to use very early, growing as quickly as does the Egyptian, while it does not become coarse and stringy when of large size. Compared with such famous sorts as Edmand's and Eclipse, the Columbia has proved earlier than either, and even better in quality. In habit of growth it is very even; the foliage small, and of a rich bruzze color. It is also good for winter, grown from the seed sown in July. Pkt. 4c.; oz. 7c.; 2 oz. 12c.; ½ lb. 18c.; ½ lb. 30c.; lb. 50c.

CROSBY'S EGYPTIAN.

2-THE EARLIEST BEET IN THE MARKET.—A selection from that standard market Beet, Early Egyptian, which retains the earliness of the parent stock and has added thickness, giving it a more desirable shape; it is the deepest red, almost black in color, and is of finer quality than the Egyptian, being sweeter and, even more tender and smoother. The most desirable sort for small beets for early market, as it is in presentable market shape quicker than any other sort. It is a very rapid grower and can be sown outside as late as July. Pkt. 4c.; oz. 7c.; 2 oz. 12c.; ½ lb. 18c.; ½ lb. 30c.; lb. 50c.

BUCKBEE'S NEW HALF-LONG BLOOD.

3—Entirely distinct and by far the best variety for winter use. Roots half as long as Long Dark Blood, but on account of their thickness weigh just as much. Always smooth; rich dark red flesh, sweet, crisp, tender and never woody, even in portions above ground. One of the best sorts. Pkt. 4c.; oz. 7c.; 2 oz. 12c.; ¼ lb. 18c.; ½ lb. 30c.; lb. 50c.

Buckbee's Improved Long Dark Smooth Blood.

4—Tops large, neck small; leaf stems and veins red; leaf green; roots large, tapering towards both ends, growing even with surface; dark red flesh; tender and sweet, and remaining so even when kept till spring. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ½ lb. 15c.; ½ lb. 25c.; lb. 40c.

NEW TRUE DARK STINSON BEET.

5-Excellent for the open garden. This is particularly valuable for forcing, because it produces less foliage than any other variety, and can be grown close together. The roots are smooth and regular in form; the skin is dark blood-red. Flesh fine grained and cooks dark blood-red. Remains in fine condition for a long time. Pkt. 4c.; oz. 7c.; 2 oz. 12c.; ½ lb. 18c.; ½ lb. 30c.; lb. 50c.

SWISS CHARD, OR SILVER BEET.

SOMETIMES CALLED SEA KALE BEZT.—A distinct vegetable and much superior to the common beet for greens; it must be remembered, however, that the roots are of no value as beets. Sown early in the spring, it makes a rapid growth of leaves, and is fit for use for greens sooner than any other variety. Later the leaves grow very large, with broad, flat, beautifully white, wax-like stems and midribs, which may be cooked like asparagus or made into most attractive pickles. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ½ lb. 15c.; ½ lb. 25c.; lb. 40c.

BLACK QUEEN.

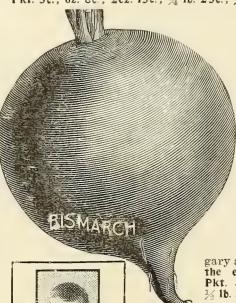

Fine new sort, which I can highly recommend. Roots pear-shaped, of medium size, fine form, nearly buried in soil. Flesh deep red color, almost black; leaves large, nicely crimpled, of deep color. Pkt. 4c.; oz. 7c.; 2 oz. 12c.; ½ lb. 18c.; ½ lb. 30c.; lb. 50c.

CLIFE BUCKBEE'S

BUCKBEE'S MONEY BEETS.

BUCKBEE'S SUNSET PROFIT MAKER.

This grand novelty awarded Prize Medal. The director of the Maine Experimental College at Orno, writes: "I consider Buckbee's Sunset the most promising new variety." Extended experience has shown this variety of our own introduction to be one of the very best sorts, not only for market gardeners, but for the home garden. This sorts, not only for market gardeners, but for the home garden. sorts, not only for market gardeners, but for the home garden. This variety was introduced as an improvement in turnip-shaped Beets for table use, and we have, by careful selection, improved each succeeding crop, until we feel certain that it is by far the best red turnip Beet in cultivation. The Best Beet. Tops small, upright growing, so that the rows may be close together; leaf, stems and veins dark red, blade green; roots globular or ovid; particularly smooth; color of skin dark blood-red; flesh bright red, zoned with a lighter shade; your exist to der and sweet and remaining so for a long time. The very crisp, tender and sweet, and remaining so for a long time. The stock which we offer will produce a crop more uniform in shape, color and quality than any other. I control the entire stock of this variety. Pkt. 5c.; oz. 8c.; 2cz. 15c.; ½ lb. 25c.; ½ lb. 40c.; lb. 75c.

Mr. H. Harris, Pitcairn, N. Y., writes: "I am well pleased with

'Buckbee's Seeds.' I can get

seeds. I can get plenty nearer home, but they cannot be de-pended upon. I will do my utmost

The Bismarck.

(An Excellent Novelty from Germany.) Combines more good qualities than any other variety (Buckbee's Sunset excepted). Rich, red flesh, exceedingly tender, remarkably early. In shape it is ly. In shape it is almost round. The

leaves are small and compact, and set very close to center of bulb.

degree than any variety we know of—the maximum edible bulb with the minimum root and foliage. The color is crimson. But it is when prepared for the table that its fine qualities become most apparent. The flesh of delicate texture, is rich, su-and entirely free from fibre. I control gary and entirely free from fibre.

the entire supply of seed of this variety. Pkt. 4c.; oz. 7c.; 2 oz. 12c.; ½ 1b. 20c. ½ 1b. 35c.; 1b. 60c.

early crop out of doors; very early. Leaf, stems and veins dark red, leaf dark green dotted with red; roots dark red, rounded on top, but flat beneath, with very small tap roots; flesh dark red, zoned with lighter shades; hard, crisp and tender at all times. Pkt. 4c.; oz. 7c.; 2 oz. 12c.; ½ lb. 18c.; ½ lb. 30c.; 1b. 50c.

Best variety for forcing; also excellent for first

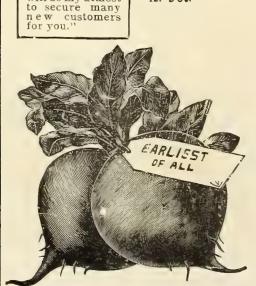

Earliest of All.

One of the best Beets grown; very careful selection. Roots of good form, round, with only one small tap root; flesh deep blood-red sman tap root; hesh deep blood-red color, very sweet and tender. Best for first early Can be planted very closely, as they do not grow large and coarse; have very small top. One of the best for market gardeners and table use. Pkt. 4c.; oz 7c.; 2 oz 12c.; 14 lb. 18c.; 12 lb. 30c., lb. 50c.

New Early Eclipse.

Tops small, dark purplish green. Roots nearly globular, with a small tap root and collar. A splendid variety. Flesh dark red, zoned with lighter red, sweet, crisp and tender. Pkt 3c: oz. 6c.; 2 oz. 10c., 1/4 lb. 15c.; 1/2 lb. 25c.; lb. 40c.

Buckbee's Reliable Cabbage Seed.

German, Kopfkohl; French, Chou-Pomme; Spanish, Repollo; Swedish, Kal. One-half lb. of seed in beds, to transplant, for an acre.

One of the chief departments of my seed growing business consists of growing Cabbage for seed only. My stock has reached such a high point of merit that it is a household word everywhere that "Buckbee's seed is the most reliable and produces more good, marketable heads per acre than any offered." And from the many thousands of unsolicited testimonials which I have received from all over the country I have reason to believe that the time which I personally spend in my Cabbage fields is truly appreciated by many thousands of customers, who stand by me in saying: "BUCKBEE'S SEEDS ARE THE VERY BEST."

CHEAP CABBAGE SEED. It is the poorest investment in the failure can never be known until

an enlire season's labor and outlay are lost. My seed is grown from SELECTED HEADS and saved from

ALL-HEAD EARLY.

ALL-HEAD EARLY.

A first-class novelty. We quote the originator's description, "Earliest of all large Cabbages, often coming in before Early Summer. It is at least one-third larger than this popular variety, and therefore much more profitable to the market gardener, who has in the same time earlier—considerations of the greatest importance, while the All-head Early has that quality to be desired for earliness; is also valuable for late winter Cabbage Seed of the All-head sown in July and plants set out about the middle of August will bring heads large and solid, which are sure to stand the winter well." Pht 40;02; 120.; 2 cz 230; ¼ lb. 250.; ½ lb. 850; lb. \$1.60. 2 cz 23c.; 1/4 lb. 25c.; 1/4 lb 85c; lb. \$1.60.

Extra Early Winningstadt—One of the best for general use, being a very fine header and will grow a hard head under circumstances where most sorts would fail, so that those who have failed with other kinds could hope to succeed with this. It seems to suffer less from the cabback ways that any other services. from the cabbage worm than any other sort. Plant very compact, with short, thick leaves. Heads regular, conical and very hard. Pkt. 30: 02. 120; 2 oz. 20c.; ½ lb. 45c; ½ lb. 95c.; lb. 160. lb. \$1 60.

Charleston, or Large Wakefield—Strain of Wakefield, in which the plant is larger and a little later, the head larger and not so pointed. Pht. 40; 02. 120; 2 0z. 23c.; ¼ lb. 45c.; ½ lb. 85c; lb. 6160.

Buckbee's Selected

TRUE EARLY JERSEY WAKEFIELD.

The Best Early Cabbage in Cultivation.

It forms fine, solid heads of good size, conical in shape, with very few outside leaves, and of the best quality. We offer this as the earliest strain of this standard variety. Grown train is remarkably pure.

only from selected heads. Our strain is remarkably pure; always gives satisfaction. Pkt. 5c.; oz. 18c.; 2 oz. 35c.; 1/4 lb. 60c.; 1/2 lb. \$1.10: lb. \$2.00.

Buckbee's Mammoth

LATE FLAT DUTCH.

This is the money maker among late Cabbages for gardeners, and for family use it ranks high. Heads are large, sound, very solid; broad, flat on top and of a beautiful bluish-green color, with but few outside leaves. The quality is fine and flavor excellent, heads being, when open, crisp and white. You will make no mistake in planting this var 4 lb. 60c; ½ lb. \$1.10.; lb. \$2.00.

Buckbee's Faultless.

One of the best second early and fall varieties ever introduced, is absolutely "fault-less." Has been in popular and growing dehas been in popular and growing demand ever since its introduction. Sure to head; large and firm; has but few outside leaves; of vigorous constitution; rapid grower; the peer of all this class; exce lent keeper. Pkt 4c.; oz. 12c.; 2 cz. 23c. ½ lb. 45c.; ½ lb. 80c; lb. \$1.50.

Protector's Superior Late Flat Dutch—The standard late variety throughout the south. A very superior Cabbage in every way; largesize, perfectly solid heads, wonderful yielder and above all a fine keeper. You will make no mistake by planting this variety. Fkt. 4c; cz. 18c.; 2 cz. 35c.; ¼ lb. 60c.; ½ lb. \$1.10; lb. \$2 00.

Honderson's Early Summer-This variety is deservedly popular with the market gardeners. It forms large, solid, round, fiattened, compact heads of excellent quality. The heads average more than double the size of the Jerwakefield, while it matures only ten to twe ve days later. The leaves turn into the heads so completely that about 9.000 plants may be set in an acre. making a very profitable crop. Pkt. 3c: 22. 12c.; 2 oz. 23c.; ¼ lb. 40c.; ½ lb. 75c.; lb. \$1.40.

BUCKBEE'S MAMMOTH LATE BRIDGEPORT DRUMHEAD.

Standard shipping sort. It makes a large, round, firm head which seldom bursts or rots. It is now indeed one of the most profitable sorts to grow, and will give you un-bounded satisfaction for every purpose.
Pkt. 4c. oz 18c.; 2 oz.
35c: ¼ lb 60c; ½ lb.
\$1 10; lb. \$2.00.

SURE HEAD.

A famous main crop Cabbage, procrop Cabbage, producing large, round, flattened heads of the "Flat Dutch" type, and is remarkable for its certainty to head. Heads uniform, hard, firm and fine in texture, fine in texture, weighing from 10 to 15 pounds; sweet fla-vored; has scarcely any loose leaves; keeps well Good for shipping and just the quality to suit market gardeners and farmers. Ptt. 4c; oz. 12c.: 2 oz 23c; 1/4 lb. 45c.; 1/4 lb. 80c.; lb. \$150.

Buckbee's

CHRISTMAS KING J

The Best Late.

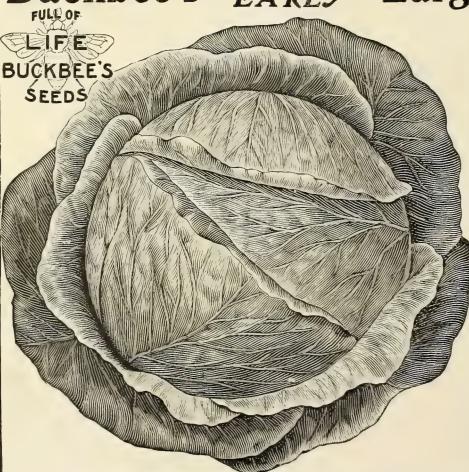

Mrs. W. A, Ray, Lewiston, Ill., writes: "Buckbee's Christmas King Gabbage has given us the Best Results for Late Cabbages after repeated trials of the so-called best offered by other firms—a Great Many Thanks to You. Long may Buckbee's Rockford Seed Farms flourish and continue to be a source of profit to its customers.

THE grandest late Cabbage of true merit ever introduced. As predicted last year, this truly wonderful late variety of my own introduction had the greatest run of any late Cabbage on the market, and not one of my cus-Cabbage on the market, and not one of my customers was disappointed in the results. From the multitude of testimonials I have received regarding this variety, I am led to believe that my efforts in introducing this grandest of all late varieties are truly appreciated. It is grand—simply eclipsing everything of its kind in the market—999 out of every 1,000 plants will produce marketable heads, which

are of mammoth size (often reaching the sensational weight of 60 lbs.) sound, solid, and of the most delicious flavor, crisp and white. It never bursts has but few outside leaves, and is the best winter keeper. I control the complete stock of this variety. Pkt.10c.;oz.30c.;2 oz.50c.;41b.90c.;121b.\$1.60;lb.\$3.00

Buckbee's EARLY Large New Queen

Mr. V. S. Allen, Glen Aubrey, N. Y., A Leading Gabbage Grower, writes: Gabbage raised from the seed that you sent me last spring of Buckbee's Extra Early Large New Queen took First Prize over all others at the Broome Co. Fair. In quality I consider them second to none. You will secure many new customers from here.

The Past Season

has again demonstrated the desirability, popularity and superiority of my

Extra Early Large New Queen.

NQUESTIONABLY the finest, earliest, largest (weighs from 17 to 25 pounds), most solid early Cabbage grown; unexcelled in flavor, unequalled in quality, and always the leader on the market. This grandest of all varieties pleased over 100,000 families during the past season. You cannot possibly be disappointed with it. I control the complete stock of this variety. Send to Buckbee's for the true "Queen."

Pkt: 10c.; oz. 30c.; 2 oz. 50c.: 1/4 lb. 90c.; 1/2 lb. \$1 60. lb. \$3.00.

BUCKBEE'S GREAT DANE.

For years large quantities of Danish Cabbage have been imported to our leading American markets, the heads being of such solidity that the demand has been far in excess of the supply, always at a price far above the ruling market rate. To get at the source of this supply, I dispatched my European traveler direct to Denmark, and after careful inspection of the cabbage-growing localities came to Amack, the home of the Great Dane. I will use Mr Torgesson's (originator) description, which, to say the least, is too medest to express the sterling qualities of this great winter Cabbage: "For more than twenty years I have worked in perfecting this variety. Heads are almost round as a ball, of good size, perfectly solid, very fine grained, of the best quality. It is ahead of any variety grown on this side for shipping and all general uses, and I cannot too highly recommend it to gardeners in your land (America)." I control the entire stock of this variety, and offer it at the following very low prices: Pkt. 10c.; oz. 30c.; 2 oz. 55c.; ½ lb. 90c.: ½ lb. \$1.60; lb. \$3.00.

Buckbee's Rockford Market. THE BEST SECOND EARLY.

The best second early ever introduced. So say thousands of my customers from all parts of the country who have carefully tested this grand variety the past three years. The whole plant is finely bred; there is no suggestion of coarseness whatever, the veining of the leaves and leaf stems are particularly fine, the whole head being perfect throughout. It has the peculiarity of heading firmly at an early stage in its growth, so that the finest Cabbage, though small, can be obtained long before it has attained its natural size. Its uniformity in shape, and large yield per acre render it particularly valuable to truckers, and its compact form and good quality will render it the finest second early Cabbage. Pkt. 5c.; oz. 20c.; 2 oz. 35c.; 4 lb. 65c.; 4 lb. \$1.25.; lb. \$2.00. Gregory's All Seasons—One of the most desirable new sorts and very popular as a market gardener's Cabbage. The heads are hard and solid, round, flattened on top, of very best quality, and are ready for market nearly as early as Early Summer, often larger in size. Noted for its ability to stand a hot summer and dry weather. Pkt. 3c.; oz. 12c.; 2oz. 23c.; 4 lb. 40c.; 4 lb. 75c; lb. \$1.40.

Mammoth Red Rock—Certainly the finest and by far the best new variety of r d Cabbage on the market, The heads will average over 10 pounds each, and are aiways of rich red color inside as well as outside, while they are almost (literally) as hard as rock. Try it. Pkt. 4c.; oz. 12c.; 2 oz. 23c.; 4 lb. 45c.; 4 lb. 80c.; lb. \$1.50.

Improved American Savoy—Verv valuable variety, being of much finer flavor and quality than the best of other cabbage. Particularly adapted for private use, where qua ity rather than quantity is desired. Grown in fall and allowed to be touched by frost, it is one of the most delicious of all vegetables. Pkt. 3c.; oz. 12c.; 2 oz. 20c.; ½ lb. 65c.; ½ lb. \$1.25. The best second early ever introduced. So say thousands of

Dutch Winter, or Hollander

The heads which are of medium size, average a weight of eight pounds, are very solid and deep, and of a fine white color, making them entirely distinct from any other strain. Their quality is superior, and they keep better than any other sort, the heads being just as solid and perfect when taken up in the spring as when they are put away in the fall. No cabbage will sell beside it even if offered at half price. Pkt 5c.; oz. 20c.; 2 oz. 35c.; 16. \$2.00.

Mrs. Dora Beall Flatonia, Tex., writes: "Your Cabbage seed has given us remarkable results; in fact, the best that we have ever planted Our other crops have also been tine. Muny have inquired who I buy my seeds from, and you may rest assured that 'Buckbee's Seeds' will be planted very largely in this part of Texas from now on. Assuring you of our appreciation of the come now on. Assuring you of our appreciation of the care and attention that you always give our order and thanking you again for the many novelty presents."

I can also supply the following varieties of Cabbage, which are too well known to need description, at the uniform price of: Pkt. 3c.; oz. 12c.; 2 oz. 20c.; 4 lb. 35c.

Extra Early Express, Stone Mason Marblehead, Very Early Etampes, Large Late Drumhead, Early Peerless, Marblehead Mammoth, Early Large York, Autuma King, Early Dwarf Flat Dutch, Premium Late Flat Dutch, Vandergaw or Midsummer, Fottler's Improved Brunswick, Acme Large Late Flat Dutch, Improved Large Late Flat Dutch, Henderson's Succession, Luxemburg, Filderkraut, Red Dutch or Pickling, Solid South, Perfection Drumhead Savoy, The Lupton.

Buckbee's Superior Carrots.

German, MOEHREN; French, CAROTTE; Spanish, ZANAHORIA; Swedish, MOROT. One Ounce Will Sow a Row 100 Feet Long—Four to Five Pounds Will Sow an Acre.

Buckbee's Select Danvers.

The best Carrot for general crop; it is of a rich orange color, a very heavy yielder and splendid keeper—It is a first-class Carrot for all kinds of soils, valuable for both table use and stock. The Leading Carrot. We have an extra fine strain of this favorite sort which we have sold for many years, giving the greatest satisfaction to our customers. Pkt. 4c.; oz. 7c.; 2 oz. 12c.; ¼ lb 20c; ½ lb. 35c.; lb. 60c.

Guerande, or Ox Heart.

Tops small for the size of the roots, which are comparatively short, but often reach a diameter of 7 inches, terminating abruptly in a small tap root. Flesh bright orange, fine grained and sweet. A Splendid Variety. This is a desirable variety for soil so hard and stiff that longer-growing sorts would not thrive in it. When young, excellent for table use, and when matured equally good for stock.

Pkt. 4c.; oz. 6c.; 2oz. 10c.; ½ lb. 18c.; ½ lb 30c; lb 50c.

BUBKBEE'S SELECT DANVERS.

Improved Long Orange.

The most popular of the older sorts for farm use on mellow soil. An improvement obtained by years of careful selection of the best formed and deepest colored roots of the old Long Orange. Roots proportionately shorter than the Long Orange, and smoother, but so uniform and true that the bulk of the crop will be greater. Pkt. 3c; oz. 6c.; 2 oz. 10c.; ½ 1b. 18c: ½ 1b. 30c.; 1b. 50c.

Buckbee's Earliest Forcing.

(THE EARLIEST VARIETY IN CULTIVATION AND BEST SUITED FOR FORCING.)

Tops small, finely divided. The reddishorange colored rocts are nearly round with a groove about the crown and when fully matured they are about two inches in diameter, but should be used before they are full grown when they are tender and delicious. Pkt. 40.; 02 70., 2 02 120.; ½ lb. 200.; ½ lb. 350.; lb. 600.

Half Long Scarlet Nantes.

(STUMF ROOTED.)

Tops medium size; roots cylindrical, smooth, bright orange; flesh orange, becoming yellow in center, but with no distinct core; of the finest quality, and one of the most symmetrical and handsome of the medium-sized sorts; excellent for the market or home garden. Pkt. 3c.; 0z. 6c.; 2 0z. 10c.; ½ 1b. 18c.; ½ 1b. 30c.; 1b. 50c.

L A.MINCKLER, a Leading gardenes of Zion, Wiss., writes. "I have the best vegetables that were brought in this and the Oshkosh market. The Danvers Carrots—in fact everything coula not be beat. Thanks to Buckbee's Seeds."

BUCKBEE'S EARLIEST FORCING.

Improved Intermediate.

A very fine variety for either field or garden culture. Large, symmetrical roots of a deep orange red. They are straight and smooth, free from roughness and of the best quality. Tops are small and roots of mammoth size. You will find this variety very desirable for home, market or stock use. Pkt. 4c.; oz. 7c.; 2 oz. 12c.; ½ lb 18c.; ½ lb. 30c.; lb. 50c.

MR. J. J. McALLISTER Yazoo City, Miss., writes. "I have always had fine luck with all the Seeds I have ordered from you. The Chantenay Carrote were the finest—the Radishes. Turnips, Sweet Corn, Cucumbers Onions, etc. the lest ever grown here—and Buckbee's Monte Cristo Water Melon is the King of all Melons. You may look for greatly increased business from here."

I can supply the following standard varieties of Carrots which are too well known to need an extended description, at the uniform price of Pkt. 3c.; oz. 6c.; 2 oz. 10c., ½ 1b. 15c.; ½ 1b. 28c.; 1b. 50c.;

HALF LONG DANVERS, EARLY FRENCH FORCING, ST. VALLERY, LONG RED SURREY, LONG RED ALTRINGHAM.

NEW EARLY CHANTENAY.

New Early Chantenay.

(THE BEST BUNCHING CARROL.)

This is the best early Carrot in existence, one which market gardeners should plant for their main early crop. The Carrots grow about 6 inches long,

THE.

are stump rooted, very s m o o t h, deep red, fine grain-

ed sweet and sugary, and not apt to crack open while growing. An excelient table sort and a heavy cropper. Our seed is most carefully selected. Pkt. 4c., oz. 7c., 2 oz. 12c.; 1b. 18c.; 16 30c.;

Early Scarlet Horn.

(VERY POPULAR.)

One of the most popular of all varieties. A favorite for early crop. Color deep beautiful orange; flesh finely grained and of agreeable flavor; tops small; has a

small; has a short, stump-shaped root, large at top, therefore easily pulled. Grows well in shallow soil: of fine quality; yields and sells well. Pkt. 3c.; oz. oc.; 2 oz loc.; 4; lb. 18c. 15; 30c. 1b 50c

Enormous Yielding Prize

PLEASE BEAR IN MIND That all experimental investigations and other tests have placed Carrots among the great fattening qualities and increasing the supply of milk to a wonderful degree. There is no better food in winter for horses and other stock than Carrots cut small, then sprinkled with salt and fed with meal. You cannot fail to have a good crop by planting my Superior Western Grown Carrot Seed. I would particularly recommend that those interested in growing roots for stock feeding send to the United States Department of Agriculture, Washington, D. C., for a free copy of Bulletin No. 11, giving an analysis of American Foodstuffs. If you wish to grow Carrots for stock you will make a serious mistake if you grow any other than these two kinds. Wherever they are shown at fairs, exhibitions, etc., they invariably capture the prize.

BUCKBEE'S MAJESTIC.

This is the largest and unquestionably the heaviest cropping This is the largest and unquestionably the heaviest cropping and most nutritious yellow variety in cultivation. It is the largest and best form of orange or yellow Carrot known. The roots are remarkably fine, very symmetrical and of excellent quality, possessing high feeding properties. It grows fully half as much weight again per acre as the ordinary varieties, and as the roots grow more above the ground, it is much easier to gather the This grand variety is sure to suit everyone who grows it. 5c.; oz. 10c.; 2 oz. 16c.; ½ lb. 25c.; ½ lb. 40c.; lb. 75c.; 5 lbs. \$3.50 postpaid.

BUCKBEE'S VICTORIA.

This is the heaviest cropping Carrot grown, yielding more tons to the acre than any other sort. The flesh is white, crisp solid and very sweet in flavor. A vast improvement on the white and green Belgian sorts, as it is much more productive and vastly easier to handle. The roots are short and very heavy at the shoulder, rendering them easily harvested. The roots frequently measure from 15 to 20 inches in circumference, and 18 to 25 tons to the acre is not an extravagant statement as to 18 to 25 tons to the acre is not an extravagant statement as to the yield. Pkt. 5c.; oz. 10c.; 2 oz. 16c.; 4 lb. 25c.; ½ lb. 40c.; 1b. 75c.; 5 lbs. \$3.50 postpaid.

We are frequently asked: "Which is the better of these two Carrots?" While there are many who prefer the Majestic, I am free to say that Victoria is equally as much in favor. It is true that yellow Carrots are somewhat more in favor than the white, but there is no other white stock Carrot that can compare with Buckbee's Victoria for all-round good qualities. In order, however, that our customers may test the comparative merits of these two great Carrots, we will send to any address to any part of the United Pound Each of Buckbee's Majestic and Victoria Carrots for only \$1.40. My five pound price, carrots in quantity.

Buckbee's Improved Short White. Wonderfully Fine Stock Carrot.

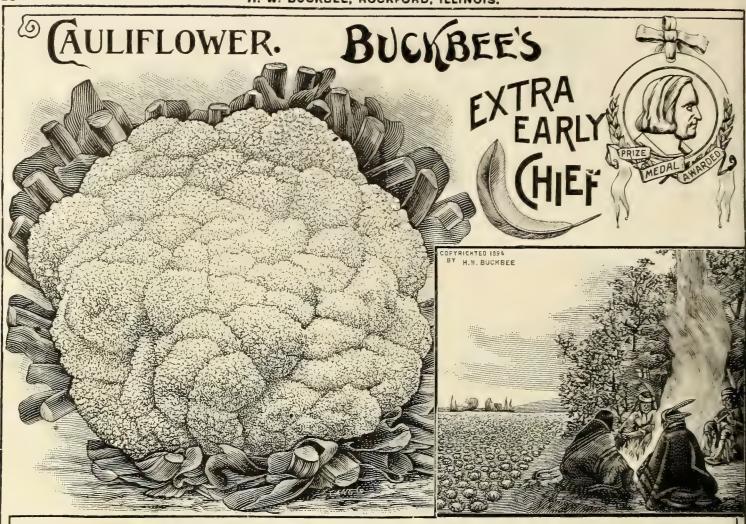

This distinct variety is destined to take first rank as a field This distinct variety is destined to take first rank as a field Carrot, owing to its enormous productiveness and its growing well out of the ground, making it comparatively easy to harvest Roots one-half long, smooth, very heavy at the shoulder, but taper regularly to the point: color light green above ground, white below; flesh rich, white, solid and crisp, and of excellent flavor. A heavy yielder, easily harvested and the best of its class. Pkt. 3c.; oz. 5c.; 2 oz. 8c.; ½ lb. 12c.; ½ lb. 20c.; lb. 35c.; 5 lbs. \$1.60.

Large White Vosges—This is a field Carrot and especially suitable for soils that are not very deep, it is very productive, keeps well and is easily pulled. Very broad at the neck

narrowed abruptly at the point. One of the very best for cattle feeding. Pkt 2c; oz. 5c; 2 oz. 8c; 12c; 12c;

Mammoth White Belgian—A splendid variety for fattening stock. The roots are mammoth in size and very productive, often yielding 10 tons and over of roots per acre. It is highly recommended for fattening all kinds of stock, and exceptionally desirable for its great milk producing qualities. The lower part of the root is white, that growing above ground and exposed to the air being green. You will be pleased with it. Pkt. 2c.; oz 5c.; 2 oz. 8c.; ½ ib. 12c., ½ lb. 20c.; lb. 35c.; 5 lbs. \$1.60.

Mammoth Yellow Belgian—Identical to the above except in color Fkt. 2c.; oz 5c., 2 oz. 8c.: 1/4 lb. 12c.; 1/2 lb 20c; lb. 35c., 5 lbs \$1 60

German, Blumen-Kohl; French, Chou-Fleur; Spanish, Coliflor; Swedish, Blomkal,

The Cauliflower, although one of the most delicious vegetables, is but little grown except by professional gardeners, by reason of the erroneous notion that it is so hard to grow that only skilled gardeners are given below. cultural directions given below.

Do not be misled by ordering cheap, inferior seeds, bankrupt stocks, etc., which some seedsmen are offering, and which as a gift is too expensive. My seed is carefully tested, perfectly reliable, and will please you in every way. CAULIFLOWER SEED, AS EVERY GARDENER AND CAULIFLOWER FANCIER KNOWS, IS ONE OF THE SEEDS IN THE BUYING OF WHICH THE PRICE SHOULD NEVER BE QUESTIONED.

Buckbee's Extra Early Chief.

Buckbee's Extra Early Chief.

I HAVE no hesitancy in introducing to you Buckbee's Extra Early Chief, the greatest of all early Cauliflowers. The best variety for either market or family purposes; by far the earliest and surest header and the most profitable grown. The greater part of Cauliflower seed offered is of European growth, but after years of careful study and perseverance, am able to offer this thoroughbred American variety—"Chief." It is of very compact growth, with short stalks. They can be planted very close together, and the leaves growing upward naturally protect the heads, which, to say the least, are handsome beyond description, measuring fully 12 to 15 inches across, and even more under careful cultivation; are pure snow-white, very close, compact and of the most superior quality. The heads being so extremely solid and deep, weigh heavier than any early variety. "Buckbee's Extra Early Chief" stands at the head as a shipping sort.

True Early Snowball.

head as a shipping sort, the peer of all as a mar-ket and family variety. Will more than meet will more than meet your expectations. Mr. H. Landers, the great Cauliflower specialist, says: "Regarding the trial which I have made of Buckbee's Extra Early Chlef, it was with some doubt that I was first tempted to try this variety three sea-sons ago, as there are so many 'bests' offered, but I can heartly say that after trying your new Cauliflower, it more than meets my expectations. It is a week earlier than Henderson's Snowball and

a better variety in every way. It can be used for early or late Cauliflower, with the full assurance that it is impossible to procure a better or more reliable variety." My stock is limited, so get in your orders early Pkt. 15c; 2 Pkt. 25c. 40z 80c.; 0z. \$3.00; 2 oz. \$5.50; 4 lb. \$10.00.

Henderson's True Early Snowball.

Certainly a fine variety great favorite and standard through-

Certainly a fine variety, great favorite and standard throughout the country; very early, close growing, of compact habit; is well adapted for forcing under glass during winter and spring. It is without doubt one of the most reliable early varieties. My stock is perfectly reliable, and will satisfy you in every particular Pkt. 10c.; ½ oz. \$1.25; oz. \$2.00; 2 oz. \$3.80; ½ lb. \$7.50.

Extra Early Dwarf Erfurt.

(SELECTED.) Remarkable for reliability of heading; dwarf; solid, pure white heads of most superior quality. If planted the first of March, heads eight to ten inches in diameter will be ready early in June. Pkt. 10c.; % oz. \$1.25; oz. \$2.00; 2 oz. \$3.80; & 1b. \$7.50.

Buckbee's Early Favorite.

Earliest, surest and preferable variety to grow, surpassing most other varieties. Will stand heat and drought exceptionally well. For forcing this variety is particularly well adapted from its dwarf growth and short outer leaves. One of the best successive varieties. Pkt. 5c.; ½ oz. 40c.; oz. 70c.; 2 oz. \$1.30; ½ lb. \$2.50.

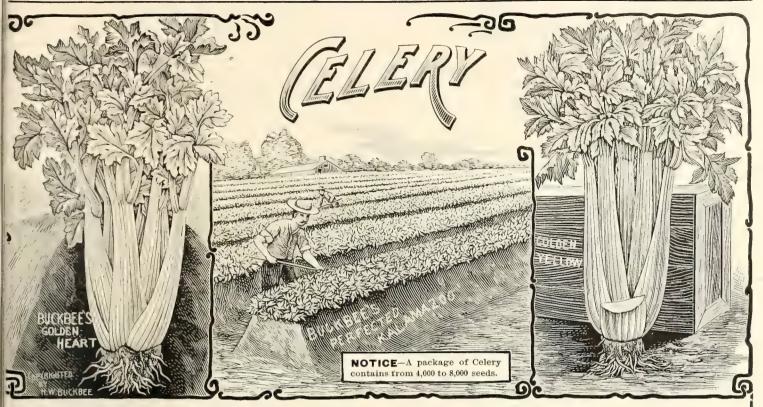

Extra Early Paris.

Reliable early variety. Good for forcing; produces a good head; dwarf habit solid, pure white curd of superior quality. Should be planted very early. Pkt. 5c., oz. 30c; 2oz. 55c.; ¼ 1b. \$1.00.

Le Normand's Short Stem.

The very best large late variety grown, sure to please. Curd is well protected by leaves, and being hardy it stands drought very well; a sure header, of good quality, and fine in every way. Pkt. 5c; oz. 30c., 2 oz. 55c.; ¼ lb. \$1.00.

Cauliflower Seed, as every gardener and Cauliflower fancier knows, is one of the seeds in the buying of which the price should never be questioned.

The Very Best of Celery.

German, Seleri; French, Celeri; Spanish, Apis; Swedish, Selleri.

I can supply the following varieties of Celery, which are too well known to need extended descriptions, at the uniform price of Pkt. 3c.; oz. 10c.; 2 oz. 18c.; ½1b. 35c.; ½1b. 65c.; lb. \$1.25.

BOSTON MARKET GIANT WHITE SOLID EARLY ARLINGTON

CRAWFORD'S HALF DWARF

WHITE WALNUT NEW ROSE

GOLDEN DWARF, OR GOLDEN HEART. DWARF WHITE SOLID LONG-RIBBED REL GIANT

BUCKBEE'S GENUINE GOLDEN MEART-Original Private Stock, the best Late Celery. wariety has a very strong and vigorous plant, with large, very white, crisp, brittle, tender and fine flavored stalks. It is tate, and requires the whole season to develop, but will keep longer than any other sort. We recommend it as worthy of the first place as a late Celery. Pkt. 5c.; oz. 20c.: 2 oz. 35c.: 11b. 60c.; 11b. \$1.10; lb. \$2.00

COLDEN YELLOW LARGE SOLID, OR GOLDEN SELF BLANCHING—This is the best Celery for early use. Plants of a yellowish-greef color when young, but as they mature, the inner stems and leaves turn a beautiful golden yellow, which adds much to their attractiveness and makes the work of blanching much easier. The handsome color, crispness, tenderness, freedom from stringiness and fine nutty flavor of this variety make it only necessary to be tried in order to establish it as the standard of excellence as an early sort. Pkt. 5c.; cz. 20c.; 2 cz 35c., ½ib.60c.; ½lb.\$1.10; lb.\$2.00.

GIANT PASCAL—The latest and best variety of Ceiery. It is a selection from the Golden Self-Blanching, and adds to the general good qualities of its parent, superior keeping qualities. The stalks are very large, thick, solid, crisp, and of a rich, nutty flavor, free from any trace of bitterness. It blanches very easily and quickly, and rethins its freshness a long time after being marketed. The heart is golden-yellow; very attractive. Pkt 40; oz. 12e; 2 oz. 22e; 1/4lb, 40e; 1/2lb, 70e; lb. \$1.25.

BUCKBEE'S PERFECTED KALAMAZOO—It is an acknowledged fact that more good celery is grown in the famous "Kalamazoo Celery Fieids" than anywhere in the country. For years our heaviest sales of Celery Seed have been in that section, and I have devoted much time to the improvment of the justly celebrated variety grown in that section, and have devoted much time to the improvement of the justly celebrated variety grown in that section, until we now have this acme of perfection in Celery—of creamy-white color, ideal size and perfect shape. It is alike profitable either for market or family use. There is no waste in preparing it for the table. M. M. Gangwer, of Stockertown, Pa., writes: "I highly prize your Perfected Kalamazoo Celery. It is the grandest of Celeries." I control the entere product of this strain of seed. Send to Buckbee for the choicest stock seed. Pkt. 4c.; oz. 12c.; 2 oz. 23c.; 18b. 45c.; 12b. 80c; lb. \$1.50.

PERFECTION HEARTWELL—A fine flavored, crisp and tender variety. The plants are a little smaller than the Crawford's Half Dwarf and a little later in maturing. The stalks are medium sized, round, very solid, crisp and tender, and of exceedingly fine and nutry flavor. A. L. Holbrook, Minooka, Grundy County, Ill., writes: "I have planted large quantities of your seed, and Every Seed Grows. I shall recommend your seed to my friends." Pkt. 30; oz. 12c.; 2.c. 22c.; %lb. 40c.; %lb. 70c.; lb. \$1 25.

BUCKBEE'S ALL HEART—The latest and best creation in Celery—originated on Rockford Seed Farms after years of careful trial and experiment and has given unparalleled satisfaction in every part of the country. It is very early, of fine ivory-white color with a rich golden heart. Crisp, tender and brittle; the flavor is delightfully rich and nutty, in fact it is unsurpassed for the professional Celery grower, the home and market garden. I control the entire stock of Buckbee's All Heart Celery. Send to Buckbee's for the choicest stock seed. Pkt. 10c: %02. 25c.; 02. 40c.; 2 oz. 75c.; %1b. \$1.25; %1b. \$2.00.; lb. \$3.50. \$2 00; lb. \$3.50.

SOUP, OR CUTTING CELERY—This variety is adapted to sowing thick in rows and cutting when 3 or 4 inches high to use for soup flavoring. It can be cut repeatedly and will farnish a succession throughout the season. Pkt. 30.; Jz. 100.; 2 oz. 200.; 141b. 300.; 15b. 55c.; lb. \$1.00.

CELERY SEED FOR FLAVORING-Oz. 50.; 2 oz. 80.; 1/1b. 120.; 1/2lb. 200.; 1b. 300.

Wm. A. Oliphant. Inland, Ohio.

All Writes: All your seeds I have used for the past several years have given splendid satisfaction. Buckbee's Golden Heart Celery is the best I have ever seen, and I have been a Celery Writes: ever seen, and I have been a Celery Grower for 40 years—it is just GRAND and all your other seeds have been equally good."

BUCKEEE'S

ALL HEART

SELF-BLANCHING CELERY.

CELERY Self-Blanching Varieties.

White Plume-Self Blanching.

THIS sort is too widely known to require an extended description. We will only say that we have not yet found a Celery that is as early and of as good a flavor, crisp and tender as our selection of this sort. Combined with these important points are its self-blanching qualities, which render it one of the most valual le sorts. Where a fine appearing Celery at a minimum amount of labor is the object, this variety will give entire satisfaction. An improved White Plume is being offered, but careful comparison of it with our stock fails to show that it is equal to that we offer. We sell, every year, large quantities of this seed to market gardeners, who find it uniformly white and free from green or hollow stalks. It is not as good a keeper as our Golden Heart, but it is unsurpassed for fall and winter use, and it is the earliest Celery known. Pkt. 4c.; oz. 12c.; 2 oz. 22c.; %lb 40c.; %lb. 75c.: lb. \$1.40.

Netw Pink Plume—Self Blanching.

The stalks of this magnificent new Celery are clear, creamy white, shaded with a beautiful delicate pink. In flavor it is sweeter than any other, all red Celery having a strouger "Celery" flavor, and is preferred by Celery lovers wherever known. The foliage is white, like the White Plume, and the plants bleach naturally. It has the long keeping qualities for which red Celeries are noticeable, and the faint tint of pink makes it wonderfully attractive for table use. It has no tendency to rust, and owing to its white tops matures and blanches as early as White Plume. Pkt., 4c.; oz. 12c.; 2 oz. 22c.; 12b. 40c.; 12b. 75c.; lb. \$1.25.

DON'T FAIL THIS YEAR. Plant BUCKBEE'S Seeds and Be Sure of SUCCESS.

CELERIAC, or Gurnip-Rooted Celery.

German, Knollen-Sellerie; French, Celeri-Rave.

TURNIP-ROOTED—The root of this variety is turnip-shaped and tender, having a sweeter taste and stronger flavor than other varieties. It is used principally for seasoning meats and soups. Pkt. 3c.; oz. 10c.; 2 oz. 16c.; ½1b. 30c.; ½1b. 50c.; 1b. 90c.

LARGE-ROOTED SMOOTH PRAGUE—An improved form of the turnip-rooted Celery, producing large and smooth roots, which are almost round, and with very few side roots. Plants vigorous, with large, deep green foliage. Pkt. 4c.; oz. 12c.; 2 oz. 22c.; ½1b. 40c.; ½1b. 70c.; lb. \$1.25.

Celeriac-Prague,

Buckbee's World-Beating Cucumbers.

Without Question the Preferable Varieties for Pickling, Market, Table and Family Use.

CUCUMBER Buckbee's NEW ALASKA

REAUTIFUL in shape and color and of the finest quality. An entirely new and distinct sort developed by ourselves through very careful selection, aiming to secure the best possible table Cucumber. The vine is vigorous and productive and comes into full bearing very early.

The fruit is of splendid size, with very white, crisp and tender flesh Also an excellent sort for culture under glass. Pkt. 5c.; oz. 15c; 2 oz. 25c.; 4lb. 45c.; 4lb. 80c; lb. \$1.50.

Fine for All Purposes.

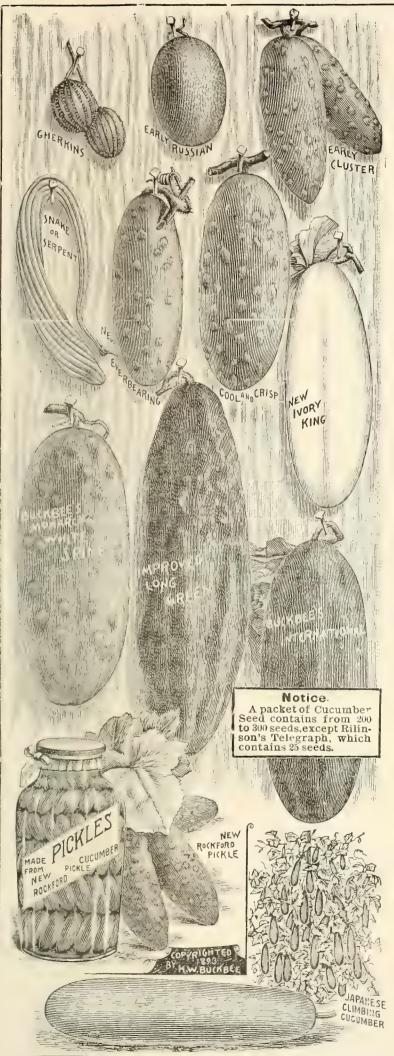

Charles Bolles, Lake Helen, Fla., writes: "Your Alaska Cucumber is a wonder. The fruit is the handsomest that I ever saw, fine shape and remained green longer than any

BE SURE And include in your order the following—see paintings from Nature on cover pages of this book; Buckbee's Mammoth Cardinal Onion, Buckbee's Prosperity Field Corn, Buckbee's Beefsteak Tomato, Buckbee's New Vig. rosa Peas, Buckbee's Pedigreed Ruby Sweet Pea Mivture, Buckbee s Louisiana Purchase Mixture Nasturtiums, New Pearsonii Sword Fern and Carnations, the latest gems of Beauty and Fragrance.

NEW PARISIAN PROLIFIC PICKLING The Housewife's Delight.

The Paris Pickling is decidedly the best of all in quality for pickling. The fruit is of an unusually dark green color, so deep that no coloring matter is necessary in preparing them for the pickling market. Very crisp and tender. Pkt. 4c.; oz. 15c.; 2 oz. 25c. 41b. 45c.; 1/21b 80c; 1t. \$1.50.

UCUMBER

Reliable Cucumber Seed is again very Short Crop this year. Our Seed is of Splendid Quality. Send your Orders in Early

German, GURKE; French, CONCOMBRE; Spanish, CIHOMBRO. Swedish, GUARKA One ounce for 50 hills. Two to three pounds in hills per acre.

Mr. P. N. GOMEN, Fulton, N. Y.,

Writes: "I am especially pleased with the Seeds and Asparagus Roots ordered from you; the results have been more than satisfactory. Your Rockford Pickle Cucumbers are fine. Thanks for your promptness in filling orders, also for the liberal 'Novelty Presents' you sent."

Buckbee's Monarch White Spine.

After being tried throughout the entire country this variety has not been found wanting in any single point. I am confident that it will always hold the highest position, being of handsome growth, good length, very early and prolific, extremely productive, quite hardy and retains its light green color permanently after being picked. Always of delicious flavor and unusually tender and crisp. Superior for pick ling purpos s. Pkt. 5c; 2c 15c; 2c 25c; 14lb. 45c; 14lb. 80c; 18. \$1.50.

Buckbee's International—This grand, good early variety of my own introduction more than pleased all who have tried it. Has not hick ends, of rich, luxuriant growth, an anundant vielder.

ling purpos s. Pkt. 5c; cz 15c; 20z 25c; 14th. 45c; 16th 80c; 1b.\$1.50.

Bukbee's International—This grand, good early variety of my own introduction more than pleased all who have tried it. Has no thick ends, of rich, luxurlant growth, an abundant yielder, has be jutiful fruit and always good, even shape. In flavor it has no superior; always tender and cr sp. You should not fail to try it. Pkt.5c; cz. 15c; 2 oz. 25c; 14th. 45c; 16th 80. lb.\$1.50.

Nw Giart Pen—One of the largest long green Cucumbers Skin perf ctly free fron spines; flesh crisp and white. Pkt. 4c; cz. 10c; 20z 18c; 14th 80c; 16th 81.00.

New Erry Siberian—This has proved to be the earliest sort in cultivation, producing Cucumbers 5 inches long in about fifty in edays. Pkt. 4c; cz. 10c; 20z. 18c; 16th 81.00.

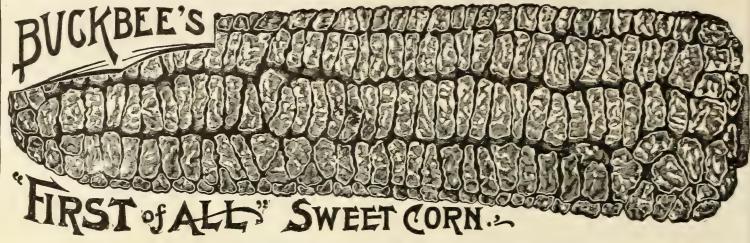

Buckbee's New Extra Early Long Green.

Produced by selection from Long Green Vines vigorous and productive, forming fruit fit for the table nearly as early as the short r sorts. Fruit grows about 12 inches long, firm and crisp. The young fruit makes the best pick is, and when ripe are preferable to any for sweet pickles. We offer a care fully selected strain, uniformly long and of good form, with the arge warts and spines well distributed over the surface, instead of being clustered at one end. Pkt. 5c; cz. 15c; 2 cz. 25c; 14b. 45c; 16th. 80c; 1b. \$1.50.

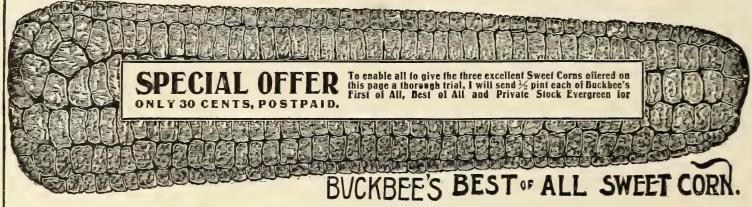

Throunds New Everbearing. The merit of this variety is in the fact that the vines produce fruit continuously until killed by trosts. They exhibit at the same time Cucumbers in every a specifyrowth but invariably of per tectform even when quite shall. The full is of hine green coor and very cestrable for picaling. Pkt. 4c; cz. 10c; 2 cz. 18c; 18th 80c; 18th 50c; 18th 10c.

New Ivry Eng.—Fruit large, clear white, very crisp, tenuer and of excellent flavor. Splendid for home garden, and the stwines are think, which enable them to climb trellises, represents growth, with rich, dark green foliale, and throw out tr ng. grasping tendrils, which enable them to climb trellises. Frenetting, brush or

Three Excellent Sweet Corns for 1905.

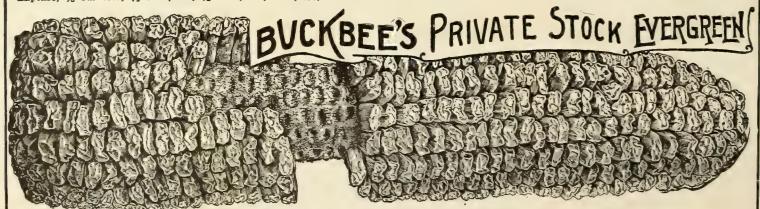

Earlier than the Cory. Thousands of my customers who planted "First of All" in 1904 speak in the highest praise of this incomparable Sweet Corn. Thousands of comparative tests made by Sweet Corn experts throughout the country as well as at Rockford Seed Farms have proven it to be from three days to a week earlier than Cory, making it very desirable, not only for family gardens, but an especial boon to market gardeners who desire to have the first Sweet Corn in market, and thereby receive the top-notch prices. The illustration, engraved from a photograph of an average ear, reduced in size, shows the form of the ears, which are of good size, well filled with large grains to the very tip. Many of the ears contain from 10 to 12 rows, while the Cory generally has only 8 rows. In habit of growth it excels all other early varieties, being stocky and exceptionally vigorous. The quality is most superior, very excellent and surpassingly sweet. You cannot help being pleased by planting "Buckbee's Best of All," Postpaid, Pkt. &c.; ½ pt. 12c.; pt. 20c.; qt. 30c. At Buyer's Expense, ½ bu. Coc.; ½ bu. \$1.80; bu. \$3.50.

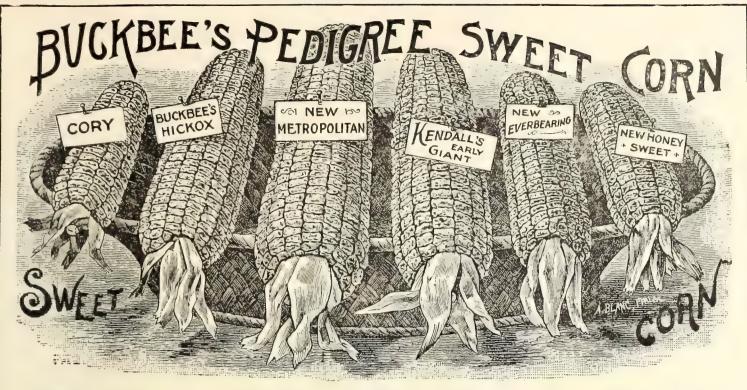

BEST OF ALL JCKBEE'S

After years of careful selection, I am able to offer you the best early Sweet Corn on the market. The demand for this certainly "Best of All" varieties exhausted my stock early in the season again last year. Owing to the very favorable growing season the past year, I am in hopes to have enough to go all around this year. Yet from the heavy advance orders that we have had on this variety, I cannot too strongly urge you to order early and make sure of your supply. Buckbee's "Best of All" is of exceptionally stocky growth, and an abundant and satisfactory yielder; ears of exceptionally good size, and of a perfect color, kernels very broad and by far the sweetest, richest, whitest and most tender of any carly variety. Not only is it valuable for family uses, but for early market and shipping purposes it is also in the lead. Mr. Crane, one of the most prominent Sweet Corn specialists, writes: "Gave Buckbee's "Best of All" a fair trial, and will say that it surpasses every claim you make for it, and more, too. I can highly recommend it for all general purposes." I have placed the price of this desirable variety of Sweet Corn within the reach of all. Postpaid, Pkt. 8c.; ½ pt. 12c.; pt. 20c.; qt. 30c. At Buyer's Expense, ½ bu. \$1.00; ½ bu. \$1.80; bu. \$3.50.

Buckbee's Private Stock Evergreen.

This tweet Corn as now improved is the best for main crop. The illustration distinctly shows the formation and depth of grains and the manner in which they are set on the cob, which is small in comparison to the size of the ears, making this strain of Stowell's Evergreen Sweet Corn the most preferable variety ever offered for main crop. For table use the quality of Buckbee's Private Stock Evergreen Sweet Corn cannot be excelled. It is very tender, sugary, and remains a long time in condition suitable for cooking; coming into market at a time when the main crops are being sold, these are very important conditions. For canning purposes Buckbee's Private Stock Evergreen Sweet Corn will prove most satisfactory; its large ears, with long, slender grains, make by far the most saleable canned corn, and it out-yields all other varieties. Many of my customers who made trials of this splendid Sweet Corn the past year, report yields of over 200 bushels of ears per acre. You cannot possibly be disappointed by planting Buckbee's Private Stock Evergreen. My price to one and all as long as stock seed lasts: Postpaid, Pkt. 3c.; ½ pt. 12c.; pt. 20c.; qt. 30c. At Buyer's Expense, ½ bu. 60c.; ½ bu. \$1.00; ½ bu. \$1.80; bu. \$3.50.

Popular Varieties That Have No Equal.

German, Welchkorn; French, Mais; Spanish, Maiz; Swedish, Majas-Sot.

My Sweet Corn is unsurpassed, is all my own growth, grown from the very best stock seed carefully selected, thoroughly firedried, carefully cured and cared for. It is grown so far north that it is adapted to any section of the country, and surpasses in earliness and productiveness that offered by any other seedsman. The earlier varieties should be planted as soon as the ground is nicely settled in Spring or about the same time as field corn is planted. To have the finest Sweet Corn of any variety, it should be picked in just the right condition, that is, when the skin of the grain breaks at the slightest puncture, and plantings should be made frequently enough always to have a supply at this stage. The quality is inferior if it is a few days too old or too young.

CULTURE

A rich, warm, alluvial soil is best, and immediately before planting, this should be thoroughly worked.

Give frequent and thorough, but shallow cultivation until tassels appear.

Remember that I prepay charges by the helf-rich print and quart. Quartities of creatists the stage are higher and creating the stage of an alignment of any alignment.

Remember that I prepay charges by the half-pint, pint and quart, more will be shipped by freight or express at purchaser's expense. Quantities of one-eighth, quarter, half and one bushel or

FIRST EARLY VARIETIES.

New Metropolitan—One of the very earliest, best and sweetest early Sweet Corn. Big yielder, grows 5½ feet high; ears 9 inches long, 10 to 12 rowed. General favorite for all purposes. Pkt. 6c.; ½ pt. 10c.; pt. 15c.; qt. 25c.

Kendall's New Large Early Giant—Very productive; ears large and long; 10 to 12 rowed. Kernels white, sweet and tender. Very desirable for both market and family purposes. Sells well in any market. Pkt. 6c.; ½ pt. 10c.; pt. 15c.; qt. 28c.

Extra Early Cory—Certainly one of the most popular and best early varieties, only excelled in earliness by "Buckbee's First of All." Those that desire a first-class early sort can make no mistake in planting the Cory. Pkt. 5c.; ½ pt. 8c.; pt. 15c.; qt. 25c.

Mammoth Early White Cob Cory—Selected for white cob and white kernels from the original and earliest Cory. For a strictly first-class early, for first market and home use, you will be delighted with Early White Cob Cory. Pkt. 5c.; ½ pt. 8c.; pt. 15c.; qt. 25c.

Extra Early Adams—While not a Sweet Corn, this is a tender white Corn for table use. Dwarf stalk, small ears, hardy; can be planted earlier than any Sweet Corn. Pkt. 5c.; ½ pt. 8c.; pt. 15c.; qt. 25c.

Extra Early Minnesota—This popular variety is one of the best early sorts for the market, and the private garden. By careful selection we have developed a stock which is remarkably uniform and in which all the good qualities that are so popular are intensified. Pkt. 5c.; ½ pt. 8c.; pt. 15c.; qt. 25c.

Ballard's Early Chicago Market—Strong, stocky grower, always producing a reliable stand, having ears in great abundance of the

Ballard's Early Chicago Market—Strong, stocky grower, always producing a reliable stand, having ears in great abundance of the finest quality. Desirable for market gardeners and very valuable for the family garden. Symmetrical growth, good yield and fine quality place it in a very enviable position. Mr. George R. Hill, a well-known Chicago market gardener, says: "Your strain of Ballard's Chicago Market Corn suits me to a "T." Would plant no other for our use." Pkt. 5c.; ½ pt. 8c.; pt. 15c.; qt. 25c.

Early Crosby—A most excellent variety, remarkably early and of the best flavor. Ears of medium size, 12 or more rowed, grain very thick and sweet. This is the sort so largely grown in Maine for canning, and it is the use of this variety, rather than any peculiarity of the soil that has given Maine Sweet Corn its reputation for quality. Pkt. 5c.; ½ pt. 8c.; pt. 15c.; qt. 25c.

MEDIUM EARLY VARIETIES.

New Honey Sweet—An exceptionally fine variety for second early use. The husks and stalks being of a deep red color, the corn itself is of a beautiful creamy white color, and has the deepest grains, smallest cob of any known variety. Productive, fine quality. Pkt. 6c.; ½ pt. 10c.; pt. 15c.; qt. 28c.

Perry's Hybrid—Another very popular eastern variety. Stalks of medium height, bearing two large. 12 or 14 rowed ears, which often have a red or pink cob; grain medium size, cooking very white and tender. Pkt. 5c.; ½ pt. 8c.; pt. 15c.; qt. 25c.

Moore's Early Concord—Produces its large, handsome, 14 to 16 rowed ears very low on the stalks and comes into use after Perry's Hybrid. An excellent sort either for canning factory or the garden. Pkt. 5c.; ½ pt. 8c.; pt. 15c.; qt. 25c.

Black Mexican—Although the ripe grain is black, or bluish black, the Corn, when in condition for table, cooks remarkably white and is very tender. Desirable for family use, and does especially well for the second early in the south. Pkt. 5c.; ½ pt. 8c.; pt. 15c.; at. 25c.

MR. A. R. AMES, a prominent Agriculturalist and Real Estate Dealer of Madison, Wis., writes: "Have planted "Buckbee's Seeds' for over twenty years, and the results have always been first-class. There is no use questioning the fact that 'Buckbee's Seeds' are grown as far north as is possible to secure the highest degree of perfection. I must add that our field of Sweet Corn the past season was a marvel to all in this locality."

for the second early in the south. Pkt. 5c.; ½ pt. 8c.; pt. 15c.; qt. 25c.

Potter's Excelsior, or Squantum—One of the sweetest varieties and is largely used for market and canning. A great favorite and is wonderfully productive. This is the variety used almost exclusively at the famous Rhode Island clambakes, which is sufficient evidence of its quality. Pkt. 5c.; ½ pt. 8c.; pt. 15c.; qt. 25c.

Amber Cream—A strong. vigorous grower of medium season; stalks 7 feet high, with dark foliage; ears of large size (10 to 14 inches long) with deep kernels; very rich, sugary, and when fit for table use a handsome white. The dry kernels are amber colored and shriveled. Pkt. 5c.; ½ pt. 8c.; pt. 15c.; qt. 25c.

Everbearing—The ears are of good size and covered with kernels clear to the end of the cob. The husks and stalks are of a red color; each stalk will produce one to two well developed ears; now if these are picked when mature, one to two and even four more ears will set and develop on the same stalk during the next two to four weeks. Three or four dozen hills will supply a good sized family for weeks. Pkt. 6c.; ½ pt.

LATE OR MAIN CROP VARIETY.

Country Gentleman—Ears of full size, retaining all the delicious eetness and qualities of Ne Plus Ultra. Three to five ears to a lk, small cob, sweet, tender. Pkt. 6c.; ½ pt. 10c.; pt. 15c.;

gt. 28c.

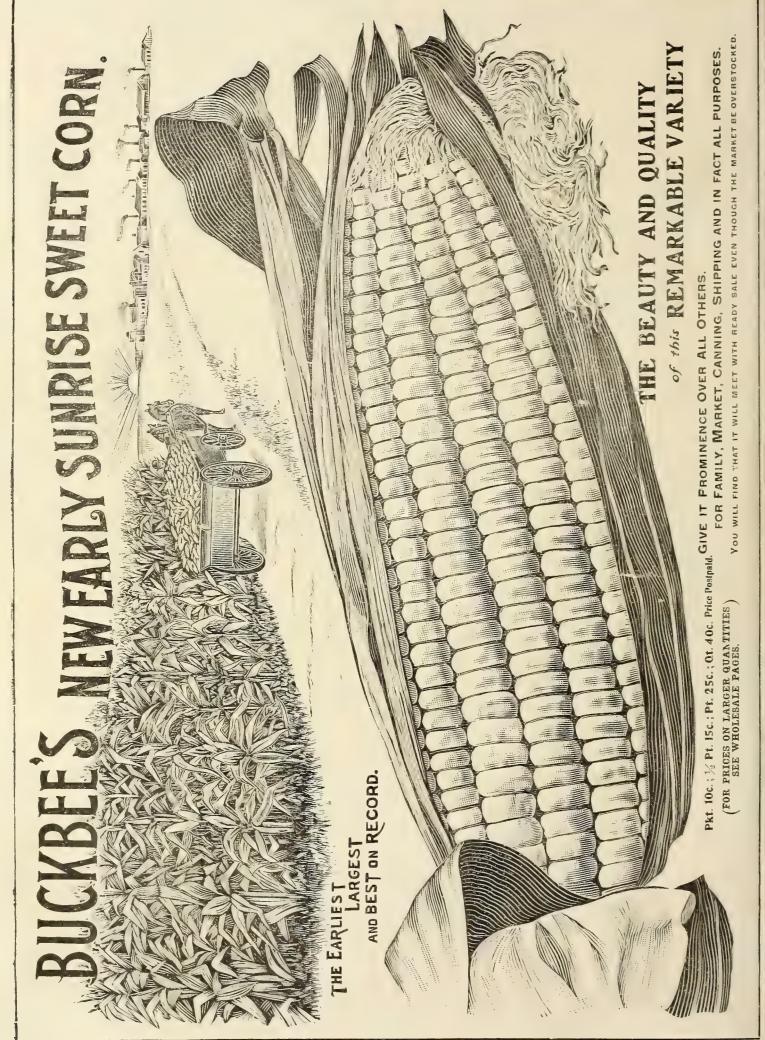

Buckbee's Hickox—Popular wherever known. One to two weeks earlier than Evergreen. Large, attractive ear; has a white cob and grain and remains in condition for use a long time. Best sort for drying and canning. Pkt. 6c.; ½ pt. 10c.; pt. 15c.; qt. 28c.

Stowell's Evergreen—The standard main crop. Hardy and productive, very tender and sugary, remaining a long time in condition suitable for boiling. Sown at the same time as earlier Corns, will supply the table until October. Pkt. 5c.; ½ pt. 10c.; pt. 15c.; qt. 28c.

Mammoth—Produces the largest ears of any variety, a single ear often weighing two or three pounds. Of excellent quality, it is sweet, tender and celicious. Pkt. 5c; ½ pt. 10c.; pt. 15c.; qt. 28c.

I can also supply the following standard and new varieties of Sweet Corn. which are too well known to need description. at the uniforn rate of Pkt. 5c.; half pt. 8c.; pt. 15c.; qt. 25c.

Extra Early Sheffield, Improved Ruby, Old Colony, Egyptian, Extra Early Vermont, Early Marblehead, Improved Shoe Peg, Early Adams or Burlington, Ne Plus Ultra. Stabler's Early, Washington, Bonanza, Shaker's Large Early, Rockford Market.Zig Zag Evergreen, Sw't Corn for Fodder

Buckbee's Herbs Are True To Name And From Select Stock.

POP CORN LEADING VARIETIES

Pop Corn should be found in every garden, especially if there are children to enjoy it during the long winter evenings which bring young people together for social amusement. It is a fact not generally known that Pop Corn pops best when more than one year old, and that when well popped it becomes twenty times its natural size; thus a quart and a half will make nearly a bushel of popped corn. In the illustration will be seen a convenient "popper," which may be bought for a trifle from a hardware store or easily made of wire netting. Did you ever try Pop Corn as a money making crop? You will be surprised at the result. There is always a good market at a fair price, and if you plant my selected stock seed you will be able to sell your crop to planters in your vicinity at a greatly advanced price.

New Striped or Variegated - (1) - A fancy variety, very showy and of the best quality. Rather large ears filled out with clear, transparent, white kernels, beautifully striped with bright crimson. An early and productive variety, and one of great beauty. A good popper. Pkt. 5c.; 1/2 pt. 15c. pt. 25c.; qt. 40c.

Buckbee's Snowball—(2)—The finest white variety in existence, belonging to the rice family; the best yielder and far in advance of any other variety ears averaging six inches in length. Beautiful shape; the best popper.

ears averaging six inches in length. Beautiful shape; the best popper. Pkt. 5c.; ½ pt. 15c.; pt. 25c.; qt. 40c.

New Red Beauty—(3)—Fine variety. The stalks grow 6 feet high and average 3 to 4 ears each, from 5 to 6 inches long, and covered with large, rice shaped kernels of a deep red color. Pkt. 5c.; ½ pt. 15c.: pt. 25c.; qt. 40c.

Queen's Golden—One of the very best and most prolific varieties grown. Its quality and handsome appearance when popped are very noticeable. It pops perfectly white, and a single kernel will expand to a diameter of nearly one inch. The stalks grow 6 feet high, and the large ears are propops periectly white, and a single kernel will expand to a diameter of nearly one inch. The stalks grow 6 feet high, and the large ears are produced in abundance. Mr. Queen, the originator, says: "It is so far ahead of all others that I have seen or tried as to be beyond comparison in every respect, especially in yield, in sturdy growth, in size and in color when popped - being of a delicate golden yellow." Pkt. 5c; ½ pt. 15c.; pt. 25c.;

Mapledale Prolific—This remarkable variety originated with Prof. R. L. Wetherell, of Davenport Iowa, who states: "I selected on my Mapledale Fruit Farm this year ten stalks with 121 ears, or an average of 12 ears to the stalk, one stalk having 19 ears." The stalks grow 6 feet high and the ears are all large in size, with grains nearly clear white in color. An average ear measured 6% inches long and contained 585 perfect kernels. Pops pure paper white, of fine quality. Be sure to include this remarkable variety in your order for Pop Corn. Pkt. 5c.; ½ pt. 15c.: pt. 25c.; qt. 40c.

SPECIAL OFFER: For only 20 cents I will send prepaid one Liberal Packet each of the above Five Pop Corns. d

ANY i ronounce it as good as the genuine and it has been superseding, in a great measure store coffee as fast as its merits become known. It is certainly the best berry o mix in with other coffee I ever saw. Half and half will produce a drink claimed by many to be equal to a good cup of Rio. It is the hardiest, easiest raised and most productive of any plant I ever saw. It matures early as corn and does well on every kind of soil. You can raise your own coffee for ose cent a pound. Ground and fed to milch cows it makes the richest and yellowest butter ever seen. It is as easily raised as corn and beans and is cultivated in the same way. Full directions on every packet. My seed is genuine. Large Packet 5c.; 14 lb. 10c.; 15 lb. is genuine. Large Facket 5c.; 14 lb. 10c.; ½ lb. 17c.; lb. 30c.

RARE, USEFUL and ORNA-MENTAL GOURDS

Hercules' Club-Enormous, long club shaped fruit, useful to use in storing various ar-ticles. Lasts for years.

Pkt. 4c.; oz. 10c.
New Japanese Climbing
Beautiful climber with
handsome foliage, and
of rapid growth. Try
it. Pkt. 5c.

it. Pkt. 5c.

Dipper Useful for bird's nests, fancy hanging baskets, etc, They hold from a pint to a quart and a half each. Pkt. 4c.; oz. 12c.
True Nest Egg—Resembling in color, shape and size the eggs of hens.

True Nest Egg—Resembling in color, shape and size the eggs of hens. Do not crack, last for years and make the best of nest eggs. Rapid grower and good climber, extremely ornamental and useful for covering screens, etc. Pkt. 4c.; oz. 12c.

New Japanese Dish Cloth or Luffa—Ornamental enough for a house vine, and fru tis very useful Fruit enormous, two feet in length, and borne in great profusion. The lining of mature fruit, when washed and bleached, is porous, tough, elastic, sponge-like, making the nicest, cleanest substitute for dish cloths and bath sponges imaginable, besides being useful for various articles of fancy work. Pkt. 4c.; oz. 12c.

Sugar Trough—Enormous, hard-shelled fruit, holding from three to ten gallons each. Are just right to use as receptables for lard, salt, seed corn, etc. Pkt. 4c.; oz. 10c.; ¼ lb. 30c.

New Serpent—A beautiful climbing variety of easy culture, heavy foliage and serving as the best shade. Pkt. 5c. Do not crack, last for

best shade. Pkt. 5c.
Finest Mixed—Combining in the largest mixture the most curious, interesting and useful of the entire Gourd family. Forms may be varied by tying strings around the young frui' or by enclosing the same in a curved mold while growing, thus stamping on its surface any desired figures or letters that may be carved on the mold. Pkt. 4c.: oz. 7c.: ¼ lb. 20c.

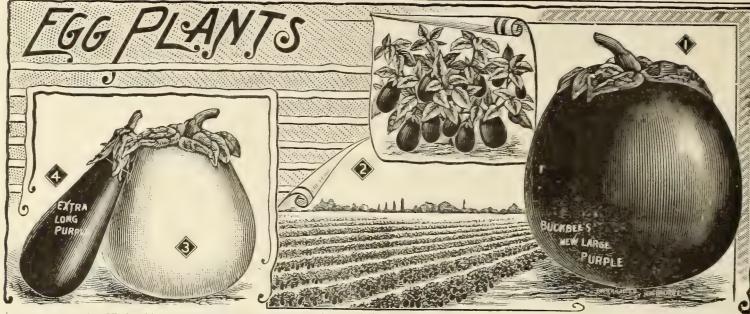

\$100.00 REWARD I have deposited the sum of One Hundred Dollars in the Winnebago National Bank of Rockford, Illinois—As a Reward to be Paid to Any Person who will prove that any Testimonial contained in my 1905 Seed and Plant Guide is not genuine or that any testimonial has been

H. W. BUCKBEE,

THE EGG PLANT should be grown in every garden, for it is one of the most delicious of vegetables. Sliced and fried in batter and served with raw tomatoes it can well take the place of meat in summer and fall. Did you know that Egg Plant growing was one of the most profitable crops? Many growers clear from \$200 to \$500 per acre.

Buckbee's New Large Purple, I Better variety than New York Purple, extreme productiveness makes it the most profitable to grow: plants large, spreading. Foliage light green. Fruit very large, oval or short; pear-shaped; skin deep purple; flesh pearly white. Plants ripen 2 to 6 large fruits. Pkt. 5c.; 02. 25c.; 2 02. 40c. ½lb. 75c. Black Pekin, 2 Very early, of large size. Prolific and desirable for market garflesh white and fine grained. Pkt. 4c.: 02. 25c.; 2 02. 40c. ½lb. 75c. Buckbee's New White Egg Plant, 3 This variety offered now for the ferable by far of all to grow either for market, family and shipping purposes Produces much larger fruit and is more productive than the New York Purple. The flesh is more tender and flavor more delicate than purple varieties. Do not confound this with Old Large White or other varieties. I control the entire stock, Pkt. 5c.; 02. 25c.; 2 02. 40c.: ½lb. 75c.

Extra Large Long Purple 4 One of the earliest and most productive can

Extra Large Long Purple, 4 One of the earliest and most productive var-quality. Sure to give the best of satisfaction for all purposes. Pkt. 3c.; oz. 15c.; 2 oz. 25c.; 41b. 45c.

Large New York Purple, Large, round or oval,: of excellent quality, highly esteemed in market, Pkt. 4c.; cz. 15c.;

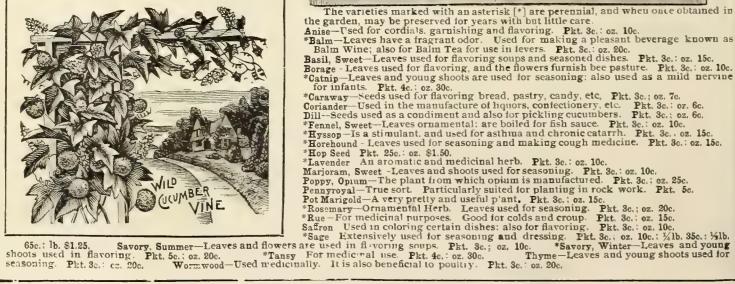

JENNIE E. FRONK, Donnally Mills, Pa.

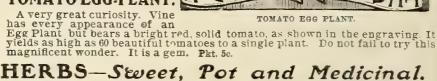

Writes:" Buckbee's Seeds are Best of ll." The success I have had in the past with your seeds makes me a permanent customer. My neighbors all inquire where I get my seeds, and you have re-ceived a good many orders on my rec-ommendation."

Wild Cucumber Vine.

The quickest climber for arbors trellis, fences The quickest climber for arbors trellis, fences etc., known. Makes the most mosaic covering. Never suffers from the heat, but retains its fresh and lively green colors, and what is of prime importance, hardly affected by warm or cold, hot or dry weather, and is never infested with insects. Profuse in bloom. It will sow itself and come up every year in the same place. Sure to please you. Pkt. 5c.; oz. 15c.

TOMATO EGG-PLANT. 🕰

The varieties marked with an asterisk [*] are perennial, and when once obtained in

The varieties marked with an asterisk [*] are perennial, and when once obtained in the garden, may be preserved for years with but little care.

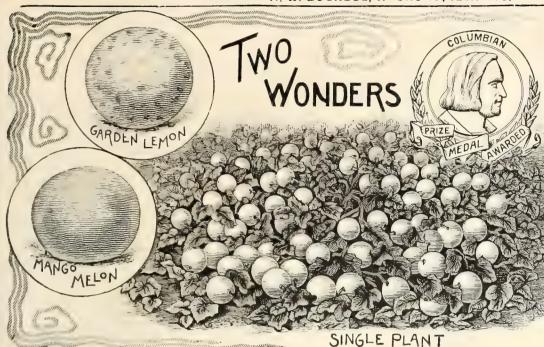

Anise—Used for cordials, garnishing and flavoring. Pkt. 3c.: oz. 10c.

*Balm—Leaves have a fragrant odor. Used for making a pleasant beverage known as Balm Wine; also for Balm Tea for use in fevers. Pkt. 3c.: oz. 20c.

Basil, Sweet—Leaves used for flavoring soups and seasoned dishes. Pkt. 3c.: oz. 15c.

Borage - Leaves used for flavoring, and the flowers furnish bee pasture. Pkt. 3c.: oz. 10c.

*Catnip—Leaves and young shoots are used for seasoning; also used as a mild nervine for infants. Pkt. 4c.: oz. 30c.

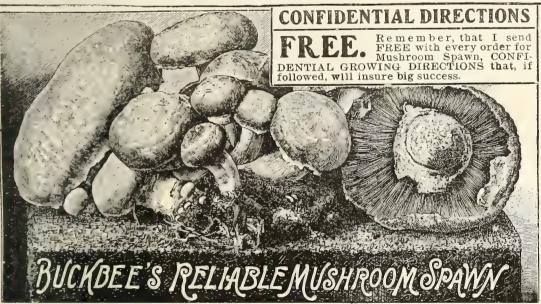

New Garden Lemon.

ERTAINLY one of the greatest novelties of recent introduction. Resembles the vine peach in manner of growth, but is distinct in that the unripe fruit is striped with very dark green spots, nearly black, and when ripe is not russeted like the vine peach. Fruit of shape shown in illustration, a trifle smaller vine peach. Fruit of shape shown in illustration, a triffe smaller than vine peach. Has a finer flesh and most desirable acid flavor, thus dispensing with sliced lemon, which is so important in putting up the vine peach. Unexcelled for general canning purposes. Cutivate similar to musk melons, in bills 3 feet apart each way. It is such an enormous yielder that it will prove a very profitable crop to grow for market purposes, and will give unbounded satisfaction for all family uses. True stock seed, Pkt. 10c; oz 25c.

The Mango Melon, or Vegetable Peach.

NOTHER splendid novelty of late introduction, very striking in color, most wonderful yielder. (See engraving from nat ure of a single plant in above illustration) Vines of each of the above are somewhat smaller than the musk melon vine though requiring same cultivation. Fruit is about the size of an orange, orange shaped, and a bright orange-yel ow color, some what russeted. For sweet pickles, pies or preserving they are splendid. In the west and northwest, where truit is so cree, they are rapidly becoming popular, as they are easily cultivated, enormously productive and can be used in every way as the peach, except that they are not quite as sweet. You will certainly be pleased with it. Pkt. 10c: cz. 25c.

Proboscidea.

When young and tender are highly prized for pickling. Pkt. 3c. oz. 15c. 2 oz. 25c.; 1/4 lb. 40.

MUSTARD.

German, Senf; French, Moutarde; Spanish, Mostazoe.

New Chinese - The large leaves, which often measure 14 inches, are ready for use in about six weeks after sowing, and will continue to yield until it is frosty weather. It has a pleasant, pungent flavor, exceptionally hardy, and can be eaten the same as other salads Pkt. 4c.; oz. 6c.; 2 oz. 10c.; ½ lb. 18c.;

1/2 lb. 30c.; lb. 50c.

White Seeded—Useful for salads and greens. Seeds pungent, nice for pickles. Pkt. 2c.; oz. 5c.; 1/2 lb. 10.; 1/2 lb. 15c.; lb. 25c.

Black Seeded—Is sharper and more pungent than any of the other varieties. Pkt. 2c.; oz. 5c.; 1/2 lb. 10c.; 1/2 lb. 15c.; lb. 25c.

NASTURTIUM,

Or Indian Cress.

The seeds, while yet young and succulent, are pickled and are very delicious. The plants and flowers are highly ornamental in the garden, blooming continually till frost. Try it.

Tall Mixed—Makes a nice growth; useful for climbing purposes Pkt. 3c.;

oz. 6c.; 2 oz. 10c.; ¼ lb. 18c.; ½ lb. 30c.; lb. 50c.

Dwarf Mixed - Handsome and useful variety; very prolific. Pkt. 3c.; oz. 6c.,

2 oz. 10c.; ½ lb. 18c.; ¼ lb. 35c.; lb. 60c.

MUSHROOMS.

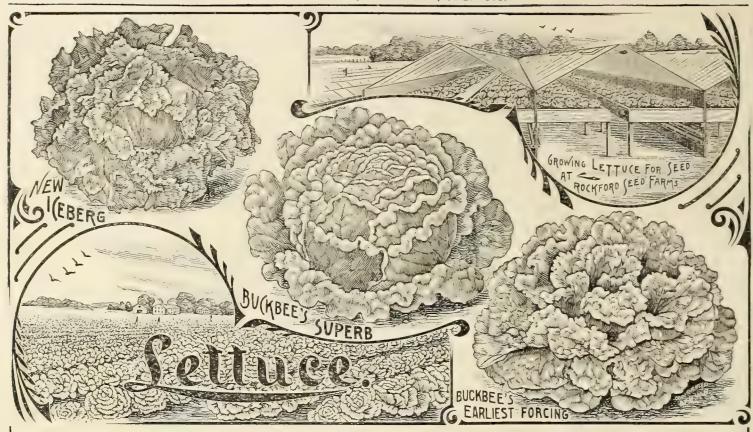

AROUND the production of the Mushroom there appears to be in the minds of many people a profound mystery, which can be penetrated only by the initiated; in reality, however, the cultivation of this highly esteemed and nutritious esculent is a very simple matter, requiring ordinary intelligence and care. Full and explicit instructions are contained in our circular, 'How to Grow. Mushrooms Successfully," which is sent free with every order for is sent free with every order for spawn.

New and Surprisingly Fine Varieties.

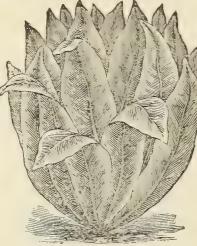

German, LATTICH-SALAT; French, LAITUE; Spanish, LECHUGA; Swedish, LAKTUE.

1 oz. of Lettuce will sow a row 100 feet long. 3 to 4 lbs. will sow an acre.

should be sown in a rich, thoroughly-prepared soil. For early crop sow under glass from November to February, and thin out as necessary to prevent crowding. Keep at a moderate heat, and give all the air and light possible. For early out-of-door culture start plants in the fall, protecting them as needed with frames or coarse cotton, or start under glass from January to March, and harden off before setting in the open ground, which should be done as soon as the ground and weather will permit. For general crop sow out of doors as early in the spring as the ground can be worked, in drills 18 inches apart, and thin the young plants to 4 inches apart in the row. As the plants begin to crowd, thin them outs required. In this way a much lenger succession of cuttings may be had from the same ground. Sow at intervals of from 2 to 3 weeks throughout the summer for a continuous crop. In this, as in every other garden crop, thorough cultivation is essential. We make a careful trial of the various varieties of Lettuce, both old and new, each season, and feel sure that our list embraces all the kinds that are necessary to give a constant supply of the best quality that can possibly be grown.

Buckbee's Ice Drumhead—Itgrows very rapidly and heads axtremely early; the heads are nearly as solid as cabbag. The outer leaves are at the first tinged with brownish red, changing toward the center of the head from a beautiful golden yellow to a creamy white. It is as palatable asit is beautiful: very tender; never bitter and of a sweet buttery flavor. It surpasses in quality most varieties of Cabbage Lettuce. It is ready for use from the time it is 3 inches across until it runstoseed, and is always crisp and tender. I control the entire stock of this variety. Pkt. 5c.; oz. 10c.; 2 oz. 16c.; 10. \$1.00.

New Iceberg—Quick growing and of exquisite flavor. The large, curly leaves which cover the outside of the solid heads are of bright, light green, with a slight reddish tinge on the edges. They have small indents which are constantly filled with dew-drops, keeping it fresh and showing a remarkable crystalline appearance. We can confidently recommend the New Iceberg. Pkt. 4c.; oz. 8c.; 2 oz. 15c.; % lb. 25c.; % lb. 40c.; lb. 75c.

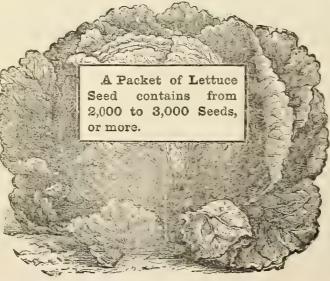

NEW ASPARAGUS LETTUCE.

New Asparagus Lettuce—A distinct new variety, and is already one of the most popularsorts, made so not only on account of its original features, but also by its superior quality. The young leaves are crisp and tender, and are desirable for all Lettuce purposes. When the leaves are large enough they can be stripped and the stems cooked like asparagus; makes a delicious dish. By all means try it. Pkt. 4c.; oz. 8c.; 2 oz. 15c.; ½ lb. 25c.

Buckbee's Superb-Finest of all early varieties and unusually good sized and solid; has little tendency to run to seed. Wonderfully crisp, exceptionally tender, and above all delicious in flavor. As a forcing variety it has no superior. Excels as a family or market sort. Pkt. 5c.; oz. 10c.; 2 oz. 16c.; ½ lb. 30c.; ½ lb. 55c.; lb. \$1.00.

Buckbee's Earliest Forcing—For those who like a large, thin, exceedingly tender leaf, and for those markets which demand a large, loose cluster of leaves rather than a solid head, this is one of the best varieties for forcing out of doors. Flants large, forming a large loose head; light yellowish green in color. The large outside leaves are tender and of good quality. A long time in condition. I control the entire stock of this variety. Pkt. 5c.; oz. 10c.; 2 oz. 16c.; 1 lb. 30c.; 1 lb. 55c.; lb. \$1.00.

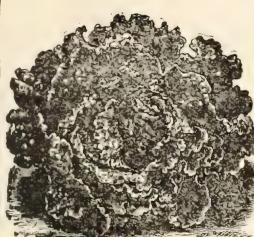

BUCKBEE'S ICE DRUMHEAD.

I can also supply the following new and standard varieties of Lettuce, which are too well known to require extended description, at the uniform price of Pkt. 3c.; oz. 7c.; 2 oz. 12c.; ½ lb. 20c.; ½ lb. 35c.; lb. 60c:

Simpson's Early Curled,
Improved Black Seed Simpson,
Early Denver Market,
Improved Hanson,
Henderson's New York
Market,

Henderson's New York Market, Early Boston Market, or White Seeded Tennis Ball, Early Black Seed Tennis Ball,

Grand Rapids Forcing, Paris White Cos.

MIGNONETTE LETTUCE.

Mignonette—A new Cabbage Lettuce. Entire plant measures only 7 inches across, while the heads are solid and compact. The while the heads are solid and compact. The outer leaves are richly colored with russet red and pretty bronze green, and the solid hearts are of a light creamy color. Is very hardy and fit for use five days after Boston Market; it is also long standing, excellent even for mid-summer. Pkt. 5c.; oz. 10c.; 2 oz. 16c.; ½ lb. 30c.; ½ lb. 55c.; lb. \$1.00.

Wonderful—Grand New Head Let-TUCE—A very large-head variety, excellent for furnishing fine, crisp, well-blanched Let-tuce during the hot summer months, with-standing both heat and drouth to a marked degree. Plants are rich dark green, fre-quentlygrowing more than 15 inchesin diam-eter; the heads are proportionately large, tightly folded and the inner leaves blanched to a pure white. It is mild and refreshing to the taste. Heads stand for quite a long time, even in hot summer, before running to seed. Pkt. 5c.; oz. 10c.; 2 oz. 16c.; ½ 1b. 30c.; ½ lb. 55c.; lb. \$1.00.

WONDERFUL.

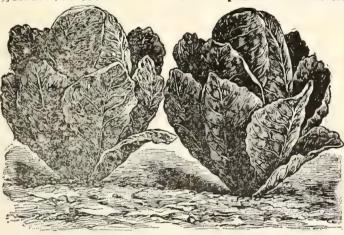

Gold Nugget—Choice new variety; noted for its solidity and buttery flavor; quick grower, very hard heading; leaves golden yellow; is very productive and fine flavored. Pkt. 3c.; oz. 8c.; 2 oz. 15c.; 11b. 25c.; 12 lb. 49c.; lb. 70c.

ductive and fine flavored. FKt. 3c.; oz. 8c.; 202. 10c., A Lo. 20c., B b. 20c.; bb. 70c.

Early Prizehead—This old standard sort still stands at the head of the large, thin-leaved, clustering sorts. The very large leaves are savoyed or crimped, bright green, tinged with red, and are exceedingly tender, crisp and sweet, forming a large, loose head. Best for garden and market. Pkt. 4c.; oz. 8c.; 2 oz. 15c.; 10. 25c.; 11. 40c.; 10. 75c.

Dwarf White Heart, or Celery Lettuce—Earliest in cultivation and is the slowest to shoot to seed. The plants grow about 8 inches high and 4 to 6 inches across. Outer leaves are well folded over, blanching the inner leaves throughly without any "tying up" or any artificial aid. Of stiff growth, every plant making a well-developed head of the most excellent flavor and crisp and tender. Pkt. 5c.; oz. 10c.; 2 oz. 16c.; ¼ lb. 30c.; ½ lb. 55c.; lb. \$1.00.

Silver Ball—A remarkable variety, in that it is an excellent sort both for forcing and out-of-door culture. The thick, light green leaves have so much sheen that they look silvery white in some lights; and the good sized head is of a most excellent quality. Pkt. 3c.; oz. 8c.; 2 oz. 15c.; 1 lb. 25c.; 1 lb. 40c.; lb. 70c

DWARF WHITE HEART, OR CELERY LETTUCE.

Tomhannock—This Lettuce doesn't head; makes a loose bunch of leaves of very fine quality; forms a beautiful plant 10 to 12 inches high by 9 to 10 inches across; edges of outer leaves are a reddish bronze; within, the leaves are almost white; very crisp and tender; it is a very early sort. Pkt. 4c.; oz. 8c.; 2 oz. 15c.; ½ lb. 25c.; ½ lb. 40c.; lb. 75c.

Big Boston—Best Mid-Season Head or Cabbage Lettuce—Very popular variety with gardeners who wanta large-heading, forcing sort, and also for out-door winter culture; plants large, very hardy and vigorous, with broad, comparatively smooth, thin and very hard bright green leaves; quite tender; indoors this forms a solid head, while outside is less distinctively a heading sort. Pkt. 3c.; oz. 8c.; 2 oz. 15c.; ½ lb. 25c.; ½ lb. 40c.; lb. 70c.

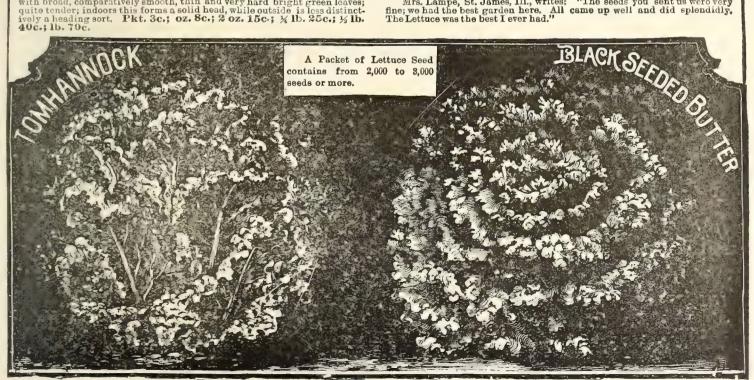

San Francisco Market, or the Deacon Lettuce—This magnificant Butter Lettuce is unsurpassed for family garden or for market. With The Deacon, even the amateur gardener can raise fine, solid, nicely blanched heads equal to any the market affords. It stands hot weather better than any other of the rich butter varieties, and seldom becomes acrid in flavor even undor the greatest summer heat. Plants grow quickly and make firm heads nearly as large and tight as a cabbage, there being but few outer leaves when the head is fully grown. The heads are light green outside, while the inner blanched portion is beautiful cream yellow, of delicious, rich, buttery flavor. It is the result of more than forty years careful selection in the garden of a private family. Pkt. 4c.; oz. 8c.; 2 oz. 15c.; ½ lb. 25c.; ½ lb. 40c.; lb. 75c.

Tilton's White Star-Of the Black Seeded Simpson type, but grows larger and more rapidly; has a broader, thicker, darker colored leaf, less frilled at the edge; forms a larger, more distinct and solid central cluster of leaves. Blanches perfectly and is of excellent quality; plants remain long in condition for use before going to seed; good keeper when cut, owing to its thick leaves. Pkt. 3c.; oz. 8c.; 2 oz. 15c.; ½ lb. 25c.; ½ lb. 40c.; lb. 70c.

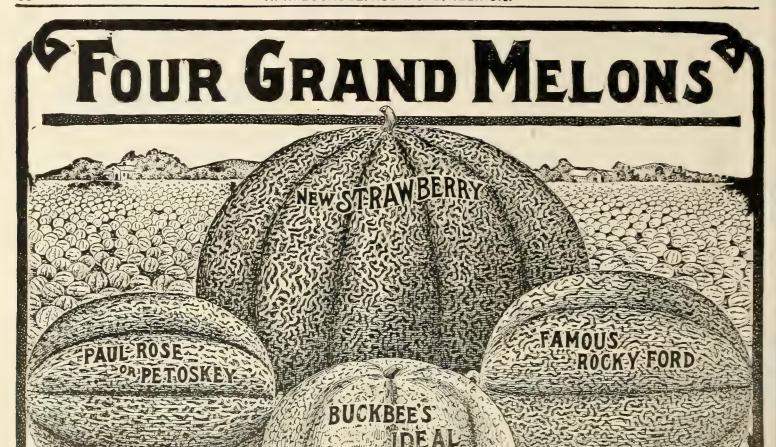

Mammoth Black Seeded Mammoth Black Seeded Butter—A strain of large, smooth-leaved head Lettuce, forming large, solid cabbage-like heads of thick, brittle leaves, inner ones becoming very white, tender and fine flavored. Pkt. 4c.; oz. 8c.; 2 oz. 15c.; ¼ lb. 25c.; ¼ lb. 40c.; lb. 75c.

Philadelphia Butter—Often Called California Butter, or Cabbage Lettuce—Many prefer a large-growing, thick-leaved, smooth, rich flavored Lettuce, and to meet this demand we present this sort. Plant dark green, with many nearly round, thick leaves; formed into a very solid, round head which stands a long time without running to seed. Leaves very thick, folded or puckered at the base, the inner ones blanched to a rich yellow color, and exceedingly rich and nutty in flavor. Pkt. 4c.; oz. 8c.; 2 oz. 15c.; ¼ lb. 25c.; ½ lb. 40c.; lb. 75c.

Mrs. Lampe, St. James, Ill., writes: "The seeds you sent us wero very fine; we had the best garden here. All came up well and did splendidly. The Lettuce was the best I ever had."

Buckbee's Rockford Seed Farms are Noted or Lowest Prices, Best Seed, Promptness and Accuracy.

MAGNIFICENT AND **Phenomenal Varieties**

GERMAN MELONE. FRENCH MELON. SPANISH MELON.

Cne ounce of seed for 60 hills; two to three pounds in hills for an acre.

NEW STRAWBERRY MUSK MELON.

Flavor like that of a strawberry, hence the name. It grows to be a desirable market size; the fruits weigh from 6 to 8 pounds each. Its outside appearance compares favorably with the green numer of old, turning to a yellowish hue, as it were, over night, when fully ripened. Its smooth, deep flesh is of an attractive orange-red color, particularly soft and melting, and with that exceptionally delicious strawberry flavor leaves nothing more to be desired in a Musk Melon. Mr. Bock, the veteran Melon grower, who has honored me with the introduction of the Strawberry Musk Melon, writes: "This grand Melon was originated by planting the most luscious variety of strawberries between every other row of a New Hybrid Musk Melon that I had previously perfected." While the stock of this new acquisition is but limited, I am going to offer it as follows as long as my seed supply lasts: Price, choicest seed of our own growing, Pkt. 5c.; oz. 10c.; 2 oz. 16c.; 1/4 lb. 30c.; 1/2 lb. 55c.; lb. \$1.00. NEW TRIUMPH.

I feel honored that the originator, Mr. Beck, should select me to irtroduce the Triumph, certainly the finest Musk Melon yet produced. It is a successful cross between the popular Osage and Columbus, retaining the external appearance as well as the unsurpassed share and quality of the latter, differing, however, inside, possessing a fine rich red salmon color flesh, like its parent, the Osage, and some are that way clear to the rind. Thus combined, it possesses a flavor far superior to both. It grows from 10 to 15 pounds in weight, never cracks open on the ends, stands handling for many dars in market without losing its fine appearance, which sells them at sight. A great yielder. Pkt. 5c.; oz. 10c.; 2 oz. 15c.; ½ lb. 2cc.; ½ lb. 4cc.; lb. 75c.

PAUL ROSE, OR PITCHILY MUSK MILON,

Unsurpassed in Quality and Unexcelled for Elipping.—In this new sort are combined all the good qualities of the Netted Gem and Osage, the varieties from which it originated. The fruit is oval, about 5 inches in diameter, and in shape and general appearance similar to the well-known Netted Gem or Rocky Ford. The firm flesh is a rich orange red color like that of the Osage, but even sweeter and higher flavored, retaining its good qualities quite to the rind. We have found the fruit the most uniformly good of any Musk Melon we have ever grown. It is rure that a Musk Melon of such superlative quality is a good market or shipping sort, but the firm, solid fle h, and thin, but strong rind of this sort make it the best shipper we know of, while it is just the size for hotel and table use. We think it really has no equal as a market Melon for professional Melon grower or gardener who does not try it will certainly make a mistake.

Pkt. 4c.; oz. 7c.; 2 oz. 12c.; ½ lb. 25c.; lb. 60c.

BUCKBEE'S WISTIRN GIANT.

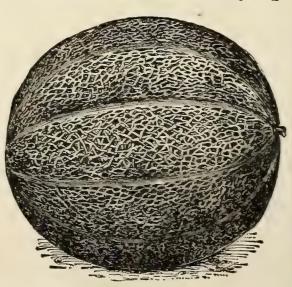

Largest of all Musk Melons, often weighing 30 pounds and over; the flesh is great the content of the surface of all Musk Melons, often weighing and and over; the flesh is great the content of the content of the content of the content of th

Largest of all Musk Melons, often weighing 30 pounds and over; the flesh is rich, melting and sugary. As an exhibition and large market variety it is grand. It will astonish every one by its merits, being exceptionally desirable for family and market purposes. For shipping it has no superior. Pkt. 5c.; oz. 10c.; 2 oz. 16c.; ½ 1b. 30c.; ½ 1b. 55c.; lb. \$1.00.

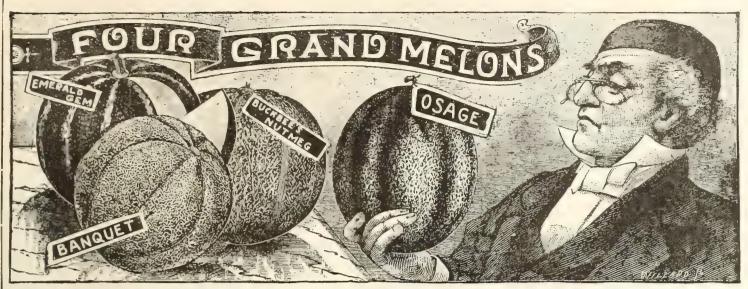

THE FAMOUS BOCKY FORD MUSK MELON.

Heavenessed in Lucious Flower. Always brings the highest series.

Unsurpassed in Luscious Flavor. Always brings the highest price on the market. Most desirable size. Ideal for dessert. A healthy, vigorous grower. Exceedingly prolific, This is an improved strain of Netted Gem, growing a little more oblong in shape. Originated at Rocky Ford. It is the most popular of all Melons for shipping in baskets. The fruit is oval and slightly ribted, and densely covered with a fine netting. It has a thick flesh; very sweet; finely flavored. They will grow very uniform in shape and color. Very productive. Send to Buckbee for Originator's Selected Stock Seed. Large Pkt. 4c.; oz. 10c.; 2 oz. 15c.; ¼ lb. 25c.; ½ lb. 40c.; lb. 75c.

BUCKBEE'S WESTERN GIANT.

Emerald Com—The standard of excellence among the salmon-fleshed varieties. Fruits small to medium size, globular or very slightly flattened at the ends, only slightly netted and ribbed. Skin deep green while young, becoming tinged with yellow as the fruit matures; flesh deep salmon yellow, thick ripening close to the rind; unsurpassed in flavor. Leads them all in many large markets. Ptt. 4c.; oz. 8e; 2oz. 15c.; ½ lb. 25c.; ½ lb. 40c.;

Osage, or Improved Miller's Cream—This Melon has made its way into public favor from the market rather than the garden, and is highly prized by those who like an exceedingly sweet and highly-flavored Melon. It is medium sized, oval, slightly ribbed, dark green in color, covered more or less with shallow netting. The flesh is deep salmon color and very thick, there being but a slight cavity in the center of even the largest fruit. A favorite variety for the market We have taken a great deal of pains to develop the thick, deep, rich colored and fine flavored flesh of this sort, and a careful comparison on our trial grounds proves it to be anequaled even by "special selected seed" offered at very high prices. Pkt. 3c.; oz. 7c.; 2 oz. 12c.; ½ lb. 20c.; ½ lb. 35c.; lb. 60c. 2 oz. 12c.; ¼ lb. 20c.; ½ lb. 35c.; lb. 60c.

New Winter Fineapple—A new Melon of much value owing to the fact that it can be kept until Christmas or later. The color of the flesh is a deep lemon-yellow, and the outer skin is dark green, marked with yellow. The quality is delicious, having a rich, spicy flavor that is not possessed by any other fruit. These Melons have much thicker and finer flesh than ordinary Musk Melons, hence their long-keeping qualities. They very rarely ripen on the vines, so the Melons must be picked off in the fall and put in some cool place, where, however, there is no danger of freezing until they are wanted. It is usually necessary to place them in a warm room for three or four days before using, so as to ripen thoroughly; in this way they can be had for the winter months. Pet. 5c.; oz. 150.; 202. 25c.

Buckbee's New Prolific Nutmeg-The finest of all nutmeg melons. Fruit chee's New Prolific Nutmeg—The finest of all nutmeg melons. Fruit of medium size, slightly ribbed, globular. Skin dark green, becoming yellow when over-ripe and nearly covered with broad, shallow netting. Flesh thick, of fine flavor. This variety is in universal demand. My tock is carefully grown and selected and will be found first-class in every particular. Pt. 40.; oz 80.; 2 0z. 150.; ¼ lb. 250.; ½ lb. 400.; lb. 750.

The Banquet -Medium sized Melon of perfectly round shape, densely netted over is entile surface. The flesh is dark rich salmon color, and uniformly thick. In flavor it is unsurpassed, rivaling the Emerald Gem. Pat. 3c; cz. 7c.; 2 cz. 12c.; 14 lb. 20c.; 1/2 lb. 20c Buckboe's Ideal--"The most delicious of all Musk Melons," is the ver-dict of everyone who has tried this magnificent sort. Weighs

dict of everyone who has tried this magnificent sort. Weighs from 16 to 15 pounds; exceedingly thin skin. Good keeper and an excellent shipper. The flesh is of a rich salmon color, of a sweet, pleasing and delicious flavor. It will please you for all purposes. I am the introducer of this best of all varieties. Seed offered by other parties under similar name is spurlous. Be sure to include this variety in your order. Fit. 5c.; 2z. 10c.; 2 oz. 15c.; ½ lb. 25c.; ½ lb. 40c.; lb. 75c.

True Jennie Lind--(Green Flesh). This is the earliest of the greenfirshed sorts, and one of the sweetest. It is round or flattened. In size it is small, being from 3 to 5 inches in diameter; a very convenient size for serving in halves. It is more largely grown in the great Melon-producing State of New Jersey than any other sort, and is used in enormous quantities in the Eastern cities and at the seashore resorts. The vines are very prolific, and the culture profitable. My strain of seed is the best. Fit. 4c.; cz. 7c.; 2 oz. 12c.; ½ lb. 18c.; ½ lb. 30c.; lb. 50c.

Cannon Ball—This novelty was introduced from Texas as "the finest

Cannon Ball—This novelty was introduced from Texas as "the finest flavored and best shipping Musk Melon in America." It is containly a fire Melon! In shape it is round as a ball, medium size, 6 to 8 inches in diameter, and heavily netted. The flesh is light green, melting and deliciously flavored, remarkably solid, with extremely small seed cavity. It is very prolific and continues in bearing a long time. Pkt. 3c. 02. 7c.; 2 02. 120.; 1/4 lb. 20c.; 1/4 lb. 5c. 1/4 fle. ½ lb 35c.; lb. 60c.

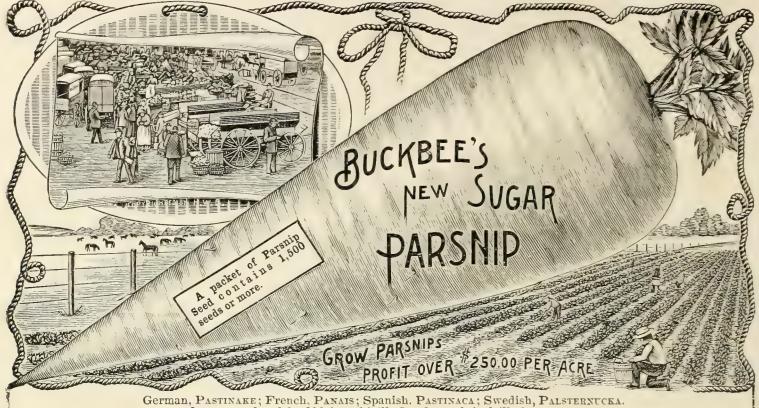

I can also supply the following new and standard varieties of Musk Melons which are too well known to require extended description, at the uniform price of: Pkt 3c.; oz. 6c.; 2 oz. 10c.; ½ 1b. 15c.:

ANNE ARUNDEL, TRUE TIP TOP, MONTREAL MARKET, COSMOPOLITAN, HENDERSON'S PERFECTED DELMONICO. MELROSE, GOLDEN NETTED GEM, NEW EARLY HACKENSACK, NEWPORT, BECK'S NEW COLUMBUS, CHICAGO MARKET, SILVER NETTED GEM. NOTICE-Our crop of Musk Melon Seed was very short again last season. When our own growth seed is exhausted we shall have no

"ckbee's Rockford Seed Farms Are Noted for Lowest Prices-Best Seeds-Promptness-Accuracy.

German, Pastinake; French, Panais; Spanish, Pastinaca; Swedish, Palsternucka. One ounce of seed for 200 feet of drill; 5 to 6 pounds in drills for an acre.

PARSNIPS are well known as a delicious table vegetable, but their value for the purpose of feeding cattle and stock is but little appreciated. The parsnip is rich in saccharine food, which adds greatly to the richness of the milk when fed to cows, while the fresh succulent roots increase the flow of milk as greatly as does the use of fresh, green food in the spring. It is especially valuable for the purpose from its extreme hardiness, as the roots can be left in the ground all winter and improve in quality by the continued freezing.

BUCKBEE'S NEW SUGAR.

The best Parsnip on earth, so say thousands of my customers, who made trials of this variety in 1904, and after repeated trials at Rockford Seed Farms during the past six years. I have no hesitancy in offering you this splendid new Parsnip. Roots grow to a fine size, of good diameter, enabling them to be easily gathered; the roots are exceedingly smooth, the flesh is fine grained and of the most excellent quality. A magnificent cropper, yielding as high as 750 bushels per acre under good cultivation. You will not be disappointed by planting Buckbee's New Sugar Parsnip for any purpose for which this desirable vegetable is used. Remember that I control the entire stock of this repriety for 1005. Sond to Rushee for the True Sugar. variety for 1905. Send to Buckbee for the True Sugar. Pkt. 5c.; oz. 10c.; 2 oz. 18c.; 1/4 lb. 35c.; 1/2 lb. 60c.; lb. \$1.00.

NEW MALTESE.

A greatly improved and wonderfully fine strain. The roots do not grow as long as the Hollow Crown, but are of greater diameter and more easily gathered; very heavy cropper. The roots are very smooth, flesh fine grained and of most excellent quality. A yield of 500 to 600 bushels per acre is of common occurrence. Fine for home use, market and shipping, while for stock purposes it is sure to give the best of satisfaction. Pkt. 4c; oz. 6c; 2 oz. 10c.; ½1b. 15c.; ½1b. 25c.; 1b. 40c.

Improved Hollow Crown, or Long White Sugar. Roots comparatively short, ending somewhat abruptly with a small tap root; grows mostly below the surface, has a very smooth, clean skin, easily distinguished by the leaves arising

from a depression on top or crown of the root. Pkt. 3c.; oz. 6c.; 2 oz. 9c.; ½1b. 12c.; ½1b. 20c.; 1b. 35c.

I always consider it a personal favor to have my friends speak a good word for Buckbee's Seeds and Plants.

Swedish, PARSALIA;

Extra Dwarf Curled, or Emerald—The moss-like leaves are a handsome, bright green color, and are finely crimpled and curled. For garnishing, no variety is more attractive. Pkt. 3c.; oz. 6c.; 2 oz. 10c., ¼lb. 18c., ½lb. 30c.; lb. 50c.

New Moss Curled—A greatly improved type of this useful class of herbs. Most exquisite in form and color. Invaluable as a garnishing plant, and suited for mixing with dwarf, ornamental foliage plants in the garden. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; 2 oz. 10c.;

PARSLEY.
German, Petersilie: French. Persil; Spanish, Pericil;
Swedish, Parsalia;

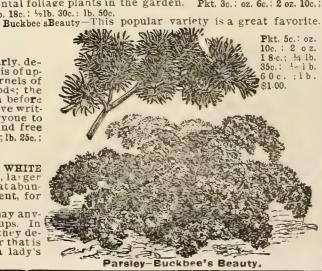

341b. 18c.

NEW MAMMOTH VIRGINIA—A new. very early, desirable and a most valuable variety to grow. It is of upright growth and has the largest pods and kernels of any variety; always yields fewer imperfect pods; the vines make valuable forage for stock. Plant in April and they will ripen before September, even as far north as Canada. Hundreds of my young friends have written me that they had a wonderful crop the past season. It will pay everyone to try them. Plant 2 inches deep, 8 inches apart in the row, and keep the ground free from weeds. When ripe, pull or dig up and dry. Pkt. 5c.; ½lb. 10c.; ½lb. 15c.; lb. 25c.; 5 lbs. \$1.00. Postpaid.

5 lbs. \$1.00. Postpaid.

German. Esasbarer; French, Gombo; Spanish, Quibombo. IMPROVED WHITE VELVET—Standard sort Popular everywhere Pods are round and smooth, larger than those of any other sort, never prickly to the touch. Produced in great abundance. The seed pods are used while they are small tender and succulent, for soups and stews. Pkt. 2c.; 0z. 5c.; 14lb. 12c.; 16b. 20c.; lb. 30c.

NEW LADY FINGER—To our friends in the South it is unnecessary to say anviting about the advantage of your green seed pods of Okra for flavoring soups. In the Middle and Northern States they are not so thor-ughly appreciated as they deserve to be Seed pods produced in abundance, give a consistency and flavor that is unequaled. Quite prolific, produring long, slender pods of the form of a lady's finger. Pkt. 3c.; 0z. 6c.; 2 oz. 10c.; 16c.; 16c.; 16c. 16c. 16c.

BUCKBEE'S MONTE CRISTO CHALLENGE THE WORLD TO PRODUCE MR. P. F. CORUM. Rutledge, Tenn., Writes: Rutledge, Tenn., Writes:

A BETTER MELON

A Packet of Watermelon Seeds, according to size of seeds, contains from 50 to 150 seeds. MR. P. F. CORUM, Rutledge, Tenn., writes:— "I am sorry I have not the language ty express the good quatties of your Monte Cristo Water Melon. It is certainly the finest and sweetest Water Melon in the world. I will want a good supply of seed for myself and neighbors the coming season."

Sweetest Flavored Water Melon in Cultivation \$\alpha \alpha \alpha\$

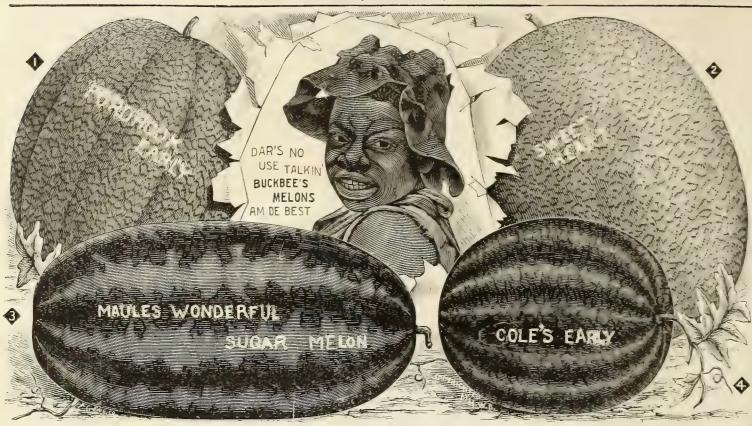

The Skin and Flesh are of Splendid Color. It is very Heavy. Has no Equal as a Shipping or Market Melon. Early, Large, Handsome, Good Shipper, Long Keeper.

In hundreds of markets the past season it found ready sale at good prices when all other sorts went a begging for a buyer. This grandest of all varieties has been extensively grown the past few seasons in almost every meion growing locality of the world, and in not one single instant has it failed to meet the expectations of the planter. The reports received from every section that all were delighted with it prove that in the hands of my customers BUCK-BEE'S MONTE CRISTO has given the same surpassing results as our careful trials at Rockford Seed Farms.

said thousands of my customers who planted Monte Cristo in 1902. Never before in the history of the seed trade has so much seed of a new Water Melon been sold in one year, and what is more, every customer was pleased, fully substantiating my claims for its being the largest early Water Melon to mature, ripening in the remarkably short period of 65 to 80 days, and weighing, under ordinary cultivation, 60 pounds. The greatest yielder. The sweetest, juiciest crisp and most solid melon lever produced, never having a hollow or pithy center when ripe. The easiest to sell on the market, for when once tried people will have no other. Many of my customers have written me the past year that they have cleared \$100 or more per acre by growing Buckbee's Monte Cristo Melons. Under average cultivation you can do as well or better. Will you not try it this year? It is a grand, good shipper; has a firm, solid rind, not too thick, yet will stand the most severe handling. The outside skin is of a rich, dark green color, shaded with faint stripes of a somewhat lighter color. Certainly the finest appearing melon ever grown for market, shipping or table purposes. Mr. Dodge, the veteran melon grower, says: "Buckbee's Monte Cristo is the best melon I ever raised." What more can you ask when I say: "Not half of its good qualities have been told." I only wish that the space in this book would permit of including the thousands of expressions received from my customers all over the globe. While my supply of seed is larger than ever before, I already have large advance orders from my customers and I would advise all who care to plant this "King of all Melons" in 1903, to place their orders as early as possible. Please remember that I control the entire product of this variety, so send to Buckbee for choicest stock seed of Monte Cristo Melon. The price is within the reach of all.

Price of choicest stock seed of our own growing: Pkt. 10c.; oz. 15c.; 2 oz. 25c.; $\frac{1}{4}$ lb. 35c.; $\frac{1}{2}$ lb. 60c.; lb. \$1.00; 5 lbs. \$4.00, prepaid.

of the KIRCS

WATERMELON SEED. BUCKBEE'S SELECTED

ONE OUNCE FOR THIRTY HILLS; TWO TO FOUR POUNDS IN HILLS FOR AN ACRE.

Melon growing for seed purposes only is a leading specialty of my establishment. My seed is saved from the choicest specimens. Hundreds of thousands of pounds have been furnished my customers to their entire satisfaction, without a single complaint, for the simple reason it has never been my practice to market all the best Melons and save all the culls for seed purposes. Seeds from the best Melons only are none too good for my customers.

Culture The essential thing is to get good, strong vines early in the season, which may be secured by forming large, well-drained mixed with the soil, for if left in a mass it will lead to the plants borning out under the hot sun and thus to the failure of the crop. In these hills plant the seed as soon as the ground is warm and dry, and carefully protect the young plants from insects, and hasten their growth by the use of liquid manure.

growth by the use of liquid manure.

Sweet Heart—An entirely new and distinct Water Melon, which is early, large, handsome, heavy, good shipper, long keeper, bright color and of best quality. Carloads of Sweet Hearts were sold at fancy prices when no other was saleable. Vines vigorous and productive, ripening its fruit early. Fruit large, oval, heavy, uniformly mottled light and dark green; rind thin, but firm; fiesh bright red, firm, solid, very sweet and tender. A good keeper. Pkt. 4c.; oz. 7c.; 2 oz. 12c.; ½ lb. 18c.; ½ lb. 30c.; lb. 50c.

Maule's Wonderful Sugar Melon—Called by some firms McIver's Sugar. Excellent new variety. In fact, it has already become so popular that it is grown in some localities to the exclusion of most other sorts, Of large size, Melons of 40 to 60 pounds being of average occurrence. Flesh red and deliciously sugary. Very prolific; does well in any weather. Fine keeper. Pkt. 4c.; oz. 7c.; 2 oz. 12c.; ½ lb. 18c.; ½ lb. 34c.; lb. 60c.

Cole's Early—The finest Melon ever offered for the amateur and for the home market. Being somewhat brittle will not do for shipping purposes. Very early and will mature in every state. Very hardy, vigorous and a sure cropper. Flesh sweet and delicate in textifice of a deep red color. The rind is thin and the quality of the flesh is sustained clear to the rind. Melons medium size, nearly round in shape; rind green, striped with lighter shades. Pkt. 4c.; oz. 7c.: 2 oz. 12c.; 13 lb. 18c.; 1/2 lb. 30c.; lb. 50c.

Ib. 18c.; ½ lb. 30c.; 10. 50c.

Fordhook Early—As shown in the illustration engraved from a photograph, the form is nearly round. The average weight of the Melon is 35 pounds each, a size rarely attained by any other extra early Melon under favorable conditions. The rind is tough, making it a valuable variety for shipping. The outer color is a uniform medium green. Flesh a bright red and very sweet. Pkt.4c.; oz. 7c.; 2 oz. 12c.; ½ lb. 18c.; ½ lb. 30c.; lb. 50c.

30c.; lb. 50c.

Buckbee's Ice Cream, or Peerless—
The great favorite and standard variety. Superior in every respect. Has beautiful crimson core, which is always fine core, which is always fine grained and cannot be surpassed in flavor. Very prolific, magnificent grower. Is one of the best for market and home purposes. Pkt. 4c.; oz. 7c.; 2 oz. 12c.; 1, 1b. 18c.; 1, 2 lb. 30c.; 1b. 50c. Everhearing—Always Sweet. The Earliest Water Melon in the World. This is absolutely the earliest Water Melon known, and is sure to be first in the market. It is of most delicious thator, very juicy and sweet and is splendid for family use, as a few vines yield many early Melons. Everybody should try this new early Water Melon, It is the Melon to plant if you are in a climate where the seasons are short, for it will ripen where other varieties will not. It is certainly a splendid Melon for every purpose. Just the size for family use. The flesh is deep red in color and exceedingly brittle. By all means try this eveollet melon. Pkt. 5c.; oz. 10c.; 2 oz. 15c.; ½ 1b. 25c.; ½ 1b. 4.c.; lb. 75c.

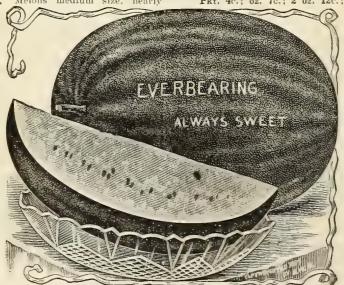

Black Diamond—Originated in the famous Water Melon district of Indiana, near the home of "Sweet Heart" and "Hoosier King" and has had five years careful selection and improvement. Pkt. 4c.; oz. 7c.; 2 oz. 12c.; ¼ 1b. 18c.; ½ 1b. 50c.; lb. 50c.

Hoosier King—A Melon with exceptional qualities. The Melons grow oblong and are of an even diameter through their entire length. The flesh is brilliant r-d, very solid, sweet and luscious. The skin is striped light and dark green; the rind is very thin, but exceedingly hard, which renders it a valuable shipping sort, as well as a desirable variety for family and market purposes. Pkt. 4c.; oz. 7c.; 2 oz. 12c.; ¼ 1b. 18c.; ½ 1b. 30c.; lb. 50c.

Girardeau's Favorite-One of 11. rardeau's Favorite—One of the very largest and best in cultivation. It attains an enormous size. The flesh is of a beautiful clear crimson, extending clear to the rind, which is hard, thin and beautifully mottled light and dark green. Pkt. 4c.; cz. 7c.; 2 oz. 12c.; ½ lb. 10c.; ½ lb. 30c.; lb. 50c, lbbb—A very large solid and

12 lb. 30c.; lb. 50c.

Nabob—A very large, solid and heavy Melon of splendid keeping qualities. Slightly oblong in shape, with a little depression at the bloom end or eye, telor dark green, peculiarly mettled with light green spots, which might seggest irregular cawing. Weight, 30 to 5 tours, the sweet and luscious. Medium early and of magnificent keepsweet and luscious. Medium carly and of magnificent keeping qualities, remaining in an edible condition for an unusually long time. An excellent shipter and very attractive as a market Melon. This variety has certainly more than ordinary worth. Be sure and give it a trial. Pkt. 4c.; oz. 7c.; 2 oz. 12c., 14 lb. 18c.; 12 lb. 30c.; lb. 50c. 12c. 13 lb. 50c.

BUCKBEE'S PERFECTED

KOLB'S GEM

BUCKBEE'S LUSCIOUS MELONS.

Kleckley Sweets-First introduced and offered by me in 1895. in which year I purchased the entire crop of seed from Mr W. A. Kleckley, of Alabama, the noted Melon grower. During that season I sent out several thousand packet of seed for trial. The reports received from every section, as well as our own trials, proved it to be a surpassingly fine new Melon, and in 1896 offered it on page 26 of my catalogue. Without question it is one of the sweetest flavored of all Melons. Oblong in shape; skin dark green; flesh bright red, solid and luscious. Valuable alike for market or family purposes. The first original seed can be had from no other seedsman. Beware of imitations. Proofs substantiating my claims freely furnished if desired, Pkt. 4c.; oz. 7.; 2 oz. 12c.; 1/4 lb. 18c.; 1/4 lb. 30c.; lb. 50c.

12c.; ¼ lb. 18c.; ½ lb. 30c.; lb. 50c.

Buckbee's Perfected Kolb's Gem—For years I have been working to secure the one main feature which was lacking in the original Kolb's Gem—quality. At last success has rewarded my efforts, and I take pleasure in offering to my enstomers this "perfected varie'y." Vines of medium size, but remarkably vigorous and healthy. Leaves of medium size, deeply cut with a peculiar frilled edge. Fruit of the largest size, round or slightly oval, marked with irregular mottled stripes of dark and light green, while the under side is of a creamy yellow color, suggestive always of the most superior quality. Outer rind or shell exceedingly hard and firm, making it a good sort for shipping long distances. Flesh bright red, solid, sweet, tender and melting. I control the entire supply of seed of this variety. Pkt. 4c.; oz. 7c.; 2 oz. 12c.; ½ lb. 18c.; ½ lb. 30c.; lb. 50c.

distances. Flesh bright red, sond, sweet, tender and mething. I control the entire supply of seed of this variety. Pkt. 4c.; oz. 7c.; 2 oz. 12c.; ½ lb. 18c.; ½ lb. 30c.; lb. 50c.

Duke Jones-One of the most productive and largest of Melons, A Melon of fine appearance, large, round, solid ment, and of fine flavor and a heavy yielder and early. It is a very good shipper, and suitable for the home garden. Pkt. 3.; oz. 6c.; 2 oz. 10c.; ½ lb. 15c.; ½ lb. 25c.; lb. 40c.

Jones' True Jumbo—This grand tew variety originated with Mr. Jones, of Georgia, and its claims are "The Best Water Melon in the World "Phe color of the skin is solid green, and the flesh is a very bright red, particularly sweet, juicy and melting. It grows to a large size, frequently attaining the weight of 80 pounds. In shape it resembles "Kolb's Gem, and like that variety is one of the best shipping sorts. Invaluable for family and market uses. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ½ lb. 15c.; ½ lb. 25c.; lb. 40c.

New Dixie—Grand new acquisition, possessing the rich, juscious flavor of the old "Mountain Sweet." combined with the excellent shipping qualities of "Kolb's Gem." The skin is of a dark green color and beautifully striped. The flosh is of a bright scarlet, very sweet, tender and juicy, sells readily on all markets, bringing the highest price. It is a great favorite, being strong and firm in growth, with the valuable quality of rooting at almost every joint, thereby mereasing the bearing of the vines, which, as every Melon grower will recognize, is of great importance to the maturing crop. Carefully selected stock, Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ½ lb. 15c.; 4 lb. 25c.; lb. 40c.

Semiole—One of the most popular varieties grown. Extra early, very productive, extra larger and of spelndid flavor. The seed will often produce gray and green Melons on one vine, but the number of the former predominates. It is undoubtedly one of the very best Melons one tall then in themkness. Independent of its delicous flavor, its rich, golden-yellow color will make it

Hungarian Honey—(See Cut). This fine new variety is very appropriately so called, as it is surpassingly sweet and luscious; of a very rich honey flavor, richer and sweeter to the taste than any other Water Melon. The flesh is of an intensely red color and absolutely stringless, completely melting in the mouth, and of the same beautiful red color up to within one-fourth of an inch or less of the outer skin. The Melons ripen early and the vines are healthy and very productive. You should try it. Pkt. NEW DIXIE healthy and very productive. You should try it. Pkt. 4c.; oz. 8c.; 2 oz. 15c.; ¼ lb. 25c.; ½ lb. 40c.; lb. 60c. SEMINOLE REEN AND GOI I can also supply the following well-known varieties of Water Melons of established merit, which are too well-known to require extended description, at the uniform price of Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ½ lb. 15c.; ½ lb. 25c.; lb. 4cc. BUCKBEE'S NEW SANDWICH ISLAND Pumpkin cket of its act of 080 seeds. DELO

Buckbee's New Sandwich Island Pumpkin

PUMPKIN An
Eminent
and Surprisingly
fine Variety

It affords me great pleasure to present to you this new It affords me great pleasure to present to you this new "Pumpkin Novelty." My customers well know from experience that I never offer a novelty unless it has been carefully tested, and this new Pumpkin is no exception. Coming from a remote section of the Sandwich Islands—where by chance my representative found it—it has already created a great furor in its new home. Remarkably distinct in every way, of fine size, very prolific bearer, and deliciously thick flesh. An excellent keeper. Certainly a grand future is in store for this new Pumpkin. Seed is naturally scarce this season, yet I place the price within the reach of all. Order early before my supply is exhausted. Choicest seed of my own growth. Pkt. 5c.; oz. 15c.; 2 oz. 25c.; ½ lb. 35c.; ½ lb. 60c.; lb \$1.00.

New Winter Luxury—This I recommend as one of the best Pie Pumpkins; an excellent keeper and enormously productive. It is very finely netted and in color it is a golden russet. Pkt. 4c., oz. 8c.; 2 oz. 15c.; ¼ 1b. 25c.; ½ 1b. 40c.; 1b. 75c.

Large Cheese, sometimes called Kentucky Field—Large, round, flattened fruits with broad ribs; creamy-buff skin; averages two feet in diameter. It is an excellent keeping variety, with thick flesh of exceptionally fine quality. Very popular for all purposes. Pkt. 3c.; cz. 6c.; 2 cz. 10c.; ¼ lb. 18c.; ¼ lb. 30c.; lb. 50c.

New Calhoun—Extraordinary fine variety, heavy and solid, very productive and of excellent quality. Outside is a rich green color flesh

ductive and of excellent quality. Outside is a rich cream color, flesh salmon yellow, very thick, fine grained and of superior quality. One of the very best for general purposes. Pkt. 4c.; oz. 8c.; 2 oz. 14c.; ¼ lb.

20c.; 16 lb. 35c.; lb.60c.

the best Pie Pumpve. It is very finely oz. 8c.; 2 oz. 15c.; 4

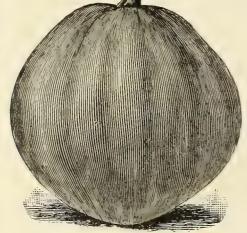

Large, round, flatverges two feet in the thick flesh of exses. Pkt. 3c.; oz. 6c.;
and solid, very productive productive variety. One 8c.; 2 oz. 14c.; 4 lb.
and solid, very productive variety. One 8c.; 2 oz. 14c.; 4 lb.
and solid, very productive variety. One 8c.; 2 oz. 14c.; 4 lb.
and solid, very productive variety. This fine new variety is already a standard; very productive variety and skin are a cellent keeper. Flesh fine grained, clear and sweet, making it valuable for pies and other table uses. Pkt. 4c.; oz. 8c.; 2 oz. 14c.; 4 lb. 25c.; 4 lb. 25c.; 2 oz. 14c.; 4 lb. 25c.; 4 lb. 2

Cashaw, or Crookneck—Flesh yellow, solid and sweet. Popular for table. Pkt. 3c.; oz. 8c.; 2 oz. 14c.; ¼ lb. 20c.; ½ lb. 35c.; lb. 60c. Quaker Pie—This comes from Washington County, New York. It is both hardy and product

both hardy and productive, and can be depended on to make a crop when others fail. Especially valuable for pies, being fine grained and of rich flavor, having none of the stringy

New Japanese Pie.

ing none of the stringy nature common to so many varieties. It is early and keeps late. It is oval shaped and tapers at each end, is of cream color both inside and out. Users of this strain are enthusiastic in their praises and invariably speak well of it. Pkt. 4c.; oz. 8c.; 2 oz. 15c.; ¼ lb. 25c.; ½ lb. 40c.; lb. 75c.

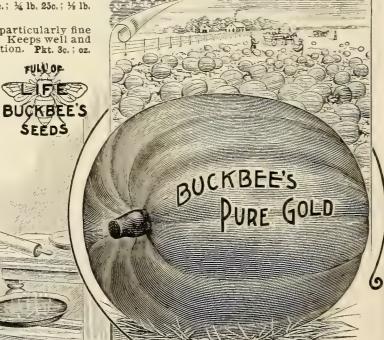

Buckbee's True Sugar Pie Pumpkin—A Very Superior Variety. A particularly fine orange-colored sort, remarkably sweet, fine grained and dry. Keeps well and cannot be beat for table use. Always gives the best satisfaction. Pkt. 3c.; oz. 8c.; 2 oz. 14c.; ¼ lb. 20c.; ½ lb. 35c.; lb. 60c. FULLOF

Western Field-One of the best varieties for field purposes, particularly desirable for feeding stock. Grows to a fine size, color rich yellow, flesh fine grained, of good flavor. Postpaid, lb. 35c. By express or freight, at buyer's expense, 5 lbs. \$1.25.; BUCKBEE'S lb. 35c. By 10 lbs. \$2.25.

Buckbee's Pure Gold Field Pumpkin—Acknowledged by all the best field Pumpkin. either for growing with corn or in fields by itself. Excels for feeding stock, and, best of all, makes the most delicious Pumpkin pies. Deep, rich, creamy-yellow color, fiesh fine grained and of excellent flavor. Choice stock seed by mail, postpaid, oz. 5c.; ½ lb. 15c.; ½ lb. 25c.; lb. 40c. By express or freight, at buyer's expense, 5 lbs. \$1.50.; 10 lbs. \$2.75.

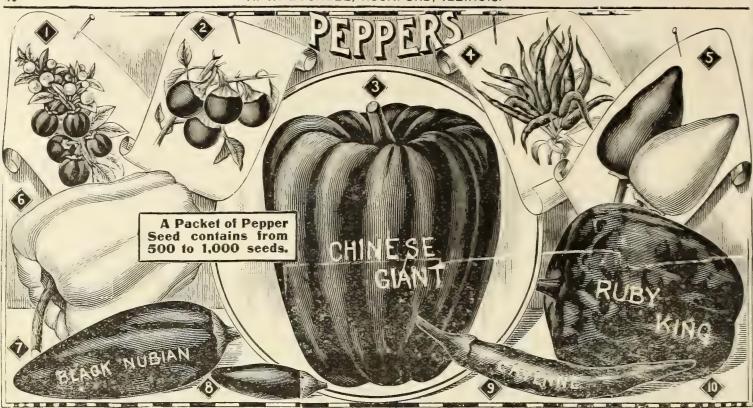

Reliable Pumpkin Seed is Scarce This Year.

SEEDS

GROW PEPPERS--ALWAYS MONEY MAKERS.

German, Pfeffer; French, Piment,

THE hot, punzent flavor of a Pepper is in inverse ratio to its size, the smell Pepper being the hottest, while the large varieties are quite mild in flavor. Every vegetable garden should have several varieties, while some are sufficiently beautiful to include in the flower garden. In the culture of Peppers use the same methods as for Egg Plant. The plants need quite as much heat to perfect them, but mature sooner and may be sown later or even planted out of doors after warm weather has fairly set in. No trouble whatever to grow, when once up. Guano, hen dung or any other bird manure hoed into the surface soil when the plants are about 6 inches high, will wonderfully increase the quality of the fruit.

Ruby King—10—An improved A market soon sort reaching the largest. Chinase Circle 2. Double the size of Darket Company of the first and Darket Chinase Circle 2. Double the size of Darket Chinase Circle 2. Double the size of Darket Chinase Circle 2. Double the size of Darket Chinase Circle 3. Double the size of Darket Chinase Circle 3.

Ruby King—10—An improved American sort, reaching the largest size, yet retaining the symmetrical shape of the smallest sorts. It is very bright colored, temptingly sweetly mild flavored and one of the best for stuffed pickles. Pkt. 4c.; oz. 18c.; 2 oz. 30c.; 1/4 lb. 50c.

It is very bright colored, temptingly sweetly mild flavored and one of the best for stuffed pickles. Pkt. 4c.; oz. 18c.; 2 oz. 30c.; ½ 1b. 50c.

Large Bell, or Bull Nose—A very large sort of inverted bell shape, suitable for filling or for mixed pickles. Flesh thick and less pungent than most other sorts. Pkt. 3c.; oz. 12c.; 2 oz. 22c.; ¼ 1b. 40c.

Sweet Mountain—Plants very vigorous and productive, growing upright with moderately large leaves. Fruit very large, long, often 8 inches or more in length, by 2 or 3 in diameter, very smooth and handsome, being, when green, of a bright, deep green color, entirely free from any purple tinge, and when mature of a rich red. Flesh very thick, sweet and mild flavored. Well suited to use as a stuffed pickle. Pkt. 4c.; oz. 15c.; 2 oz. 28c.; ¼ 1b. 50c. lack Nubian—7—A most novel sort. Long, tapering, sharp pointed fruit, 6 inches long, and of a deep, glossy black color until fully ripe, when they change to a dark orange red. Fruit is very fiery, and is superior as a flavoring for picealilli chowchow, etc. Makes a unique pot plant. Pkt. 4c.; oz. 20c.; 2 oz. 35c.; ¼ 1b. 60c.

Long Red Cayenne—9—A long, slim-pointed pod, and when ripe of a bright red color. Extremely strong and pungent. Pkt, 3c.; oz. 12c.; 2 oz 22c.; ¼ 1b. 40c.

New Long Yellow Cayenne—A very fine, new variety, identical to above, except color, which is of a beautiful golden yellow shade. Pkt, 4c.; oz. 20c.; 2 oz. 35c.; ¼ 1b. 60c.

Chinese Ciant—3—Double the size of Ruby King and equally as mild. Not only is it early in ripening and immensely productive for so large a pepper, but its enormous size will cause it to sell readily. Very vigorous, hardy grower, and a valuable varjety for either the home or market garden. Large Pkt. 10c.; oz. 30c.; 2 oz. 50c.; 1/4 lb. 90c.

Celestic1—5—Very beautiful Chinese novelty. The plant starts to bear early and continues until frost. Until fully ripe, the Peppers are of a delicate creamy yellow color, then suddenly change to an intense, vivid scarlet, carried upright. Superior quality, fair size, clear, sharp flavor. Valuable for pickles and Pepper Sauce. Pkt. 4c.; oz. 15c.; 2 oz. 28c.; ½ lb. 50c.

Red Chili-4-Used in the manufacture of Pepper Sauce. Pods sharply conical, and exceedingly pungent when ripe. Requires a long, warm season. The plants should be started quite early in a hot bed. Pkt. 4c.; oz. 15c.; 2 oz. 25c.; 1/4 lb. 40c.

Golden Dawn, or Queen—Plants quite dwarf, but very prollfic. Fruit medium size and of inverted bell-shape, rich golden yellow color, with very thick, sweet, mild-flavored flesh. Pkt, 3c.; oz. 12c.; 2 oz. 22c.; ¼ lb. 40c.

Kaleidoscope—1—Long, wayy branches are loaded with drooping fruit the size of a hickory nut. Pkt. 4c.; oz. 20c.; 2 oz. 35c.; 1/4 lb. 60c.

entical to Kaleidoscope—I—Long, wavy branches are loaded with drooping ow shade.

fruit the size of a hickory nut, Pkt. 4c.; oz. 20c.; 2 oz. 35c.; ½ lb. 60c.

Coral Gem Bouquet—8—The illustration above fails to do justice to this beautiful little variety. The single fruit illustrated is of natural size and so thickly set on the dwarf plant as to give each plant the appearance of a "Bouquet of Coral." As a potted plant for florists it has proved a most rapid selling article. Pkt. 5c.; oz. 30c.; 2 oz. 55c.; ½ lb. \$1.00.

New Golden Upright—6—Unlike all other varieties, the Peppers grow upright on stiff stems. The fruits are large and handsome. Pkt. 4c.; oz. 20c.; 2 oz. 55c.; ½ lb. 60c.

Firest Mixed Peppers—The above and many other valuable Peppers in choicest

stiff stems, the fruits are large stage stages and stems, the following stages are large stages. The above and many other valuable Peppers in choicest mixture. Price per 2tt., only 5c.; oz. 20c.; 2 oz. 35c.; 1/4 lb. 60c.

RHUBARB, or PIE PL

German, Rhubarber; French, Rrubarbe; Spanish, Bastardo; Swedish, Rabarber.

RHUBARB, familiarly known as Pie Plant, is cultivated in gardens for its stalks, which are used for pies and tarts. Immense quantities are now annually sold in all the large markets. No private garden should be without it. Rhubarb succeeds best in deep, somewhat retentive soil. The richer its condition and the deeper stirred the better. Sow in drills an inch deep, and thin out the plants to 6 inches apart. In the fall transplant the young plants into highly manured soil, setting them 3 feet apart each way, and give a dressing of coarse manure every fall. The stalks should not be used until the third year, nor plant allowed to exhaust itself by running to seed.

Buckbee's Western Market—Finest variety, very productive. Fine, large size and very early. Has a flavor similar to the gooseberry. This is, without doubt, the finest variety in existence. Pkt. 5c.; oz. 10c.; 2 oz. 18c.; ½ lb. 35c.; ½ lb. 60c.; lb. \$1.00.

Rhubarb Roots—A saving of from two to three years is made by planting the roots. I have well established roots of the above variety. Price, by mail, prepaid, 20c. each; \$2.00 per dozen. By express or freight at purchaser's expense, 15c. each; \$1.50 a dozen; 160 for only \$7.50.

Please Remember that pt. I the Entire Stock of this Variety.

Earliest Pea in the World.

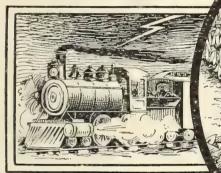

READY FOR PICKING IN 40 DAYS.

10,000 Bushels Sold Annually.

EVERY PACKET OF PEAS CONTAINS 2 **OUNCES OR MORE**

Where earliness, productiveness, large-sized pods and sweetness of flavor are desired, this is the variety to grow; it may be truly called the blooded stock of all finest Early Peas, and stands at the head for the above fine qualities; in a favorable season ready for market in 40 days. The entire crop can be taken off in two pickings.

To the market gardener, earliness is of the greatest importance, as even a few days frequently makes a great difference in price, often a depreciation of from \$2.00 to \$4.00 per barrel; the inexperienced find this out when too late, therefore the earliest is what is required, and Buckbee's Lightning Express is that variety; sow them, you will make no mistake. Was introduced by us in '87 and sold that year 2,000 bushels, and each year the demand for them has steadily increased; they have been the first Peas shipped north from the great those sections, and all through the United States and Canada, where hundreds of acres of them are annually grown they have attained the same reputation for both earliness from 2 to 2½ feet, in accordance with runners, and never require sticking; a handful can be grasped at one time. Buckbee's Lightning Express can be had They are much hardier, more productiveness. Their growth ranges the season; they are entirely free from taken off in two pickings.

LOOK AT THESE REPORTS.

Rev. J. Reynard Lawrence, of Lanesboro, Mass., (the prominent seed specialist, whose tests at Eden Trial Grounds have a wide reputation) writes under recent date: "It was a race from start to haish between Buckbee's Light-uing Express and Gradus, and Lightning Express came out 5 days ahead, being ready to pick in 40 days from time of planting. Five days' start in the market makes a big difference in price, and so all who have market for the Earliest Peas should plant Buckbee's Lightning Express." all who have mark Lightning Express.

Frank D. Lee, Long Island, N. Y., writes:
"I cleared over \$1,100 from your Lightning Express Peas. They were the first in the narket and sold fast as we could pick them. Please ship by first freight ten Bushels Lightning Express; enclosed find draft. More orders to follow."

J. W. Boss, Paris, Texas, writes:
"The Lightning Express Pea was just what you represented it to be. Positively it is the finest Early Pea I ever planted. It yields three times the quantity of other early sorts. I have made three times the money with this than with any other Peas I have ever

A WORD TO MARKET GARDENERS

The Pea is one of the most important

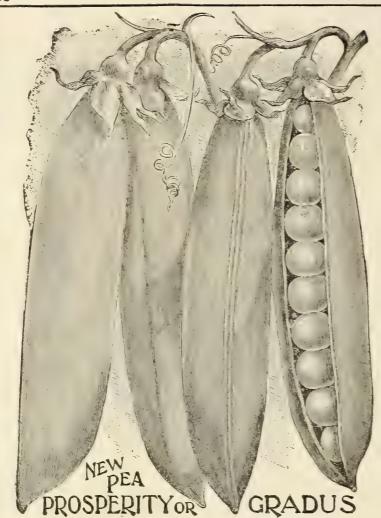

The Pea is one of the most important and profitable crops; you therefore cannot bestow too much care in selecting your seed, as the market is always overstocked with what are called Finest Earlies and offered at temptingly low prices. These are generally sown in Canada in a wild, broadcast manner, full of runners and sold under this name to command a better prize in the market. There is no variety that deteriorates more rapidly, both in earliness and dwarfness of habit, than the Early Pea, and it requires a grower to exercise his greatest care in selecting his stock of seed, and its proper culture, in order to keep it up to its correct standard, both for earliness and free from runners. Ruckbee's Lightning Express has always maintained the highest reputation with gardeners for its earliness, productiveness and fine quality, and is today the best known and the most popular among all growers; it is the perfection of Peas, both for carliness and uniform dwarf habit in its growth. One of its great features is that the crop is almost ready for market at once, and the whole crop can be harvested in one or two pickings. These are very desirable features and just what the gardener requires, and everyone should plant this world's greatest money-making Pea.

Note the low price: Prepaid, Pkt. 8c.; ½ pt. 15c.; pt. 25c.; qt. 40c.

One Quart for 100 feet of drill. Two to three bushels in drills for an acre. I prepay charges on Peas, Corn and Beans by the one-half pint, pint, and quart. Quantities of one-eighth bushel, one-quarter bushel, one-half pushel and bushel are shipped by freight or express at purchaser's expense.

FOR PRICES IN QUANTITY SEE WHOLESALE PAGES.

NEW EARLY GRADUS, PROSPERITY. The New Extra Early Wrinkled Pea.

The most desirable sort for the home garden. Large podded, and of splendid quality. The vine of this most distinct sort is like that of Buckbee's First and Best, exdistinct sort is like that of Buckbee's First and Best, except that it grows a little taller and produces Peas fit for use a few days later. The immense pods are as large as those of the Telephone, uniformly well shaped and handsome, and more attractive than those of other first earlies. They ripen slowly and continue fit for use much longer than most varieties, making this by far the most desirable sort for the home garden. The Peas are very large, of splendid quality and beautiful color, which they retain after cooking. This variety is practically the same as what is being offered as "Prosperity." We have taken great pains to secure true stock and have it well grown, so we are sure that everyone who purchases our seed will be pleased with the variety. Every gardener should try it. Pkt. 8c.; ½ pt. 15c.; pt. 26c.; qt. 50c.

NOTT'S EXCELSIOR. Best Early Dwarf Pea.

It combines to a wonderful degree the good qualities of the American Wonder and Premium Gem Peas without

their deficiencies.

The Vines are Larger and More Vigorous than American Wonder, and Earlier and More Prolific than Premium Gem. The Peas in Sweetness and Quality are Unsurpassed. A most desirable sort for the market gardener, and unsurpassed for the home garden. Pkt. 7c.; ½ pt. 15c.; pt. 25c.; qt. 40c.

BUCKBEE'S FIRST AND BEST.

By most careful comparison we are convinced that this is the earliest and most even stock of White Extra Early Peas in existence, maturing so well together that a single picking will secure the entire crop. Vines vigorous and hardy, 2 to 2½ feet high, unbranched, bearing 3 to 7 straight pods, having 5 to 7 medium sized, smooth peas of good quality. The dry peas are medium sized, smooth, yellowish white. Pkt. 6c.; ½ pt. 12c.; pt. 20c.; qt. 35c.

EARLIEST OF ALL OR ALASKA.

By careful selection and growing we have developed a stock of this smooth, blue pea, which in evenness of growth of vine and early maturity of pods is unequaled by any other extra early pea. Vine two and two and one-half feet high, are unbranched, bearing four to seven long pods, which are filled with medium-size dark-green peas of excellent flavor. Ripe peas small, bluish green. Ripens the crop all at once, and is an invaluable variety for market gardeners and canners. A very excellent sort. Don't fail to try it. Pkt. 6c.; /2 pt. 10c.; pt. 16c.; qt. 30c.

BUCKBEE'S EXTRA EARLY TOM THUMB OR STRAWBERRY.

An extremely early variety of superior merit. Vines dwarf, about 9 inches high, completely covered with an abundance of the finest well-filled pods. It is of such upright growth that it can be planted in rows 10 inches apart. Don't fail to include this variety in your order. Pkt. 7c.; ½ pt. 12c.; pt. 20c.; qt. 35c.

TRUE AMERICAN WONDER.

Variety whose stout branching vines grow about nine inches high, and are covered with long, well-filled pods containing seven or eight large and exceedingly sweet, tender and well-flavored peas, nearly as early as First and Best. Dry peas are medium size, much wrinkled and flattened, pale green. We have taken great pains in growing our stock and know it to be pure and true. Pkt. 7c.; 1/2 pt. 15c.; pt. 25c.; qt. 40c.

BUCKBEE'S NEW MAMMOTH MELTING SUGAR.

This variety is far superior to all others of the edible podded class of garden Peas, not only in size of pod, but also

in deficious quality, in which the large, sweet, brittle and succulent pods have none of the tough, inner lining found in the tough, inner lining found in the ordinary varieties of garden Peas; they are used in the same way as snap or string beans; the pods are very large, straight, smooth, extremely tender, so brittle that they snap; without any string; of the most delicious flavor, borne in abundance on vines 3 to 4 feet high. Send to Buckhee for original stock seed. Pkt. 8c.; ½ pt. 15c.; pt. 25c.; qt. 40c.

Remember that I prepay the charges on Peas by 1/2 pt., pt., and qt.

GRANT'S FAVORITE.

THIS new variety of my own introduction is unquestionably the finest medium and late Pea ever offered, coming into use just after the early varieties are through bearing. This trait alone makes it an exceptionally valuable sort. It is a luxuriant grower, growing from 3 to 4 feet high, is an enormous yielder, completely outyielding all other varieties.

an other varieties.

Grand Good Late Pea—The pods are of good size and always well filled with exceptionally sweet and highly-flavored Peas. It is nearly an upright grower, but will do better if staked or planted along a fence. It will please you either for family, market garden or shipping purposes. My original seed was secured from an old friend of General Grant's, at Galena, Ill., who had received it from General Grant. I control the entire supply of this variety. Pkt. 7c.; ½ pt. 12c.; pt. 20c.; qt. 35c.

NEW EVERBEARING.

The great continuous everbearing variety, which gives it special value for late summer and autumn use; stout vines growing 18 inches or nore high, bearing at the top large quantities of broad pools containing 6 to 8 large wrinkled Peas, half an inch or more in diameter; quality unsurpassed; if pods are picked as they mature, and if the season and soil are favorable, the plant will throw out from the axil of each leaf, branches bearing pods which will mature in succession, thus prolonging the season. The Peas cook quickly, are tender, of superior flavor and preferred by many to any other sort. Try it. Pkt. 70.; ½ pt. 12c.; pt. 2cc.; qt. 3bc.

BUCKBEE'S IMPROVED STRATAGEM.

One of the best of the large podded sorts. The peds are of immense size and uniformly filled with very large, dark green Peas of the firest quality. All the good qualities of the Old Stratagem are highly developed in our improved, and it is vastly superior to the stocks now generally sold as Stratagem. Vine medium height, but very stocky, with very broad, light green leaves and bearing an abundance of large, handsome pods. The best Pea now on the market for those who want large, showy pods and Peas without any sacrifice in quality. One of the very best varieties for market gardeners. Pkt, 6c.; ½ pt. 12c.; pt. 20c.; qt. 35c.

HORSFORD'S MARKET GARDEN.

A grand wrinkled variety, coming in between Little Gem and Advancer. The vines are two feet high, very regular in growth. It is a prolific bearer, and has yielded more shelled peas per acre than any other American variety. The pods although of good size, are numerous, and are literally packed with peas of a a delicious, sweet flavor. Pkt. 66; 1/2 pt. 12c.; pt 20c.; qt 35c.

ABUNDANCE.

One of the very best standard medium early varieties. Vigorous in growth, producing good sized pods in great abundance, hence its name. The pods are well filled with peas of a good quality. Grows 20 inches high; does not require sticking. A splendid variety for the family and market garden. Pkt. 6c,; 1/2 pt. 12c.; pt. 20c.; qt. 35c.

This Pea has proved to be a valuable acquisition. Vines vigorous, growing about 4 feet high, with large, coarse leaves. Pods very large, filled with immense Peas, which are tender, sweet and of excellent flavor. Notwithstanding the large amount of interior and spurious stock which has been sold, no Pea of recent introduction has gained more rapidly in popularity than this, thus showing that it has sterling merit which gardeners appreciate. The stock we offer is prolific and has been carefully selected. Pkt. 5c.; ½ pt. 10c.; pt. 16c.; qt. 30c.

WILLIAM HURST.

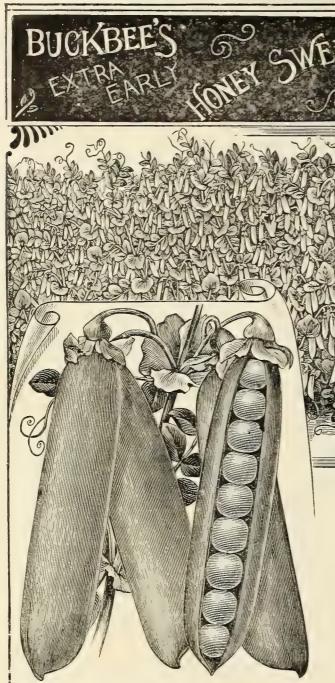

The Peas are ready for the table June 28th, as early as American Wonder, while the vines are much more productive, and it comes very near to being a "one-picking variety." Of handsome, dwarf growth, the vines are 8 to 10 inches high, foliage of dark green color, haulms are close jointed and very prolific. The pods are well filled with large Peas, each containing 6 to 8, so closely packed that the Peas are flattened against each other. Quality the very best. Pkt. 6c.; ½ pt. 12c.; pt. 20c.; qt. 35c.

JUNO. A dwarf, main crop, wrinkled variety Pea, enormously productive, excellent flavor. We have now had several years' acquaintance with "Juno" Pea, and every year we esteem it more highly. It is a main crop variety with vigorous constitution, which shows itself in the strong, handsome branching plant. It is 2 feet in height, requiring little or no brushing. It produces an abundance of the finest Peas possible, the vines being actually laden with pods, which remain tender and retain their flavor for a long time. Pkt. 6c.; ½ pt. 12c.; pt. 20c.; qt. 35c.

I can also supply the following new at	nd star	dard	Peas	which are too well known to require exten	ded de	escript	ions.

The World Beating MONEY MAKER

Never before have I taken such pride in offering such a distinct, new and valuable Pea; the result of years of careful hybridizing, improvement and perfecting. There is no question but what this Grand New Pea has come to stay and will eventually take the place of all

other sorts in its class.

By actual test for several years, Buckbee's Honey Sweet Pea has been ready for the table in from 42 to 44 days from the time of planting; an average of 43 days. The quality is beyond praise for such an early Pea, and the whole crop matures evenly. It is one of the very best Peas to sow for successive planting.

A wonderfully luxuriant grower and a splendid drought resister. The vines attain a height of 17 inches, consequently do not require sticking. Prodigously prolific, the pods are from 2½ inches to 3 inches long, nearly round and are always well filled.

There is no question but what Buckbee's New Extra Early Honey Sweet is one of the most superlative good Peas for the home garden— unsurpassed for the market garden and a veritable gold-mine for shipping purposes.

My supply of seed is limited this year and I do not hesitate to advise you to send your orders in early.

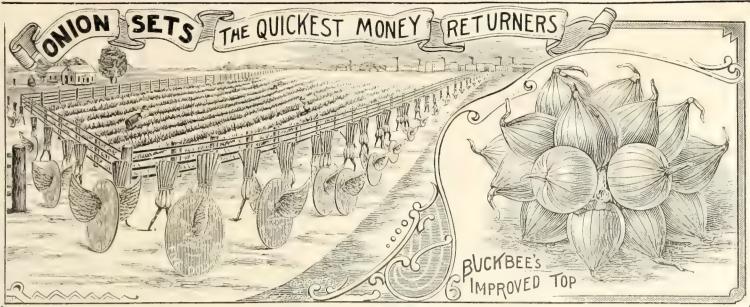

Prices to one and all as long as my Choice Northern Home Grown Pedigree Stock Seed lasts will be as follows.—Pkt. 8c.; ½ pt. 18c.; pt.

W. W. STOKES,

Chester, South Carolina.

Writes: I wish to send in a statement of the seeds you sent me last year. The melon in particular was extra fine. Or ideal shape and color, very sweet and juiny, ripening clear to the rind. I have been raising melons for sale for twenty-five years and have planted all kinds, but will plant nothing for my crop but your melon seed hereafter.

SURE \$500.00 PER

BUCKBEE'S IMPROVED TOP SETS—By far the most superior variety. Mr. Minckler, the leading market gardener of Oshkosh, Wis., writes: "I consider the Improved Top Sets far ahead of any other variety. They are the best Onions to eat, will yield at least one-third more and ripen much earlier than any of the Seed

any other variety. They are the best ontons to eat, will yield at least one-third more and ripen much earlier than any of the Seed Onions. I shall plant them for my main crop next season." It is the best keeper that I know of, having kept perfectly solid for over a year. I should advise you to order early, as my stock is sure to be exhausted before the season is over. Give this variety a trial. Postpaid, pt. 22c.; qt. 40c.; at buyer's expense, % bu. 75c.; ¼ bu. \$1.25; ½ bu. \$2.25; bu. \$4.00.

New White Multiplier—One of the most popular varieties, and in some markets sells in preference to all others. Extremely early and a very fine keeper: valuable for both home aud market purposes. You cannot possibly be disappointed with it, and will make a mistake if you fail fo include it in your order. Postpaid, pt. 20c.; qt. 35c.: at buyer's expense ½ bu. 75c.; ¼ bu. \$1.25.

BUCKBEE'S NEW WHITE POTATO SETS—Of pure silvery white color, producing 20 bulbs in a cluster from a single bulb planted; of excellent quality and size for bunching green; can be ripened for use as pickling Onions; for this latter purpose can be more economically grown than from seed. Keeps for a year. Its most important quality is its earliness, being ready for market several weeks ahead of the rest. Postpaid, pt. 22c.; qt. 40c.; at buyer's expense. ½ bu. 75c.; ¼ bu. \$1.35.

most important quality is its earliness, being ready for market several weeks ahead of the rest. Postpaid, pt. 22c.; qt. 40c.; at buyer's expense. ½ bu. 75c.; ¼ bu. \$1.35.

New Yellow Potato Sets—Identical to the above except color, which is of a rich straw yellow. They produce large, dry, ripe Onions earlier than any other kind. Postpaid, pt. 20c.; qt. 35c.; at buyer's expense, ½ bu. 75c.; ¼ bu. \$1.25.

Shallots, or Yellow Multipliers—A very desirable variety and resembles the White Multiplier, except in color, which is of a very rich straw shade You will be pleased with results by planting this variety. Postpaid, pt. 20c.; qt. 35c.; at buyer's expense, ½ bu. 65c.; ¼ bu. \$1.10. variety. Po

Egyptian, or Perennial Tree Sets-This variety never forms Egyptian, or Perennial Tree Sets—This variety never forms a large bulb. Specially adapted for producing green Onions for spring or fall use. Are immensely productive and perfectly hardy, Being perennial, they will, if left in the ground, continue growing for an indefinite time, increasing both from the bottom and from sets produced on top of the stalks Postpaid, pt. 15c.; at. 25c.; at buger's expense % bu. 40c.; % bu. 75c.

BOTTOM ONION SETS—These are the product of seed and are used for "Green Onions" or to produce large Onions, which they do much quicker than can be grown from seed. Our Sets are very choice, small and dry.

ONION SETS-Special Bulk Prices.

All varieties of Onion Sets are sold by weight. Buckbee's Improved Top and Egyptian, or Perennial Tree weigh 28 lbs. per bushel; all other varieties weigh 32 lbs. per bushel.

NOTICE-In order to get our Catalogue out on time, we have to go to press with some of our pages (this Onion Set page is one of them) in October, which is before most varieties of Sets are harvested. Our prices are made as close as possible at this date. You will please understand however, that they are subject to market fluctuations. If prices are lower when your order is received, more Sets will be added.

Write for Special Prices.

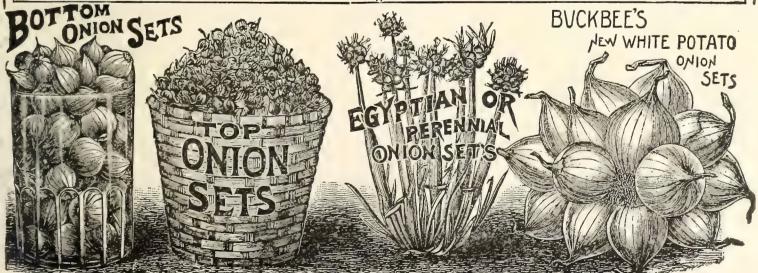

If you will write to-day and send me an exact list of the number of bus els of Onion Sets that you desire to purchase, naming the varieties and quantity of each, I will be pleased to quote you by early mail our lowest spot cash price on your requirements.

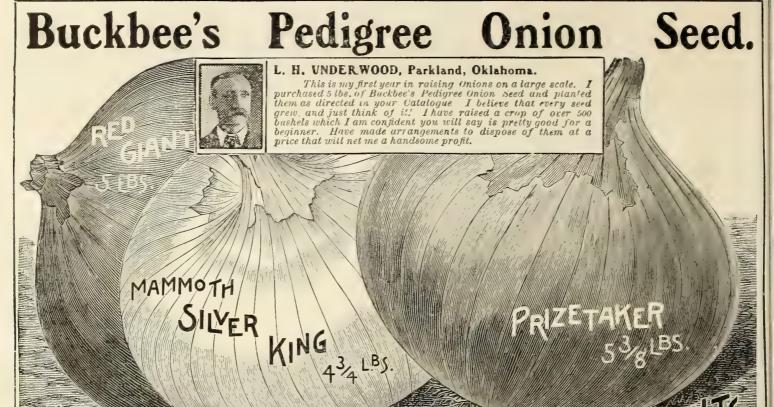

J. E. SWART WOOD, Sciota, Penn, writes: "I was greatly pleased with the new varieties of seed that you sent me free for experimental purposes; they are deserving of general use by all persons interested in the best seeds. I also wish to particularly recommend Buckbee's Earliest Sunrise Sweet Corn, Early Chief Cauliflower, Snowball Popcorn and would also say that your Pedigree (buing seed can't be best") igree Union seed can't be beat.

J. W. WAGNER, Arlington, Wis. "I have thought best to write you in regard to the splendid results that I have had with Buckbee's Seeds and Plants. The plants all lived. My garden was a sight to behold; every seed grew—in fact, Buckbee's Seeds have given splendid results white seeds purchased from other firms did not. I shall hope to continue to do business with you in the future."

New Genuine Prize-Taker.

The King of all Yellow Globe Onions: has proved the greatest, acquisition in years. The very largest, handsomest, finest flavored of all; and always grows to a uniform shape, which is a perfect globe. Has a very small neck, and always ripens up large and fine without any stiff neck. The Prizetaker has produced the seemingly fabulous yield of 2000 bushels per acre. Many are offering Spanish King and similar varieties under the name of Prizetaker. Prices more reasonable than ever before. I have harvested a larger crop than ever, and will be pleased to offer it at the following low prices. My own growth, choicest northern grown, high grade pedigree stock seed. Pkt. 4c.; oz. 8c.; 2 oz. 14c.; ¼ lb. 26c.; ½ lb. 48c.; lb. 90c.

Buckbee's Red Giant.

The King of Red Onions-Magnificent new variety of my own introduction; has met with the greatest success everywhere, and is now one of the most popular varieties in existence. The largest Red Onion, often weighing from 4 to 5 pounds. Many of my customers have grown specimens weighing 3 to 4 pounds. In shape Buckbee's Red Giant is round and symmetrical. Skin is thin, of a beautiful reddish hue, while the flesh is delightfully pure white, very fine grained and of pleasing flavor. I control the entire stock of this grand novelty, My own growth choicest Northern grown high grade pedigree stock seed. Pkt. 10c.; oz. 20c.; 2 oz. 35c.; ¼ lb. 60c.; ½ ib. \$1.10; lb. \$2.00.

Buckbee's Mammoth Silver King.

The Largest White Onion, Grows to a Remarkable Size. The bulbs are of attractive form, flattened, but thick through The average diameter of the Onion is from 5 to 7½ inches, thus making the circumference from 15 to 22 inches. Single bulbs often attain weights of from 2% to 4 pounds each. The skin is of a beautiful silvery white. The flesh is of a snowy white and of a particularly mild and pleasant flavor. So sweet and tender is the flesh that it can be eaten like an apple. Matures early and is of large size and perfect form. It cannot be too highly recommended. A good thing is always imitated, and many dealers are offering other varieties under this name. Don't be misled. My own growth choicest Northern grown high grade pedigree stock seed. Pkt. 5c.; oz. 15c.; 2 oz. 25c.; ½ 1b. 45c.; ½ 1b. 80c.; 1b. \$1.50

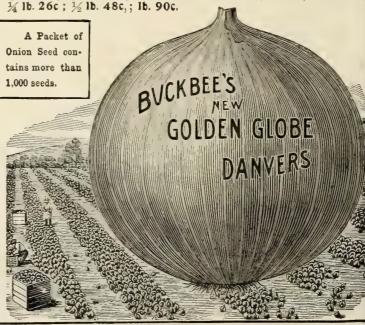

Buckbee's New Golden Globe Danvers.

Always in the Lead. Challenging Competition.

Long Keeper-Best Shipper-Unrivaled Market Onion.

This is the most perfect type of the globe-shaped Onion ever offered. I have been years in pertecting this strain, carefully selecting the most perfect type of bulbs for seed stock, so that now I have an Onion entirely different from the Yellow Globe Danvers. It ripens early, has a versual neck, the entire crop drying down at one time. It is an immense cropper and will yield more marketable Onions to the acre than any strain I am acquainted with. Trial tests have shown this great variety to yield over 2,000 bushels per acre, while under ordinary cultivation the past season, thousands of my customers have reported yields of 1000 bushels per acre. Remember that I control the entire supply of this variety. My own growth Choicest Northern grown high grade redigree stock seed. Pkt. 4c,; oz. 7c.; 2 oz. 14c.; 14 lb. 26c; 1/2 lb. 48c,; lb. 90c.

PEDIGREE

MONEY MAKING ONIONS.

German, Zwiebel; French, Oignon; Spanish, Cebolla; Swedish, Lok.

One Ounce of Seed for 100 Feet of Drill. Four to Six Pounds in Drills for an Acre.

The Soil. How to raise Onions is a question I am asked many times every year, and will good crop of Onions can be grown on any soil which will produce a full crop of corn, unless it be a stiff clay, very light sand or gravel, or certain varieties of muck or swamp lands, on which they invariably grow necky and cannot be made to ripen down well, while other muck soils give immense crops of the finest quality. We prefer a rich sandy loam, with a light mixture of clay. This is much better if it has been cultivated with hoed crops; kept clean of weeds and well manured for two years previous, because if a quantity of manure to raise an ordinary soil to a proper degree of fertility is applied at once, it is likely to make the Onions very soft.

The Seed. Onion seed, as every gardener and Onion fancier knows, is one of the seeds in the buying of which price should never be questioned. Why should you speculate on wild catstock, or that which may be offered as good seed-cheap! Does it not take a great of money and an untold amount of care to produce the Choicest Stock Seed! Is the difference of a few cents in the cost of a pound of seed anything in comparison to the hundreds of dollars at stake in your Onion crop! Most assuredly not. I have made a life-long study of Onion growing and the seed which I offer can be relied upon as being second to none—if not the best.

Sowing. This should be done as soon as the ground can be gotten ready, and can be done best by a hand seed drill. This should be carefully adjusted testing it by running it over the barn floor to sow the desired quantity of seed, and about one-fourth inch deep. The quantity needed will vary with the soil, the seed used and the kind of Onions desired. Thin seeding gives much larger Onions than thick. Four to six pounds of seed per acre is the usual quantity needed to grow large Onions, while for growing pickling and set Onions from 20 to 50 pounds per acre is required. I use a drill with a roller attached, but if the drill has none, the ground should be well rolled with a hand roller immediately after the seed is planted.

Cultivation. Give the Onion the first hoeing, just skimming the ground between the rows, as soon as they can be seen the length of the row. I refer the McGee Cultivator for operation, which you will find offered on drill page. This hoe allows the earth to pass over the blade without moving it out of place. Hoe again in a few days, this time close up to the plants, after which weeding must be continued. This operation requires great care to be thoroughly done. The weedermust work on his knees astride of the rows, stirring the earth around the plants in order to destroy any weeds that have just started. In 10 days or 2 weeks they will require another hoeing, and if necessary, another weeding. If the work has been thoroughly done at the proper time, the crop will not require further care until ready to gather.

Plant Buckbee's Celebrated Pedigree Onion Seed this Year. Insure a Crop. All Onion Seed that I Offer of My Own Growth is Fresh 1904 Crop.

BUCKBEE'S ROUND OR YELLOW FLAT DANVERS—Magnificent sort in every way.

After years of careful selection, I have a strain of this popular sort that is seemingly perfect. Reliability for bottoming and large yield are combined in this popular Danvers variety. It is very handsome in appearance, round in shape, though thick through, of fine size; in fact, is ideal in every respect for market and family purposes; skin is thin, of a rich straw color, flesh is pearly white, fine grained, firm, mild, and of excellent quality. It ripens exceedingly early, keeps well, and sells readily. I also consider this variety one of the very best for growing sets. You will not be disappointed in the results by planting Buckbee's Round or Yellow Danvers Onion, either for family, market or shipping puroses.

My own growth, choicest northern grown, high grade pedigree stock seed. Pkt. 3c.; ox. 6c.; 2 oz. 10c.; ½ lb. 18c.; ½ lb. 30c.; lb. 58c.

BUCKBEE'S EXTRA EARLY COMBINATION—1—This distinct variety is the very earliest Onion in cultivation. Of a pure paper-white color, very mild and delicate in flavor; from 1 inch to 1½ inches in diameter, and three-fourths of an inch in thickness. Its extreme earliness makes it very valuable for early table use as well as bunch Onions for market. At maturity the tops die down directly to the bulb, leaving the neatest and most handsome little bulbs imaginable, which are exceedingly valuable for pickling purposes. Its extreme earliness and fine quality cannot fail to make it a favorite Combination Onion in every garden. It pays to plant the best.

My own growth, choicest northern grown, high grade pedigree stock seed.

my own growth, choicest northern grown, high grade pedigree stock seed. Pkt. 5c.; oz. 20c.; 2 oz. 35c.; ¼ lb. 60c.; ½ lb. \$1.10; lb. \$2.00.

SELECTED YELLOW STRASBURG, OR DUTCH—2—Bulbs are quite flat and of good size, skin yellow, of darker color than the Danvers, flesh white, of mild flavor; keeps well This is the variety that is used the most extensively for growing yellow Onion Sets. It is valuable alike for family and market purposee. A great yielder and splendid keeper. My own growth, choicest northern grown, high grade pedigree stock seed. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ¼ lb. 18c.; ½ lb. 30c.; lb. 58c.

NEW CRECIE—Popular Southern variety, grown in preference to other varieties of the South. The Creole or Louisiana Onion shape is a medium flat globe, of a dark straw color. The flesh is a beautiful white, of excellent flavor, Many Southern planters are realizing very large returns from this valuable Onion. Great quantities are always on hand in the Southern markets. At the great French market at New Oricans this is the favorite, and none of the commission dealers care to handle any other sort. Is in the market early and the supply has never yet equaled the demand for this favorite vegetable The best Onion for Southern markets.

My own growth, choicest northern grown, high grade pedigree stock seed.

My own growth, choicest northern grown, high grade pedigree stock seed. Pkt. 5c,; oz. 20c.; 2 oz. 35c.; $\frac{1}{4}$ lb. 60c.; $\frac{1}{2}$ lb. \$1.10; lb. \$2.00.

NEW WHITE SILVERSKIN, OR WHITE PORTUGAL—3—Very desirable for family use. Flavor mild and pleasant; skin silver white of handsome appearance, highly esteemed for pickling when young, also for market in early winter. This is the variety from which white Onion sets are grown. You will make no mistake by planting this excellent sort. It will please you immensely for any purpose. Buy your seeds from first

GREATEST OF ALL RED ONIONS. THE

The Grandest Variety Grown for the American Climate.

Money in

The best is what I find my customers always want, and that is Money in What I find my customers always want, and that is what they get by sending direct to Buckbee, the Best Onion Seed on Earth. New customers should remember that Buckbee's Reliable Onion Seed is only grown from carefully hand-sorted and selected bulbs, is always of high germinating quality, and of unusual vigor of growth by reason of its superlative vitality. My Onion Seed has a reputation in every prominent Onion growing district in America of being the best, unsurpassed by any other house in the trade.

If You plant

CHEAP ONION SEED IS EXPENSIVE. (Even as a Gift.)

The country is fooded with cheap onion seed but I am satisfied that fresh high-grade pedigree Onion seed of the past season's crop cannot be purchased at lower prices than quoted in this book. The figures given herewith are the lowest prices I will likely be able to quote for many years to come. Bear in mind, good, sound, plump seed has always been one of my greatest specialties, and that more than 100,000 onion growers look to me annually for their supply of seed. The risk is too great to take chances on cheap, poor seed. Get the best, and remember that cheap onion seed is the poorest investment in the world. The failure can never be known until an entire season's labor and outlay are lost. "Buckbee's Onion Seed Is Full of Life" and will give you the best results.

BUCKBEES' PEDIGREE RED WETHERSFIELD.

My Leading Specialty.

One of the chief departments of my seed growing business consists of growing Buckbee's Pedigree Red Wethersfield Onion for seed purposes only. My stock has reached such a high point of merit that it is a household word everywhere that "Buckbee's Pedigree Red Wethersfield Onion Seed is the most reliable and produces more good marketable Onions per acre than any other offered." And, from the many thousands of unsolicited testimonials which I have received from all over the country, I have every reason to believe that the time which I personally spend in my Onion fields is truly appreciated by my many thousands of customers who stand by me and say: "Buckbee's Seeds Are Full of Life."

There are many strains of this justly celebrated onion offered, but I venture to say none that can surpass Buckbee's Prize Medal Stock of this famous variety. The various strains, good, bad and indifferent, that are generally offered the unwary planter, come to maturity all the way from August up until as late as October. This unreliability of cropping is very disastrous to most localities.

most localities.

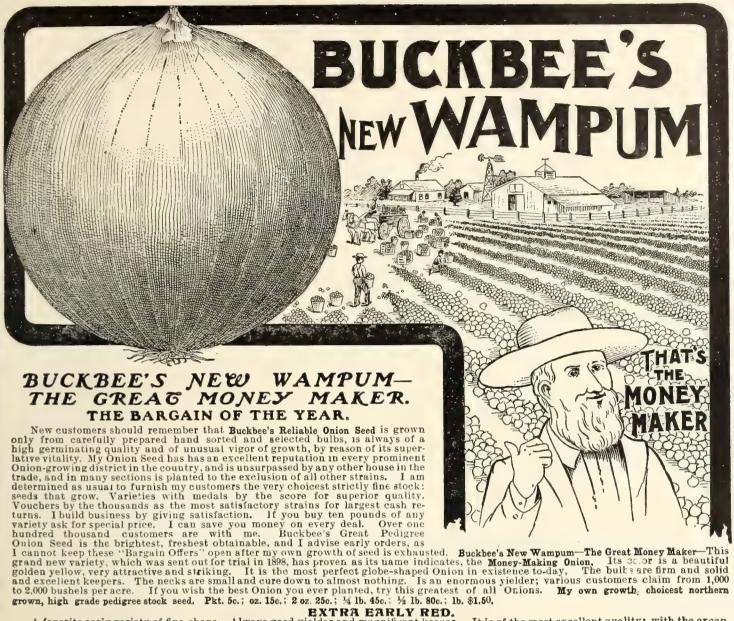

THE GREATEST OF ALL RED ONIONS.

The seed which I am offering is of the earliest form, grown from hand-sorted bulbs that will produce very large Onions of immense size; 1¼ to 2½-pound Onions from seed the first year are of frequent occurrence. Buckbee's Red Wethersfield grows with unusual regularity, scallions being unknown. It is a magnificent keeper. An enormous cropper. 700 to 1,000 bushels have frequently been raised upon a single acre. I have received many letters from my customers stating their yields to be over 1,000 bushels per acre the past season. The shape is accurately shown in the illustration above. In color the skin is a deep rich, purplish red, while the flesh is of a beautiful white, finely grained and of good flavor. My customers throughout the country endorse it as the best Red Onion they have grown.

NEVER HAS BEEN KNOWN TO FAIL.

I trust no Onion grower that receives my catalogue will fail to try at least a small quantity of Buckbee's Red Wethersfield Onion, for all ought to know how much superior it is to other strains offered. This seed will produce highly rich-colored, long-keeping Onoins, sure to command the highest price in the market. Will yield double the amount of any seed you can secure

My own growth, choicest northern grown, high grade pedigree stock seed. Pkt. 4c.; oz. 7c.; 2 oz. 14c.; ½ lb, 26c.; ½ lb. 48c.; 1b. 90c.

grown, high grade pedigree stock seed. Pkt. 5c.; oz. 15c.; 2 oz. 25c.; ¼ lb. 45c.; ½ lb. 80c.; lb. \$1.50.

EXTRA EARLY RED.

A favorite early variety of fine shape. Always good yielder and magnificent keeper. It is of the most excellent quality; with the exception, perhaps, of my celebrated Red Wethersfield, there is no red Onion that realizes such large prices in market. Its beautiful shape and rich purplish crimson color make it extremely attractive and desirable for all general purposes. Money in Buckbee's Onion Seed. My own growth, choicest northern grown, high grade pedigree stock seed. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ¼ lb. 18c.; ½ lb. 30c.; lb. 58c.

EXTRA EARLY NEW QUEEN.

A silver-skinned variety of quick growth and remarkable keeping qualities. If sown in early spring it will produce Onions 1 to 2 inches in diameter early in summer; if scwn it July, will, with favorable weather, be ready to pull late in autumn, and be sound and fit for use the following summer. Particularly valuable for pickles. If sown thickly they will mature perfectly hard Onions from one-half to three-quarters of an inch in diameter. My own growth, choicest northern grown, high grade pedigree stock seed. Pkt. 4c.; oz. 12c.: 2 oz. 22c.; ¼ lb. 42c.; ¼ lb. 82c.; lb. \$1.60. 16 lb. 82c.; lb. \$1.60.

** Ib. 82c.; Ib. \$1.60.

SELECTED YELLOW GLOBE DANVERS.

The finest standard Yellow Globe Danvers Onion ever offered. Of fine, symmetrical, large size, average specimens weighing from one to two pounds each. The bulbs are very choice, finely grained, exceptionally mild and very early. It is a grand, magnificent keeper. In many sections it will find ready sale at much higher prices than any other variety; frequently produces 800 bushels or more to the acre, from seed the first year. I control the best stock of this celebrated variety. My own growth, choicest northern grown, high grade pedigree stock seed. Pkt. 3c.; oz. 75.; 2 oz. 12c.; 1/4 lb. 22c.; 1/4 lb. 42c.; lb. 80c.

Australian Brown Onion

The Most Valuable Variety Introduced in a Generation.

The Australian Brown Onion is of medium size, wonderfully hard and solid, and most attractive for market, both as to form and appearance. They are extremely early in ripening, and never make any stiff-necks or scallions. Every seed seems to produce a good-sized onion, and the bulb begins to form very quickly—when the plant is not over 3 inches high, The Coming Onion.

EXTRA EARLY LONG KEEPING.

Planted at the same time as Red Wethersfield it proved to Planted at the same time as Red Wethersfield it proved to be nearly 4 weeks earlier and ripened off more uniformly. From its firmness and hardness, it will keep in good condition longer than any other Onion known. The color of the skin is clear, amber brown. So widely contrasted from any other Onion is this color that it will be noticed on market, and when once bought, purchaser's will most likely call again for "those beautiful brown Onions." My own growth, choicest northern grown, high grade pedigree stock seed. Pkt. 30.; 602. 0.; 2 oz 100.; 1/2 lb. 180.; 1/2 lb. 300.; 1b. 580.

J. S. DEAL, Monroe, Wis. "I have been buy ing seeds from you tor a good many years and can cheerfully say that I have had splendid results from my crop last fall, Itook first prem-ium on Buckbee's New Wampum Onion at our fair last fall. Send us new catalogue as early as possible and am in hopes to send you many new customers next sea-

MONEY MAKING ONIONS

Globe = Shaped Onions,

are the Future Onions.

They are the most attractive in appearance and most economical in use. They command the highest price in market. They are more profitable than the flat varieties to grow, as they occupy no more room in a row, but weigh more and measure better. Onions harvested in September keep perfectly sound and merchantable until the following June.

Southport Yellow Globe

Pedigree Seed.

Entirely distinct from Onions of the Danvers Type, having notable and striking characteristics of its own—excels in size—excels in yields—excels in keeping qualities—excels in mildness of flavor.

Matures in early fall. It is sure to satisfy the one who buys a packet or the one who swys 50 lbs or more of seed for carload shipments. A truly

seed for carload shipments. A truly grand Onion whose large golden yellow spheres make a beautiful appearance, sacked, crated or barreled for the market.

My own growth, choicest northern grown high-grade nedigree stock seed

grown, high-grade pedigree stock seed. Pkt. 4c.; oz. 7c.; 2 oz. 14c.; ½ lb. 26c.; ½ lb. 48c.; lb. 90c.

Southport White Globe.

Pedigree Seed.

This is the handsomest of all Onions. we could fill pages with praise from our enthusiastic castomers who have grown this grand variety. It is of true globe form, pure white, hard, small necked, ripening regularly and evenly; a splendld keeper. The flesh is firm and fine grained, and mild to taste, average yields of 500 to 700 bushels per acre are of frequent occurrence. No Market Gardener or Onion Grower can afford to plant inferior stock, with only cheapness of price

ONA DUNBAR,

Sodus. Mich.

"Why sir! Buckbee's Seeds are simply immense, and such vegetables they grow, are simply the wonder and admiration of everyone."

The Best Onions Offered to the American Public.

I take great pride in our special pedigree strains of Southport Onions. Our seed has been developed by starting in over 10 years ago with one perfect Onion of each variety, and none have been planted unless they have a lithe necessary requirements of the true type. The Onion requirements of the true type. The Onions are almost perfectly globe shaped, with thin necks and clear skins.

to recommend it when seed like ours is to be had so reasonable, the results of a few ounces often paying many times the first cost of the best seed.

My own growth, choicest northern grown, high-grade pedigree stock seed. Pkt. 4c.; oz 12c.; 2 oz. 22c.; 1/4 lb. 42c.; 1/2 lb. 80c.; lb. \$1.50.

Southport Red Globe.

Pedigree Seed.

This is the Celebrated Blood-Red Globe Onion.

This variety has for many years proven one of the most profitable for the market and shipping trade, commanding uniformly good prices in car-load lots. It is of large size and splendid appearance and frequently yields from 60 to 800 bushels per acre under average culture. It is an Onion of unusual merit Flesh is firm, finely grained, very rich, yet unusually mild for a red Onion, and is sure to please the most fast/dious. The crop is ready to harvest in early fall and keeps well until the late spring months. No one that I have ever known has been dissappointed with the results obtained by planting this great Onion.

My own growth, choicest northern

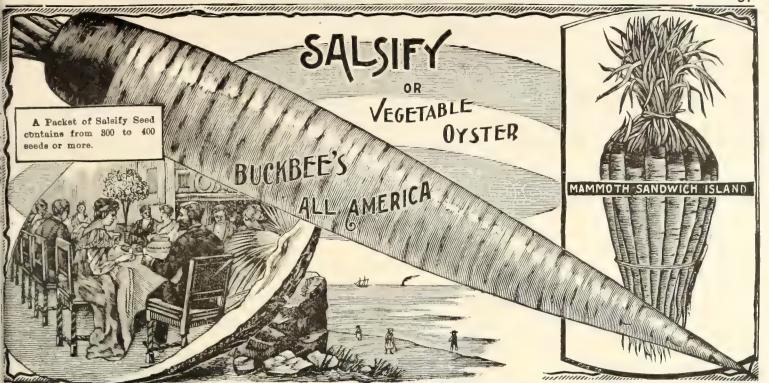

My own growth, choicest northern grown, high-grade pedigree stock seed. Pkt. 4c.; oz. 8c.; 2 oz. 15c.; ½ lb. 28c.; ½ lb. 55c.; lb. \$1.10.

Thomas Robinson, NAVINA, OKLA.

Writes: "Thanks to Buckbee's Seeds, we are the first to have early vegetables. We are delighted with the novelty packages. I thank you for the promptness you have always displayed in filling orders.'

SALSIFY.

German, HAFERWURZEL; French, SALSIFIS; Spanish, SALSIFI BLAMCO. One cunce of seed to 100 feet of drill—8 pounds per acre.

THE SALSIFY is one of the most delicious and nutritious of vegetables, and should be more generally cultivated for use in winter, when the supply of really good vegetables is so limited. It has a grassy top and a long, white, tapering root, nearly resembling a small parsnip. It closely assimilates to the taste and flavor of the oyster, when properly cooked, and is a good aubstitute for it; very wholesome and nutritious. The roots are either boiled and mashed or made into fritters, in which form they are delicious. It succeeds best in a light, well enriched soil, which should be stirred to a good depth. Coarse and fresh manure should be avoided, as it will surely cause the roots to grow uneven and ill-shaped. Sow early and quite deep, giving the general culture recommended for parsnips. The roots are perfectly hardy, and may remain out all winter, but should be dug early in the spring, as they deteriorate rapidly after growth commences. Store a quantity for winter use in a pit or cellar in damp earth or sand.

Long White—The well-known standard variety. Pkt. 3c.; oz. 8c.; 2 oz. 15c.; ½ lb. 25c.; ½ lb. 40c.; lb. 70c.

BUCKBEE'S ALL AMERICA.

A truly American variety of the fighest merit now offered for the first time. The long, white tapering roots are of the most superior quality, excelling by far any variety now on the market. My seed is limited this year and I advise early orders. Pkt. 10c.; oz. 20c.; 2 oz. 30c.; % lb. 50c.; lb. 81.50.

Mammoth Sandwich Island—Of extra large size, in every way preferable to the older varieties, being larger, stronger growing, and less liable to branch. Invaluable to market gardeners. Pkt. 4c.; oz. 10c.; 2 oz. 16c.; % lb. 30c.; % lb. 50c.; lb. 90c.

SORREL.

German, SAUERAMPFER; French, OSEILLE.

Ts cultivated for its acidity and used largely in salads. Sow in drills early in spring and thin the seedlings to 6 or 8 inches apart in the row. One may commence cutting in 2 or 3 months and plants will continue bearing for 3 or 4 years.

Large-Leaved Garden—The best garden variety, having large pale green leaves of fine quality. Pkt. 4c.; oz. 10c.; 2 oz. 16c.; 12 lb. 28c.; 12 lb. 50c.; lb. 90c.

SPINACH

German, SPINAT; French, EPINARD; Spanish, ESPINACO. One ounce of seed for 100 feet of drill-10 to 12 pounds in drills per acre.

Culture Spinach is very hardy, extremely wholesome and palatable and makes a delicious dish of greens, retaining its bright green color after cooking. It should be planted in very rich ground, the richer the better. Sow in drills one foot apart, and commence thinning out the plants when the leaves are linch wide. All should be cut before hot weather or it will be tough and stringy For early spring use the seed should be sown early in autumn. In the North the plants will require a slight protection of leaves or straw, but in the Southern states no protection is necessary, and they will continue their growth most all winter.

Proteboe's New Long Standing—An improved round-seeded strain

Round Summer Broadleaf—This variety is generally preferred for early spring sowing, and is the most popular with our market gardeners. The leaves are large, thick and fleshy; though not quite as hardy as the Prickly Winter, it stands the winter very well. Pkt. 2c.; oz. 4c.; 2 oz. 7c.; ¼ lb. 10c.; ½ lb. 18c.; lb. 30c.; 4 lbs. \$1.00.

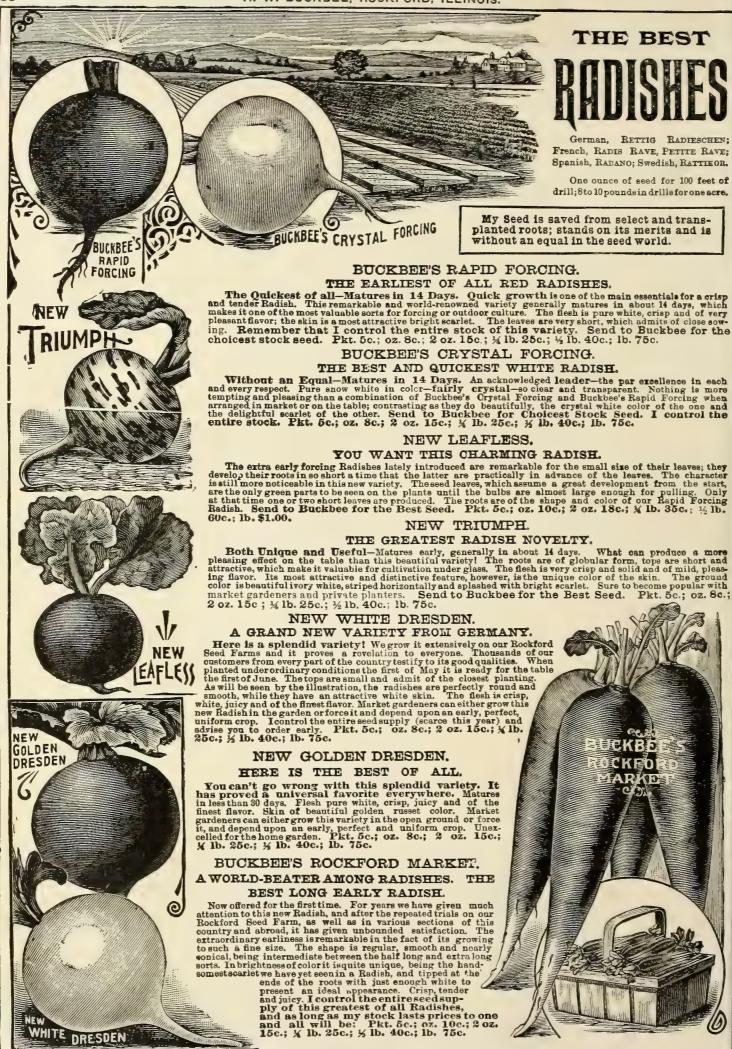

Victoria—A new sort which is quick to mature, and forms a very large, exceedingly thick leaf, which is somewhat savoyed in the center. It remains in use much longer than most kinds, and cannot fail to please whether grown for market or in the private garden. Pkt. 2c.; oz. 4c.; 2 oz. 7c.; % lb. 10c.; % lb. 18c.; lb 30c.; 4 lbs. \$1.00.

I can also supply the following new and standard varieties of Spinach which are too well known to require extended descriptions, at the uniform price, postpaid, as follows: Pkt. 2c.; oz. 4c.; 2 oz. 7c.; ¾ lb. 10c.; ⅓ lb. 18c.; lb. 30c.; ⁴ lbs. \$1.00: Bloomsdale Savoy Leaved, Monstrous Viroflay, Improved Thick Leaved, Long Standing Prickly Seeded, Prickly Seeded Winter.

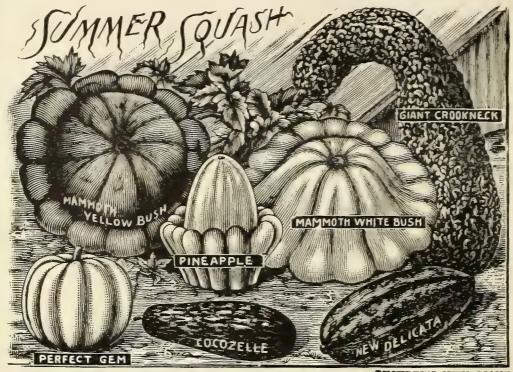

Be Sure to Order Buckbee's Great Cardinal Onion. See Front Cover.

GOLDEN CUSTARD OR EARLY YELLOW BUSH, SCALLOPED—Standard early summer variety, nice to use in its green state and valuable for making pies when it has attained full size. The golden yellow color makes it very attractive. Pkt. 3c.; oz. 7c.; 2 oz. 12c.; ½ lb. 20c.; ½ lb. 35c.; lb. 60c.

EARLY WHITE BUSH, SCALLOPED OR PATTY-PAN—Highly esteemed early variety, largely grown for first early crop. From the hard texture of the rind it is well suited for shipping; very productive and valuable alike for family and market purposes. Pkt. 3c.; oz. 7c.; 2 oz. 23c.; ½ lb. 20c.; ½ lb. 35c.; lb. 60c.

EARLY YELLOW OR GOLDEN CROOKNECK—Favorite with market gardeners and private planters. Of dwarf, bushy habit and extremely productive. Flesh creamy yellow, dry and of the most agreeable flavor, so much so that it is one of the most esteemed of the early varieties. Pkt. 3c.; oz. 7c.; 2 oz. 12c.; ½ lb. 20c.; ½ lb. 35c.; lb. 60c.

GIANT SUMMER STRAIGHTNECK—A splendid new variety having all the good features of the old reliable Golden Crookneck; differing only by having a straight neck. Pkt. 4c.; oz. 8c.; 2 oz. 15c.; ½ lb. 25c.; ½ lb. 40c.; lb. 75c.

GIANT WHITE SUMMER CROOKNECK—This beautiful sort is the result of years of careful breeding and selection, and it is now one of the most fixed and distinct of our summer Squashes. The fruit is similar in size and shape to Summer Crookneck, but of a beautiful ivery white color and unsurpassed in quality. We

one of the most fixed and distinct of our summer Squashes. The fruit is similar in size and shape to Summer Crookneck, but of a beautiful ivory white color, and unsurpassed in quality. We recommend this sort as the most beautiful and one of the very best of the summer varieties. Pkt. 4c.; oz. 8c.; 2 oz. 15c.; ½ lb 25c.; ½ lb. 40c.; lb. 75c.

BUCKBEE'S MAMMOTH YELLOW BUSH—Closely resembles the preceding, except in color, which is dark, rich, golden yellow. The Squashes are of the finest quality and extra large size. Pkt. 4c.; oz. 8c.; 2 oz. 15c.; ¼ lb. 25c.; ½ lb. 40c.; lb. 75c.

THE BEST SQUASH

Two ounces for fifty hills. Bush varieties, five to six; running varieties, three to four pounds in hills for an acre.

THE SQUASH is one of the most nutritions and valuable of our garden vegetables. The summer varieties come to the table early in the season, while the winter sorts can be had in perfection from August until the summer sorts are again in condition. Plants are tender and sensitive to cold, and planting must be delayed until settled warm weather. General principles of culture are the same as those given for cucumbers and melons, but the plants are less particular as to soil. The summer varieties should be planted 4 to 6 feet apart each way, and the winter sorts 8 to 10; \$ plants are sufficient for a hill.

BUCKBEE'S NEW GIANT SUMMER CROOKNECK-Our experience and that of our customers proves it to be one of the best summer Squashes. Twice as large as the ordinary Crookneck. It is more warty and earlier. This combination makes it the most desirable for the market or private garden. Pkt. 4c.; oz. 8c.; 2 oz. 15c.;

for the market or private garden. Fat. 4c., 02. 02. 13c., 4 lb. 28c; ½ 50c.; 1 lb. 90c.

W DELICATA—Extremely early, very prolific, the ground color being splashed and striped with very dark green. The quality is rich and dry. Although of small size, this variety is wonderfully solid and heavy, the seed cavity being small. Will please you for all purposes. Pkt. 4c.; 0z. 8c.; 20z., 15c.; ½ lb. 25c.; ½ lb.

solid and heavy, the seed cavity being small.

all purposes. Pkt. 4c.; oz. 8c.; 2 oz.; 15c.; ½ lb. 25c.; ½ lb.

40c.; 1 lb. 75c.

COCOZELLE—Fine new early variety. A remarkable feature of this variety is that the little green Squashes, when very small, can either be boiled whole or sliced and fried like Egg Plants, and to my taste are quite equal in flavor, while, of course, they are more easily raised. It will prove a valuable addition to the vegetable garden. Pkt. 4c.; oz. 8c.; 2 oz. 15c.; ¼ lb. 25c.; ½ lb.

40c; 1 lb. 75c.

BUCKBEE'S NEW MAMMOTH WHITE BUSH—Scalloped or Improved Patty-Pan, Great improvement over the Early White Bush. Very uniform in shape and wonderfully prolific. Fit to use very early, of a beautiful white color and grow to a large size. 12 to 15 inches across. Valuable alike for family and market purposes. Pkt. 4c.; oz. 8c.; 2 oz. 15c.; ¼ lb. 25c.; ½ lb. 40c.; lb. 75c.

COCOANUT—The most beautiful of all Squashes; great bearer, always gives a full crop; is fine grained and well flavored. Very desirable for all purposes. Pkt. 3c.; oz. 8c.; 2 oz. 15c., ½ lb.

25c.; ½ lb. 40c.; lb. 75c.

PINEAPPLE—Fine for summer and fall; flesh is thick; creamy white, and of the richest flavor; exceedingly productive and gives the best satisfaction for all purposes. Pkt. 3c.; oz. 8c.; 2 oz. 15c.; 2 oz. 15c.; ½ lb. 40c.; lb. 75c.

PIRFECT GEM—This variety is equally desirable either as a summer of winter Squash. Wonderfully productive. Flesh fine grained and cooks dry and sweet. Rich, delicious flavor. Pkt. 4c.; oz. 8c.; 2 oz. 15c.; ½ lb. 28c.;

sweet. Rich, delicious flavor. Pkt. 4c.; oz. 8c.; 2 oz. 15c.; ½ lb. 28c.; ½ lb. 50c.; 1 lb 90c.

½ Ib. 50c.; I Ib 90c.

PIKE'S PEAK OR SIBLEY—One of the best keepers; of the finest quality flesh solid, thick, sweet; orange color. Pkt. 4c.; oz. 8c.; 2 oz.; 15c.; ½ Ib; 28c.; ½ Ib. 55c.; I Ib. \$1 00.

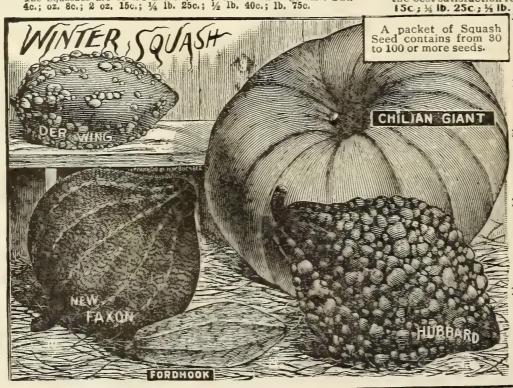

NEW TURBAN—A distinct and valuable fall and winter variety. Flesh is dry, sweet and thick, of a bright orange color, and its keeping qualities are admirable. It will please you. Pkt. 4c.; oz. 8c.; 2 oz. 15c.; ¼ Ib. 28c. ½ Ib. 55c.; I Ib. \$1.00.

BAY STATE—New variety, large size,

10. 53C; | 10. \$1.00.

BAY STATE—New variety, large size, exteremely solid, heavy weight. In color it is dark green, has thick shell, fine, dry, thick flesh of sweet flavor, of a beautiful bright golden color; fine grained; very handsome. An excellent keeper. Pkt. 4C; oz 8C; 2 oz. 15C; ¼ lb. 28C; ½ lb.; 50C; | 1 lb \$1.00.

NEW FORDHOOK-Fine winter variety of recent introduction. Color bright yellow shade outside and lighter shade inside; flesh dry and sweet and keeps perfectly sound until spring. It is a strong, rapid grower and immensely productive. The meat is thick and delicious. Pkt. 4c.; oz. 8c.; 2 oz. 15c.; 1/4 lb. 28c.; 1/2 lb. 55c.; lb. \$1.00.

VALUABLE FALL AND WINTER SQUASH.

BOSTON MARROW—A desirable fall and winter varie'y, very popular everywhere. Of oval form; skin thin; when ripe, bright orange mottled with light cream color; flesh rich salmon yellow, fine grained, and for sweetness and excellence unsurpassed. We have an unusually good stock of this sort. Pkt. 4c.; oz. 7c.; 2 oz. 12c.; ½ lb. 22c.; ½ lb. 40c.; lb. 70c.

RLY PROLIFIC ORANGE MARROW—Its distinctive feature, and the one which gives it the greatest and most widespread popularity, is its earliness. It is at least ten days earlier than any other long-keeping sort. It grows as large as the Hubbard and is of a good quality. It is in season from September 15 January, and is the most salable kind during that time in the market. This is owing to its smooth and handsome shape, good size and creamy orange skin. We know that it will satisfy all. Pkt, 3c.; oz. 7c.; 2 oz. 12c.; ½ lb. 20c.; ½ lb. 35c.; lb. 60c.

DER WING—Famous new variety originally obtained from China.

It has a hard, thick shell which is completely covered with warts—one of the best keepers. Flesh of a beautiful creamy color and of Superior flavor. Pkt. 4c; oz. 8c.; 2 oz. 15c.; ¼ lb. 28c.; 16. 50c.; lb. 90c.

JOSEPH BROUILLARD, Phiox, is, writes: have thought JOSEPH BROUILLARD, Phiox, Wis., writes: "Thave thought best to write you about the splended results I have had with Buckbee's seeds. If you will refer to your books you will find that I have traded with you a great many years. I find that Buckbee's seeds are earlier, hardier and more true to name than any others. Your to name than any others. Your squash are excellent; the Mangels can't be beat; the Sugar Beets too;

the carrots also: Buckbee's Red Wethersfield has always been a money-maker with me"

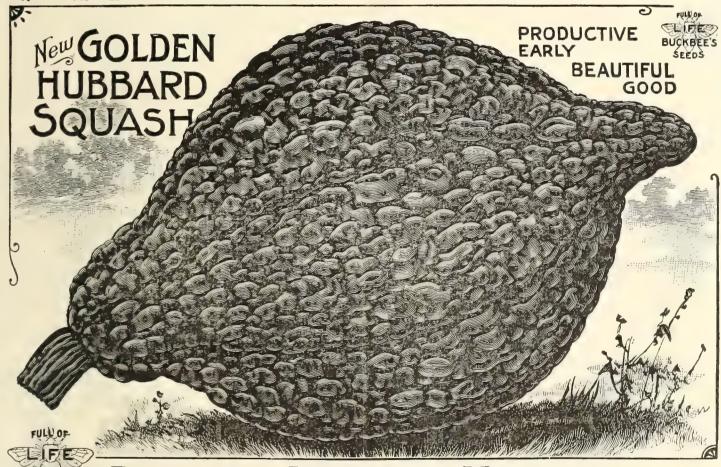

FAXON'S NEW BRAZILIAN—It is remarkably prolific in habit; quality dry and rich, without regard to the size, coloring or time of ripening of the fruit—something entirely different in this respect from any other Squash. Its valuable points are "earliness, long-keeping and high table qualities." We are recommending it to all for general use in the home garden. Pkt. 4c.; 0z. 8c.; 20z 15c.; ½ lb. 28c.; ½ lb. 5oc.; lb. 90c.

CHILIAN GIANT—The Largest of All. I can justly claim to have the best strain of this variety in the market; certainly there is no better. Rather flat at both ends. Single specimens have grown to the enormous weight of 300 pounds. Outer color a rich orange yellow; flesh very thick and of rich yelow color; quality good, very nutritious, making it exceptionally valuable for all family and market purposes. Its size makes it profitable to grow for stock feeding also. Pkt. 4c.; 0z. 15c.; 2 0z. 25c.; ½ lb. 40c.; ½ lb 75c.; 1 lb. \$1.35.

CHICAGO WARTED HUBBARD—The Leader in Many Markets. Our strain of the above will produce what we consider the Ideal Hubbard for home or for market. For thirty or forty years this Squash has ranked first for a winter keeper. It is shipped thousands of miles in carload lots from west to east every year. With the growing of it in a large way, it was found that the largest, heaviest, dark, rough-skinned specimens are most valuable and most salable. Choiceest stock seed of our own growing. Send to Buckbee for the best seed. Pkt. 4c.; oz. 8c.; 2 0z. 15c.; ½ lb. 28c.; ½ lb. 55c.; 1 lb. \$1.00.

BLUE HUBBARD OR MARBLEHEAD—The Famous Standard Variety. Without question this is one of the best fall and winter varieties; flesh bright creamy yellow; fine grained, very dry, sweet and delightfully flavored; keeps spleadidly throughout the winter. Splendid for all purposes. Send to Buckbee for the best seed. Pkt. 4c.; oz. 8c.; 2 oz. 15c.; 4 lb. 28c.; ½ 5oc.; 1 lb. 900.

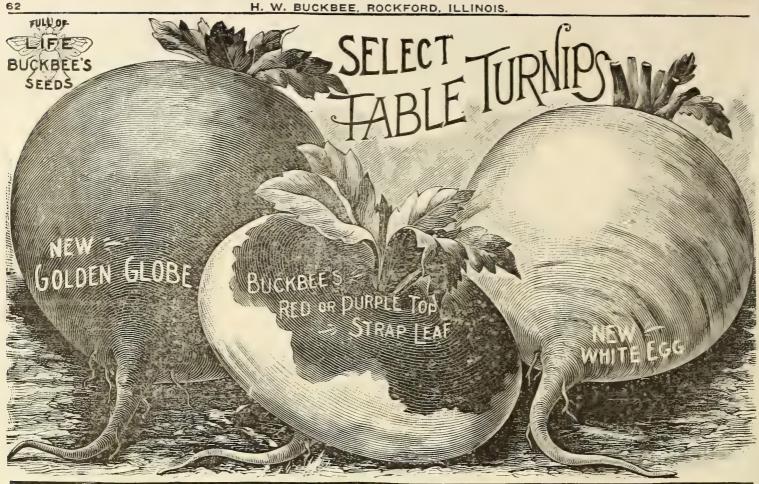

NEW GOLDEN HUBBARD—This is a True Hubbard Squash, Except in Color, which is Bright Golden. The vine is a vigorous, but not rampant grower and wonderfully productive, expending the energy derived from liberal fertilizing in the production of an increased number rather than of overgrown and coarse fruits, as some varieties are apt to do. It ripens its crop very early and uniformly, thus making it a certain cropper. The fruits are very uniform in size, weighing from 6 to 8 pounds, and in shape are like the Hubbard. Though maturing early, they are wonderfully long keepers, so they can be held over in 200d condition for spring use. The shell is warty, hard and strong, and a very beautiful orange red color, except for a bit of olive green on the blossom end. The flesh is a deep orange and uniformly so to the rind, never having the green tings so objectionable in other sorts. It cooks very dry, fine grained and good flavored. We believe this is the best fall and winter sort yet introduced, and that it deserves to and will become a most popular variety. It certainly has no superior as a table Squash. Send to Buckbee for the best seed. Pkt. 5c.; oz. 8c.; 2 oz. 15c.; ½ lb. 28c.; ½ lb. 55c.; lb. \$1.00.

JCKBEE'S IMPROVED HUBBARD. BUÇKBEE'S SEEDS

The Famous American Standard Winter Squash.

The Grand Old Favorite—This is a superior selection of this famous variety and one of the best winter Squashes; flesh bright orange yellow, fine grained, very dry, sweet and rich flavored; keeps perfectly good throughout the winter; boils or bakes exceedingly dry and is esteemed by many to be as good baked as a sweet potato. Our stock is most carefully selected with regard to quality of the flesh and color and wartiness of the shell, but the latter peculiarities are largely determined by the soils in which the Squashes are raised. Our customers can plant this variety in perfect confidence that every fruit will be a pure Hubbard. Send to Buckbee for the best seed. Pkt. 4c.; oz. 8c.; 2 oz. 15c.; ½ 1b. 28c.; ½ 1b. 55c.; 1b. \$1.00.

THE FINEST MARKET AND FAMILY VARIETIES.

German, STECKRUBE; French, NAVET; Spanish, NABO COMAN; Swedish, ROFOA

One Ounce of Seed for 250 Feet of Drill. Two to Three Pounds in Drills for an Acre.

THIS with 'esome and agreeable vegetable is most easily affected in its form and flavor by soil, climate and mode of culture. There are a great many varieties, but I have selected the following as best for the garden or farm. Sowin drills I4 inches apart and 1/2 inch deep, or sow broadcast, but in either case be sure and have ground rich and freshlydug. Be careful to wood and thin out, so the young plants will not be checked and injured. Any overcrowding will re. "I' in rough and poorly flavored fruit. For spring and summer crops it is important to get them started very early so they may have from the middle of July to the last of August, as directed for spring sowing. In the field, turnips are generally sown broadcast, though larger crops are obtained by drill culture. To preserve Turnips in good order for winter use, store them in barrels placed alongside the wall of a cool cellar, and cover them with sand and turf to keep them fresh. Another method is to put them in a collar or dry pit, cover with straw and earth to the depth of 8 or 10 inches. Thus protected they will keep very well until spring. For feeding stock in fall and winter there is nothing superior to Turnips and Ruta Bagas, and they will yield a larger amount of food than almost anything else on the same space of ground. I cannot too earnestly commend farmers to increase their sowings largely, for no crop will prove more remunerative.

Buckbee's Extra Early Cardinal.

Buckbee's Red, or Purple Top Strap Leaf.

There is probably a larger amount of seed of this variety sown annually than any other Turnip. As a market variety, without doubt, the peer of all. Shape is very well shown in above cut. Has single tap root and a bright purple top; leaves short and narrow, and grow erect from the bulb. Matures 8 or 9 weeks from sowing. Pkt. 4c.; 02.6c.; 2 oz. 10c.; % 1b. 25c.; 1b. 40c.

New White Strap Leaf-Identical with the above in valuable qualities, differing only in color, which is a beautiful ivory white. Pkt. 3c.; 02.6c.; 2 oz. 10c.; % 1b. 15c.; % 1b. 25c.; 1b. 40c.

New Golden Globe.

Most delicious and sweetest of all yellow fleshed Turnips; very superior for all general purposes. Pkt. 4c.; oz. 6c.; 2 oz. 10c.; ½ lb. 15c.; ½ lb. 25c.; lb. 40c.

Improved Early White Flat Dutch—Excellent early garden variety and very much used. The roots are of medium size, very flat and the color white. Very early, sweet and tender. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ½ lb. 15c.; ½ lb. 25c.; lb. 40c.

New White Egg.

New White Egg.

This is certainly one of the very choicest and finest varieties; comparatively new and producing beautiful egg-shaped roots, with thin, white strin. They are always firm, solid and of sweet flavor. Pkt. 4c.; oz. 6c.; 2 oz. 10c.; ½ lb. 15c.; ½ lb. 30c.; lb. 50c.

Large White Globe—A very desirable globe-shaped variety, valuable for family and market. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ½ lb. 15c.; ½ lb. 25c.; lb. 40c.

Early Six Weeks, or Snowball—This excellent variety of Turnip is very tender and sweet; matures in six weeks. Pkt. 3c; oz. 6c.: 2 oz. 10c.; ½ lb. 18c.; ½ lb. 30c; lb. 50c.

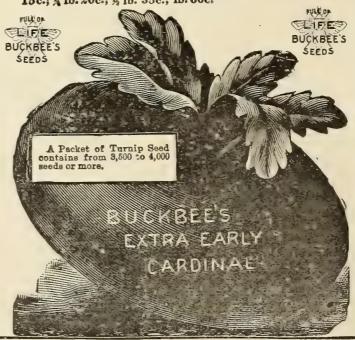

Extra-Early Purple Top Milan—The tops of this variety grow very small and are distinctly strap-leaved, growing very erect and compact. The roots are small and flat Turnip-shaped; skin purple on top of the root, clear white below. Flesh white. Most desirable sort for forcing or planting out doors, Pkt. 4c.: oz. 6c.; 2 oz. 10c.; ½ lb. 18c.; ½ lb. 30c.; lb. 50c.

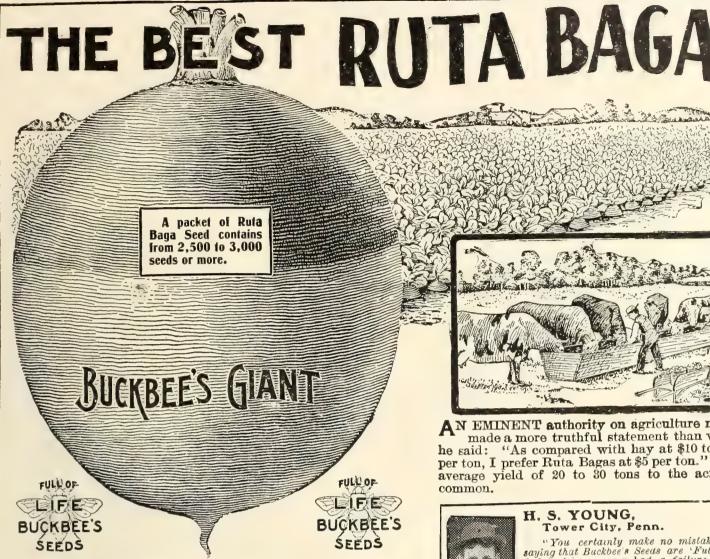

Extra-Early White Milan—It grows with wonderful rapidity, and is the earliest white Turnip in cultivation. Of splendid quality, small ½ top and single tap-root; it is most attractive, with clear whiteskin and flesh: fine grained and tender. Pkt. 3c; oz. 8c; 2 oz. 15c.; ½ lb. 25c; ½ lb. 40c; lb. 70c.

Buckbee's Extra-Early Cameo—Another grand acquisition from the land of the Czar, identical with Buckbee's Cardinal in every way except color, which is a beautiful pearl white. By all means include if in your order. Pkt. 5c.; oz. 8c.; 2 oz. 15c.; ½ lb. 20c.; ½ lb. 35c.; lb. 60c.

Buckbee's Extra Early Cardinal.

Called by Some Scarlet Kashmyr-Greatest Turnip novelty ever offered. Originally came from that remote section of Russia inhabited by the "Cossacks," and by chance the original stock was picked up by my European traveler a few years ago. The original stock was very fine, yet by careful breeding I have brought this grand novelty to a stage of perfection never before reached by any other variety. Buckbec's Cardinal is a very early variety, of magnificent shape, handsome appearance and wonderful keeping qualities. Outside skin brilliant cardinal color. Tender and crisp. Pkt. 5c.; oz. 8c.; 2 oz. 15c.; 1b. 20c.; 1b. 60c.

Ruta Bagas

Are you aware that Ruta Bagas, or Swedish Turnips, among the most valuable root crops?

BUCKBEE'S GIANT.

Prize winner everywhere. This magnificent Ruta Baga, which I first offered in 1890, is unquestionably the most profitable of all Swede turnips, as well as the hardlest, heaviest, best shaped and by far the most productive, a yield of 1,000 bushels per acre and over, under careful cultivation, being of frequent occurrence. Bulbs are somewhat oval in shape, slightly oblong and remain sound and good indefinitely. Flesh is of a beautiful yellow color, always sweet, tender, julcy and nutritious. The finest of all Swedes, and a variety that should be sown in preference to all others. Mr. H. R. Kimball writes: "Have used Buckbee's Giant Ruta Bagas for a number of years. Find it is the best I have tried. In shape, size and uniformity of growth is away ahead of anything else." Pkt. 5c.; oz. 8c.; 2 oz. 12c.; ½ lb. 20c.; ½ lb. 35c.; lb. 60c.

New Monarch, or Elephant

The form of this distinct. new Ruta Baga is well shown in the illustration. It is very popular in England and is certainly a grand variety; claimed to yield larger roots and more to an acre than any other sort. Produces large, oval-shaped roots, with small necks; relatively small tops. Skin dark purple above ground, yellow below. Flesh rich yellow, fine grained; of best quality. Is easy to harvest. Can be grown at less cost than others. Pkt. 3c.; oz. 6c.; 2 oz. 9c.; ½ lb. 12c.; ½ lb. 20c.; lb. 35c.

Improved Purple Top Yellow

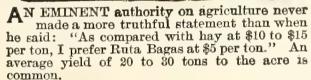

This magnificent Swede is the result of judiclous selection; very hardy, productive and nutritious. A large, purple top, yellow variety. Shape slightly oblong. Produces heavy weight per acre. Sweet and good keeper. Pkt. 3c.; oz. 6c.; 2 oz. 9c.; ½ 1b. 12c. ½ 1b. 20c.; 1b. 35c.

Buckbee's Mammoth White Russian

One of the grandest sorts. Grows very large with single tap root, small top, short neck. Strong constitution; certain cropper. Will stand hardest winters. Produces a very heavy weight per acre. Keeps sound till late spring. The best Ruta Baga in cultivation. Pkt. 4c.; oz. 7c.; 2 oz. 12c.; ¼ 1b. 18c.; ½ 1b. 30c.; lb. 50c.

A Blind Man Can See the Profit.

No crop is more valuably for stock feeding or finds a quicker sale in our markets. If you want to bring quick money returns, GROW BUCKBEE'S PRIZE WINNING RUTA BAGAS. Don't wait until the last minute before ordering your seed supply.

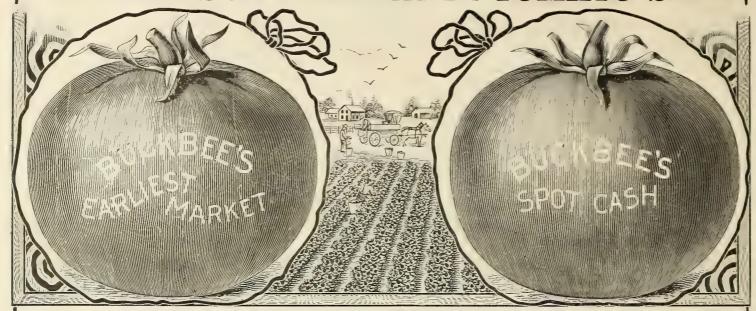

H. S. YOUNG, Tower City, Penn.

"You certainly make no mistake in saying that Buckbee's Seeds are 'Full of Life.' I have never had a failure and have made money by planting Buckbee's High Grade Northern Grown Pedigree Seeds. Your new Novelty Radish was a revelation to me. It matured in 3 weeks. Wishing you continued success."

BUCKBEE'S ALL TOMATO SEED

EARLIEST MARKET. BUCKBEE'S

Buckbee's Earliest Market—A variety bearing fruit which in size, shape, color, solidity and quality compares favorably with the noted later kinds, and by repeated trials at Rockford Seed Farms and elsewhere, has demonstrated that it ripens up a larger portion of its crop the earliest of any variety. Earliest Good Tomato. Gardeners and Tomato fanciers will readily see the advantage obtained over their competitors by growing Buckbee's Earliest Market. We do not hesitate to pronounce it the largest, smoothest, best flavored and highest colored extra early Tomato. Vine medium size, leaved just enough to protect the fruit, which is produced in abundant clusters reasonably low down on the stem and ripening all together. Those who desire a variety of this description, either for family or market purposes, will find this variety what they want. Pkt. 10c.; % oz. 20c.; oz. 35c.; 2 oz. 60c.; % lb. \$1.00; % lb. \$1.75; lb. \$3.00.

BUCKBEE'S SPOT CASH-The Latest Success in Tomatoes.

A variety introduced by us, and we believe the best table Tomato, at least as far as quality is concerned. Vine medium size, but vigorous, healthy and productive. Although not represented as a first early sort, many of our customers report that they have obtained ripe fruit from this as early as from any sort, and it proves to be one of the best varieties known for forcing. Fruit medium sized, ovel, very smooth and of exceedingly bright, crimson scarlet color; very free from cracks, and rotting but little. The flesh is of a crimson scarlet color, quite dictinct. It is cloo one of the best in flavor, and entirely free from the hard spots found in so many others. The Spot Cash is not only one of the best for home use and for market, but one of the best canning Tomatoes. Pkt. 5c.; oz. 20c.; 2 oz. 35c.; ½ lb. 60c.; ½ lb. \$1.10; lb. \$2.00.

HONOR BRIGHT.—This is a most distinct variety. The tomatoes at first are white, turning to light yellow, and then to brilliant scarlet as they become fully ripened. They are very solid, and it is an excellent bearing variety. It is already quite largely planted in the South, where the fruits are gathered before turning to scarlet, and are so extremely solid that they are shipped to the northern markets in barrels, ripening well upon arrival. Fruits of medium size, smooth and regular in form. Per Pkt. 4c.; oz. 20c.; 2 oz. 35c.; 1-4 lb. 60c.; 1-2 lb. \$1.10; lb. \$2.00.

MATCHLESS-This is the best large-fruited standard bright-red tomato. Our original strain has been critically selected and developed by us for more than ten years. We are careful each season to save seed only from fine, large fruits which are solidly menty. This selection has vastly improved the fruit, but greatly reduced the yield of seed, and our superb strain should not be compared with seed of this variety commonly offered at a low price. Besides being of such large size and handsome appearance, it is of very superior flavor. Select seed is very scarce this year—send to Buchbee for the best. Per Pkt. 4c.; oz. 20c.; 2 oz. 35c.; 1-4 lb. 60c.; 1-2 lb. \$1.10; lb. \$2.00.

Buckbee's Self-Supporting OMATOES

PARTICULARLY characterized by their upright growth, and eclipsing all others in productive-ness. The uniform price of each of the follow-

ing varieties is:

Pkt. 10c.; 1-2 oz. 25c.; oz. 40c; 2 oz. 75c.;

1-4 lb. \$1.25.

BUCKBEE'S COUNTY FAIR.

This magnificent sort of my own introduction certainly is in the lead of all other Tomatoes. Particularly distinguished by their upright growth, never requiring any support, but always standing up like a tree. In form and color the fruit resembles the Acme; it is always symmetrical and attractive in appearance; the skin tough and the flesh solid; ripens woll.

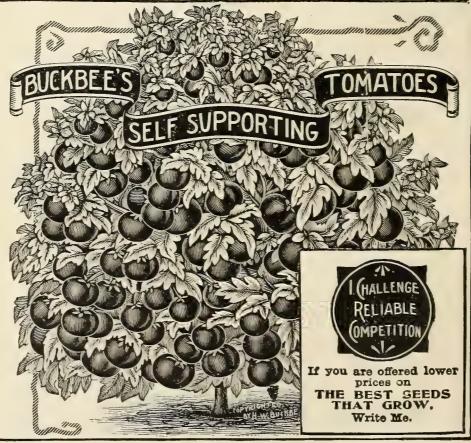

BUCKBEE'S STATE FAIR.

Another self-supporting novelty. Foliage resembles Buckbee's County Fair and might be taken for this variety if it were not for the color of its boautiful, glossy red fruit, preferred in many localities to the purple or rose colored varieties. Its rize, solidity, productiveness, smoothness, flavor of its fruit, etc., is unexcelled either for market, family or shipping.

BUCKBEE'S WORLD'S FAIR

Still another wonderful sort, in every way similar to the above varieties, differing only in the color of the fruit, which is a beautiful golden yellow shade, the richest shade by far yet attained by any variety. The superior flavor of the yellow varieties is bringing them into favor as table fruit, and those who think of the Yellow Tomato as the rough fruit of the old yellow sort will be surprised at this smooth, beautiful sort, it being the best of the yellow varieties, and of a fine and distinct flavor.

SPECIAL OFFER To enable all to give this trio of Self-supporting Tomatoes a trial, I will send One Liberal Packet each of Buckbee's County Fair, State Fair and World's Fair Tomatoes for only 200.

FULL OF.

FER

BUCKBEE'S

The Monster TOMATO

PONDEROSA OR HENDERSON'S NO. 400—This grand new variety is a monster of the Tomato family, the Tomatoes often weighing 2 or 3 pounds each, of a rich, bright crimson color and all solid meat; exceptionally free from seed; extremely delicious in flavor, whether used raw or cooked; a single Tomato is enough for a meal. Very desirable for family and market purposes. Pkt. 5c.; oz. 35c.; 2 oz. 60c.; ½ lb. \$1.00; ½ lb. \$1.75; lb. \$3.00.

MIKADO, OR TURNER'S HYBRID—Often called Potato-Leaved Tomato; also known as Maule's \$1.600 Tomato. A very large-fruited, purple Tomato, weighing as much as 28 ounces, while the average weight is not less than 12 ounces. Vines large, coarse growing, with leaves entire like those of the potato plant; very productive, and early for so large a Tomato; fruit extremely large, rough, solid, with few seeds. Demanded by those who want extra large fruit. Our seed is very choice. Pkt. 4c.; oz. 18c.; 2 oz. 35c.; ¼ lb. 65c.; ½ lb. \$1.25; lb. \$2.40.

LIVINGSTON'S BEAUTY—We have been perfecting

RECORD

coarse from the early promoned by those who extra large 3 rounds; fruit extremely masses, and they seeds. Demanded by those with tew seeds. Demanded by those with the seed and best of the large purple sorts. Vines large, and best of the large purple sorts. Vines large, in size, very smooth, color of skin purplish pink, file-h light pink and of oxedlent flavor. Used considered the seed of the light pink and of oxedlent flavor. Used considered the seed of the light pink and of oxedlent flavor. Used considered the seed of the light pink and of oxedlent flavor. Used considered the seed of the light pink and of oxedlent flavor. Used considered the seed of the light pink and of oxedlent flavor. Used considered the seed of the light pink and of oxedlent flavor. The flesh is thick and of extra good quality; grows in clusters; produces enormous crops. No matter if you are prejudiced against a yellow sort, this will please you. Pit, fic., or. 20c.; 2 ox. 20c.; 1 b. 50c.; 2 c. 20c.; 2 c. 20c.;

Ac.; oz. 25c.

THE NEW STONE—BUCKBEE'S IMPROVED STRAIN
—The Tomato for a Main Crop—Choicest seed. We call this the king of the Livingston kinds, which are the best types of large, smooth, solid, "beefy" Tomatoes. If asked to select one main crop, market sort, we advise this. Color fine scarlet, stem (calyx) set high, core small and shallow, so that but little is lost when it is taken out of the fruit before slicing. We want to make what we say of this kind definite, because there are very many good kinds and a long list is confusing. If in doubt, buy the New Stone for market or home use, for that matter. Pkt, 3c.; oz, 16c.; 2 oz, 30c.; 1/4 lb. 50c.; 1/2 lb. 90c.; lb. \$1.75.

I have always had splendid results with Quoi-bee's Seeds. Your Tomatoes are the

best by far that I ever saw, Buckbee's Beetstaks can't be beat. The Ponderosa or No. 400 are also fine. I have two Tomatoes that weigh over 5 pounds.

See Painting from Nature Inside Front Cover Page of this Book.

A TWENTIETH CENTURY WONDER.

THIS grand new Tomato was not intended for distribution until next year, but owing to the splendid crop of seed that we harvested the past season, I am determined to give my customers the benefit of testing "BEEFSTEAK" a year in advance of the general public. No more than Three Packets will be sold to any one person. Please understand that I will not send more than three packets of seed to any one person. In this way all of my customers will have an equal opportunity of making an advance trial of this, the Greatest Tomato of the Age. The above general introduction of this World-Beating Tomato appeared in a prominent position in our catalogue of 1901. While our supply of seed last year amounted to a considerable stock; enough, as we supposed to supply the demand—consider our surprise, therefore, when we found our supply of seed exhausted some time before the season was over. Never before in the history of the seed trade has the demand been so great for a thoroughly reliable Tomato.

Fully One Million or more Tomato Fanciers had an opportunity of testing this Grandest of All Tomatoes and I could fill this whole book and more too with the kindly expressions that thousands and thousands of my customers have given after planting Buckbee's Beefsteak in 1902.

The following is a nut shell description of this wonderful variety:

A Splendid Shipper, Best of All, Matures Early, Handsome Color. Hardy Grower, Enormously Productive, Large Size, The Bost Keeper.

One Ounce of Seed for 1,500 Plants. One-Fourth Pound to Transplant for an Acre.

German . . Liebesapfel

French Tomate

Spanish Tomate

BUCKBEE'S Tomato Seeds are grown from stocks raised strictly for seed purposes and from seed stocks carefully selected and saved at the Rockford Seed Farms. No better seed can be found anywhere. In fact, Buckbee's Seeds have the reputation of being the best that money can buy!

Culture. Tomatoes do best on light, warm, not over-rich soil, and success depends upon securing a rapid, vigorous and unchecked growth during the early part of the season. Sow in hot-beds from 6 to 8 weeks before they can be set out of doors, which is when danger from frost is past; when the plants have four leaves, transplant into shallow boxes or cold frames, setting them 4 or 5 inches apart; give plenty of air and endeavor to secure a vigorous, but steady and healthy growth, so that at the time of setting in the open ground they will be strong and stocky. Even a slight check while the plants are small will materially diminish their productiveness. Set out of doors as soon as danger from frost is over, but before doing so harden off the plants by gradually exposing them to the night air and by the withdrawal of water until the wood becomes hard and the leaves thick and of a dark green color. Transplant carefully and cultivate well as long as the vines will permit. The fruit is improved in quality if the vines are tied to a trellis or to stakes.

BUCKBEE'S BEEFSTEAK TOMATO

BUCKBEE'S BEEFSTEAK TOMATO

See Painting from Nature on inside Front Cover this Book.

Our crop of seed the past season has not been so large as we expected, owing to unfavorable Tomato weather. However, our seed (what there is of it, and we expect to save enough to go around), is of extra fine quality.

My price to one and all for a liberal packet containing 100 or more seeds of my own growth, choicest northern grown pedigree stock seed will be Pkt. 10c.; 3 pkts. 25c.; ½ 0z. 35c.; 0z. 60c.; ½ 1b. \$2.00; ½ 1b. \$3.50; 1b. \$6.00.

PHILIP LEUFT, Milwaukee, Wis.
"The present season I have tested very thoroughly 28 different varieties of tomatoes in my garden purchased from different seedsmen in the United Stales. I am but telling the truth when I state that Buchbee's Beeffsteak is The Tomato to plant for size, flavor and productiveness and is a very good looker. It is as good a Tomato as is grown—if not better—and I can highly recommend the same to give satisfaction."

H. HUBER, Fruivale, Tex., writes: "There is no question but what Buckbee's Seeds are 'Full of Life," I can't say too much—favor Buckbee's Beefsteak Tomato; while all other seeds have done exceedingly well."

PEDIGREE TOBACCO SEED.

WRITE FOR PRICES IN QUANTITY.

SUMATRA—Vigorous sort of Spanish origin, producing Cigar Wrappers of the highest quality, especially popular with southern growers. Pkt, 4c.; oz. 45c.

HAVANA—very choice Cigar Variety grown from the finest seed imported from the "Vuelta de Abajo" district in Cuba. Pkt. 4c.; oz. 30c.

CONNECTICUT SEED LEAF—Very popular in the Middle and Northern States, largely grown to produce fillers; productive; robust habit. Pkt. 3c.; oz. 20c.

PERSIAN ROSE MUSCATELLE—Finer than Muscatelle, and can be relied upon to make the finest cigar stock. Pkt. 4c.; oz. 30c.

IMPROVED SWEET ORONOKO—Used for first-class plug fillers, and makes, when sun-cured, the best natural chewing leaf. A 'favorite for the "Homespun" wherever known. Makes an eastern filler unsurpassed. Pkt. 3c.; oz. 20c.

GEN'L GRANT—One of the finest, earliest and most popular kind for Cigars. Matures as far north as Canada; leaves of large size. Pkt. 4c.; oz. 35c.

IMPROVED WHITE BURLEY—This variety is especially valuable to manufacturers either for cut or plug tobacco. It is often used for wrapper. Pkt. 4c.; oz. 35c.

STERLING—One of the earliest; makes the silkiest of wrappers, brightest of cutters and sweetest of fillers. Pkt. 4c.; oz. 20c.

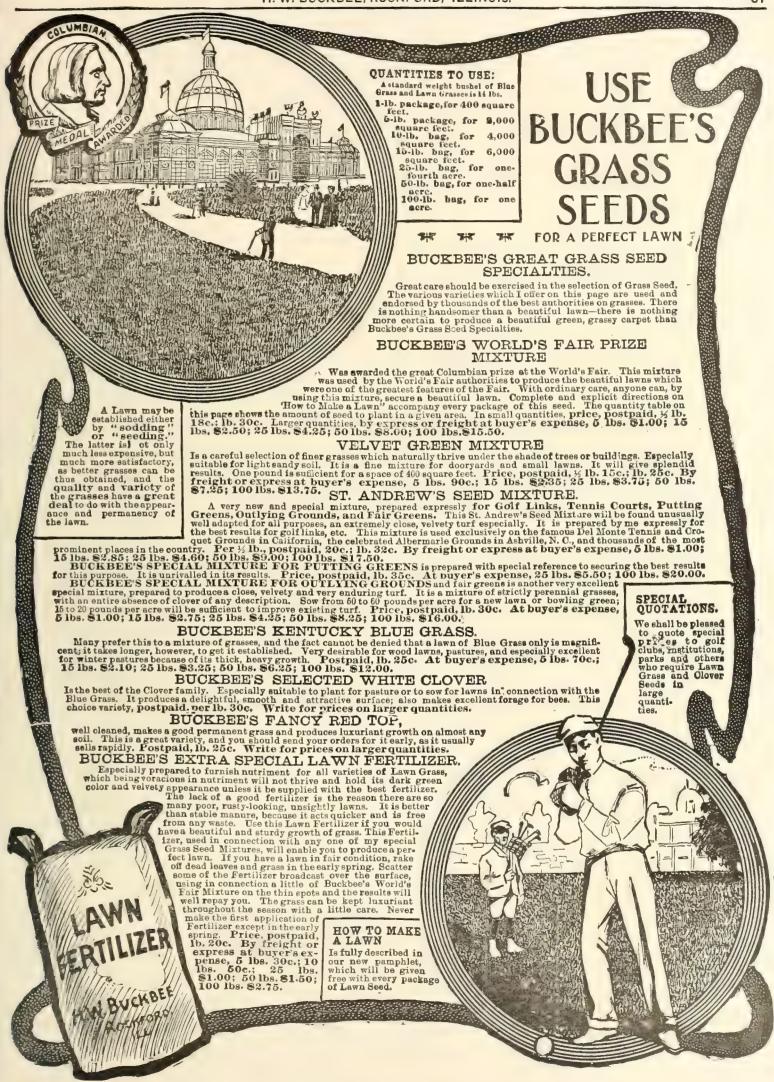

COMSTOCK SPANISH—Called by some Zimmer's Spanish. One of the finest Cigar Tobaccos, producing leaves of silky texture; grading very high for wrappers and fillers. Pkt. 4c.; oz. 35c.

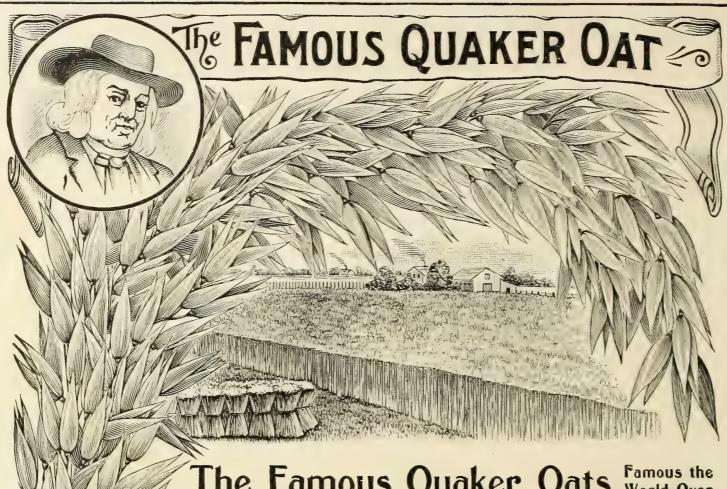

producing leaves of shay texture; grading very high coz. 35c.

LACKS—Dark, rich export leaf. Broad leaf, tough, fine fiber. On gray soils cures bright and elastic, on dark soils rich and gummy. Known as Jesup or Beat All in some localities. Good and reliable. Pkt. 4c.; oz. 25c.

BRADLEY BROAD LEAF—A popular variety for several types—export, manufacturing and cigars. A good, reliable variety and succeeds where yellow tobacco can be grown. Pkt. 4c.; oz. 20c.

LITTLE DUTCH—Popular variety, succeeds nicely in the Northern States. Valuable for all purposes. Pkt. 4c.; oz. 25c.

The Famous Quaker Oats Famous the World Over

The Hardiest and Healthiest Oat in Existence ITS CARDINAL POINTS.

ONE-VIELD-It is a great natural yielder; thousands of our customers report yields of 100 to 200 bushels per acre.

TWO-DROUGHT-PROOF-It matures so early that the crop can be gathered before the dry summer weather sets in-it seemingly withstands all elements of weather.

THREE-QUALITY-No variety can excel it in superior quality; it makes better oatmeal than any other sort-all millers prefer it to any other variety.

FOUR-COLOR-The color is extremely beautiful at all times, which aids it to sell readily at advance price in every market. The Famous Quaker Oats grade No. 1 every time.

FIVE-STRENGTH-This, as every Oat grower appreciates, is one of the essential points in a good Oat. Quaker Oats never lodge and will withstand stronger winds and storms than any other

SIXTH-COST-Every Oat grower knows what it costs to save a bushel of Stock Seed Oats and we are asked thousands of times each season why we can sell Buckbee's Seed so cheap. It is only by growing them ourselves in such large quantities that we are able to sell them to our customers, who appreciate good seeds so cheaply. The mere cost of seed to plant an acre is not a drop in the bucket to what you make on your crop.

SEVENTH-PROFIT-Just think a minute what profit you will realize by having an Oat with so many good points—the quantity you can sell your neighbors for seed next year—and remember if you market your crop you are sure of No. 1 grade price.

EIGHTH TO ONE HUNDRED-We could enumerate fully this number of additional cardinal points wherein the Quaker Oats excel others, but Buckbee's customers know from experience when a seed of any description is offered by Buckbee that it can be banked upon as being

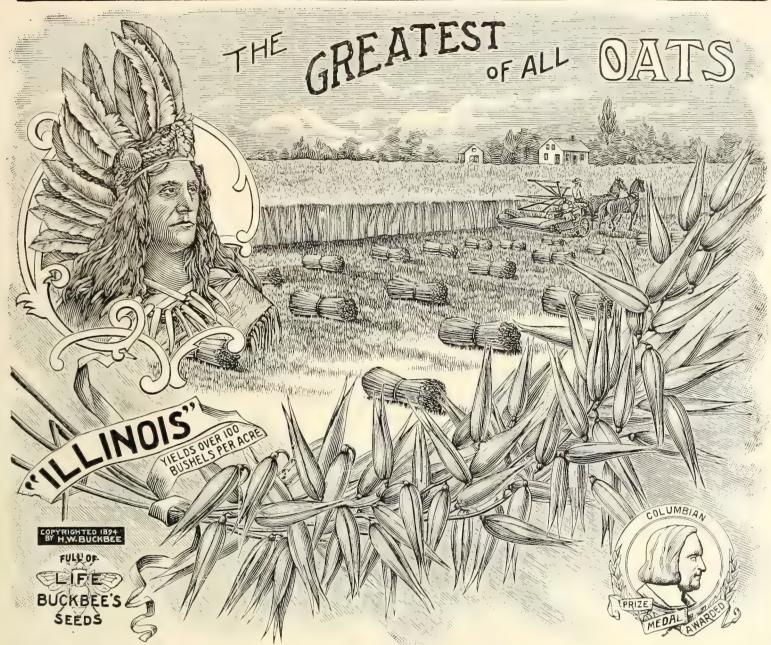

Quaker Oats never weigh less than 40 pounds per struck bushel measure, and nine times out of ten, from 44 to 49 pounds per bushel.

FIRST AND LAST THE QUAKER OATS ARE THE OATS IN EXISTENCE. Straw is strong, stiff and free from rust. The grain is the heaviest known; bright as a new silver dollar. Wonderful yielder, producing from 100 to 200 bushels per acre under average conditions. For absolute satisfaction, plant only "Quaker Oats." Send to Buckbee for choicest Stock Seed.

PRICE TO ONE AND ALL AS LONG AS MY STOCK SEED LASTS: Postpaid, 1/2 lb. 20c.; lb. 35c. By Freight or Express at Buyer's Expense; 1/8 bu. 30c.; 1/4 bu. 50c.; 1/2 bu. 80c.; bu. \$1 50; 2 bu. \$2.90; 5 bu. or more at \$1.35 per bu.

could fill this entire book 28 pages and more, too, the thousands of Testimo with the thousands of Testimonial Letters that I have received from my customers in every part of the country testifying to their Remarkable Success by planting Buckbee's Reliable Oats. 109,417 Oat Growers increased their Wealth in 1904 by Planting Buckbee's Oats.

Not one of our customers has reported yields of less than 68 bushels per acre, and the great majority from 80 to 175 bushels per acre. With Oats of less that the great majority from the great majority from the great agood strong fige, is it any wonder that uckbee's Oat Growers have accumulated fortunes! selling at a ure, is it Buckbee's C

BUGKBEE'S II

The fistenishing Agricultural Wonder of the Age. Opens a New Era of Profitable Oat Growing Throughout the Entire Country. A Novelty That Stands Introduction on its Merits.

OATS

This new Oat is the result of "Several Successive Seasons Successful Selection" and Hybridization. Having particularly noticed by careful experiment that many of the well-known sorts of Oats were not adapted to the rich soils of the prairies, owing to their straw being so weak, it occurred to me that they might be successfully crossed with kinds that had a more vigorous growth of straw. A few pounds were obtained of varieties that seemed to possess the requisite virtues, and the Oat I now offer is the result of this selection by careful hybridization.

TYPE IS WELL FIXED. GRAIN LARGE AND WEIGHTY. STRAW VERY HEAVY

AND OF COOD LENGTH. EXTREMELY FARLY BANGUES LARGE AND OPEN.

I am able to add the views of my friend, Mr. J. H. Beagley, of Champaign Co., Ill. (no doubt one of the best-known authorities on Agricultural Seeds in the country), by whose careful and painstained work in the perfecting of this "Great Oat—Illinois" the introduction has been made possible. "Your New Oat—Illinois—yielded more the past season than the 'Lincoln.' It has outyielded all well-known varieties for several seasons, is an ideal sort for any soil, as it positively will not lodge or rust. Nothing short of a cyclone will get it down. In fact, there is no Oat I can so cheerfully recommend, combining as it does all the good qualities of several of the most prolific varieties ever introduced, viz.: Clydesdale, Race Horse, Welcome, Bonanza, White Russian, Lincoln, Centennial, and the leading new standard varieties, as well as some others not generally known.

Although the past season was disastrous to the Oat crop in this section as well as other sections in which they were grown for trial, our stock is of excellent color and weight, weighing over 40 pounds per struck bushel. They easily yielded over 100 bushels per acre, and this on ground which was in no way prepared to produce a mamnioth yield (such as we hear of in cash prize offers and contests).

and contests).

REMEMBER | CONTROL THE ENTIRE STOCK | Have you decided to change that old worn-out stock which you have been planting of this NEW OAT NOVELTY * | for years and sow the best variety in existence, "Buchbee's Illinois," this year?

Decide now and turn the old farm into a Gold Mine by planting the grandest of all Oats—Buckbee's Illinois. Notwithstanding the scarcity of seed, I have decided to place this most astonishing of all novelties on the market at the following low prices, which are certainly within reach of all. Order early and have your friends and neighbors join with you.

Price to one and all as long as my Stock Seed lasts: Postpaid, ½ lb. 18c.; lb 30c. By express or freight at buyer's expense, ½ bu. 25c.; ½ bu. 40c.; ½ bu. 70c.; bu. \$1.25, 2 bu. \$2.40: 5 bu. or more at \$1.10 per bu.

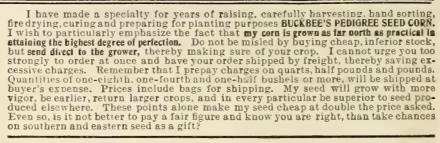

If any of my customers should be interested in the following varieties of Oats we shall be very glad to submit samples and quote very low prices if you will send a list of your actual requirements: NOTICE Price of the following varieties:

NEW ZEALAND, MICHIGAN WONDER, Bu. 60c.; 2 bu. \$1.15; 4 bu.or WHITE SWEDE, THE LINCOLN, SILVER MINE, more at 55 cents a bushel.

Price of the following varieties:

WELCOME, IMP WHITE RUSSIAN, BLACK PROLIFIC, WHITE SCHONEN, BIG FOUR, WHITE SUPERIOR SCOTCH, WHITE BELGIAN, SUNOL, IRISH VICTOR, GREAT NORTHERN, WHITE BONANZA, BADGER QUEEN, Bu. \$1.90; 2 bu. \$1.95; 4 bushels or more at 95c. per bushel.

BUCKBEE'S CELEBRATED CORN

As long as my stock seed lasts, I am pleased to offer the two varieties of GREAT WESTERN DENT CORN listed below at the following low prices: (SHELLED) Postpaid, ½ lb. 15c; lb. 25c. By Express or Freight at buyer's expense, ½ bu. 30c; ½ bu. 50c; ½ bu. 80c; bu. \$1.50; 2 bu. \$2.90. 10 bu, lots or more at \$1.40 per bushel.

Should any desire either of these two great corn (ON THE EAR), we can supply a limited amount of carefully selected ears, as follows. By Freight or Express at buyer's expense; 1 bu. \$2.50; 2 bu. \$4.75; 5 to 10 bu. lots or more at \$2.25 per bu.

TWO BIG MONEY-MAKERS BUCKBEE'S GREAT WESTERN YELLOW DENT.

By all odds the earliest, largest 100-day yellow Dent Corn in existence. Stalks grow to a height of 7 or 8 feet, and set the ears about 31/2 to 4 feet from the groundjust the right height for easy picking. A wonderful peculiarity of this corn is that it never produces a barren stalk, every one has an ear and generally two, sometimes three. The type is very even, ears measuring 10 to 12 inches in length, often weighing 1½ pounds or more. Very uniform in size and shape, with 16 to 18 rows of deep pure golden yellow kernels set on small sized cob, which is well filled out over the tip and butt. The grains are of good size, long, flat, and closely set together deep ly depreted, and solidly and closely set together, deeply dented, and solidly fill the entire surface of the ear. We call this a 100-day corn, but it often ripens in 95 days of average corn weather. In its yield it will surpass all other yellow varieties; 70 pounds in the ear will make more than 60 pounds of shelled corn. Buckbee's Great Western Yellow Dent is the hardiest and the greatest drought It is adapted to a wider range of soil and variety of climate than any yellow corn ever offered. It outshells and outyields all other yellow ccrn. After the corn is husked the stalks generally remain in fine growing condition and make an exceptionally valuable forage crop.

Hon. A. J. Lovejoy,

Hon, A. J. Lovejoy, ROSCOE, ILL.

The eminent Berkshire Hog Breeder, writes: "I am greatly pleased with the results that I have obtained by planting Buckbee's Great Western Yellow Dent Corn for the past number of years."

BUCKBEE'S GREAT WESTERN WHITE DENT.

The stalks generally bear two good ears each and frequently three are found. It yields splendid crops even on light soil. All ears are uniform and will filled out, and will easily make 60 pounds of shelled corn to the bushel. So general has the demand for this great corn become that we have found it impossible to supply all calls for it the past two years. Our crop the past season was very splendid, but while we expect to fill all orders, we cannot too strongly urge you to place your orders early.

C. L. WHITACRE, Buckley, Ill.

'You will remember that "You will remember that last spring I sent you a large Club Order for Buckbee's Pedigree Seed Corn. We are all more than pleased with the results obtained by planting Buckbee's Seed Corn."

You are at liberty to write any one whose testimonial appears in this book, enclosing stamp for reply

PEDIGREE SEED J. PEDIGREE SEED J. PEDIGREE SCED

CORN PRINCIPLES THAT ARE DEMONSTRATED

BY THESE WONDERFUL VARIETIES OF PEDIGREE CORN & DRED FOR HIGH YIELD, HIGH OIL, HIGH PROTEIN, HIGH PREPOTENCY. FULLOP

"Like produces like." Offspring partakes of physical and chemical characteristics of BOTH parents.

Prepotency increased by breeding.

Purity maintained by selecting for seed only ears which are true to type; and by isolation.

High Oil corn finishes beef and pork more rapidly and requires fewer bushels than ordinary corn. Oil is the most valuable by product of the glucose factory. They will pay you a premium on high oil corn.

High Protein makes corn a balanced ration for growing cattle. Ordinary corn contains 10 per cent protein; increase 12.80 per cent.

A corn high in both oil and protein is the ideal feeding corn. Ordinary corn contains 4.25 per cent of oil; increase 5.60 per cent.

The yield of high bred corn is from 10 to 40 per cent greater than that of ordinary corn. In pedigree corn the per cent of barren stalks is reduced to the minimum, while the per cent of good ears is raised to the maximum.

One hundred bushels and more of high bred corn have been produced where ordinary corn yielded sixty bushels.

GOLD STANDARD LEAMING.

Bred from the original J. S. Leaming Corn, with increased size of ears, percentage of grain, depth and roughness of kernel, and feeding value, by increasing the protein and oil. Have also changed its type from a tapering to a cylindrical shape of ear. Deep golden color; striking uniformity. The ears range from 9 to 12 inches long, and from 7½ to 8½ inches in circumference, weighing from 10 to 12 oz each. 18 to 2½ rows; no space between the rows. Kernels broad, thick, deep rather rough, rounding wedge shaped, from ½ to ½ inch long and ½ inch wide. Red cob, medium in size with medium large shank. Per cent of grain 82 to 90. The stalks are from 9 to 12 feet high. Great abundance of large sized leaves. often twenty to a stalk. Gold Standard Leaming is the ideal feeders' corn. High in both oil and protein; higher than any other variety grown.

Matures from southern Wisconsin to southern Missouri. Matures in about 115 days.

115 days.

SILVER KING.

Bred from Silver Mine. We have lengthened the kernel, improved the butt, closed up space between the rows, and increased the oil and yield. This is a pure white corn with white cob. The kernel is especially broad and deep, with well developed vigorous germ. Shells 90 per cent grain. Kernels are 8-5 inch long and 2-5 inch wide, moderately thick and square. The ears are from 8 to 11 inches long, 7 to 8 inches in circumference with well-filled butts and tips and small shank. Stalks from 8 to 11 feet. Ears have from 18 to 24 rows. circumference with well-filed butts and tips and small shank. Stalks from 8 to 11 feet. Ears have from 18 to 24 rows. This corn will grow anywhere, matur-ing in about 105 to 110 days. Is a favorite with growers who cut and shock their crop, or put it in the silo. The yield of Silver King, yield test, was 212 bushels to an acre.

BUCKBEE'S EARLY GOLD MINE.

Bred from special and improved stock of Genuine Pride of the Bred from special and improved stock of Genuine Pride of the North. A magnificent varitey of field corn, the result of careful investigation and experiments on our Rockford Seed Farms. It has been grown and selected with great care, and stands today without an equal anywhere. I have given my stock the most careful attention this year, and I know it to be better than anything I have ever before been able to offer corn growers. This great variety will usually produce a crop in 90 days or less. It can be safely planted up to the middle of June and still be depended upon to ripen by the middle of September. It produces a magnificent yield, there generally being two good-sized ears to the stalk, with immense long oily kernels, closely set and the cob well filled to the end. The corn is of a rich golden color.

BOONE COUNTY SPECIAL.

BOONE COUNTY SPECIAL.

Bred from the Boone County White. Retaining all the valuable characteristics of the parent, with increased yield, size of ear, depth of kernel and chemical contents. Contains a large percentage of oil. Requires 125 to 128 days for full development. The ears are from 9 to 12 inches long, 7½ to 8 inches in circumference, containing 18 to 20 rows and 50 to 58 kernels in a row and weighing from 12 to 20 oz. Tips and butts are especially well filled. Kernels are creamy white, moderately rough, very deep, with fine large germ; they are ½ to ¾ inch long, ½ inch wide, moderately thick with little if any waste space between the rows, The great depth of kernels insures a large percentage of shelled corn. Boone County Special is a high grade milling and glucose corn. THE corn for all kinds of soils and seasons in central and southern Illinois, and like latitudes east and west. Stalk 9 to 13 feet high, exceedingly thick up to the ear, moderately large from ear to tassel, withstanding the destructive effect of high winds. The foliage is abundant, leaves thick, broad and succulent, making peerless fodder.

BUCKBEE'S IMPROVED PRIDE OF THE NORTH.

A wonderful improvement over the old reliable standby—Pride of the North. This splendid pedigreed variety is unquestionably one of the very best 90-day Field Corns for Northern Lati-

It will ripen in Northern Localities hitherto able to grow only the Flint Varieties, and hence is of the greatest

value.
On ordinarily fair to good grond it will yield from 50 to above 100 bushels per acre. Produces a small cob, which dries quickly, and leaves the corn sound and sweet. The ears are of excellent size, and an abundance of the finest fodder is assured. It stands drought better than any other variety; husks and shells easily; it is the earliest corn to market, and will prove a verital le money producer. producer.

Price of each of the above 5 varieties (ON LIAR): By Express or Freight, at buyer's expense, 1 bu. (2.50; 3 bu. \$4.75; 5 to 10 bu. lots or more. \$2.25 per bu.

The same varieties (SHELLED): Postpaid, ¼ lb. 15c; lb. 25c. At buyer's expense, ½ bu. 30c; ½ bu, 50c; ½ bu. 80c; bu. \$1.50; 2 bu. \$2.90; 10 bu. lots or more, \$1.40 per bu.

SAMPLE EARS SENT POSTPAID UPON RECEIPT OF 20 CENTS EACH.

The following varieties, which are too well known to need extended description, I will furnish to one and all as long as my choice stock seed lasts. Should my supply of one or all varieties become exhausted, I will return your money promptly.

CORN

Opens a New Era of Profitable Corn Growing Throughout the Country, More Good Points Combined in this Corn than any other in Cultivation.

"The Best Corn of the Century." So says Mr. C. S. Clark, of Wakeman, Ohio—the largest grower of seed corn in the world—and his word is HONOR.

A Veritable Gold Mine for Every Farm.

Buckbee's Great Liberty Corn has never been known to fail in making a good crop. It's of a most remarkable type and color, being very pure in growth and habit, yet of many beautiful colors (red, amber, golden yellow and golden cast, also dark red, all on one cob), making it the most beautiful Corn in the crib, on ear, or in the bag shelled.

This new corn combines more solid merit than any corn in cultiva-This new corn combines more solid merit than any corn in cultivation—more fine and lasting points. Its great merit lies in the fact that it is a natural yielder. Expert Corn growers pronounce it "a Perfect Field Corn as to yield, size of the ears, color, size of cobs, length of grain, size of grain, size of fodder, size of growth of fodder, and the extra fine quality of the fodder.

Corn growers everywhere cannot help but be pleased with Buckbee's Great Liberty Field Corn, because-

1st—It is a great natural yielder and grows like a weed. 2d—It is the longest-grain early Corn in cultivation, maturing generally in ninety days.

A Perfect Wonder in Earliness, Yield and Smallness of Cob.

3d—The fodder grows strong, rank and quick, seven to twelve feet high, and stands storms to a remarkable degree.
4th—The ears set in fine form 3½ to 4 feet from the ground.
5th—Our fields are yielding 100 bushels and over of shelled corn per acre under average cultivation.

acre under average cultivation.

6th—It will outyield field corn of any kind, either Dent or Flint, on any kind of land.

7th—The ears are large (8 to 12 inches long), cobs small and well filled (16 to 24 rowed).

8th—It has small cob making it a wonderful yielder.

9th—It will outshell and outyield the leading 110-day and later varieties.

10th—It is the best corn to fatten stock on in cultivation.

11th—It stands the drought better than any other corn.

12th—It husks and shells easily.

13th—This corn will make friends where others fail.

12th—It husks and shells easily.
13th—This corn will make friends where others fail.
14th—It's the best corn to cut with corn harvesters in cultivation.
15th—It will bring the highest market price,
16th—Will cure out in shock when later varieties will mold and spoil.
17th—Your crop is insured by planting Buckbee's Great Liberty.
18th—It is truly a World Beater in every way.

Price to one and all, as long as my choice stock seed lasts (should my supply become exhausted I will return your money promptly):

EXTRA SELECTED EARS, in Boxes of One Bushel each: 1 bu. \$2.50; 2 bu. \$4.75; 5 to 10 bu. lots or more at \$2.25 per bu. SHELLED CORN: Postpaid, ½ lb. 15c; lb. 25c. By Freight or Express at buyer's expense, ½ bu. 30c.; ½ bu. 50c.; ½ bu. 80c.; bu. \$1.50; 2 bu. \$2.75; 10 bu. or more, \$1.25 per bu.

FIELD CORN-EXTRA EARLY FLINT VARIETIES.

Seed Corn this year is very scarce and we urge our customers to place orders early before all of our choice seed is disposed of Remember, that All of our Flint Corn Varieties will be Sold Only in the Shelled State.

BUCKBEE'S EARLY NORTHER-The greatest yielding Flint Corn The only corn for the extreme north. In fact, the greatest of all Flint varieties. Ears ten to fifteen inches long, of rich yellow color. Enormously productive, outyielding any field corn that we have ever grown in the far north. It is not uncommon to find three to four ears on a stalk. Matures exceedingly early, from 60 to 70 days being a fair average. Will surely prove of the greatest value to the farmers of the far north, particularly the Dakotas, Northern Minnesota, Wisconsin, Michigan and the Canadian

Provinces. will be pleased with this earliest and big yielding Flint Corn. REMEMBER-That I control the entire seed supply of this va-

Piety. Send to Buckbee's for Reliable Seed.

Price to one and all as long as my stock seed lasts: Postpaid, ½bu.

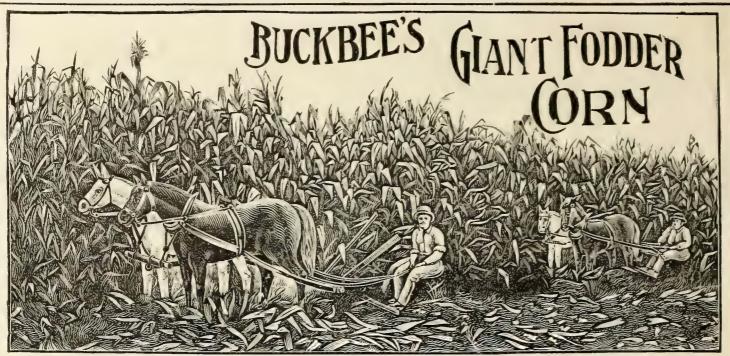

15c.; lb. 25c.; 3 lbs. 6oc. By Express or Freight at buyer's expense, ½ bu. 5oc.; ½ bu. 75c.; ½ bu. \$1.25; bu. \$2.00; 2 bu. \$3.90; 10 lb. or more, \$1.90 per bu.

YELLOW YANKEE—Particularly adapted to the Northern Middle States. Earliest and best known yellow flint variety. Will produce a good crop if planted as late as July. Ears large. Choicest Stock Seed, postpaid, ½ lb 15c.; lb. 25c. At purchaser's expense, ½ bu. 30c.; ½ bu. 80c.; ½ bu. 80c.; bu. \$1.50.

EXTRA EARLY KING PHILIP—Earliest and best variety of Red Flint Corn. Ripens within 80 days from time of planting. Ears large; good yielder. Choicest Stock Seed, postpaid, ½ lb. 15c.; lb. 25c. At purchaser's expense, ½ bu. 30c.; ¼ bu. 50c.; ½ bu. 80c.; bu. \$1.50.

NORTH DAKOTA WHITE FLINT—This is a well established variety, with uniform characteristics, including early maturity and medium size, both of stalk and ear. Choicest Stock Seed, postpaid, 1/2 lb. 15c.; lb. 25c;

THOROUGHBRED FORAGE CROPS. A THE GREATEST FODDER PRODUCER ON EARTH.

Buckbee's Giant Fodder Corn is a great variety which we have been developing for years. We are confident it surpasses anything on earth. Thousands and thousands of our customers in every part of the country assert that it stands without a peer for feeding either in the green state or for silo purposes. It is very rich in nutriment and a wondrously immense yielder. It grows rapidly, is early short jointed, tall, and produces an overwhelming abundance of leaves and rich, juicy, sugary stalks, with strong tendency to mature several ears.

This variety positively will furnish more tons of corn fodder to the acre and nearly double in nourishment than common Corn. The best sile authorities in the country use and endorse this Famous Giant Fodder Corn, and exclude all others for it. The reason is because this variety furnishes more dry matter and more nourishment to the ton than any other Fodder Corn on earth. Do not be influenced by statements intended to mislead you in buying other Corn, which is always claimed to be as good as Buckbee's Giant Fodder.

For the surpassing elegance of this variety and the extra choice seed which we furnish, prices named are extraordinarily low. Postpaid, $\frac{1}{2}$ lb. 15c.; lb. 25c. By freight or express. at buyer's expense, $\frac{1}{2}$ bu. 25c.; $\frac{1}{2}$ bu. 40c.; $\frac{1}{2}$ bu. 70c.; bu. \$1.25; 2 bu. \$2.40; 10 or more bu. \$1.15 a bu.

BUCKBEE'S SUPERIOR EARLY KAFFIR CORN.

THE GREAT DROUGTH RESISTER.

A most excellent corn to plant. Easily yielding two crops of fodder the season. Grows from start to finish whether it rains or shines it grows. Plants attain a height of from 6 to 10 feet, straight and upright.

Stems have a stalky tendency and produce numerous wide leaves. The **stalks** do not harden as do other fodder

crops, but keep green, brittle and juicy. A most excellent fodder, either green or dry, being highly relished by

all stock. It should be sown in rows, about 3 feet apart, planting 6 inches in the row. Use from 6 to 15 lbs. seed per acre. In case laud 1s warm, rich and deep, plant more if a heavy growth is desired. Its wonderful qualities are unaffected, even as far north as Dakota. It is immensely productive and does well everywhere. If you want the best food for hogs or sheep and are proud of fine-looking horses or cattle, it will pay you to plant a few acres of this great Kaffir Corn. Besides, it produces tons of seed which is as rich, nutritious and fattening as Corn. You can fatten your hogs on this seed at an extremely small outlay. Our price for this very choice selected Kaffir Corn Seed, postpaid, ½ lb. 12c.; lb. 20c. At buyer's expense by freight or express, 5 lbs. 40c.; 10 lbs. 60c.; 15 lbs. 75c.; 50 lbs. \$2.00; 100 lbs. \$3.00

GREAT BRAZILIAN FLOUR CORN.

One of the Greatest Novelties Ever Introduced. Originated in Brazil, where it constitutes the principal food of the inhabitants. It is truly a marvelous plant. For years our seed was always exhausted before the season ended, so great was the demand. You are sure to like it. It grows 8 feet high, and from one kernel sends enough stools to produce 100 ears.

Twenty-five barrels of flour can be grown from one acre, and this flour is of as fine a grade as is made of wheat, which is five times as much

as wheat produces per acre.

2. The bread and biscuits baked therefrom are fully as palatable as from any flour known.

3. When boiled in a green state it has no superior among Sweet Corn, while its yield is thrice that of Sweet Corn.

4. Matures in all latitudes where Corn ripens.

5. Cultivate as you would Corn, allowing two kernels to a hill.

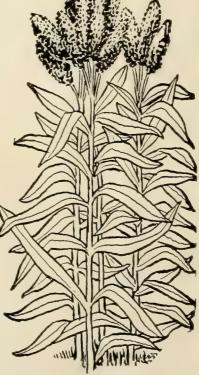

6. It yields at the rate of 100 bushels of green fodder peracre, for cattle, of the most delicious, sweet, tender, juicy, nutritious ford we have ever seen Indeed, it seems as though this will soon rank as the greatest fodder producing plant in the world

7. This is a wonderful Corn. Is makes flour in quality equal to wheat

7 This is a wonderful Corn Is makes flour in quality equal to wheat. Of course it is not so white, but oh, what delicious cakes, rolls and biscuits! For flour, plant 10 lbs. per acre; for fodder 15 lbs Postpaid, ½ lb. 15c.; lb. 25c. At buyer's expense, 5 lbs. 40c.: 10 lbs. 75c.

BROOM CORN.

BROOM CORN.

Buckbee's Improved Superior Evergreen.—
The best variety for general cultivation, on account of color and quality of brush. Ripens early. Grows about 8 to 10 ft. high. Brush good length, fine and straight. Postpaid, ½1b. 15c.; lb. 25c. By express or freight at purchaser's expense, 10 lbs. 60c.; 25 lbs. \$1.25; 100 lbs. \$3.75.

who require large quan-tities of field seeds, please mail me a list of your actual requirements and I will take pleasure in making you Special Prices. FLECTRIC TREE

FIELD

BEANS. BUCKBEE'S ELECTRIC TREE.

A most valuable new variety, the most productive and heavy-cropping Bean known, growing nearly 2 feet high, branching out in all directions and bearing its pods so high that they seldom touch the ground, enabling it to stand a wet spell without any injury. All who have raised Beans know that when the pods lie in contact with the ground after ripening, a very little rain will ruin the crop, turning the pods and beans black. This is indeed a wonderful cropper, yielding from 75 to 100 bushels per acre, average cultivation, while hundreds of my customers report yields of from 40 to 60 bushels per acre under average cultivation. Plant them 2½ feet apart, 18 inches in the row, 2 to 3 beans in a hill. They are much easier cultivated than small-growing varieties, and much easier harvested. They mature reasonably early and ripen very evenly. As a baking Bean Buckbee's Electric Tree is not equaled and will meet your most sanguine expectations for market or family purposes. Postpaid, ½ pt. 12c.; pt. 22c.; qt. 35c. (See wholesale prices in quantity page 4. page 4.

GIANT BEGGAR WEED.

A wonderfulnew forage plant and restorer of land. It is more valuable for fertilizing than either peas or clover, and equal to them for feeding. When once established it grows every year without further attention. It will not interfere with other crops, can be kept under by cultivation, can be eradicated in two years of successive pasturing. This is important, because some forage plants become pests when the land is needed for other crops. The plant is a strong feeder with deep roots like alfalfa, bringing from the subsoil the dormant fertilizing elements, and will enrich the land by its decaying foliage without the expense of plowing it under. Land planted with Beggar Weed has improved 300 per cent. In six years. Hogs, horses, cows and mules eat it greedily. Can be pasture land in summer and fall. Can be sown in the corn-field. Will thrive on much poorer land than most forage crops. More fattening to stock than all other known forage plants. Five pounds of seed for an acre. Drill or sow broadcast in the spring after frost. Postpaid, oz. 10c.; ½ lb. 25c.; lb. 45c.; 5 lbs. \$1.75.

Jerusalem Corn.

lant of Great Merit—Belongs to the non-saccharine sorghums, and was brought a few years since from the arid plains of Palestine. It is pronounced the best and surest grain crop for dry countries and seasons; even better than Kaffir Cornor Milo Maize. It grows several cmaller heads on side shoots; often as many as 8 heads on a stalk. Very valuable for feeding stock and proves a GOLD MINE for chicken feed. Plant 5 to 10 lbs. per acre. Postpaid, ½ lb. 15c.; lb. 25c. At buyer's expense, 5 lbs. 40c.; 10 lbs. 75c.

Branching Dhoura Corn.

Vields from 6 to 16 Stalks from 1 Seed. Being allied to Sugar Cane, cattle, horses and hogs will eat it ravenously. The Rural New Yorker says: "Though, during the severe drought, corn dried up within a few feet of it, the Branching Dhoura suffered but very little, producing from 4 to 12 branches, and grew sturdily from 6 to 10 feet high. If cut down it starts again with renewed strength. It yielded at the first cutting at the rate of 68 tons to the acre. Plant 5 lbs. in rows per acre. Postpaid, ½ lb. 15c.; lb. 25c. At buyer's expense, 5 lbs. 40c.; 10 lbs. 75c.

Wonderful Milo Maize Corn.

Excellent Fodder Plant for Feeding. In a great many sections it is planted to the exclusion of all others. It will produce an amazingly large crop of the richest green fodder of superlative quality. It will grow anywhere. The seed is an excellent fattener, and is reliabled by all cattle, hogs, poultry, etc. Plant 5 lbs. in rows per acre. Postpaid, ½ lb. 15c.; lb. 25c. At buyer's expense, 5 lbs. 40c.; 10 lbs. 75c.

It costs less than 30 cents an acre to use our carefully selected Seed Corn. Do you consider it wise to risk doubtful Corn when the best is so cheap?

Guaranteed to destroy Potato Bugs and those on Tomatoes and Egg Plants, Currant Worms, cabbage Lice and Worms, Fleas, Beetles and Striped Bugs on Melons, turnips, Beets, Onions, etc. Also a preventative of the Rose Bug and Cut Worm. Use in the morning while the dew is on. Postpaid, lb. 15c. Freight or express, at buyer's expense, 5 lbs. 30c.; 10 lbs. 50c.; 25 lbs. \$1.25; 50 lbs. \$2.25; 100 lbs. \$4.25; 1,000 lbs. \$40.00.

BUCKBEE'S CHAMPION STOCK CARROT

FULL OF BUCKBEE'S

A Prodigy Ø Among Carrots

Try This

Carrot.

YIELDS OVFR 35 TONS PER ACRE.

CULTURE. While a sandy loam, mado rich by manuring the previous year, deeply worked, produces satisfactory crops. Clover sod turned under deeply and well enriched with a dressing of rotten manure, is most excellent for the general crop. When it is possible to do so, it is advisable to sow as early in the spring as the ground is fit to work, though good crops may, in this latitude, be grown from sowings as late as June 15th. Prepare the ground thoroughly and sow in drills 24 to 30 inches apart, using from 2 to 3 pounds to the acre, according to the distance between the rows. Cover one-eighth to one-fourth inch deep and see to it that the soil is well firmed about the seed. As soon as the plants appear use the cultivator or wheel hoe, and do not let the weeds get a start. Thin from 6 to 9 inches apart in the row as soon as plants are large enough. Gather and store for winter use like beets or turnips.

THE ROOTS OFTEN WEIGH FROM 18 LBS. TO 25 LBS. EACH, AND SELDOM LESS THAN 8 LBS. TO 10 LBS.

Buckbee's Champion Stock Carrot is not, properly speaking, a table Carrot, although the flesh is remarkably firm and sweet. It is not a Carrot for the market garden, but it is most emphatically a Stock Carrot for the farmer and stock raiser, and once used nothing will take its place.

This Carrot is the heaviest cropping Carrot grown, yielding more tons to the acre than any other sort. The flesh is white, crisp, solid and very sweet in flavor. It is a vast improvement over all other stock Carrots which have been favorites in the past, as it is not only much more productive but vastly easier to handle. The roots are short and very heavy at the shoulder, rendering them easily harvested. An important feature, also, is that they do not easily break in pulling or storing. Too much can scarcely be said of their size and great productiveness. The roots frequently measure 15 to 20 inches in circumference, and 25 to 50 tons to the acre is not an extravagent statement as to yield.

Best for Stock

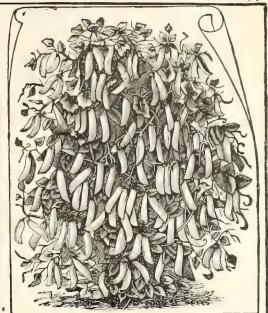

My Own Growth, Choicest Northern, Home Grown Pedigree Stock Seed. Postpaid, Pkt. 5c.; oz. 10c.; 2 oz. 18c.; ½ lb. 30c.; ½ lb. 50c.; lb. 90c.; 5 lbs. by mail, postpaid, 3.75.

FULL OF BUCKBEE'S SEEDS BUCKBEE'S NEW EARLY SNOWFLAKE FIELD PEAS

An Exceedingly Valuable Forage and Feeding Crop.

For the northern states there is no crop of greater value than Field Peas. They are a profitable crop to grow, in that the Peas when threshed are always marketable, and they stand in the front rank as a fodder plant. Like all leguminous crops, Peas have the power of extracting nitrogen from the air, and the soil is richer in nitrogen than before the Peas were sown upon it They should be sown in March or early April, one bushel of peas and two bushels of oats to the acre. The Peas should be sown first and plowed under about four inches deep; the oats then sowed and harrowed in. They will be ready for cutting about the latter end of June, when the oats are in milk and the pods formed on the Peas. Farmers who have never sown this crop will be surprised at its large yield. It is a nutritious food and relished by all kinds of farm animals. This crop also makes an excellent soil improver when turned under like Cow Peas.

Buckbee's New Early Snowflake—By far the best Fleld Pea. Immensely productive. Height of vine 3% to 4 feet. Dry pea of a beautiful pearly white color. Price postpaid, lb. 25c. At buyer's expense, % bu. 35c.; % bu. 60c.; % bu. \$1.00; bu. \$1.75.

Improved White Canada Field—A well known and standard variety of Field Peas. Price postpaid, ib. 20c. By express or freight at buyer's expense ½ bu. 25c.; ½ bu. 45c.; ½ bu. 80c.; bu. \$1.50.

BUCKBEE'S NORTHERN GROWN SUGAR CANE OR SORGHUM.

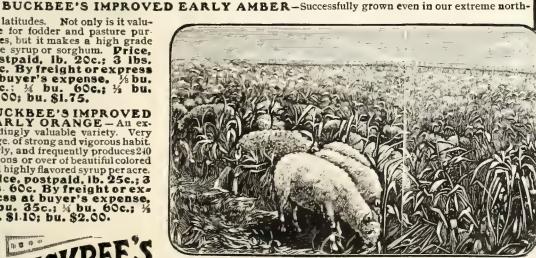

Valuable for Pastuze, Soiling, Green Food in Cut Form, as well as for Feeding in Dry State Through the Winter Months.

FOR FODDER — Dairy farmers and stockmen say that this is the most valuable fodder plant in existence for their use. Notwithstanding its great adaptability as a food for live stock, it is only quite recently that the real value of Sorghum (Sugar Cane) has attracted general attention. Its great merit is now beginning to be appreciated and the demand is increasing about ten told every year. It is profitably grown anywhere from Manitoba to Mexico, on any good corn ground, and does not appear to be affected by drought. As a todder plant it is the most economical plant in existence and of the very best quality, being sweet, tender and nutritious, and greedily eaten by cattle, horses and hogs. Dairymen find that the cows was give more and richer milk from its use, and it is claimed that as high as 60 tons of green fodder have been grown per acre. It can be cut several times during the season if not allowed to get too high, and makes a good, sweet hay. Sow 1 to 2 bu, per acre for pasture and fodder purposes, and ½ to ½ bu, per acre if grown for syrup. It is a profitable crop also to grow for the seed, which is also excellent for feeding ponltry.

FOR PASTURE for cattle, sheep and swine it has no superior, because a large amount of pasture can be had at a season when it is most difficult to obtain pasture from other sources. When proverly sown it may be fed as fodder during more than half the year. As a soiling crop also it will always prove of great value.

ern latitudes. Not only is it valuable for fodder and pasture purposes, but it makes a high grade cane syrup or sorghum. Price, postpaid, lb. 20c.; 3 lbs. 50c. By freight or express at buyer's expense. 1/8 bu. 35c.; 1/4 bu. 60c.; 1/4 bu. \$1.00; bu. \$1.75.

BUCKBEE'S IMPROVED EARLY ORANGE.—An exceedingly valuable variety. Very large of strong and vigorous habit. Early, and frequently produces 240 gallons or over of beautiful colored and highly flavored syrup peracre. Price, postpaid, lb. 25c.; 3 lbs. 60c. By freight or express at buyer's expense, 1/8 bu. 35c.; 4 bu. 60c.; 4/8 bu. \$1.10; bu. \$2.00.

NORTHERN GROWN SUGAR

SOY BEANS & GUARANTEED NORTHERN GROWN

These Beans should be raised on every farm, either as a grain crop or fodder crop to feed green or for the silo. The grain is the richest known vegetable substance. Planted in rows 2½ feet apart with 6 or 8 plants to the foot of row, requiring about half a bushel of seed per acre. They yield 15 to 20 tons per acre of fodder extremely rich as flesh formers. They are soil enrichers, gathering nitrogen from the air in the same manner as does clover, the roots being crowded with tubercles, which give them their power. For the north it is absolutely necessary that the Early Soy Beans be used. Another year has served to emphasize the claims we have made for this wonderful Bean. It stands alone as the most valuable agricultural acquisition of the 20th century. Thousands are already growing Soy Beans, and in five years it will be as universal as corn. They can be sown broadcast or drilled, 1½ bushels per acre, but experience teaches us that the most satisfactory results are obtained by planting in rows.

EVANS EARLY.

Originated by Mr. Evans, the noted Soja Bean specialist, of Michigan. By long odds the best variety for planting in the northern, eastern or western states, Choicest Stock Seed (Northern Grown). Postpaid, lb. 30c. By freight or express at buyer's expense, ½ bu. 50c.; ½ bu. 95c.; ½ bu. \$1 80; bu. (of 50 lbs.) \$3.50.

YELLOW SOJA or SOY BEANS.

Well known variety; guaranteed Northern Grown. Postpaid, 1b. 25c. At buyer's expense, $\frac{1}{2}$ bu. 40c.; $\frac{1}{2}$ bu. 75c.; $\frac{1}{2}$ bu. \$1.40; bu. (of 50 lbs.) \$2.75.

RUSSIAN EMMER OR SPELTZ.

(Triticum Spelta.)

This is the new cereal erroneously called "speltz," of which so much has been said in recent years. It is not related to barley any more than bearded wheat is, though some misinformed writers have so stated. Botanically the plant is closely related to wheat (TRICICUM VULGARE), to which the grain, freed from its hull, bears a striking resemblance. The berry is of the color, texture and hardness of "No. 1 hard" spring wheat, but about twice as long and with pointed ends. It makes a flour slightly darker than wheat, but bread made from it appears to be fully as palatable and nourishing as wheat bread. As yet the principle use of emmer is for stock feeding, the general method being to chop with corn or oats. The hulls being rather harder than oats, it is best to grind or chop this grain before feeding. For best results it should be sown as early in spring as possible. It seems to succeed equally well on all soils except rich bottom lands, or those with a tendency to wetness. On ordinary upland clay or gravel, and on poor, light sands it outyields all other cereals. It withstands drouth better than any other grain. Stock will eat Emmer straw up clean before they will touch any other. Some seedsmen advise sowing 3 bushels per acre. Don't do it; 7 to 8 peeks is the limit. It stools freely. There is no standard weight for this grain. The grain in hull generally weighs about 40 pounds per bushel, and we sell it at that weight.

My own growth, choicest northern grown, pedigree stock seed. Price, postpaid, rkt. 5c.; 1b. 25c.; 3 lb. 60c. By express or freight at buyer's expense, ½ bu. 25c.; ½ bu. 40c.; ½ bu. 70c.; bu. \$1.25.

BUCKBEE'S Arew Giant Japanese BUCKWHEAT

SUNFLOWER.

Mammoth Russian.

The single heads measure 22 inches in diameter and contain a large quantity of seed, which is highly valued by all farmers and breeders who have tried it as an excellent and cheap food for fowls. They fatten well on it and attain a bright lustrous plumage, and strong, healthy condition better than on any other food. It can be raised cheaper than corn. Plant 4 quarts of seed per acre. Postpaid, oz. 5c.; 1b. 18c. By freight or express at buyer's expense, ½ bu. 35c.; ½ bu. 60c.

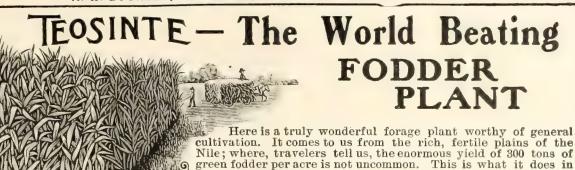

BUCKWHEAT.

Buckbee's Giant Japanese.

The greatest Buckwheat in the world. Has all the valuable characteristics of the Japanese Buckwheat, and in addition is earlier and will yield at least one-quarter more per acre. Don't fail to include this in your order. Choicest Stock Seed. Postpaid, 1b. 20c. By freight or express at buyer's expense, ½ bu. 25c.; ½ bu. 45c.; ½ bu. 80c.; bu. \$1.50.

Improved Silver Hulled.

A popular standard variety. Grain is of light gray color. Has thinner husk than the other sorts. Early and prolific. Choicest Stock Seed: Postpaid, 16. 20c. By freight or express at buyer's expense, ½ bu. 25c.; ½ bu. 40c.; ½ bu. 70c.; bu \$1.35.

cultivation. It comes to us from the rich, fertile plains of the Nile; where, travelers tell us, the enormous yield of 300 tons of Nile; where, travelers tell us, the enormous yield of 300 tons of green fodder per acre is not uncommon. This is what it does in Egypt. What does it do in America? Almost equally as well. Give it a rich, warm balmy soil, and it will yield from 100 to 150 tons of green fodder per acre. It is simply marvelous. Down in Georgia, in Florida and North Carolina, its yield is all the way from 100 to 200 tons of green fodder per acre. It grows to a height of 18 feet in those states, while a single kernel will produce from 60 to 100 stalks of the most nourishing green fodder imaginable. Our test in the North gives it an average yield of about 50 tons of green fodder per acre. On our Rockford Seed Farms, where the soil is fodder per acre. On our Rockford Seed Farms, where the soil is sandy and warm, it yielded at the rate of fully 60 tons per acre, sending forth from 20 to 60 shoots from one kernel of seed. It was the most magnificent thing we had ever seen.

We would advise sowing same in rows two feet apart, and the hills far apart enough to work. It wants plenty of sunshine and cultivation, and then it will grow so rapidly that it will soon cover a whole acre and look like a dense forest. It can be cut with a reaper and fed in the green state, or it can be dried and makes magnificent fodder for cattle during the long winter months. There are unlimited possibilities for our annual fodder plant. Teosinte, and we know, if you will give it a trial, that it will more than pay you another year. Just try and grow this for your hogs. You will be surprised how they relish it, and what a tremendous amount of fodder and food you will get out of an acre for them. About 3 pounds of seed are required per acre. PRICE OF SEED, postpaid .oz. 10c.; ¼ lb. 25c.; lb. 75z., At Buyer's Expense, lb. 65c.; 5 pounds or more at 60c per pound.

THE VELVET BEAN > Nature's Great Soil Restorer

The velvet bean is a green manuring and foliage plant that is creating agreat sensation at the South, where it is disputing for favor with the cow pea. It makes a strong growth at the North also, and is now widely recognized as a thing of high value. The vines grow to a length of ten to thirty feet, and form a deep mass of nutritious fodder. The Florida Experimental station reports 16.680 pounds of green forage per acre, and it is said to cure in less time than the cow pea and to make an equally valuable hay. At the South its use is for hay, for soiling, and for improving the character of the land. At the north its place is with the cow pea as it will grow and flourish on poor land. It has a place in the flower garden as well as in the field, for it bears showy clusters of purple blossoms. and being an excellent climber quickly covers arbors, lattice work, poles, etc. Plant 12 quarts per acre in rows five feet apart. Postpaid, ¼ lb. 10c.; lb. 25c. At Buyéi's Expense, ½ bu. 50c.; ½ bn. \$1.75; bn. \$3.25.

Mand's Wonder Forage Plant.

We know of no forage plant, and we believe there is none in existence, that will give as heavy yields of forage as will Mand's Wonder Forage Plant. In all sections of this country where corn can be grown, this plant will succeed. It will certainly supplant as a forage plant, sorghum, kaffir corn and milo maize. It is easier to grow than corn or any other forage crop, producing a large amount of fodder at a cost of less than one dollar a ton. We hope that every one of our friends will give this wonderful new plant a trial. We know it will give satisfaction.

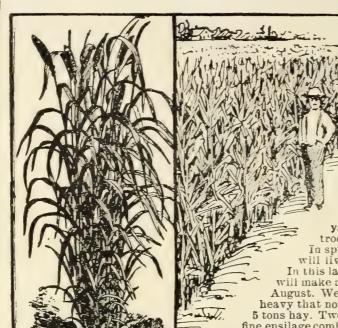

Price per pkt. 5c.; 1/4 lb. 15c.; lb. 50c, postpaid. By express or freight at buyer's expense, 2 to 10 lbs. or more at 30 cts. per pound.

PENCILLARIA.

Pencillaria == The Giant Wonder Forage Plant.

This plant has received many strong advertisements and writeups in the past year; heralded from one end of the earth to the other as the greatest forage plant, as the most wonderful fodder plant, as the most marvelous hay producer this side of the stars, indeed, several salesmen have lauded the merits of this plant until one stands bewildered and asks, what next? On our own farms it has done exceedingly well, and we recommend for same a thorough trial, as it requires very little seed to give same a most thorough test. We know farmers who have planted several acres, and who would not part with this wonderful forage plant. It is a tremendous stooler and in its quality resembles our marvelously prolific forage plant, Teosinte. It should be planted two or three feet apart in the row and the rows about 3½ feet apart. Cultivate two or three times if possible, and by that time the sight will astonish the beholder, and you will marvel at its luxuriance and you will dream that you are in the tropics, but your wonder will but then begin. As you watch it grow until it has reached 12 or 14 feet and densely covered your land, you will surely believe that you are finding your way through a Central America tropical bottoms! It will average 40 rich, juicy, leafy stalks to the plant, which will be covered with seed heads 12 to 24 inches long. The seed makes good feed for poultry, and ground for cattle cannot be beat. Sow same as early as you would Indian Corn. The usual way of growing it, however, is to mow the crop when from 3 to 6 feet high, and it will immediately start again and can be mowed four to six times during the season. If allowed to grow until the flower heads begin to develop before cutting, it will yield the heaviest crop of any fodder plant we know of, and it is greatly relished by all kinds of stock, either in its green or dry state. Sow seed very thinly in drills 24 to 36 inches apart. Every farmer, and in fact everyone who keeps cows, horses or hogs, should try it if they wish to grow an immense crop of fodder cheaply on a small amount of ground. Postpaid, ¼ 1b. 15c.; 1b. 35c.; 3 lbs. \$1.00. By express or freight at buyer's expense, 1b. 25c.; 5 lbs. \$1.00; 25 lbs. \$3.75; 100 lbs. \$13.50.

BEST MILLETS.

Our high grade, pedigree Northern-Grown Millets are quick growing, resist drought and possess the highest agricultural values.

NEW JAPANESE.

P. Crus Galli.

Grows from 4 to 7 feet tall, but is not harsh and woody as other grasses are. This is one of the most profitable and valuable seed crops. We have grown this splendid Millet for years and have been so careful in the selection and improvement of our Stock Seed that our strain is acknowledged to be the best in existence; so valuable it is that many seedsmen look to us each year for their supply. In some sections of the country it is known as Barnyard Millet while in other parts of the country it has been erroniously introduced under the name of "Billion Dollar Grass" by some seed houses. troduced under the name of "Billion Dollar Grass" by some seed houses. In spite of these names it is such a good thing that it has come to stay and will live long in the Public Favor under its proper name—Japanese Millet.

In this latitude we usually sow from May 10th to 20th. Sown at these dates it will make an excellent soiling crop, giving two cuttings, about mid-July and late August. We have frequently had this Millet attain a height of 6½ to 7 feet and so heavy that no binder could handle it. It yields 50 to 70 bushels seed per acre and 3 to 5 tons hay. Two parts Japanese Millet and one part Evan's Early Soy Beans are a fine ensilage combination. Don't attempt to grow them together. Sow the Millet from 8 to 10 quarts per acre on the best ground you have. Plant the Soys in drills 28 to 30 nches apart and cultivate same as other beans and corn. inches apart and cultivate same as other beans and corn.

NEW JAPANESE MILLET.

Feeding Value,

Poultry, Geese and Turkeys all relish Japanese Millet in the green state, and keep healthy and happy and fresh on the seed thereof when fed during the fall and winter months.

Hogs and Their Families-Nothing will do them more good than to turn them in on a field of Japanese Millet. They also

relish and fatten readily on the seed.

Cows, Calves and Heifers look with pleasure on a field of Japanese Millet and feed in happy contentment and flourish upon its luxuriant swath

Horses and Other Stock will feed on it readily and thrive.

Sow the seed broadcast at the rate of 20 to 25 lbs. to the acre, or in drills 12 to 18 inches apart, using 10 to 15 lbs, per acre.

(36 lbs. to the bushel.) Postpaid, 1b. 25c. At buyer's expense by express or freight, \(\frac{1}{2} \) bu. \(\frac{5}{2} \); \(\frac{1}{2} \) bu. \(\frac{5}{2} \). \(\frac{5}{2} \) bu. \(\frac{5}{2} \).

HUNGARIAN GRASS----Very Valuable Hay for Stock Raisers.

Yields a good supply. It should be cut when in bloom and the fiber will not be too woody for feeding stock. Postpaid, Ib. 20c.; 3 lbs. 50c. By freight or express, at buyer's expense, ½ bu. 30c.; ½ bu. 50c.; ½ bu. 85c.; bu. \$160; 5 bu. lots, or more, at \$1.50 per bn

MILLET.

BUCKBEE'S CALIFORNIA BEAUTY.

THE BEST HOG AND STOCK MILLET.

It is positively the most remarkable leafy, bushy, vigorous growing, earliest Millet in the world. Yields as high as fifteen tons of hay or more to the acre. It will make a magnificent crop of hay if sown immediately after your oats or barley, rye or wheat is cut, as it will ripen in from sixty to ninety days. It or wheat is cut, as it will ripen in from sixty to ninety days. It is positively the Millet wonder—very leafy, prolific and exceptionally fine for hay and food. Try it for 1905. This Millet, like no other Millet, stands the hot, dry winds of the Dakotas, the burning prairies of Kansas, and flourishes on the semi-arid soils of Western Nebraska and Colorado. In fact, it grows where no other Millet grows. It would be cheap at ten times the price. Sow one-half bushel per acre. (Fifty pounds to the bushel.) Postpaid 1b. 25c. At buyer's expense, 3 bu. 35c.; 4 bu. 50c.; bu. \$1.75; 5 bu. \$8.25.

GERMAN or GOLDEN MILLET.

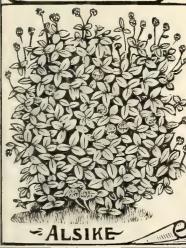

One of the best varietics. Quick growing and will produce an immense amount of valuable fodder. It makes the best of hay. (Fifty pounds to the bushel.) Postprid, lb. 20c. At buyer's expense, by express or freight, 1/4 bu. 50c.; 1/2 bu. 80c.; bu. \$1.50.

PEARL MILLET.

This quick growing forage plant has been long known under the name East India or "Cat-tail" Millet. Sown in drills four feet apart and cultivated like corn the plants attain a height of eight to ten feet, with slender long-bladed leaves. These stalks can be cured for winter use, and the seed makes an excellent poultry food, but the best use of the plant is to cut the stalk for green forage when about three feet high and allow the plants to make a second growth for fall feeding or ensilage. Five pounds of seed are required per acre. Postpaid, lb. 30c. At buyer's expense, 5 lbs. 75c.; 10 lbs. \$1.25.

Turkestan

(MEDICAGO SATIVA VAR. TURKESTANICA)

Perfectly Hardy. Withstands Drought, Heat and Cold. Yields the Heaviest and Richest Crops of Fodder, The Best Clover for Permanent Hay and Pasture.

The seed was first secured from Russian Turkestan by Prof. N. E. Hanson, while engaged as agricultural explorer for the Department of Agriculture, Washington. In 1898 and 1899, 1,101 packages of the seed were distributed by the Secretary of Agriculture throughout the United States, and upon careful investigation it has proved vastly superior to the company Alfalfa in approach as it withstands extreme mon Alfalfa, inasmuch as it withstands extreme drought and cold much better. The climate of Turk-

Value as a Fodder Plant states, being far removed from the ocean and surrounded by wide ex-Arid Soils. panses of dry land. The summers are very hot and long, and in many places the evaporation exceeds the quantity of moisture that has fallen during the year, and here it is that Alfalfa grows and flourishes. We have every reason to believe it will prove equally as valuable in this country. The introduction of Turkestan Alfalfa permits of a great extension of the area heretofore devoted to

Good Crops on the cultivation of Alfalfa, and this, too, in sections where climatic conditions have Alkali Soils. almost prohibited the growing of legum inous forage crops. Not only does it endure extreme cold and drought, but excellent crops of it have been raised on strongly alkaline soils. Sown alongside common Alfalfa last summer, the Turkestan made a top growth averaging 18 inches in height, with corresponding large root growth, while the common only grew a few inches high. The plants grow strong, more leafy, with slenderer and less woody stems than the common sort, thus making a finer and more nutritious hay. Plant and care for same as common Alfalfa. The seed we offer is warranted the best and imported by us direct from Russian Turkestan. (60 lbs. per bu.) Plant 12 to 14 lbs. per acre, Price, Postpaid, pkt. 10c.; lb. 40c.; 3 lbc. \$1.10. At buyer's expense, ½ bu. \$1.65; ¼ bu. \$3.00; ½ bu. \$5.75; bu. \$11.25.

Giant Incarnate or Crimson Clover

\$1.40; ½ bu. \$2.60; bu. 4.85.

(Trifolium hybridum)—This is the hardiest of all Clovers and never whaterkills, even in our severe winters. It adapts itself to all kinds of soils and is Makes a finer and better hay than Red capable of resisting extremes of wet and drought alike. Makes a finer and better hay than Red

Clover and is relished by stock. Sow 10 lbs. per acre. (60 lbs. per bu.) Postpaid.pkt. 10c.; lb. 35c.; 3 lbs. 90c. At buyer's expense, ½ bu. \$1.25; ½ bu. \$2.35; ½ bu. \$4.50; bu. \$8.50.

Medium Red or June Clover (Trifolium pratense)—Our seed is carefully grown and selected for seed purposes. There is none better, if as good. Sow 10 to 14 lbs. per acre. (60 lbs. per bu.) Price, Postpaid, pkt. 10c.; lb. 30c.; 3 lbs. 80c. At buyer's expense, ½ bu. \$1.25; ½ bu. \$2.25; ½ bu. \$4.25; bu. \$8.00.

Trifolium pratense propagal, Often called English or Sapling

Mammoth Red Clover

Trifolium pratense perenne)—Often called English or Sapling Clover. Valuable for hog pastures and for plowing under as a fertilizer. Sow 15 lbs. per acre

(60 lbs. per bu.) Price, Postpaid, pkt. 10c.; lb. 30c.; 3 lbs. 80c.

At buyer's expense, ½ bu. \$1.30; ½ bu. \$2.30; ½ bu. \$4.35; bu. \$8.25.

Unequalled drought resisting Clover. Plant 10 to 14 lbs. per acre. (60 lbs. per bu.) Postpaid, pkt. 10c.; lb. 35c.; 3 lbs. \$1.00. At buyer's expense, ½ bu. \$1.35; ¼ bu. \$2.70; ½ bu. \$4.75; bu. \$9.00.

White Bokhara Clover

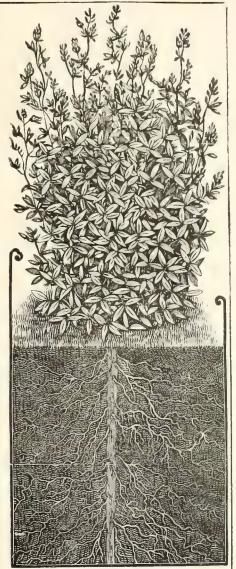

(Melilotus alba)—Sometimes called Sweet Clover. A tall, tremities hear numerous small white flowers of great fraggrance during the entire season and

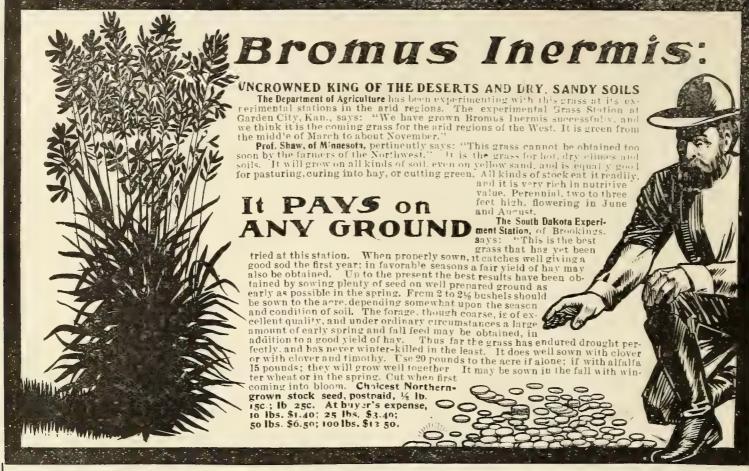

tremities bear numerous small white flowers of great fragrance during the entire season, and

constantly sought by bees. Sow 10 lbs. per acre. (60 lbs. per bu.) Postpaid, pkt. 10c.; lb. 35c.; 3 lbs. \$1.00. At buyer's expense, ½ bu. \$1.75; ½ bu. \$3.25; ½ bu. \$6.25; bu. \$12.00.

White Clover (Trifolium repens)—Valuable clover for sowing in lands intended for pasture. Will do well in almost all kinds of soil, except wet or moist ground. Sow 6 lbs. per acre. (60 lbs. per bu.) Price, Postpaid, pkt. 10c.; lb. 40c.; 3 lbs. \$1.10. At buyer's expense, 5 lbs. \$1.10; 10 lbs. \$2.00.

Sand Lucerne (Medicago media)—Especially adapted to sandy soils. Largely used in Europe. Sow 12 to 14 lbs. per acre. (60 lbs. per bu.) Postpaid, pkt. 10c.; lb. 35c.; 3 lbs. \$1.00. At buyer's expense, \(\frac{1}{2}\) bu. \$1.75; \(\frac{1}{2}\) bu. \$3.25; \(\frac{1}{2}\) bu. \$6.25; bu \$12.00. Yellow Trefoil (Medicago lupulina)—Allied to common Red Clover. Valuable for dry, sandy or poor soil. Sow 12 to 14 lbs. per acre. Postpaid, pkt. 10c.; lb. 30c.; 3 lbs. 80c. At buyer's expense, \(\frac{1}{2}\) bu. \$1.25; \(\frac{1}{2}\) bu. \$2.25; \(\frac{1}{2}\) bu. \$4.00; bu. \$7.50. (Onobrychis sativa)—Sometimes called Sainfoin. A deep rooting perennial, desirable for feeding either green or dry, to milch cows. Increases quantity and improves quality of milk. Sow 2 bu. per acre. (20 lbs. per bu.) Postpaid, pkt. 10c.; lb. 30c; 3 lbs. 80c. At buyer's expense, \(\frac{1}{2}\) bu. 40c.; \(\frac{1}{2}\) bu. 70c.; \(\frac{1}{2}\) bu. \$1.30; bu. \$2.50. (Ornithopus sativus) The greatest honey producing plant in the world. An annual forage, especially valuable during the hot dry months of summer. Yields heavy crops on poor soils. Sow 25 to 50 lbs. per acre. (60 lbs. per bu.) Postpaid, pkt. 10c.; lb. 25c; 3 lbs. 70c. At buyer's expense, \(\frac{1}{2}\) bu. 85c., \(\frac{1}{2}\) bu. \$3.10; bu. \$6.00

Buckbee's Reliable Northern Grown Re-cleaned Grass Seeds

Our High Grade Pedigree Grass Seeds Are Free from Weed Seed and True to Name. Prices Subject to Market Fluctuations Without Notice. Write for Market Prices if You Desire to Buy in Large Quantities.

BERMUDA GRASS-(Cynodon Dactylon)-The most valuable grass for the Southern States, as it withstands heat and drought wonderfully well. Is valuable for hay and pasture, and unsurpassed for lawns in the south, as it runs over the ground forming a dense turf. (35 lbs. per bu.) Sow 8 lbs. per acre. Postpaid lb, 85c: 3 lbs. \$2 45. By express or freight at buyer's expense, 5 lbs. \$3.25.
CREEPING BENT GRASS.

(Agrostis Stolonifera) -Somewhat resembles Red Top. Does best on wet marshy soil. (14 lbs. per bu.) Postpaid, lb. 35c.; 3 lbs. \$1.00. By express or freight at buyer's expense, bu. \$2.50.

CRESTED DOG'S TAIL—(Cynosurus Cristatus)—A fine dwarf-

growing evergreen grass, particularly adapted for hard, dry

soils and hills pastured by sheep. is very hardy and is little affected by extremes of weather. (14 lbs. per bu.)
Postpaid, lb. 50c.; 3 lbs. \$1.35. By express or freight at buyer's expense, bu. \$4.50.

ENGLISH OR PERENNIAL RYE GRASS-One of the best and most nutritious grasses for permanent meadows and pastures. Endures close cropping and recovers quickly after cutting. Does best on strong, rich soils. (14 lbs. per bu.) Postpaid, lb. 25c.; 3 lbs. 60c. By express or freight at buyer's expense, bu. \$1.20.

FOWL MEADOW GRASS—(Poa Serotina) Valuable grass for sowing on low, wet lands that are occasionally overflowed. (12 lbs. per bu.) Postpaid, lb. 40c.: 3 lbs. \$1.10. By express or freight at buyer's expense, bu. \$3.50.

HARD FESCUE-Festuca Duriuscula-A very useful grass and should be included in all sheep pastures or in permanent pastures for dry, gravelly soils. Produces a very fine and succulent herbage. (12 lbs. per bu.) Postpaid, lb. 25c.; 3 lbs. 70c. By express or freight at buyer's expense, bu. \$1.40.

ITALIAN RYE GRASS—An excellent variety, producing a nutritious feed in early spring. If sown early will produce a large crop the same season. (14 lbs. per bu.) Postpaid, lb. 25c.; 3 lbs. 70c. By express or freight at buyer's expense, bu. \$1.20.

JOHNSON GRASS-(Sorghum Halapense) -A perennial grass with

JOHNSON GRASS—(Sorghum Halapense)—A perennial grass with cane-like roots. It is very tender and nutritious; good for stock. Hardy only in the south and southwestern States. (25 lbs. per bu.) Postpaid, lb. 30c.; 3 lbs. 85c. By express or freight at buyer's expense, bu. \$3.00.

KENTUCKY BLUE GRASS, BUCKBEE'S SUPERIOR—(Poa Pratensis.) One of the first grasses to start in the spring; much relished by all kinds of stock and succeeds on a great variety of soils, particularly on rich, moist lands. Fancy cleaned seed. (14 lbs per bu.) Postpaid, lb. 25c.; 3 lbs. 70c. By express or freight at buyer's expense, bu. \$1.50.

MEADOW FESCUE— Festuca Pratensis)—ENGLISH BLUE GRASS—One of the best of our natural grasses. It is greedily eaten by all kinds of stock, is very

eaten by all kinds of stock, is very fattening, and makes excellent hay. It is very hardy and succeeds in almost all soils, but attains its greatest perfection in moist, rich land. Comes into use very early and again late in the fall. (14 lbs. per bu.) Postpaid, lb. 30c.; 3 lbs. 70c. By express or freight at buyer's expense, bu. \$1.30.

MEADOW FOXTAIL—(Alopecurus Pratensis)-Closely resembles Timothy, but flowers much earlier and thrives in all soils excepting dry sands or gravel. It succeeds best in strong, moist, rich soils. Being of early and rapid growth it is particularly valuable for permanent pasture. It is highly relished by all kinds of stock, endures close cropping and forms a luxuriant aftermath.

(10 lbs. per bu.) Postpaid, lb. 35c.;
3 lbs. \$1.00. By express or freight at buyer's expense, bu. \$3.25.

ORCHARD GRASS—(Dactylis Glomerata)—Of exceptional value

for permanent pasture and for hay crops. It is very early, coming in ahead of all other grasses, recovers quickly after being cut and endures close cropping. If cut when it comes into flower makes excellent hay, but if allowed to stand, however, it becomes hard and pithy. On this account it should never be sown with Timothy. It thrives well on all soils. (14 lbs. per bu.) Postpaid, lb. 30c.; 3 lbs. 85c. By express or freight at buyer's expense, bu. \$2.00.

NOTICE-MARKET CHANGES

WING to the unsteady condition of the markets this season, prices are constantly changing. The prices given on Field Seed pages are those ruling at the time this Catalogue was published, Dec. 1, 1904; I would therefore advise you to send in your orders as early as possible to secure best possible prices. If you are offered lower prices for the best Northern Grown Seeds from any reliable seed grower, write me. Write for special prices when in the market for large quantities. I can save you money on every deal.

Buckbee's Reliable Northern Grown Re-cleaned Grass Seeds.

RED TOP, BUCKBEE'S SUPERIOR - (Agrostis Vulgaris) - Wellknown and valuable pasture grass; also makes excellent hay. Grows on almost all soils, but does best on moist lands. Should be included in all mixtures for seeding down wet or

Should be included in all mixtures for seeding down wet or marsh lands. (14 lbs. per ba.) Postpaid, 1b. 25c.; 3 lbs. 70c. By express or freight at buyer's expense, bu. \$1.40.

RED OR CREEPING FESCUE—(Festuca Rubra)—A valuable grass for sowing on dry pastures, light soils and railroad embankments. It is of a creeping habit, and the roots penetrate so death into the coil that it remains green after many other deeply into the soil that it remains green after many other grasses have dried up. (14 lbs. per bl.) Postpaid, 1b. 30c.; By express or freight at buyer's expense, bu. \$2.50.

ROUGH STALKED MEADOW GRASS—(Poa Trivialis)—An excellent grass for deep, moist meadows and stiff, heavy clays. (14 lbs.

per bu.) Postpaid, 1b. 45c.; 3 lbs. \$1.30. By express or freight at buyer's expense, bu. \$4.75.

SHEEP'S FESCUE—(Festuca Ovina)—This grass should form a large part of all mixtures intended for sheep grazing on high upland or dry pastures. In growth it is short and dense, and of excellent nutritive qualities deen-roated and not easily afof excellent nutritive qualities, deep-rooted and not easily affected by drought. (12 lbs. per bu.) Postpaid, ib. 30c.; 3 lbs. 85c. By express or freight at buyer's expense, bu. \$1 60.

SWEET VERNAL GRASS, TRUE ANNUAL—(Anthoxanthum Odora-

tum)-Valuable on account of the rich perfume which it imparts to the hay when drying. (14 lbs. per bu.) Postpaid, ib. 25c.; 3 lbs. 70c. By express or freight at buyer's expense, bu. \$2.00.

TALL MEADOW FESCUE - (Festuca Elatior) - A tall-growing grass particularly adapted for strong clay and wet soils, stands over-flowing and should for a part of all mixtures intended for marshes and wet lands. It is much relished by stock and makes an excellent hay. (14 lbs. per ba.) Postpaid, 1b. 35c; 3 lbs. \$1.00. By express or freight at buyer's expense, bu. \$3.85

TALL MEADOW OAT GRASS-(Avena Elatior)-Very early and a luxuriant grower; produces a large quantity of early and late growth, which allows it to be cut frequently. (14 lbs. per bu.)
Postpaid, lb. 30c.; 3 lbs. 85c. By express or freight at buyer's expense, bu. \$2.75.

TIMOTHY, BUCKBEE'S RELIABLE—(Phleum Pratense)—Northern grown and thoroughly re-cleaned seed. Subject to market ern grown and thoroughly re-cleaned seed. Subject to market changes. (45 lbs. per bu.) Postpaid, lb. 20c; 3 lbs. 50c. By express or freight at buyer's expense, bu. \$1.75.

WATER OR FLOATING MEADOW GRASS—(Glyceria Fluitans)—An invaluable grass for wet soils, and marshes and lands which occasionally overflow. (14 lbs. per bu.) Postpaid, 1b. 40c.; 3 lbs. \$1.10. By express or freight at buyer's expense, bu. \$4.25.

WOOD MEADOW GRASS-(Poa Nemoralis)-A variety growing naturally in shady places and moist, rich soils. The herbage is succulent and much relished by cattle; forms a close sod, and should be sown in all shady places in lawns, etc. (14 lbs. per ba.) Postpail, lb. 50c.; 3 lbs. \$1.25. By express or freight at buyer's expense, bu. \$4.75.

Buckbee's Reliable Grass Clover Seed Mixtures. and FOR MEADOWS AND PERMANENT PASTURES.

All authorities agree that for PASTURE and HAY best results are obtained from the use of grass seeds IN MIXTURE. The reasons are obvious: First—A NUMBER OF SPECIES will insure a much DENSER GROWTH than the same number of seeds of one or two species, and prove Less exhausting to the soil, since they live to a great extent on different constituents. Second—Seasons that affect some grasses adversely are FAVORABLE to other sorts. So that with mixtures failure is PRACTICALLY IMPOSSIBLE, provided, of course, the seed is good. We take great pains in selecting grass seeds, in order to secure the HIGHEST GERMINATION, and our mixtures are based on a full appreciation of the requirements of different soils for which they are intended.

EXTRA GRASS AND CLOVER MIXTURES FOR MEADOWS.

No. 1. FOR RICH, DRY SOILS.

Tall Meadow Oat, Kentucky Blue, Orchard Grass. Meadow Foxtail,

Timothy Italian Rye, Alsike Clover, Red Clover, English Blue, English Rye. Bu. (14 lbs.), \$1.75. Sow 1 to 2 bu. per acre.

Creeping Bent, Red Top. Fowl Meadow,

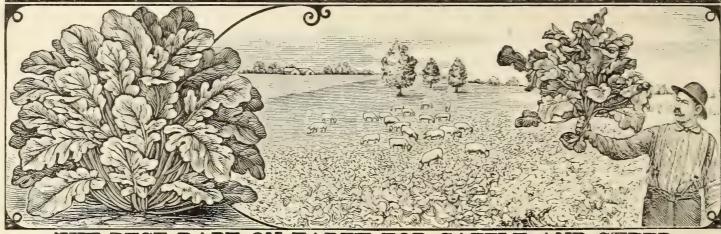

Tall Fescue, Rough-Stalked Meadow, Timothy.

Floating Meadow,
Alsike Clover,
Bu. (141bs), \$2.00. Sow1 to 2 bu. per acre.

No. 7. FOR ORCHARD AND SHADE - This mixture contains sorts adapted for orchard and shady places. Gives rich hay and will please. Sow 1 to 2 bu. per acre. Bu. (14 lbs.), \$2.00.

THE RESULT OF PLANTING BUCKBEE'S GRASS SEED MIXTURES

THE BEST RAPE ON EARTH

THE BEST RAPE ON EARTH FOR CATTLE AND SHEEP.

BUCKBEE'S WONDERFUL BONANZA DWARF RAPE.—Professor Shaw, of the Minnesota Agricultural College, reports on Rape:
"On 54 acres Rape after winter rye had been removed, 537 sheep and lambs were fattened thereon; 18 steers fed thereon for 59 days, and several acres were uneaten when winter set in. * * * Further, 1 acre of Rape will pasture 10 to 16 lambs 2 to 2½ months, when rye has preceded it. When sown alone, it will pasture 36 head for 2 months. * * That the lowest average gain on lambs feed on Rape alone, is 7 to 8 pounds per month." There is a great need of Rape, especially in the fall of the year when the corn has been harvested, and just before the setting in of winter. Farmers are obliged to depend solely on their pastures to feed their stock. Now, after the pastures give out, they must begin feeding their hay. Buckbee's Dwarf Bonanza Rape does away with all this and gives a luxuriant pasture and a tremendous yield during the months when same is so greatly needed. If sown in May, it grows rapidly and can be cut or pastured the latter part of July. If sown the first half of July it will come into fine play as a fodder in September, October and up to November. The main secret in the successful raising of sheep for mutton lies in the very general use of Fodder Rape for feeding them. After the corn is harvested and before winter sets in, there is need of nutritious green fodder, especially for sheep. Dwarf Bonanza Rape is easily grown, perfectly hardy and possesses remarkable fattening qualities. One acre will pasture 36 head two months, and lambs will make a gain of 8 to 12 pounds amonth. Pigs and cattle are also very fond of it. The plant is a rank grower, and should have heavy manuring as well as high cultivation. Sow the seed during the third or fourth week of June; it can then resist drought, and the crop can be ready to feed at a season when it is most needed. If the first crop were cut about 4 inches from the ground there would be an aftermath of second growt

\$2 50: 100 lbs. \$4.75.

NOTICE.—PRICES ON ALL FARM SEEDS SUBJECT TO CHANGE WITHOUT NOTICE.

Please understand—if prices ARE LOWER the day your order is received, more seed will be added; IF HIGHER, the amount will be decreased. The safest way—if you require considerable amounts of Farm Seeds, will be to send me a list of your actual requirements, and I will be pleased to quote you LOWEST MARKET PRICES by return mail.

BUCKBEE'S GREAT SAND OR WINTER VETCH (Vicia Villosa).

N 1897 we procured from Europe a large amount of seed of this grand, good forage plant and distributed it very generally with our customers throughout the country for careful trial. So glorious were the results that we were in receipt of thousands of testimonial letters in its praise. So greatly has the demand for seed increased, that we have been unable to fill thousands of testimonial letters in its braise.

orders in previous years.

1. It is a wonderful, rapid grower, and gets on with little moisture, and thrives.

1. It is a wonderful, rapid grower, and gets on with little moisture, and thrives.

2. It withstands cold. Sand Vetch can be sown in April and May and mown in fall, and the next spring, where sheltered, wiil come forth fresh and green, and vigorous, and will form green herbage for cattle at once.

3. It is a tremendous yielder, producing all the way from 5 to 7 tons of the very best hay imaginable, the equal of

Quality. Buckbee's Wonderful Sand Vetch makes the very best hay imaginable, the equal of clover.

5. Culture. It is a great stooler. If sown in rows it will soon cover the ground as a complete network, furnishing a tremendous amount of luxuriant fodder.

6. All agricultural colleges, all writers on agriculture, all practical farmers recommend the growing of Sand Vetch. It is especially so in Europe. You cannot find an agriculturist there who would not recommend it, and it is also the case here in America with those who have given same a trial.

7. As a fertilizer it has but few equals, as it enriches the soil very quickly, and can be plowed under twice in a season.

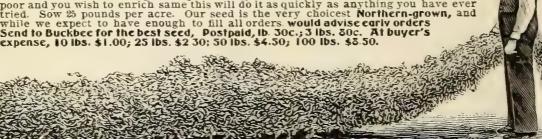

7. As a territizer it has but lew equals, as it efficies the soil very quickly, and can be proved under twice in a season.

8. When intended for hay, Buckbee's Wonderful Sand Vetch should be left standing until the flowers have for the most part given way to the pods, and some of the seeds become well-formed. The crop is then ready for the mower, and will yield, according to the soil, from 5 to 7

The crop is then ready for the mower, and will yield, according to the soil, from b to 7 tons of hay per acre.

9. All summer long. You can have this excellent fodder plant, this excellent hay producer, all summer long by sowing at different times. You can have the pasturage from April until November by sowing two or three weeks apart, not only a little, but a great abundance, as Sand Vetch produces heavily.

10. Don't fail to try it. If you do you will miss one of the great treats of your lifetime in farming, because we believe that our Sand Vetch will give results that you have never had before. It will give crops such as you never had before; and if your land is poor and you wish to enrich same this will do it as quickly as anything you have ever tried. Sow 25 pounds per acre. Our seed is the very choicest Northern-grown, and while we expect to have enough to fill all orders, would advise early orders. Send to Buckbee for the best seed, Postpaid, Ib. 30c.; 3 lbs. 30c. At buyer's expense, 10 lbs. \$1.00; 25 lbs. \$2 30; 50 lbs. \$4.50; 100 lbs. \$5.50.

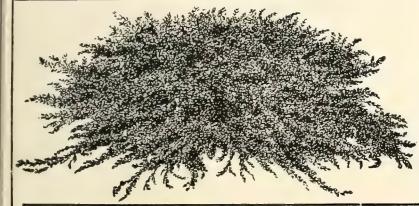

KBEE'S NORTHERN GROWN (OW PEAS

AUSTRALIAN SALT BUSH.

A Forage Plant for Alkali Soils, and Regions Subject to Periodic Drought.

Regions Subject to Periodic Drought.

This is a most wonderful forage plant, as it will grow freely in arid and alkali lands that will produce no other vegetation, yielding a marvelously liberal foliage, which is eagerly eaten by all kinds of stock. It is of creeping habit. From 20 to 30 tons of green fodder have been harvested from one acre. It has further been proven that after three or four crops have been grown on alkali land the soil is then capable of producing any other vegetation. In many sections of the states this ris in itself of priceless value. This plant has been very extensively tried where single plants grown on the poorest alkali ground have reached a diameter of 16 feet in one season. One pound of seed will seed an acre. It grows readily from seed and requires no cultivation. Price postpaid, Pkt. 5c.; oz. 15c.; ½ lb. 35c.; lb. \$1.25. and requires no cultivation. oz. 15c.; ¼ lb. 35c.; lb. \$1.25.

A Great Seed Drill.

Sows all kinds of garden seeds in an exact line, so that the cultivator can be worked close up to the row while the plants are small and therefore is especially adapted to sowing Onion Seed. Two patent agitators go with each machine, which are easily adjusted and act as force feeds thus insuring an even and continuous

HY PRICE DILLY \$ 6.00

fow. It has interchangeable hoppers; can be converted from a seed to a fertilizer drill. Shipped at buyer's expense, only \$6.00. With disc coverer, \$6.50. With fertilizer attachment, \$8.00.

The Best Cheap Machine.

The Best Machine on the Market for the Money.

Just think of it! A first-class Seed Drill for only \$4.50. Shipped by express or freight at buyer's expense. (Special catalogue describing and illustrating this splendid machine malled free upon application.)

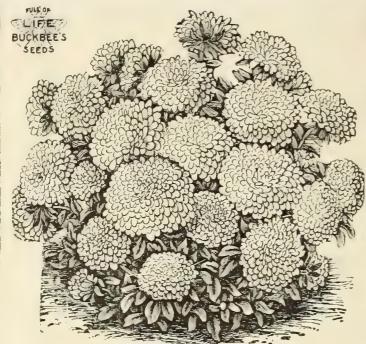

The Best Cultivator.

WARRANTED TO PLEASE.

The Great Feature wherein it excels all others is in the fact that it straddles the row and that the handles can be moved independent of each other. Each handle has one of the knives attached to it and is held steady by a steel spring, so that the blades can be moved up to or away from the plants as desired. While operating, simply move your hands in or out, and the blades will close so as to cut out all the weeds, or open so as to pass by. (Special catalogue illustrating and describing this spiendid machine mailed free upon application.) My price, with all attachments shown in illustration, shipped at buyer's expense, only \$4.00.

Notice. All prices on drills and cultivators are for machines shipped by express or freight at buyer's expense, unless otherwise agreed upon. Let me have your order early and thus take advantage of low shipping rates to all points. Please understand that all machines that I offer are the very latest 1905 patterns.

Buckbee's Snowball.

Buckbee's Prodigous ASTERS.

HEREVER Buckbee's Asters have been planted for the past two or three seasons, this beautiful flower has been growing steadily in popularity. This is due to the fact that I am responsible for its present high state of perfection, having succeeded in the breeding to such an extent that they now rival the Chrysanthemum in beauty. My seed crop harvested during 1904 is better than ever. As a bedder the Aster is so showy, so magnificent that words cannot describe its wondrous beauty. They are easily and successfully grown and should have a permanent place in every garden. They are especially desirable for cut flowers, as well as pot plants, and are desirable to show at fairs and exhibitions. at fairs and exhibitions.

Mixed Asters.

My Mixed Aster Seed is simply grand this year. The seed has been selected with great care, and the blending has been carefully supervised. I unbesitatingly recommend them to my patrons, because I know satisfaction up to the limit will be the portion of the thousands who will order.

Buckbee's Snowball—Magnificent and exceedingly dwarf.compact growing Aster. Never exceeds 10 inches in height. It is decidedly the handsomest pure white Aster ever introduced. In habit is very bushy, each plant bearing 30 or more beautifully formed and exceedingly large and perfectly double flowers, al. most completely hiding the foliage. Be sure to try it. Pkt. 10c.

Buckbee's Fire King—A pleasing companion to "Buckbee's Snowball." Dwarf variety. The individual flowers are of large size and of most faultless form. The color is distinctly rich and gorgeous, flowers when first opening being a pure scarlet, but when fully expanded change to a handsome satiny deep scarlet, presenting a most charming appearance.

senting a most charming appearance. Pkt. 10c.

The New Yellow Aster—After the many vain attempts of years past a yellow Aster has really been produced. The form of the double flower is a perfect ball; the quills are close together and of the brightest sulphur yellow. Flowers are borne on long, erect stems, excellent for cutting. From 12 to 15 inches high compact bushy growth, an abundant bloomer Pkt. 8c.

New American Aster, Mary Semple—This is an American Novelty of unusual merit, sure to become popular even in Germany. Grown at Rockford Seed Farms, it attracted much attention when in full flower during August and Septem—

Farms, it attracted much attention when in full flower during August and September. It grows 2 feet high, and owing to its free branching habit each plant should be allowed sufficient space for its full development. Very soft but deep shade of rosy blush. Flowers are borne upon stems 12 inches long and most desirable for cutting. Truly a gem. Pkt. 8c.

New Harlequin—Very odd and attractive new variety. A constant bloomer, handsome double flowers, composed of

tive new variety. A constant bloomer, handsome double flowers, composed of

pure white petals quaintly interspersed inirregular manner, with deep blue and bright red markings. Height 12 inches.

bright red markings. Height 12 inches. Pkt. 8c.

New White Branching—The magnificent large, double white flowers, quite 4 inches in diameter, are borne upon long stems making them excellent for cutting. It is quite different in several respects from any Aster known. Height 18 inches. Pkt. 8c.; ¼02. 75c.; 02. \$2.50.

Shakespeare—Mixed—A novel dwarf variety 6 inches high. Many exquisitely brilliant colors. Large globular flowers. Pkt. 8c.

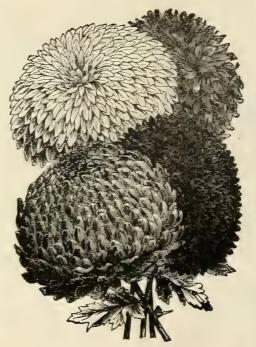

Pkt. 8c.
Queen of the Market-Mixed-Eight
beautiful colors and shades. A class of
Asters characterized by extreme earliness and the profusion of their flowers.

ALLIUM-The Bride-Always covered with flowers, valuable for bouquet work. Pkt. Sc.

AMARANTHUS—Beautiful foliage plants, invaluable for massing where striking contrasts in color are desired. Choice Mixed, Pkt. 75 seeds 4c.

MY EXPERIENCE Is that unbounded pleasure and unalloyed satisfaction are to be had with very little labor from the beautiful Free Flowering Annuals. They are among my dearest pets. Therefore I give them special They are among my dearest pets. Therefore I give them special attention. As a rule Annuals may be sown in the ground about corn-planting time, or they may be started in the house or in hotbeds earlier and transplanted to the garden when danger of frost is over. A rather light and moderately rich soil, thoroughly spaded, is most desirable. Do not grow the plants too thick. Keep the weeds down and the surface of the soil well stirred with a hoc or rake during the summer, especially if the weather is dry.

ABRONIA-Beautiful trailing plant, with sweet-scented verbena-like flowers. Pkt. 4c.

ADONIS -Often called "Pheasant's Eye." Hardy annual. Foliage

graceful and feathery. Pkt. 3c.

AGERATUM—Profuse and constant bloomer. Hardy annual.

AGERATUM—Profuse and constant bloomer. Hardy annual, 6 to 16 inches high. Flowers tassel-shaped. Best mixed. Pkt.3c. AGROSTEMMA—Often called "Crown of the Field," "Rose of Heaven," "Flos Jovis" and "Rose Champion." Much used for beds and borders. Finest mixed. Pkt. 2c. ALONSOA—Known as "Mask Flower," Constantly covered with flowers throughout the season. Fine Mixed. Pkt. 2c. ASPERULA—Pretty dwarf growing annual, valuable for bedding purposes. Choicest Mixed. Pkt. 2c. ANTIRRHINUM—6—See Snap Dragon. Page 103.

ANCHUSA—Hardy annual 2 feet high. Bears a profusion of bright blue flowers similar to, yet much finer than Forgetme-not. Blooms through-out the spring and sum-mer. Pkt.100 seeds 4c.

LSAMS.

APOLLO-Flowers large, double, and of perfect shape, beautifully and minutely spotted and streaked. Pkt. 5c.

DIANA-Flowers very large, double and handsomely formed, of the most delicate shades of flesh color; beautiful beyond imagination. Pkt. 5c.

FAIRY QUEEN—Flowers pure snowy white, large, double and perfect. Great favorite with florists, and one of the most profuse bloomers, the plants being loaded with hundreds of delightful blossoms throughout the season. Pkt. 8c.

JUPITER Superb color; glowing crimson. Flowers large and beautifully

double. A strong and vigorous grower. Pkt. 5c.

MARS—A rich glowing scarlet. Flowers large and finely formed. Pkt. 5c. MERCURY -Elegant variety of the softest lemon color. Double and perfect as a camelia, and large as a rose. Pkt. 5c.

NEPTUNE -Flowers gayly striped, streaked and spotted. Choicest mixed shades. Pkt. 5c.

SATURN—Grand variety, clear frosted white, flaked and striped with rosy purple or scarlet. Fkt. 5c.

VENUS—Flowers suffused with a soft shade of delicate lilac. Blossoms

large and double. Pkt. 5c.

SPLENDID MIXED—No finer mixture obtainable, comprised of the above grandest of all varieties of Balsams and a choice selection of numerous hybrid serts. Fkt. 25 seeds 5c.; 4oz. 30c.; oz. \$1.00.

GOOD MIXED—This mixture is comprised of the standard sorts and will

give good results. Ikt. 25 secds 3c.; 4oz. 15c.; oz. 50c.

Mrs. Louella Mabee.

Mrs. Louella Mabee,

ALMA CITY, MINN.

Writes: "Justimagine my surprise and delight if you can when I opened the box of Seeds and Plants and found so many Extras and those Flower Plants: everyone is growing nicely, for which I am ever so thankful. The seeds I received this spring all grew nicely and we are having splendid vegetables, and our flower beds are just lovely. You may expect my future orders and I will do all I can for Buckbee's Seeds and Plants."

BALSAM FAIRY QUEEN.

Pkt. 150 seeds 3c.

COTTON

Fine curiosity in the North. They bloom freely, and will ripen the pods if sown early and set outsidein real warm weather. Pkt. 4c.; oz. 8c.

GLADIOLUS.

One of the best of all summer and fall flowers; there is no equal to it for brilliant shades, none easier grown. Choicest Mixed. Pkt. 10c.

From MRS. WALTER SCOTT, Montevallo, Mo: "We have used your Seeds and Plants for twenty years

FULL OF Buckbee's "Full of Life" Annuals

GHOS1 FLOWER

EUPHORBIA, Heterophylla or Annual Poinsettia

This plant is often called Mexican Fire Plant, Painted Leaf, or Fire on the Mountain. Pkt. 40 seeds 4c.

EUPHORBIA—Variegata.

Handy appeals foliage beautifully varied and and appeals foliage beautifully varied.

Hardy annual; foliage beautifully veined and margined with white, very showy. Sometimes known as Snow on the Mountain. Pkt. 40 seeds 3c.

ESCHSCHOLTZIA, or Giant California Poppy. The Eschscholtzia is one of the most hardy and easily grown of our annuals. It is a fine flower for blooming in pots, especially in winter. Pkt. 150 seeds 4c,

EVENING PRIMROSE, or Oenothera.

Large, saucer-shaped blooms of the purest white, or in the softest, richest shades of yellow, and deliciously frag-

rant. Pkt. 150 seeds 4c.

FENZLIA.

The plants do not grow over 3 inches high, but spread out like a portulaca, and are thickly covered at all times with perfectly charming blossoms of lovely colors. Pkt. 5c.
FORGET-ME-NOT, or Myosotis.

One of the most charming and beautiful of

all plants, either for open ground culture or for the house; the foliage is light and graceful, while the dainty little flowers, star-like in form, are of the most delicate snade of blue. Pkt. 100 seeds 4c.

FOUR O'CLOCK, or Mirabilis.

Often called "Marvel of Peru." The plants are

large and require 4 feet of space; flowers are funnelshaped, white, red and striped and are very fragrant, and open about 4 o'clock in the afternoon, remain open all night and perish before noon the next day. Pkt. 20 seeds 3c.

FEVERFEW. White Gem-Very finest and most beautiful of all double white varieties. Pkt. 200 seeds 10c.

Golden Fleece-Especially adapted for the edging of beds, as the foliage is beautifully serrated, of a rich golden color. Flowers smaller and pure white. Pkt. 200 seeds 4c.

GAILLARDIA. Exceedingly beautiful annual, producing showy plants 1 to 3 feet high. Large flowers from 2 to 3 inches across, produced from early summer until frost, Choicest Double Mixed. Pkt. 100 seeds 4c. Choicest Single Mixed. Pkt. 100 seeds 3c.

GENTIANA. Charming hardy perennial, blossoms early in May. Mixed Pkt. 4c.

GILIA—Tricolor.
Grows in almost any situation; flowers blue with rellow and purple center. Hardy annual, 1 foot high;

Finest Mixed. Pkt. 200 seeds 2c. GIANT GHOST FLOWER.

Often called "Wedding Bells." The most wonderful plant. It blooms always, either in the house or out of doors in the summer. The flowers drooping, bell-shaped, over a foot long, and 8 or 9 inches wide, of creamy white color. Very fragrant and choice sort. Pkt.10c.

GLORY PEA.

Curious green-house shrub, with singularly beautiful foliage and magnificent clusters of long drooping flowers somewhat resembling a parrot's beak. Pkt. 15 Seeds 10c.

GODETIA. Beautiful hardy annuals, remarkable for delicacy of their fine large blossoms. Mixed Pkt. 200 seeds 3c. GYPSOPHILA.

Delicate free flowering little early plants, covered with a profusion of white and pink little star-shaped blossoms. Well

adapted for hanging baskets or edgings and valuable in connection with other flowers for making bouquets, either green or dry. Will thrive anywhere. Choicest Mixed, Pkt. 4c. ICE PLANT.

Handsome and curious plant for hanging baskets, rockwork, vases and edgings. Six inches high; white. Pkt. 200 seeds 3c.

Excellent for clumps or edgings and one of the best and most showy annuals for bedding. Pkt. 50 seeds 3c.

LOTUS-American. This is one of the most beautiful and valuable of all water lilies. The dark green leaves 12 to 15 inches in diameter, are surmounted by enormous double flowers. Pkt 10c.

Dahlia.

Double Largest Flowering Mixed-A superb mixture of the finest double varieties of the largest size and finest colorings. Pkt. 40 seeds

Double Mixed. Pkt. 40 seeds 5c.

Single Novelty Mixed—Brilliant flowers running through a wide range of striking colors; of large size; exceedingly popular for cut flowers. Pkt. 40 seeds 5c.

LOBELIA.

Avery valuable and beautiful dwarf-growing plant, delicate drooping habit and profusion of charming little blue and white flowers. Choicest Mixed, Pkt. 500 seeds 5c.

LUPIN — Lupinus.

Called "Sun Dial." Conspicuous plant with spikes of pea-shaped blossoms of various colors. Hardy annual 3 feet high. Pkt. 2c.

LYCHNIS.

The flowers are produced in clusters, and are constantly coming out all summer. Mixed, Pkt. 100 seeds 5c.

MATHIOLA.

A variety of the "Ten Weeks Stocks," which is hardy and robust, so that seed can be sown in the open ground early. Mixed. Pkt. 5c.

MONKEY FLOWER. (Mimulus Punchatus.)

Tender looking plants with singular shaped and brilliant colored flowers, blotched and spotted in every conceivable manner.

Fine Hybrid Varieties Mixed. Pkt. 100 seeds 4c.

MUSK PLANT. (Mimulus Moschatus.)

A well-known and favorite plant both for outside borders and for pot culture in sprring Cultivated on account of the musky odor of the plant. Pkt. 100 seeds 4c.

MRS. J. K. ZIMMERMAN, Mountain Grove, Missouri, Writes: "The collection of seeds ordered from you this season was a grand success. Cabages and Tomatoes were two weeks ahead of all others and many pands or the season was a season with the season with the

others, and my Ponderosa Lemon was loadeddown with edible fruit"

FULL OF SEEDS

ASTURTIUMS have three cardinal points of merit that make them so justly popular. Profuse bloomers, the more you pick them, the more freely do they bloom; the ease with which they can be grown on any kind of soil, and their rare beauty.

Buckbee's Famous "Splendid" Mixture. Without doubt this is one of the finest mixtures ever blended. This mixture comprises all the magnificent varieties offered on this page, with the single exception of my "Louisiana Purchase" Mixture, listed at the bottom of this page. In addition, there will be found many new hybrids of wondrous beauty. A BIG BARGAIN. Just think of it! Pkt, 7c.; oz. 15c.; 1/4 lb. 50c.; lb. \$1.75. (See illustration No. 1.)

DWARF, or TOM THUMB. 2.

Of recent years remarkable improvements have been made in Dwarf or Tom Thumb Nasturtiums, so that now we have a class of plants unrivaled in beauty and effect for bedding and cut flower purposes.

Buckbee's Fancy Mixed—The best ever produced and not equaled for gorgeousness of color and brilliancy of effect, embracing every known good sort and a choice collection of new hybrids. Pkt. 5c.; oz. 12c.; ¼ lb. 45c.; lb. \$1.50. Good Mixed—From a very fine collection. Pkt. 3c.; oz. 8c.; ¼ lb. 25c.; lb. 80c. Finest Mixed—Fine mixture, superior to that generally sold. Pkt. 4c.; oz. 10c.; ¼ lb. 35c.; lb. \$1.25.

Price of the following Varieties,

Pkt, 5c.; oz. 10c.:

Pkt. 5c.; oz. 10c.;

Aurora—Yellow, petals blotched, veined carmine.
Beauty—Scarlet, splashed canary.
Bronze Color—Beautiful burnished bronze color.
Chameleon—Straw color, spotted and veined with red.
Cloth of Gold—Foliage yellow; flowers scarlet.
General Jacqueminot—Fancy deep red rose.
Golden King—Golden yellow; very fine.
King of Tom Thumbs—Intense scarlet flowers.
Lady Bird—Yellow, barred with ruby crimson.
Mystic Shrine—New dark crimson, nearly black.
Ocean Wave—Rare, flowers creamy white.
Queen of Orange—Flowers large, rich orange.
Prince Henry—Golden yellow, marbled scarlet.
Rose—A very pleasing shade.
Royal Scarlet—Most brilliant colored variety.
Compact Lustrous—Flowers flashing scarlet.
Crystal Palace Gem—Sulphur, spotted maroon. Compact Listings—Powers hashing scarlet.

Crystal Palace Gem—Sulphur, spotted maroon.

Empress of India—Dark leaves, crimson flowers.

Intensity—Intense crimson, almost black.

Spotted King—A handsome sort.

Ruby King—Magnificent ruby rose, dark foliage.

LOBB'S NASTURTIUMS. 4.

Lobb's Special Mixed-Besides the six types here described, this embraces seed of many other most beautiful varieties. Pkt. 4c.; oz. 12c.; ¼ lb. 35c.; lb. \$1.25.

Price of the following Varieties,

Pkt. 5c.: oz. 10c.:

Cardinale—Striking cardinal red color. Giant of Battles—Sulphur color, spotted red. Gold Garnet—Shiving yellow, mottled garnet. King of the Blacks—Rich deep brown. Lucifer—The richest; velvety, deep crimson. Spitfire—New, brightest, most glowing of all.

TALL, OR CLIMBING. 5.

Among the easiest grown and prettiest of climbers tor fences, trellises, etc., quickly running 6 to 12 feet, thriving well even on poor soil. Free bloomers, and the green seed pods make excellent pickles.

Fine Mixed-From a very nice collection. Pkt. 3c.;

oz. 8c,: ¼ lb. 25c.; lb. 80c. Select Mixed-Fully equal if not surpassing the mixtures offered by other seedsmen. Pkt. 4c.; oz. 10c.; 14 lb. 30.; lb. \$1.00.

Buckbee's Superior Mixed-Without question the most superior mixture ever offered. Pkt. 5c.; oz. 15c.; 1/4 lb. 50c.; lb. \$1.75.

Price of the following Varieties,

Pkt. 5c.; oz. 10c.:

Crystal Gem-Handsome pearly white. Dark Crimson-Deep, rich as d velvety. Dunnett's Orange-Bright orange, blotched red. Eduard Otto - Velvety bronze, yellow spur. Fire King - Gorgeous scarlet, best of all. Golden Leaved Scarlet (Golden Climber; also called Scarlet and Gold)—Light yellow foliage contrasts brightly with the deep scarlet flowers. Heinemanni-Silky bronze chocolate. Hemisphericum-Straw color, with rosy scarlet blotches. Regalianum-Purple violet. King Theodore—Rich deep crimson, almost black. Schuermani—Rich, striped yellow and crimson. Von Moltke-Bluish rose.

Hybrids of Madame Gunter. New Climbing Nasturtiums, 3.

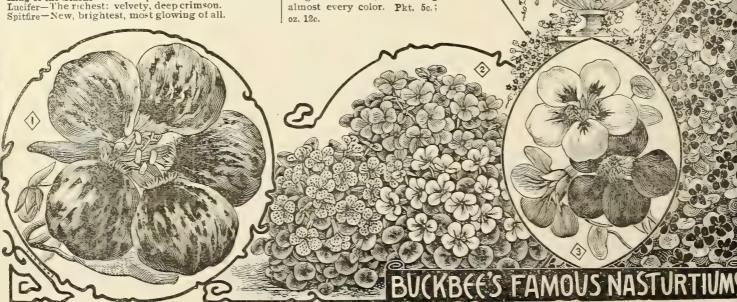

These new hybrids make a strong growth, climbing from 5 to 6 feet, and covered from spring to fall with large, substantial flowers of the most brilliant shades. They are remarkable for their wide range of colors, embracing almost every color. Pkt. 5c.;

Canary Bird Flower.

(TROPÆOLUM CANARIENSE.)

Beautiful climber, the charming little canary colored blossom bearing a tancied resemblance to a bird with its wings half expanded. The plant has a luxuriant, rambling character, and if seeds are to be planted by the side of arbor or planted by the side of arbor or trellis, will run about 20 feet and will blossom from July un'il frost. Teuder annual.

SEE PAINTING FROM NATURE OF THE GORGEOUS "LOUISIANA PURCHASE" MIXTURE in back part of this book. I,ook closely at the many brilliant colors, the rich markings, the giant size, combined with its ever-blooming propensity, make it unquestionably the best and most desirable Nasturtium Mixture ever offered. As long as this choice seed lasts. I will show my liberality by selling it at the low price of Packet consisting of 25 or more seeds, only 10c.; oz. 25c.: 14 lb. 75c.

Buckbee's Pet Annuals Buckbee's

MIGNONETTE, (Reseda)

FULL OF

I want to call very special attention to this mixture, which es a world of beauty and indescribable sweetness. So firm is my opinion, that I will pay \$100.00 for an ounce of blended seed that will produce better or more satisfactory results. It includes the following well known sorts, together with many new Hybrids. DON'T FAIL TO TAKE ADVANTAGE OF THIS OFFER. Pkt. 600 seeds 8c.; oz. 50c.

GABRIELLE—New, red flowering, very NEW COLDEN.

sweet. Pkt. 5c.

IMPROVED GOLDEN QUEEN-Golden yellow flowers, powerfully fragrant. Pkt. 4c. LARGE PYRAMIDAL BOUQUET, or GIANT

TREE-A robust grower, very sweet. Pkt. 4c.

MILE'S GIANT WHITE SPIRAL—Pleasing variety; very showy; fragrant blossoms. Pkt. 4c.

NEW GIANT RED FLOWERED - Intense red, very sweet scented. Pkt. 5c.

MIXED-A fine mixture including many varieties. Pkt. 5c.; oz. 20c.

ety for pots and cut flowers; golden yellow blossoms. Pkt. 5c.

PURE MACHET—Of vigorous pyramidal growth, bearing massive spikes of deliciously scented gray flowers. Pkt. 5c.

PARSON'S GIANT WHITE FLOWERING—

Flowers almost pure white. Pkt. 4c. SWEET—(Reseda Odorata Grandiflora)— Large flowered. The old favorite Sweet

Mignonette, improved. Pkt. 3c.; oz. 10c. IMPROVED VICTORIA—It is a robust and healthy grower and succeeds well even in dry soil and hot sun, where most Mignonettes fail. Pkt. 5c.

NEMOPHILA, or Love Grove—Of dwarf, spreading habit, and well adapted for borders or pot culture. The flowers are single, each petal having a large distinct blotch. Pkt. 60 seeds 3c.
NICOTIANA, Affinis—A handsome genus of garden plants of the tobacco family, which are noted for the freedom and fragrance of their bloom. Half hardy annuals. 3 feet high. Pkt. 100 seeds 4c. NIEREMBERGIA—A desirable plant for baskets, vases and bedding. Pkt. 5c.

NIGELLA. or Love-in-a-mist -Hardy annual, known as the "Devil-in-Bush" and "Lady-

in-Green," oecause the blossoms are peculiarly concealed by the abundance of finely-cut foliage. Pkt. 3c.

Perilla.

Ornamental foliage plant similar to Coleus. Foliage metallic bronze. Pkt. 4c.

MIGNONETTE

Buckbee's PRIZE Medal

 $\mathbf{V}^{ ext{ERY}}$ hardy annuals, thriving in almost any situation. One of the very best of all bedding? annuals is the Phlox Drummondii. The various varieties of this flower surpass almost everything else in dazzling brilliancy of color, profuseness of blooms and lergth of duration in bloom. The newer sorts of Phlox are so far ahead of the older varieties that we have disin bloom. The newer sorts of Phlox are so far ahead of the older varieties that we have uiscarded all of the latter, and offer none but these beautiful new ones of recent introduction.

Hortensia Flowered PHLOX. 2.

This is undoubtedly one of the handsomest species of the Phlox family. They are more floriferous than the others; the flowers are large, of good substance and of handsomest colors

Cotors.

Alba - Pure white, extra large. Pkt. 6c.

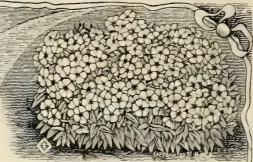

Coccinea Scarlet, rich, striking. Pkt. 6c.

Leopoldii—Rich red, with white eye, Pkt. 6c.

Fine Mixed—From a splendid collection.

Buckbee's Mammoth PRIZE MIXED.

This strain of Phlox is far superior to any other. Flowers of great substance, beautiful form and uncommon size. The colors are exform and uncommon size. The colors are extraordinarily rich and varied, glowing crimson, dazzling scarlet, deep rose, soft pink, pale blush.maroon black, lavender purple and numberless other rare shades. Many with contrasting eyes, stripes or featherings. They are of dwarf, stout branching habit, always erect. Grandest of a'l Phlox. In Finest Mixture. Pkt. 5c., 202. 25c.; 02. 75c.

NEW Dwarf PHLOX.

A lovely strain, the plants growing only 6 to 8 inches high, Valuable for bedding alone or as borders in beds with taller varieties Fireball—Fine and showy scarlet. Pkt. 7c. Snowball—White excellent variety. Pkt. * Pkt. 7c. Chamois—Rose; charming. Pkt. 7c.
Striata—Beautifuls riped, Pkt. 7c.
Delicata—Blush; charming Pkt. 7c.
Extra Fine Mixed—A choice mixture of countless shades. Pkt. 6c.

Buckbee's PRIZE MIXED Starred and Fringed Phlox.

These Starred and Fringed Phloxes are really entitled to rank as a new race, and the most strikntitled to rank as a new race, and the most striking novelties in Phloxes ever introduced. In the fringed flowers the petals are partly fimbriate and partly three toothed, all distinctly bordered with white, which, together with the bright eve of the center, contrasts with the magnificent velvety colors, in more than twenty distinct shades. In the Starred Phloxes the rointed central tooth of the petals are five to six times as long as the lateral ones and project beyond them like little spines, viving the flowers a distinctly marked, regular star-like form. In finest mixular star-like form. In finest mixure Pkt. 5c.

GREAT advance has been made in recent years in the development of the Poppy, which has brought it into deserved popularity, and it may be safely said that no other flower produces a more brilliant display of

Grandest Mixed—An elegant mixture of standard and novelty varieties. Pkt. 4c,: ½02. 30c,;02.50c.

American Flag-Beautiful new variety; flowers large and double; snow white, bordered with scarlet. Pkt. 5c.

Danebrog—Double flowers of deep red, peter being marked with a white blotch. Pkt. 4c.

Carnation Flowered—Double; large size; great variety of colors. Pkt. 3c.; oz. 20c.

Iceland-A perennial variety; colors range from pure white and yellow to orange scarlet. Pkt.5c.

Mephisto Striking, rich glowing dark scarlet, blotched with velvety black. Pkt. 4c.

Mikado—Flowers pure white at the back, fringed edges are of brilliant scar:et. Pkt. 4c.

Paeony Flowered—Flowers in size and color are equal to Pæonies. Mixed Colors. Pkt. 3c.; oz. 20c.

Peacock - A striking feature of the flower is the glossy zone, which marks the petals, forming a ring. Pkt. 4c.

Rosebud-The prettiest of all; like a rosette. Beautiful colors and shading. Pkt. 4c.

Shirley Similar to the wild Scarlet Field Poppy of England. Strikingly handsome. Pkt. 4c. Snow Drift-Pure while, grand. Fkt. 4c.

Tulip—A dazzling variety, resembling the Tulip in shape. Color intense scarlet. Pkt. 4c. Vesuvius-A rich beautiful scarlet valiety.

Pkt. 5c.

NEW DOUBLE PHLOX.

Very desirable class. Flowers are double and semi-double and last much longer than those of the single Phlox. The white is especially valuable as a cut flower. We are sure our customers will be greatly pleased with these.

Price of any of the four following varieties: Pkt. 8c.; or the entire collection of 4 varieties for only 25c.

DOUBLE WHITE. DOUBLE SCARLET. DOUBLE YELLOW. DOUBLE MIXED.

Perennial, or Hardy PHLOX. 5.

The varieties of the Perennial Phlox are among the choicest of flowers for bedding and border plants. They are hardy and need no protection; will flourish in any soil, succeeding better, however, in deep, rich, rather moist ground. Pkt, of

and 20c.; many bedding 140Z. blend, 30.; for Phlox Invaluable Contains Special cut-flower varieties. 50c. oz.

PRICE OF ANY OF THE FOLLOWING VARIETIES, except where noted, Pkt. 5c.

0

NOTICE.

ted on this page contain 200 seeds or more, with the exception of the Perennial

or Hardy variety, which contains 25 seeds.

All packets of Phlox quo-

Atropurpurea-Rich, deep purple. Atropurpurea—Rich, deep purple.

Black Warrior—Nearest approach to black that we have in any flower; intense dark crimson, deep and clear.

Carmine Red—Strikingly showy variety.

Dazzler—An exceedingly brilliant variety of the clearest richest scarlet.

Isabellina—Creamy yellow, desirable.

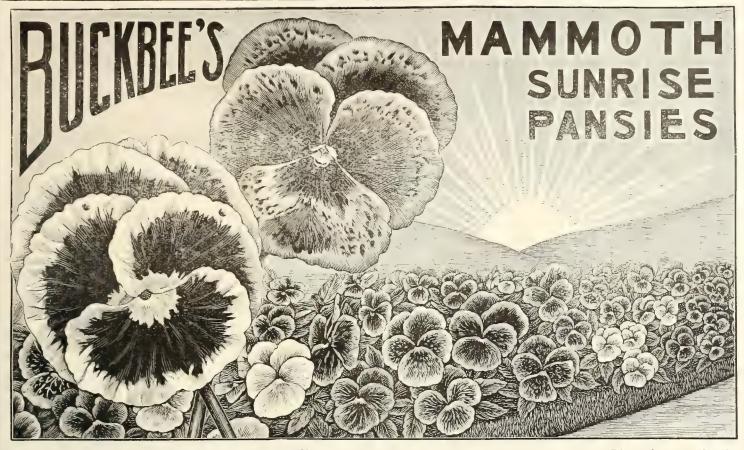

Kermesina Alba Oculata-Rosy crimson, white

Purity—A beautiful pure white variety.
Rosy Chamois—Beautiful shade of Rose. Rose — Deep rose, exquisitely beautiful, Splendens—Crimson, pure white eye; one of the finest of this strain. Stellata Splendens—Rich crimson, with starshaped white eye.

New Large Flowered Yellow Phlox.

Among the many acres of Phlox growing at Among the many acres of Philoty growing at Rockford Seed Farms the past season few have excited such attention as the bed of this new large Yellow Phlox. It is a rich straw yellow, of warm and glowing tone, while the flowers are of extra large size and fine form. The clusters of blooms are magnificent, Pkt.5c.

Euckbee's Reckford Seed Farms are Noted for Lewest Prices, Best Seeds, Promptness and Accuracy.

ANSY lovers will be interested in my latest discovery in the Pansy line. For the past seven years I have been conducting secret and exhaustive experiments for the further perfection of this gorgeous flower. I can truly say that my efforts have been handsomely rewarded, and I have met with far greater success than I had reason to hope for. The many brilliant shades and colors, the size, the prolific bearing, the vigor, as well as the ease with which I have been able to grow the plants from this new strain of seed, convinces me that I have produced a strain that is far ahead of anything that has ever been put on the market. **THE SUPPLY OF SEED IS LIMITED.** and therefore I will not sell any to other seedsmen because I am determined to supply my many Pansy loving customers first. Remember that this strain of Pansy Seed can be had only of H. W. Buckbee.

BUCK BEE'S MIXED PANSY SEED.

I pay particular attention to the blending of the Pansy seed that makes up Buckbee's Famous "Full of Life" mixtures. Nothing is too good to be placed in these mixed packets. Each year finds them gaining in popularity, No "cull" seeds ever go into these mixtures, and I can conscientiously recommend them to my friends, knowing full well that every purchaser will be more

Buckbee's Mammoth Sunrise Mixture. The flowers are of the largest size, most perfect shape and rich gorgeous colors; frequently the blossoms measure 2½ to 4 inches across. The mixture comprises an assortment of all the varieties listed under the Sunrise Set. Liberal Packet only 10 cents, 3 packets 25 cents, as long as this seed lasts. I would advise my friends to order early so as to be sure of getting some of this wonderful seed.

Buckbee's World's Fair Prize Mixed. This mixture was awarded Grand Prize Medal at the World's Fair. It is an exceedingly fine mixture, producing flowers of rare beauty in both colorings and markings. Liberal Packet, 8c.; ½ oz. 60c.; oz. \$1.00.

Buckbee's Mixed Hybrids. The Hybrid Mixture is a truly exquisite mixture of the best in the Standard varieties. Liberal Packet 5c.; ½ oz. 40c: oz. 75c.

Buckbee's Everblooming Mixture. This high grade mixture will give you a profusion of flowers of the most beautiful and varied colors. Don't fail to include it in your order. Liberal Packet, 8c.;

½ oz, 60c.; oz. \$1.00.

Buckbee's Sweet Scented Mixture. This is certainly a most desirable novelty in the Pansy family. The flowers have the delicate perfume of the Violet, the Pansy size and also the rich colorings and markings of the Pansy. No matter what Pansy seed you order, you cannot afford not to include this in your order. It is ridiculous to sell it so cheap, but Buckbee is noted for his liberality. Liberal Packet only 7 cents.

BUCKBEE'S NAMED VARIETIES.

Some of my patrons still desire to purchase named varieties. To those friends I do not hesitate to say that no other seedsman can furnish you with better seeds. This list includes my wonderful New Sunrise Mammoth Pansies; also Buckbee's Great Beauty Collection.

Pansies for Thought

Lord Beaconsfield—Beautiful violet color. Pkt. 5c.
Oriental—Beautiful and exquisite shades of royal purple. Pkt. 5c.
Peacock—Of large size, the side petals are gorgeous as a Peacock.
Petals a royal purple, shot with peacock blue and margined with terra cotta rose. Pkt. 5c.
Rainbow—Beautlfully blotched. Startling varieties. Pkt. 5c.
Snow Queen—Grand; pure white. Pkt. 5c.

Buckbee's Pet Annuals.

SCHIZANTHUS, or Butterfly Flower.

Elegant and very free blooming annuals of much interest and beauty, and when full grown rival in singularity of colors and markings the Orchids. Large flowers spotted with crimson, iliac, purple and yellow, and the petals are cut in picturesque manner. In pots in the conservatory or house few plants are more attractive; also elegant in a bouquet or vase, and fine for bedding. Chaige Mixed Pht 150 geeds. 4c. Choice Mixed, Pkt. 150 seeds. 4c.

STATICE SUWAROWI.

One of the showlest annuals that we possess. Color, bright rose, with a crimson shade. Pkt. 100 seeds, 4c.

SCABIOSA, or Mourning Bride.

Often called Sweet Scabius. The stock we offer is a wonderful improvement over the old and common strains. The plants produce a profusion of large double flowers of striking shades of color, which are very useful in making bouquets. Hardy annual. Double Dwarf Mixed, Pkt. 75 seeds, 4c.

Double Tall Mixed, Pkt. 75 seeds, 4c.

SALVIA, or Scarlet Sage.

One of the grandest plants in cultivation, a bed of them surpassing the finest scarlet geraniums in brilliancy and continuous bloom, the flower spikes often measuring ten to twelve inches in length, and there are as many as two hundred spikes on a well grown plant. From the time they first begin to flower the plants are never out of bloom until killed by frost. Easily grown; constant delight to everyone. Pkt. 25 seeds, 5c.

SHELL FLOWER, or Molucca Balm.

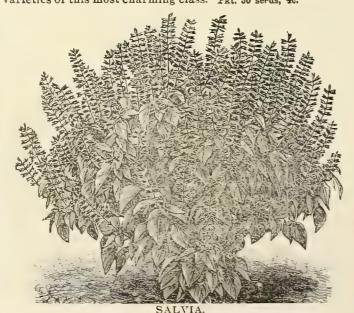

Although robust and easily grown everywhere this interesting annual from Syria is but little known and annually excites much attention when growing on our seed farms. Flower is very curious. Its large shell-like calyx is green and veined; corolla white, striped with purple. When cut itemits a fragrance like balm. ple. When cut Pkt. 25 seeds. 5c.

STOCKS.

(Ten Weeks)—New largest flowering globe pyramidal Stock. A magnificent race, with immense spikes of perfectly double flowers, the individual bloom often measuring from 2 to 2½ inches in diameter. The large double flowers are produced in great profusion, the spikes being compactly pyramidal in shape and the plant of neat habit of growth They are greatly prized for cut flowers on account of their fragrance and diversity of colors. Chiese Mixed. Pit 50 code 55

colors. Choicest Mixed, Pkt. 50 seeds 5c. White Perpetual. (Princess Alice, or Cut and Come Again.)—Of strong growth and fine branching habit. Grows to the height of 1½ feet, and if sown early will produce uninterruptedly a great abundance of bloom from June until November. The individual flowers are uncommonly large, of fine rosette-like shape, and the purest possible white. The flowers appear on each shoot and the oftener cut the better they like it.

TEN WEEKS STOCKS Dwarf German Mixed A splendid mixture of the most popular varieties of this most charming class. Pkt. 50 seeds, 4c.

Very showy bedding or border plant with richly colored, erect, funnel-shaped flowers. The colors are beautifully marbled and penciled, purple, scarlet, crimson, yellow, buff, blue and almost black. Bloom from August to October. Half hardy annual, 14 to two feet high. high. Pkt. 150 seeds, 4c.

SALPIGLOSSIS.

SENSITIVE PLANT.

An interesting and curious plant, with globular heads of pink flowers. Tender annual, height 1% feet. Pkt. 4c.

ROSE. (New Dwarf Multiflora, also called Baby and Fairy Rose.)

Roses f om seeds the first year. The plants bloom in three months after sowing, so that seed sown in February in the house may be had in bloom in June in the open ground, where they continue to bloom throughout the season, giving about an equal proportion of single, semi-single and double flowers borne in clusters. The plants are dwarf and bushy, growing only about one foot high, and very pretty in solid beds and borders, They are very hardy and may be treated as annuals. Pkt. 10c.; 3 Pkts. for 25c.

SENECIO ELEGANS.

A beautiful free flowering annual. Has dense heads of bloom and is of a very compact and regular habit of growth. The flowers are of a fine lustrous purple red, bright crimson, rose colored and pure white, perfectly double and imbricated. Pkt. 100 seeds, 3c.

SOLANUM, or Jerusalem Cherry.

Ornamental fruit-bearing plants. useful for conservatory or drawing room decorations. Tender perennial, 11/2 feet high. Pkt. 50 seeds, 4c.

SANVITALIA. (Procumbens, Double.)

Very pretty, dwarf trailing plants.
Double flowers of a brilliant golden yellow, resembling a miniature double Zinnia, Hardy annual. Pkt. 4c.

SUNFLOWER, or Helianthus.

(New Double Multiflora.)

Unlike all other Sunflowers. The plant is pyramidal in shape and the handsome flowers are produced at the base of each leaf. Flowers are very double, full centered and surrounded by a fringe of broad single petals. Pkt. 5c.

Finest Mixed—Adapted by stately growth for a background to a lawn or a screen to hide unsightly places. The seed is often used for feed and oil. Hardy annual. Pkt. 25 seeds, 4c.; oz. 10 c.

TEA PLANT.

A handsome half hardy shrub, bearing white flowers from November until spring. A native of China, and grows from two to six feet high. The plant from whose leaves is made the favorite beverage "Tea." Pkt. 10c.

TORENIA.

(Fournieri, or Angel's Wings.)—A fine annual, with large sky-blue blossoms, with three spots of indigo blue and a yellow stain in the center. Darkest spotted varieties. Pkt. 150 seeds, 5c.

White Wings A very fine annual, unusually attractive. Flowers white with sometimes a tinge of bluish yellow throat. Pkt. 150 seeds, 5c.

TREE CYPRESS.

A handsome plant with fine frathery foliage somewhat like that of the Cypress Vine, with long spikes of beautiful flowers. Half hardy biennial. Pkt. 4c.

VALERIAN. (Greek.)

Standard border plant, often called Jacob's Ladder. Flowers blue, stalks upright. Perfectly hardy perennial. Pkt. 4c.

IKE the pansy, the aster and the petunia, the Verbena is a favorite with everybody, and one of the most universally popular of all flowers, both for the garden and for pot culture. For constant and profuse flowering, and for brilliancy and beauty of colors it has few equals.

Buckbee's Celebrated Cosmopolitan Mixed.

The mostmagnificent strain offered, producing uniformly magnificent large trusses with flowers of unusual size. The individual blossoms are frequently as large as a silver half dollar. Take a silver coin and try to cover one of the single flowers of the corymbillustrated herewith, and you will realize how magnificent in size are the single florets, as the illustration has been accurately reproduced from photograph, natural size. Famous as the finest strains of Verbenas known. We grow five acres of these superb flowers, and we know what we are talking about when we say they are the finest of all Verbenas. The plants are vigorous and short jointed, and perfect sheets of bloom. The trusses are very large, the flowers of mammoth size, perfect form, and embrace the richest and most velvety colors. They are also delicately sweet scented. The range of color is great and shades are mostly very delicate and dainty. In coloring they are in fact perfectly exquisite, there being very little of the old blue or purple colors among them. In their place we have delicate blushes, lavenders, pinks, velvety indigoes, intense scarlets, whites, mottled, striped, variegated, etc.—in fact, a thousand different colors and combinations.

"Buckbee's Beauty" Verbenas.

VERBENAS.

200 or more seeds.

Verbenas in quantity are more easily obtained from seed than from cuttings, and the plants are more healthy and vigorous in growth, while they are also fragrant, particularly the white and lightcolored varieties. Sown in spring, they flower quite early in the season, and each plant, in good, rich soil, will cover a space of 3 to 4 feet in diameter, producing, if the flowers are cut as they begin to fade, a mass of bloom until killed by frost.

VERBENA HYBRIDA-CHOICEST PRIZE MIXED.

From a most superb collection of named varieties. Very large in flower and corymbs, and of the richest and most brilliant colors, this is one of the finest Verbena Hybridas in cultivation to-day. The seed has been saved not only from a large collection of many bright and pleasing self colors, but also from the finest varieties of the auricula-eyed type, Pkt. 5c.; ¼ oz. 50c.; oz. \$1 50.

HYBRIDA-FINE MIXED.

A very good strain, and fully equal to that offered by many dealers at a greatly advanced price. Pkt. 3c.; 1/4 oz. 40c.; oz. \$1.00.

Auricula Flowered-Splendid flowers of large size bright colors, each with large white eye Pkt.

perfectly true from seed. Pkt. 200 seeds 10c.

This elegant, fragrant plant is easily grown from seed and suc-ceeds everywhere. Have a good bed of it in the garden over summer, so that you can cut its fragrant foliage and flowers to make up with bouquets. Pkt. 50 seeds 5c. Blue King—Grand new variety of a beautiful blue shade; fine size. A prime favorite with all lovers of this delightful class of plants. Pkt. 5c.

Blue with White Eye-Large blue flowers, each with large white eye; very showy. Pkt. 5c.

Dark Cloud-A French variety, of a rich black blue color, lighted by a white center. Fine. Pkt. 5c.

Fordhook Famous-Mammoth Verbena. The best Fordhook Famous—Mainimon Verbeila. The best strain, both as to size of flowers and variety of colors. Our seed is originally from seed secured from the introducers and can be relied on to produce excellent flowers of all colors. Pkt. 7c.

Golden Bedder—A striking variety, with bright earlet blossoms and golden yellow foliage. Pkt. 5c.

Italian Striped—Very showy striped flowers of many bright colors. Pkt. 5c.; ¼ oz. 50c.; oz. \$1.50.

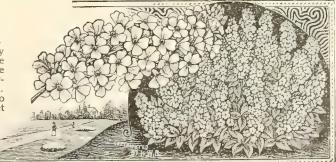

Primrose-A great advance toward the coveted yellow Verbena. Soft, pale yellow or primrose Very pleasing. Pkt. 5c.

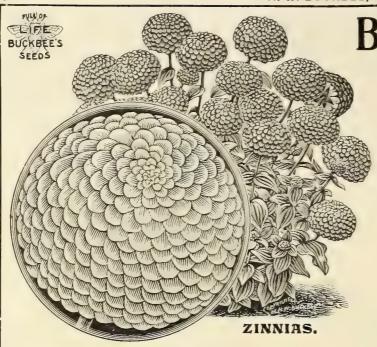

Pure White (often called Ocean Crest, Sea Foam or Candidissima)—A fine strain of large-flowering, pure white hybrid Verbenas. Pkt. 5c.; ¼ oz. 50c.; oz. \$1.50.

Scarlet Defiance—True, brightest scarlet, intensely rich and striking; by far the finest variety of this splendid class. Pkt. 5c.; ¼ oz. 50c.; oz. \$1.50.

VERBENA ODORATA—(Sweet Scented.)

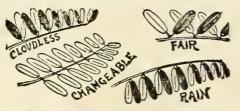

This lovely Verbena possesses three great points of merit over other varieties, and they are such important ones that it will become a necessity to every garden. First, it is so hardy; seed can be sown in the open ground early in the spring, where they will quickly germinate, grow rapidly, and in a few weeks be in bloom and give a great profusion of beautiful blossoms all summer. No garden flower is easier grown, for it is as sure to thrive as a poppy or a pig-weed. Second, the blossoms, instead of being in clusters like other sorts, run up into spikes usually 3 or 4 inches long, as shown in cut. Third, it is very sweet scented. We have probably said enough to make everyone want it, but we have yet to say that the flower is pure white, the plant short jointed and dwarf, not covering nearly as much ground as other sorts, and it is a perfect mass of bloom all summer. It always comes perfectly true from seed. Pkt. 200 seeds 10c.

WHITLAVIA.

Grandiflora—A plant with a delicate, handsome foliage, producing a constant succession of beautiful violet blue, bellshaped flowers about half an inch long, and borne in drooping clusters. Hardy annual; 1 foot high. Pkt. 4c.

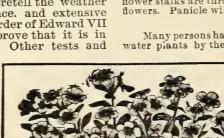

THE WONDROUS **WEATHER PLANT**

THIS beautiful plant has during the last two years, created a great sensation throughout the world. It is said that the leaves, by changing their position, foretell the weather two days in advance. and extensive experiments, by order of Edward VII some time since, prove that it is in

truth prophetic, experiments have not been so successful, and it is yet an open question as to its merits in this respect. It is at least a graceful vine, with lovely foliage and flowers, My cut flowers, My cut shows the position the leaves are supposed to assume in fore-telling the weather. If the leaves stand up-ward from the twig, making with each other an angle of 45 degrees, the sky will be cloudless and the weather beautiful in all respects. If they

stand out WEATHER PLANT. straight, changeable weather is indicated. As the leaves droop below the twig the indications range toward rain, until, when the leaves hang straight downward, water may be expected to fall in torrents. A local storm is indicated by the curling together of the leaves, and a fog by the bending of the twigs. Seeds are of good size and sometimes slow to germinate; should be soaked in luke warm water before planting. Pkt. 10c.

A genus of crnamental free flowering greenhouse perennials, flowering the first season, glossy-green foliage; handsome flowers. Plant in warm, sunny borders during summer; 15 inches high. Finest Mixed Colors. Pkt. 100 seeds 5c.

Buckbee's Mammoth Flowering Zinnias

Buckbee's Prize Mixed Eere is where all the Seeds-men "take off their hats to Buckbee." They all agree that I have prize Varieties of Zinnias. The Grand Colorings in so many

Prize Varieties of Zinnias. The Grand Colorings in so many shades, the extremely double flowers, the profuse bloom, the prolific growth, all combine to make a mixture such as lovers of Zinnias have never seen. Notwithstanding all this, I have decided to make the Liberal Offer of Packet of 100 seeds 10c.

NAMED VARIETIES.

Mammoth Zebra-This is really the finest strain of striped or Zebra Zinnias in cultivation. Pkt. 100 seeds 5c.

Crested and Curled-Flowers large and double, the petals being twisted and curled beautifully. Range of color is remark-

able. Bushy plants 2 feet in diameter. Pkt. 50 seeds 5c.

Lilliput Mixed—Half the height of ordinary Zinnias. Blossoms small, double and of very brilliant colors. Pkt. 50 seeds 5c.

Fireball—Dwarf habit; large, double blossoms of intense scar-It makes a fine border or mass. Pkt. 50 seeds 5c.

Snowball-Exactly like Fireball, except color, which is white as Makes a charming contrast. Pkt. 50 seeds 5c.

Double Yellow-Pkt. 50 seeds 4c.
Double Purple-Fkt. 50 seeds 4c.
Double Violet-Pkt. 50 seeds 4c.
Double Orange-Pkt. 50 seeds 4c.
Double Black-Pkt. 50 seeds 4c.
Double Blood Red-Pkt. 50 seeds 4c.

Buckbee's Superior Double Mixed—The grandest mixture of double flowers, large size, brilliant colors. Pkt. 50 seeds 5c. Fine Mixed—All colors mixed. Pkt. 50 seeds 3c.

WILD OR MIXED FLOWER GARDEN.

I make no apologies when offering this mixture, containing as it does, a varied and select lot of beautiful, easily grown flowers, producing constant and varied multitudes of blooms the whole season, and especially suited for those who wish only a few seeds of the leading varieties, or a much more extensive collection than their means will permit. In no other manner can so many seeds be obtained for such small cost. Liberal pkt.8c.; oz. 25c.; 4lb. 75c.; ½lb. \$1.25; lb. \$2.00.

YUCCA FILAMENTOSA.

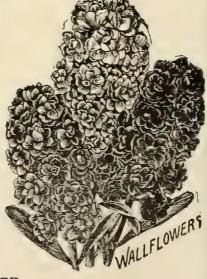

Grandest evergreen plant we have for the lawn. Stately clumps of bayonet-like leaves bristling out from the center; extremely ornamental, but in mid-summer they take on an added glory. Thick, woody flower stalks are thrown up which bear panicles of creamy, bell-shaped flowers. Panicle will contain 300 florets. Pkt. 8c.

WATER LILIES.

Many persons have been deterred from attempting the culture of water plants by the idea that a special greenhouse and water tank must be built for their accommodation.

True, the various varieties may be had in flower almost all the year 'round in such a structure, yet they can be grown with equal success out of doors in ponds or shallow streams of water having muddy bottoms, or in tanks, or in acquariums in the house. Pet 10 code 10c. the house. Pkt. 10 seeds 10c.

WALL FLOWER.

The gorgeous, massive spikes of the Wall Flower are very conspicuous in beds and borders, and are very useful in making bouquets. Sow the seed early in hot-beds and while the plants are small, prick them out into pots, and sink the pots in the earth. On approach of cold weather, remove the pots to the house and they will bloom all winter. Tender perennials; 14 feet high. Fire Company Public Winel, Plant Single Fired Pieter. Plant Winel, Plant 11/2 feet high. Fine German Double Mixed, Pkt. Sc. Single, Finest Mixed, Pkt. 5c.

(LIMBER

Buckbee's Beautiful Climbers.

FULL OF BUCKBEE'S I have had wonderful success with my vine seeds this year, and my stock seed is exceptionally choice. The seed is "Full of Life"—the best seed that money can buy. The space is too limited to permit the illustrating of all the varieties listed. They are all desirable. There is not a "cull" among them. Every variety possesses the well-known Buckbee Merit.

ADLUMIA—Cirrhosa—Frequently called Mountain Fringe, Wood Fringe, Alleghany Vine. A beautiful and graceful climber. Hardy biennial. Height 15 feet. Pkt. 5c.

AMPELOPSIS VEIT-HII—Often called the Boston or Japanese Ivy. Clings tightly to rock, brick, etc. Pkt. 6c.

BALLOON VINE—A rapid and graceful climber. Tender annual. 6 feet high. The flowers resemble small balloons. Pkt. 4c.

BRYONOPSIS—An ornamental climber bearing green fruit, which changes in color as the season advances to bright scar-

which changes in color as the season advances to bright scarlet striped with white. Annual 10 feet high. Pkt. 15 seeds 4c. CALAMPELIS—Scabra—A beautiful climber from Chili, with delicate for iage and bright orange blossoms, tender perennial

15 feet high. Pkt 4c. CANARY BIRD FLOWER— (See page 92.)

CENTROSEMA, Sometimes called "Look at Me."

A hardy perennial vine that will bloom in June or July from seed sown in April and bears in profusion, inverted peashaped flowers from 1½ to 2½ inches in diameter, ranging in color from a rosy violet to a reddish purple, with a broadfeathered white marking through the center, while the large pure white, appearing as if one buds and back of the flower are pure white, appearing as if one plant bore many-colored flowers. Pkt. 15 seeds 5c.

CLIMBING BEAN—A very valuable and beautiful climber of very rapid growth. Half hardy annual. Scarlet flowered. Pkt. 5c. White flowered, Pkt. 5c.

CLEMATIS.

Well known and universally admired climbers, some of the varieties being remarkable for the beauty of their blossoms. Fine for covering arbors, verandas, etc., as they ching readily to almost any object. Most of the kinds are hardy, herbaceous perennials, but some little protection in northern latitudes, through winter, is advised. Choicest Mixed. Pkt. 5c.

COBAEA—One of the finest of all climbers, and equally good for out-of-door or for house culture. Pretty foliage and large, bell-shaped flowers. Tender pereunial.

Scandens—Fine bluish purple. Pkt. 10 seeds 5c.

Alba—Fine pure white. Pkt. 10 seeds 8c.

COCCINEA—Indica—A remarkably pretty climber. Ivy-like

foliage, bright and luxuriant; never troubled with insects. Hardy annual. Pkt. 25 seeds 6c.

COLUMBIAN CLIMBER.

The most superb of all climbers and used almost exclusively for decorating pillars, etc., at the World's Columbian Exposi-tion, where it was the admiration of all. It is a fine, rapid grower, of easy culture and always a mass of exquisite showing no bare spots. In addition to its beautiful foliage, it produces large and handsome bell-shaped blossoms in the greatest abundance and of the most varied beauty. You cannot afford to be without this beautiful climber. Although it does ford to be without this beautiful climber. Although it does grandly outside, it is also a very fine house climber, and will do exceptionally well running over windows, etc. A well established plant will run from 30 to 40 feet in a season. It grows and flourishes

everywhere, and you should give it a trial, as it will not fail giving you complete satisfaction. Annual. Pkt. 10 seeds 5c.

CRUEL PLANTbeautiful and a rapid growing climber, bearing an immense number of pure white, bell-shaped, fragrant flow-ers, and derives its name from the fact that various insects in sucking honey of its blos-soms are caught fast and securely held until they are dead. From 15 to 20 feet high. Hardy annual. Pkt. 8c.

WILD CUCUMBER VINE-

The quickest annual climber known. Makes tne most mosaic covering. Never suffers from the heat. Profuse in bloom. It will sow itself every year, and comes up in the same place. Pkt. 5c.; oz. 25c.

CYPRESS VINE.

(Ipomœa Quamoclit.)

A most beautiful climber, with delicate dark green feathery foliage and an abundance of bright, star-shaped rose, scarlet and white blossoms, which contrast most beautifully with the graceful foliage. Tender annual, 15 feet high. Pkt. 25 seeds:

Scarlet, 5c. White, 5c. Rose, 5c. Mixed, 4c.

DOLICHOS—(Hyacinth Bean)—Splendid climber, with abundant clustered spikes of purple and white flowers, which are followed by exceedingly ornamental seed pods; tender annual; 10 to 20 feet high. Mixed. Pkt. 25 seeds 4c.

GOURDS, ORNAMENTAL MIXED.

A tribe of climbers with curiously shaped fruit in various rs. Forms may be wonderfully varied by tying strings around the young fruit or by enclosing same in a carved mold while growing, thus stamping on its surface any desired figures or letters that may be carved on the mold. Always sure to attract the attention of children, who love to play with the pretty and oddly crooked fruits. Many of these fruits keep for years, being very hard shelled. The vines grow very rapidly and are fine to cover old fences, trellises, etc. Tender annual. Pkt. 25 seeds, 5c.; oz. 10c.

HUMULUS.

New Leopard Leaved Japanese Hop—A strikingly beautiful annual climber of exceedingly rapid and dense growth, attaining a height of 18 to 20 feet in a few weeks' time. The leaves are a rich green, blotched and marked with gray. Annual. Pkt. 12 seeds 8c.

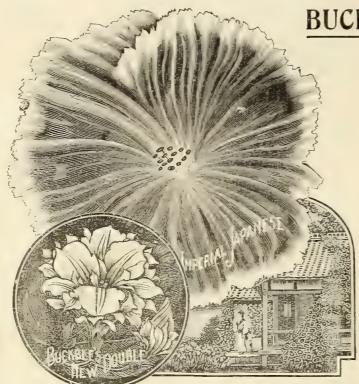

Japonicus—One of the most rapid climbers grown. can be sown in the open ground in spring and will attain enormous dimensions very quickly. Annual. Pkt. 20 seeds

LINARIA, or Kenilworth Ivy—A very pretty and well known hardy trailing plant. Flowers are pretty and it is easily grown from seed. Annual. Pkt. 100 seeds 3c.

CRUEL PLANT

MOON FLOWER-New Cross-Bred or Hybrid Variety-Of great value for the north, as it is in full bloom one month before the White Seeded. The flowers are 4 to 6 inches across, and very numerous. The foliage is of 3 distinct types. This is one of the most vigorous of all the summer climbers. Will grow 30 to 40 feet in a single season, and be covered with its arge white flowers every evening and cloudy day.

MOON FLOWER-White Seeded - This is the variety most generally grown; the vines are almost covered with thousands of immense white flowers, many of them measuring over 7 inches across. Pkt. 5c.

BUCKBEE'S BEAUTIFUL CLIMBERS

MORNING GLORIES

New Imperial, or Giant Japanese.
Finest Mixed Colors.
These magnificent single and double Japanese brauties

are entirely distinct, and vastly superior to all others in richness and beauty of color. Vines grow 20 to 30 feet; handson e foliage; flowers measure 4 to 6 inches across. Pkt. 50 seeds 10c.

Morning Glory--Buckbee's New Double. Novelty of my own introduction. Climbs forty feet or more. The fine double flowers give the vines an attractiveness which warrants their being placed in any position. Pkt. 50 seeds 10c.

Morning Glory-Improved Climbing Mixed.

(CONVOLVULUS MAJOR) Most popular climber in cultivation. Of rapid growth; 15 to 20 feet high. Our seed is selected from best varieties only, and is a great improvement over the old fashioned sorts. Pkt. 50 seeds 3c.: oz. 8c.

MAURANDIA-Choicest mixed. Graceful climber. Rich purple, white and rose, fox-glove shaped blossoms; tender perennial climber, blooming first season. Grows 6 feet high. Pkt. 100 seeds 4c.

MINA LOBATA-Half hardy Mexican climbing annual, having beantiful changeable blossoms. Pkt. 12 seeds 4c.

MOMORDICA—(Balsam Apple)—Finest mixed. A very curious annual climber with yellow biossoms and foliage similar to the canary bird flower. Pkt. 4c.

PASSION FLOWER—An elegant, easily grown climber. Beautiful for windows. Magnificent as an out-door summer climber. Choicest Mixed, Pkt. 5c.

RHODOCHITON—(Volubile)—The prettiest of all climbers. Easily grown. Pkt. 20 seeds 8c.

SMILAX-Well known and popular climber. decorative purposes. Pkt. 60 seeds 5c.; 1/2 oz. 30c.; oz 50c.

THUNBERGIA, or Black-Eyed Susan-Choicest mixed, very gant. The colors are pure white, light yellow a d deep orange, and of each color there is a variety with white eyes. also with black eyes. Pkt. 15 seeds 4c.

TRUMPET CREEPER—Rapid growing, hardy c'imbing vine; covered summer and fall with charming and beautiful masses of bloom. Pkt. 4c.

BUCKBEE'S PEDIGREED SWEET PEAS

Grown, Tested and Perfected on the Rockford Seed Farms.

I have still further perfected these magnificent Dwarf Cupids. The Cupid has established its supremacy over all competitors among this charming variety. Especially desirable for Pots and Edgings.

COUNTESS OF RADNOR CUPID—Flower of immense size and borne in great profusion, Color of flowers a delicate lavender. Large Pkt. 4c.; 0z. 7c.; 2 oz. 12c.; ¼1b. 18c. BOREATTON CUPID—Flowers of good size. Running from mauve to purple. Pkt. 4c.; 0z. 7c.; 2 oz.; 12c.; ¼ 1b. 18c.

14 1b. 18c.

DUKE OF EDINBURGH—Small size; standard salmon red; wings deep rose. Pkt. 4c.; oz. 7c; 2 oz. 12c.; ½1b, 18c.

FIREFLY CUPID—Flowers of good size and intense glowing scarlet. Pkt. 4c.; oz. 7c.; 2 oz. 12c; ½ 1b. 18c.

PRIMROSE CUPID—Flowers are self colored in a rich primrose tint. Pkt 4c.; oz. 7c.; 2 oz. 12c.; ½1b. 18c.

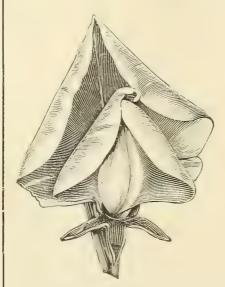

BLANCHE FERAY PINK CUPID—(The Best Pink)—Standard good size; fine form and bright pink; wings large, rounded and nearly white. Pkt. 4c.; oz. 7c.; 2 oz. 12c. ½1b. 18c.

ALICE ECKFORD CUPID—The standards are a rich creamy white, suffused or blended with a delicate shading of soft flesh pink; the wings are silvery white with a faint pink flush in the central portion. Pkt. 4c. oz. 7c.; 2 oz. 12c.; 1, 1b. 18c.

Buckbee's New Dwarf Yellow Sweet Pea A Wonderful Everblooming Variety

This is undoubtedly one of the most beautiful, interesting and easily grewn plants in existence; low growing, profusely branching plant, every branch ending in racemes 6 to 10 inches long, of beautiful, large Sweet Pea-like flowers. These flowers are of a thick substance, fragrant and of a golden yellow color except the keel in the center, which looks like brown velvet and are followed by clusters of short, smooth pods. I can recommend this most magnificent variety, knowing that it will give purchasers the greatest astisfaction. It blooms the first year from seed, and in the garden may be treated as an annual. This is certainly one of the finest novelties ever introduced. A plant in bloom reminds one of a shower of gold. Pkt. 5c. This is undoubtedly one of the most

PEDIGREED NEW CUPID.

BEAUTY CUPID—Large flower of a beautiful rose color shaded with carmine. Pkt. 4c.; oz. 7c.; 2 oz. 12c.; $\frac{1}{4}$ lb. 18c.

The Best **Everlasting or Perennial** Pea.

(LATHYRUS.)

FINEST MIXED—A wonderfully improved selection of these popular favorites. Perfectly hardy and live year after year, bearing magnificent clusters of flowers. Commences to bloom early in the spring

Sweet Peas in Mixtures.

One of the most satisfactory ways of growing Sweet Peas is in a mixed row. The mixture- we offer are not made up of inferior or cheap stocks, but are of the very best qualities, and are well proportioned so as to give a pleasing variety of bloom.

NEW DOUBLE SWEET PEAS.

A pleasing development of this popular sort. It has been a difficult task by hybridization and selection to change the habit of the Sweet Pea to the double form, and much remains to to be done; but each year finds us nearer. The seed I offer is saved from the best plants; fully one-third will produce double flowers. Pkt. 4c.; oz. 10c.; ¼ lb. 30c.; lb. \$1.00.

ECKFORD'S CHOICEST MIXED—Including, in splendid mixture, the cream of Mr Eckford's sorts. Pkt. 4c.; oz. 7c.; ¼ lb. 15c.; lb. 50c.

ALL COLORS MIXED-Sure to please. Pkt. 3c.; oz. 6c.; 1/4 lb. 12c. lb. 40c.

Sweet Peas-RED, WHITE and BLUE-Special Mixture.

This is a special mixture composed of equal parts of Rough Rider (the best red), Mont Blane the best white) and Navy Blue (the best blue) The most superior mixture ever of red to the public. Large Pkt. 4c.; oz. 8c.; ¼ lb. 20c.: lb. 75c.

BLUES AND PURPLES-Choicest Mixed. Pkt. 3c.: oz. 6c.; 1/4 lb. 18c.; lb. 50c. PINKS AND REDS-Choicest Mixed. Pkt. 3c.; oz. 6c.; 1/4 lb. 18c.; lb. 50c. WHITES-Choicest Mixed. Pkt. 3c.: oz. 6c.; 1/4 lb. 18c.; lb. 50c.

WHITE HOUSE MIXTURE.

To awaken new interest in Sweet Pea Culture, and to give all an opportunity of having a splendid lot of these favorite flowers at small cost, I have prepared this special mixture. We de it is cheap in price, you will find that it will compare most favorably with the mixtures which other firms offer at three to five times its price. 1/4 lb. 8c.; lb. 28c.

\$100.00REWARD BUCKBEE'S PEDIGREED GILT EDGED MIXED. I have deposited \$100.00 in the Winnebago Nationa Bank of Rockford, Ill., to be paid to any ne who will produce a better, or more carefully Blended M xture. This mixture contains my most magnificent and choicest Pedigreed Seed, blended in the most careful and scientific manner. There are many New Pedigreed Hybrids in the blend Liberal Pkt. only 10c.; oz. 15c.; ½ lb. 40c; lb. \$1.00.

Abutilon.

Frequently called "Flowering Maple" or "Chinese Bell Flower." Blooms quickly, easily grown. Pleases everyone. New Fancy California Seedlings Mixed—Pkt. 25 seeds 8c.

Begonias.

Among the most beautiful and fashionable window plants: nice for outside bedding in summer.

Rex—Large leaved; exquisite colors; Pkt. 40 seeds 15c.

Everlasting Flowers

Ornamental Grasses

 $F^{\rm LOWERS}$ which never fade. Unsurpassed for winter decoration, and may be made up into bouquets, baskets, vases, etc. Seed to be sown as soon as the ground is warm and weather is settled, in good, rich soil, and thinned out or transplanted to 12 inches apart. The flowers should be cut as soon as they come into full bloom, tied in small bunches and dried slowly in the shade with the heads downward, to keep the stems straight.

ACROCLINIUM—Flowers pure pearly white, or an exquisite soft, clear shade of pink, with bright golden centers. Half hardy annual. Height, I foot.

Mixed Colors-Very fine. Pkt. 4c.

New Double Mixed Colors-Larger and fuller than the above. Pkt. 7c.

Low-Growing Annuals—This mixture contains seeds of the greatest number of low-growing annuals ever blended. Few exceed 4 to 6 in. in height. Large Pkt. 8c.; ½0z. 25c.;0z. 40c.

Flowers for Bouquets and Baskets-Seeds of annuals producing flowers suitable for cutting for vases and bouquets, as well as for baskets. Large Pkt. 8c.; 1/20z. 25c.;0z. 40c.

Mixture of Fragrant Annuals—Carefully prepared from seed of fragrant flowers only. Liberal Pkt. 8c.; 1/2 oz. 25c.; oz. 40c.

Mixture of Evening Bloomers-This mixture is composed of annuals which bloom late in the afternoon and during the evening. Libera! Pkt. 8c.; ½ oz. 25c.; oz. 40c.

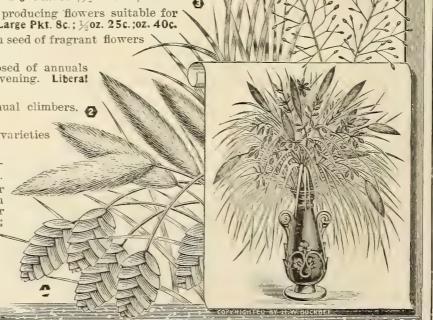

Mixture of Climbers—Seeds of many beautiful annual climbers. 2 Liberal Pkt, 8c.; ½ oz. 25c.; oz. 40c.

Everlasting and Ornamental Grasses-All the annual varieties of each. Liberal Pkt. 8c; 1/2 oz. 25c.; oz. 40c.

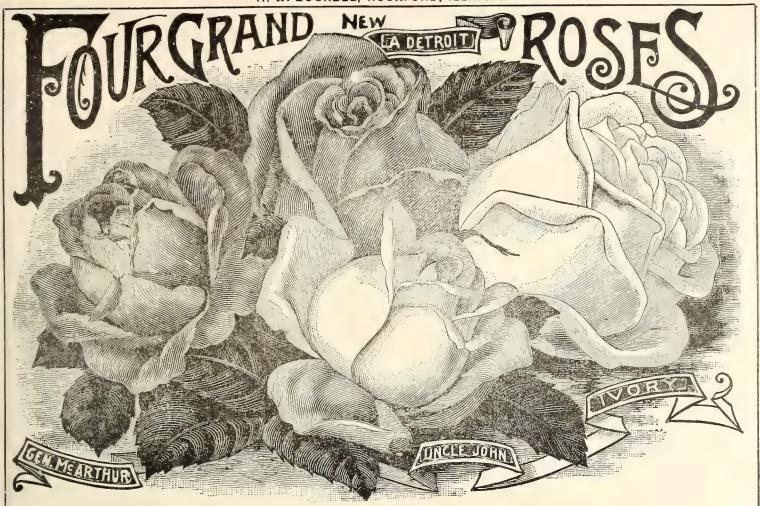

Mixture of Biennials and Perennials-Great variety contained in this mixture. Large Pkt. 8c.; ½oz. 25c.;oz. 40c.

Wild Flower Garden Mixture-These mixed flower seeds embrace more than a hundred varieties of such easy growing and pretty flowers as are suitable for forming a wild flower garden. Liberal Packet. 8c.; ½ oz. 25c.; oz. 40c.

All of the above mixtures are carefully prepared from choice, fresh seeds, and cannot fail to give satisfaction. The packages are liberally filled, and in no other manner can so many seeds be obtained for such small cost.

ORNAMENTAL GRASSES.

Special Offer

THE FOUR GRAND NEW ROSES WORTH \$2.00

For 75c.

UNCLE JOHN-Ever-Blooming Tea-Certainly a very beautiful variety. The flowers are large, very full and double, charming in bud and bloom. Produces its splendidly formed flowers on long, stiff stems; color sulphur yellow, shaded pink and fragrant. Worth 50c: my price 20c.

GEN, McARTHUR-A distinguished imported Hybrid Tea Rose. The flowers are large, full and double, with petals well arranged. Both in bud and when fully expanded, they are extremely beautiful, and the fragrance is delicious. The color is unusually rich, a deep carmine crimson, with handsome velvet shading. A perpetual bloomer, a single plant often producing 200 to 300 exquisite blossoms. Worth 50c; my price 20c.

LA DETROIT—Color a rich, strikingly handsome rose pink, highly colored; a wonderful free producer, upward of 500 blossoms on a single plant; flowers are large and fragrant and produced on long stems, which add greatly to its appearance. Worth $50_{\rm G}$; my price $20_{\rm G}$.

 $\begin{array}{c} \textbf{IVORY--} \textbf{Considered one of the most beautiful of all Tea Roses} \\ \textbf{The color is white, slightly tinged with pinkish yellow at the center, but at times the flower will remain a pure snowy white.} \\ \textbf{One of the most profuse bloomers we have ever grown.} \\ \textbf{Worth 50c.; my price 20c.} \\ \end{array}$

FOUR LATE NOVELTIES. The Set of Four Worth \$1.90 for

LIBERTY—New Hardy Everblooming Rose—The color is magnificent rich, fiery ruby, with deep crimson tones in the depth of the flowers. Petals are covered with a rich velvety bloom, like those of General Jacqueminot. Fragrance is delightful, all-rervading and refreshing, the crowning glory which alone would suffice to give it a high place among fine Roses. Received medals and cer ificates at all horticultural exhibitions. Worth 50c.; my

ETHEREAL-The Crystal White Tea Rose-Best white Rose in the

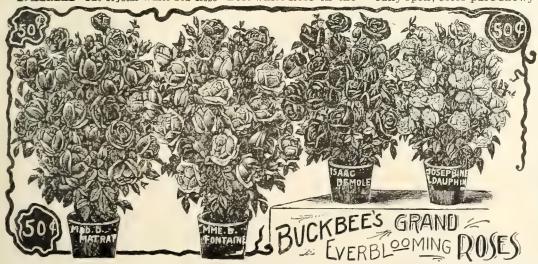

world. This beautiful Rose has not only a royal name, but is a royal Rose as well. We have white Roses that have elegant buds, but when full blown are not all that is desired. Then again, we have White Roses that are elegant when full blown, but have poor buds This Rose combines both trese good qualities. It is a continuous bloomer, producing successive crops of buds and flowers in the greatest profusion. Buds are very beautifully formed, with large petals of best substance. It shows no center when fully open; color pure snowy white; and when you add a rich perfume, coupled with a vigorous growth, what more could you ask? An easy winner over all competitors in its color. Worth 50c.; my price 20c.

LADY DOROTHEA—New Ever-Bloom-

LADY DOROTHEA—New Ever-Blooming Tea Rose—A new and beautiful Tea Rose, with which we are highly plea-ed; valuable alike for forcing under glass for winter flowers and outdoor bedding in summer The outdoor bedding in summer The co'or is a deep saffron yellow.flesh and peach pink; very fragrant One of the most profuse bloomers we have ever grown. One hundred flowers and buds counted upon a single 1-year-od plant. Worth 50c.; my price 20c.

MAID OF HONOR Ever-blooming Tea Rose - Color is a rich, glowing pink, much darker than Bridesmand, and a stronger grower; flowers care-

a stronger grower; flowers carefully made after fashion of Brides maid; produced on long stiff stems; free bloomer, hundreds of flowers and bus on single p'ant; fragrant. Worth 40c.; my price 15c.

Buckbee's Northern Grown Rose Plants Are Acknowledged the Best.

EIGHT OF THE FINEST EVER-BLOOMING ROSES.

Worth 20c., my price 10c. each, except where noted. THE SET OF 8, POSTPAID ONLY 75c. Larger plants by express 30c. each.

La Princess Vera-The flowers are large, finely made and open beauiffully; when fully open there appears to be a flower within a flower, so perfect is the form. The color is a rich ivory white, shaded and veined with fine coppery yellow and delicately penciled with pale blush. Worth 25c.; my price 15c each.

Perle des Jardins—The one Tea Rose which you cannot do without. It has absolutely no weak point. The color is faultless whether the waxy petals show the rich cream tint of cool weather or take richer golden shades which a warmer sun gives them. The foliage is very thick, glossy and dark.

Bridesmaid—(TEA)—This exquisite new Rose is a sport from the old favorite, Catherine Mermet. The Bridesmaid retains all the good qualities of its parent, and issimilar except as to color, which is two shades darker. It is a valuable acquisition.

The Bride—Decidedly the best pure white Tea Rose. The buds are very large, very double and of beautiful form, carried high and erect on bright smooth stems. Would grace any bride in her wedding robes. Unsurpassed for purity of color.

The Roses that Bloom Forever. Charming, Magnificent and Highly-Perfumed Varieties

Larger Roses will be snipped by express. See page 2 of this catalogue. PLANTS BY EXPRESS.

Souv. De Wootton-Bright magenta red, passing to fine violet crim-son, richly shaded. Flowers large, full and regular with thick velvety petals and delicious tea scent. Makes beautiful buds, an immense bloomer and a glorious Rose in every way.

B. Varonne—Superb extra long pointed buds; flowers large, vase shaped, full and double. Color is intense scariety crimson, very rich and bright, and is beautifully shaded with salmon yellow or buff rose at center, very fragrant. Worth 25c.; my price 15c. each.

Kaiserin Augusta Victoria—As hardy as a Hybrid Perpetual and as free blooming as any Tea Rose. It is celebrated the world over for its elegant, large, pointed buds and large, full, double flowers. The color is a delicate, creamy white, deliciously fragrant. Isc. each.

Niphetos—I consider this one of the very best and most satisfactory in the list. The superb extra long pointed buds are exceedingly beautiful, the flowers are extra large and double. The colrista beautiful glistening snowy white; strong, vigorous grower and will produce bloom without end.

Choicest Ever-Blooming Roses.

Always in Bloom. Beautiful Beyond Description. Every Variety Will Give Positive Satisfaction.

Worth 20c., my price 10c. each, except where noted. The Set of 8 only 75c., postpaid. Larger plants by express 30c. each.

IT WILL PAY YOU to examine my grand novelty plant premiums on first page.

White Maman Cochet—This is a superb variety, and to see it in bloom one is lost to find words to express its wonderful beauty. Color a beautiful snowy white, sometimes faintly tinged with the slightest suggestion of pale blush. Magnificent buds and flowers which are marvelously beautiful in their perfection. It has the vigor of an oak.

Mad. Schwaller—Blooms in large clusters; large globular flowers; fine salmon rose finely edged with violet carmine; highly perfumed; a strong healthy grower; very profuse bloomer and a high class variety in every respecting.

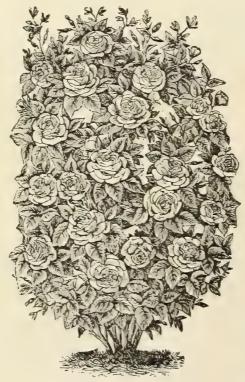

Mme. Abel Chatenay—A great Rose of extra-ordinary merit. A free and constant bloomer, with flowers of good size, rosy carmine with darker shadings. Full, double and of splendid substance. 15c.

double and of splendid substance. 15c. each.

Mad. de Watteville—(THE TULIP ROSE)—
The color is a remarkable shade of creamy yellow, richly colored with rosy blush; the petals are large and each one widely bordered with bright crimson, which gives it a very striking and beautiful appearance. The flowers are large, very full and highly perfumed. Fine for all purposes. Very profuse bloomer.

Golden Gate—A glorious Rose. Full and double, extremely beautiful buds. Color is creamy white, exquisitely tinged with rich golden yellow and clear rose. One of the most strikingly beautiful varieties ever offered, flowers of large size and freely produced.

Mad. Joseph Schwarts—A lovely Tea Rose, Extra large, globular flowers, very full and sweet, pure white, tinged and shaded with pale yellow and rosy blush, very fragrant, strong, healthy grower, profuse bloomer.

CHAMPION OF THE WORLD.

Beauty Inconstant—A new ever-blooming Rose. This is a pure Tea Rose, with flowers of good size and deliciously fra-grant. The point of excellence in this Rose is that a plant in bloom shows flow-ers of different colors; some will be yel-low others light tawns or convery yellow, others light tawny, or coppery yellow, buff. saffron, pink and light and dark crimson. It is a beautiful sight to see a plant in bloom, bearing many different colored Roses. Price, 15c. each.

Champion of the World—This is the grandest of all new Roses. It is claimed that one plant of it will produce more flowers during the year than ten plants of any Tea Rose. Always in tuil bloom. Plants which have bloomed a l summer in the garden may be potted in the autumn and will bloom profusely all winter in any window. Blossoms are perfectly double in the center, good shape both in bud and bloom, while the color is deep, rosy pink, darker and richer than Hermosa—a shade of the delicate richness that is seldom seen. It is very large for an ever-bloomer and is as fine as La France or the best Hybrid Perpetual. Has a delicious fragrance. Though a perpetual bloomer it is very hardy and robust as an oak, and is the most healthy. Rose extant. 15c. each. LARGER PLANTS, 35c. EACH.

MRS. W. T. COATS, Bowie Tex., writes: "I can truthfully say that there is no flaw in Buckbee's Seeds and Plants. I raised more out of my garden than anyone around here on twice as much ground. You will surely receive a great many orders from here next year."

- SELECT LIST OF -CHARMING MONTHLY Lever-Blooming Roses. Le

The very best in their class. Every variety is a gem. They are comstantly in bloom, and will give extreme satisfaction.

WORTH 20c.; MY PRICE 10c. EACH. Any 3 for 25c. postpaid. Larger Plants 30c. each by Express.

ANTOINE RIVOIRE—Handsome Rose, of vigorous, hardy growth. Large camelia-shaped flowers. Color rose flesh on a yellow ground, shaded with a border of crimson. The monstrous flowers have been exhibited 5 inches in diameter. A remarkable variety of

COMTESSE DUSY—Flowers are exceedingly large, full, deep and double; magnificently formed; the color is a pure satiny white; a strong, vigorous grower and a free bloomer. Be sure to try this variety

GENERAL DE TARTAS—Carmine, shaded violet purple; one of the very finest Roses known.

WHITE BOUGERE—Flowers are exceedingly large, full and double; long stiff stems, bearing throughout the season in great abundance; the color is pure ivory white.

COUGETTE DE LYON—The color is a pure canary yellow: flowers are exceedingly large, finely formed, deep and double; the buds are exceedingly graceful; astrong, vigorous and constant bloomer.

ETOYLE DE LYON—Rich golden yellow; strong, hardy, vigorous grower; the flowers are very deep, rich and full; it is surely one of the most beautiful Tea Roses produced.

ISABELLA SPRUNT—Bright canary yellow, very handsome grower, and a constant producer.

QUEEN'S SCARLET—A constant and profuse bloomer: color rich, velvety scarlet, very brilliant and striking; an excellent Rose for bedding or pot culture.

MARIE GUILLOT—The Queen of Roses. The color is pure, snowy white, sometimes faintly tinged with pale yellow. The flowers are magnificently made, extra large, full and double; very fragrant.

BON SUENE—Very vigorous: blooms in wonderful profusion the

BON SILENE—Very vigorous; blooms in wonderful profusion the year 'round; beautifully formed buds of a rich carmine shade.

LA FRANCE—One of the finest Roses known. Color a beautiful changeable silvery pink; very fragrant.

SAFRANO It grows vigorously and produces a continuous crop of flowers the year 'round; quite hardy. The color is a pure apricot yellow, changing to orange and fawn, sometimes tinted with rose, very vigorous.

ricot yellow, changing to orange and fawn, sometimes tinted with rose, very vigorcus.

YELLOW MERMET—Color a beautiful deep sulphur yellow; very hardy grower, and produces an abundance of bloom.

VALLE DE CHAMOUNIX—A Rose of great fragrance, color changeable yellow, tinged with pink and crimson, distinct and beautiful. CHRISTIAN DE NUE—The flowers are large and handsome, buds long and finely pointed; color clear rich maroon or deep purplish red; center sometimes streaked with silvery white. The petals are finely imbricated and flowers deliciously sweet.

SOMBRIEUL—Pure white, edged with silvery rose a strikingly

PRINCESS DE SAGAN.

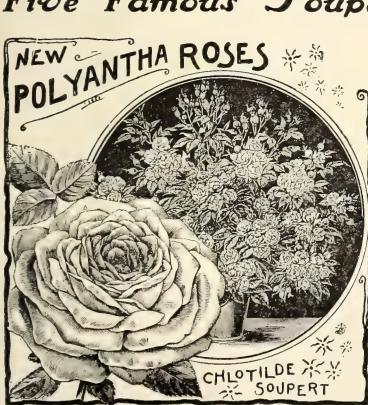

beautiful variety.

DUCHESS DE BRABANT—Rosy pink, edged with silver; a constant and profuse bloomer; one of the most satisfactory varieties known.

PRINCESS DE SAGAN—This is a Rose of great value and beauty; the color is rich velvety crimson, brilliantly beautiful; blooms quickly and abundantly. The flowers are very prettily made, while the buds are exceedingly handsome.

HERMOSA—An excellent Rose; blooms in large clusters; large, very double and fragrant; color beautiful clear rose; a constant bloomer. Hardy. One of the best.

Five Famous Soupert Roses. Absolutely Hardy. Bloom Continuously.

8 CENTS EACH. Special Offer Set of Five Roses for 35c.

NEW PINK SOUPERT-The flowers take their form from Chlo-

NEW PINK SOUPERT—The flowers take their form from Chlotilde Soupert, and in color a deep Hermosa pink. It is a continuous bloomer, each branch terminating with a cluster of flowers. Single plants, when but 6 months old under ordinary treatment, often produce 50 perfect flowers. Blooms splendidly in open ground and is hardier than Chlotilde Soupert.

CHLOTILDE SOUPERT—It is impossible to do this fine sort justice by description. It is of the Polyantha type, but larger and very double, and the flowers appear in such enormous clusters that they are really large panicles of bloom. Color, fine pearly white, shaded with lovely soft pink in the center. It blooms freely when plants are small, and continues in the greatest profusion. Will stand in the open ground over winter with a slight protection of straw or leaves. Be sure to order this variety. A particularly handsome Rose; always greatly admired.

MINIATURE—This is the smallest of all Roses, but of perfect form, regular, compact, fairy-like flowers, fully double and very fragrant. Flowers in wreaths and clusters seem to cover the whole plant; color cream rose, flushed red. Be sure to include this lovely Rose in your order.

MAD. CECIL BRUNNER—A very lovely Rose in every respect. Flowers larger than most of the others, perfectly double and of the most exquisite fragrance. Color a beautiful rosy pink on a rich, creamy white background. A rapid grower.

MIGNONETTE—A splendid variety, one of the very best. Full, finely formed flowers, perfectly double and highly perfumed. Color clear pink, passing to white, tinged with pale rose. A profuse bloomer, and very valuable.

Larger Plants 30c. each.

Tne Larger Roses will be shipped BY EXPRESS. See page 2 of this Catalogue. Plants by Express at BUYER'S EXPENSE.

Magnificent Mammoth Flowered Oriental Rambler Roses

BLOSSOMS PRODUCED ON A SINGLE PLANT. CAN IMAGINE THE EFFECT OF THESE WONDERFUL VARIETIES WHEN IN FULL BLOOM. THEY ARE AS HARDY AS AN OAK AND THE WONDER OF ALL ROSES. LAST EASTER LARGE PLANTS SOLD IN NEW YORK AT \$10.00 to \$50.00 EACH.

EAUTIFUL CRIMSON RAMBLER—This new climbing Polyantha Rose is the sensation of the day, and well it may be, for it is indeed a marvel. Originating in Japan, it may well be considered the latest and best contribution from the "Flowery Kingdom" to the gardens of the world. It is perfectly hardy in the open ground, and will grow eight to ten feet in a season. An ever bloomer, continuing from early spring until late fall, the flowers appearing in large panicles, of rich crimson color, like blood-colored velvet. The flowers when appearing in large panicles, of rich crimson color, like blood-colored velvet. The flowers when cut last two weeks in water, and fully a month on the bush, which is a perfect mass of rich crimson at all times. It can be grown in various ways, either as a pillar rose, or a trellis rose,

and for covering a wall it has no equal.

Golden Beauty Rambler—The fact of this new hardy climbing Rose being identical with Crimson Rambler, with the exception of the color of the flowers, which are deep golden-yellow, is sufficient guarantee of its great excellence. It is a notable fact that we have no hardy yellow climbing Roses, hence we look upon the introduction of this Rose as perhaps more important than its renowned relative, Cr mson Rambler. The habit of growth is very vigorous; if anything, somewhat stronger than Crimson Rambler, well established plants making numerous shoots eight to ten feet high in one season. As many as 120 to 150 blossoms are frequently produced on a shoot. The color is a deep, decided golden-yellow; the flowers are cup-shaped, nearly full and very sweetly scented.

Pink Pearl Rambler—The flowers appear in large, full, handsome pyramidal trusses, similar to Crimson Rambler, and are borne in great profusion from three to five weeks during

Ci Tanan Managaran Markata

the season. The color of the flowers is pure shiny rose; the half-open bud is a brilliant light carmine, making a strong and effective contrast. The numerous yellow starens lend an additional charm to the flower. A most magnificent effect can be had by grouping the Golden. White and Pink Ramblers with Crimson Rambler. No such important introductions have been made for many years as these new Rambler Roses.

New Diadem Rambler—Flowers of the Diadem Rambler have the charm of being sweetly scented. Color a pure white, without a blemish. They remain on the bush from three to five weeks and a well-established plant is a sight to behold. The habit of growth is vigorous young plants throwing up shoots eight to ten feet in height in a single season. habit of growth is vigorous, young plants throwing up shoots eight to ten feet in height in a single season.

Hardy Best Perpetual Roses.

Roses that Live Forever.

Flowers of Large Size and Delightfully Fragrant.

Alfred Colomb · Justly celebrated as one of the very finest; extra large round flowers, very double and full. Color is clear cherry red, passing to bright crimson.

American Beauty—It is a vigorous grower and free bloomer. In color the flowers are of a rich shaded crimson, and are great keepers. Very large and double; exceedingly sweet.

Anna de Deisbach—The color is the most lovely brilliant carmine; long pointed buds and large finely formed flowers, very full, double, and delightfully sweet.

Captaine Christy—Fresh delicate pink, with deeper shading in center of flower; beautiful.

Clio—The flower is of flesh color with a rosy pink center; large and globular; very hardy.

Coquette des Alpes—A lovely pure white Rose; very full and free in flower; delicious fragrance.

Duke of Edinburg-One of the finest dark red Roses known: very fragrant

General Jacqueminot-The best known hybrid perpetual in existence. Buds of a bright and shining crimson, very rich and velvety, exceedingly brilliant and handsome.

Giant of Battles-Fine, large, double, rich, red Rose, very

Glorie de l' Exposition Bruxelles-Large, perfectly double bright crimson, of velvety texture
Glorie de Margottin—Rich dazzling red; one of the most

brilliant of all Roses.

Mad. Alfred de Rougemont-Pure snow white flowers finely tinted with pale rosy blush large, full and double, very fragrant.

Mad. Chas. Wood- Color bright, fiery scarlet; passing to fine rosy crimson, elegantly shaded with maroon.

Mad. Plantier—This iron-clad variety is as hardy as an oak. It bears thousands of snowy white, fragrant Roses and is unequaled where a hardy white Rose is needed.

Magna Charta—Large, full flowers, very double; fine form and sweet; color clear rosy red, beautifully flushed with violet crimson; a profuse bloomer, extremely hardy.

Marie Bauman-One of the very best dark red Roses.

Paul Neyron—Deep, shining Rose, very fresh and beautiful. flowers of mammoticize. The buds always develop fine and it is a strong grower.

Prince Camille de Rohan-Rich, deep velvety crimson, passing to intense maroon, shaded black, flowers are large, hand-some and freely produced.

SPECIAL PRICE: Fine Plants postpaid; 20c.; 3 for 50c. Large 2-year-old Roses, by express, at buyer's expense, 35c. each; 3 for \$1.00.

Perfectly Hardy Strikingly Beautiful

PERPETUAL MOSS ROSES.

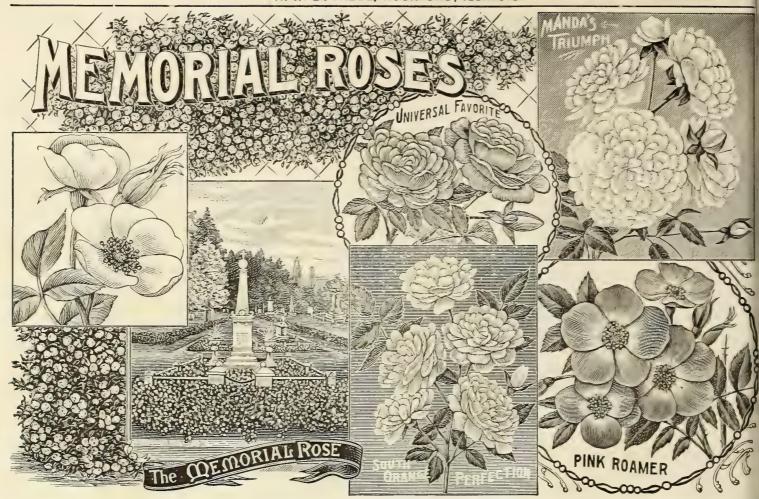

Delightfully

Blanche Moreau—The flowers, which are borne in clusters, are very large, full, sweet and of perfect form. They are pure waxy white in color, and daintily framed in the most exquisite green moss.

Henry Martin—The ground color of this exquisite Rose is a rich glossy pink, richly shaded with the most beautiful tint of crimson toward the center. The flowers are of large size, of globu ar form and very full and double. Flowers and buds are furnished with an abundance of fairwalling mosts. fairy-like moss.

John Cranston—This elegant variety completes my set of Moss Rose beauties. When you have planted a waxy white and a dainty pink Moss Rose, then you will only lack my superb red to make your collection complete. This rose combines the good qualities of the other Moss Roses, and is the most beautiful deep glowing crimson imaginable. The flowers are of large size and perfectly double borne in the greatest profusion. An exceptionally grand variety.

SPECIAL PRICE: Fine plants, postpaid, 20c. each; 3 for 50c. Large 2-year-old Roses, by express, at buyer's expense, 35c. each; 3 for \$1.00.

The Hardy Memorial

(rosa wichuraiana.)

For Use in Cemeteries.

It is difficult to conceive anything more appropriate, beautiful and enduring for covering graves and plots in cemeteries than the Hardy Memorial Rose It creeps along the ground almost as closely as an Ivy. growing 10 feet in one short side branches after June Roses are past, from the first week in July throughout the month, and sparingly throughout the strong fragrance of the Banksia Roses. The Flowers are produced in lavish profusion, in clusters on the ends of the strong fragrance of the Banksia Roses. The contrast between the sating white of the strong fragrance of the Banksia Roses. The contrast between the sating white of the petals and the golden yellow disc is sharp and pleasing and is one of the distinct charms of the beautiful Hardy Memorial Rose, and they fairly cover the entire plant when in bloom, a mass of great snow-flakes with the rich, dark green showing here and there. But its use is not confined to Cemeteries. Planted in the Rose garden, alone or among other Roses, and trained upright to a stake, it may be from 3 to 6 feet high, as desired, and it will send trained upright to a stake, it may be from 3 to 6 feet high, as desired, and it will send trained upright to a stake, it may be from 3 to 6 feet high, as desired, and it will send trained upright to a stake, it may be from 3 to 6 feet high, as desired, and it will send trained upright to a stake, it may be from 3 to 6 feet high, as desired, and it will send trained upright to a stake, it may be from 3 to 6 feet high, as desired, and it will send trained upright to a stake, it may be from 3 to 6 feet high, as desired, and it will send the strained upright to a stake, it may be from 3 to 6 feet high, as desired, and it will send the strained upright to a stake, it may be from 3 to 6 feet high, as desired, and it will send the strained upright to a stake, it may be from 3 to 6 feet high, as desired, and it will send the strained upright to a stake, it may be from 3 to 6 feet high, as desired, and it will send the strai

adapts itself to all conditions of growth, whether barren soil, rocky ledge, fertile garden, shady nook or sun-kissed slope, and no more fitting place can be found for it than running through the grass,

Fine Plants postpaid 15c. each; by Express at buyers expense, Large Plants 30c. each; Extra Large Plants 35c. each.

A NEW RACE OF ROSES, HYBRIDS OF ROSA WICHURAIANA.

SPECIAL PRICE: The Following Seven New and Rare Hybrid Varieties; postpaid 10c. each. By Express at buyers expense, Large Plants 30c. each; Extra Large Plants 35c. each.

Double White Memorial Rose, Manda's Triumph—This is the gem of this excellent collection and may well be called the Double Memorial Rose, as it preserves the color of the parent, with its characteristics of growth and foliage, but the flowers are double and very fragrant. They are produced in clusters of from twelve to eighteen flowers in each cluster on small side shoots, literally covering the plant and standing well above the foliage, giving a very graceful appearance. This variety will be valuable for all purposes, whether for trailing on the ground for cemetery use, growing on fences and gate posts, boundary walls, or as specimens in pots or tubs.

as specimens in pots or tubs.

Double Fink Memorial Rose—(UNIVERSAL FAVORITE)—A fitting companion to the above, identical in growth, but with perfectly-formed double flowers 1½ to 2 inches in diameter, of a soft light pink, and

Evergreen Gem—Flowers double, yellow, buff in bud, opening to almost white, 2 to 3 inches in diameter, perfectly double, and with a delicate Sweet Brian fragrance.

Gardenia Buds bright yellow, open flowers cream color, and 3 to 3½ inches in diameter; delightfully fragrant.

South Orange Perfection—This variety is similar to the preceding ones

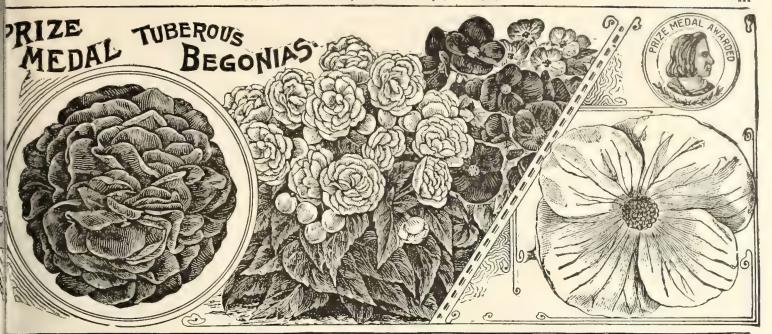

in growth. It has double flowers, soft blush changing to white, about 1½ inches in diameter. The blossoms are, if anything, more freely produced than on the preceding, and are more double: perfect rosettes in shape. This is a very pretty variety and entirely distinct from the others.

Jersey Beauty—Flowers single, 3 inches in diameter, pale yellow, covering the plant entirely; very fragrant.

Pink Roamer—This variety shows undoubted traces of descent from the Sweet Brier, both in the color and the shape of the blossoms and in its exquisite fragrance. The growth is much stronger than the preceding. The single flowers are over 2 inches in diameter, a bright rich pink, with a large silvery white center and orange red stamens, producing a most charming effect. This variety, from its artistic appearance, will undoubtedly be very largely planted in parks and large private grounds. The fragrance is not the least charm of this beautiful Rose, and we believe that eventually will become one of the most valuable productions of recent years.

The Double Varieties will unquestionably make grand pot plants for

The Double Varieties will unquestionably make grand pot plants for the greenhouse or conservatory, and can be used as climbers, and we believe that the white variety will eventually take rank with the Crimson Rambler and form a splendid contrast to it.

FLOWERING BEGONIA EMERALD.

THE NEW HARDY JAPANESE SNOWBALL

The New Hardy

JAPANESE SNOWBALL. A Sight to Behold. Grand Beyond Description.

THIS Japanese variety of the old-fashioned Snowball is one This Japanese variety of the old-fashioned Snowball is one of the most valuable of all hardy shrubs. It forms an erect, compact plant 6 to 8 feet in height, blooms in June and for a long time the plants are filled with hundreds of big snowy balls that glisten with ethereal whiteness like gems in the sunlight. One of the grandest and most striking of all hardy decorative plants. Well worth 50c.; my price is 15c. each.

Larger plants 25c. to 35c. each, shipped by express at buyer's expense.

New Lemon Verbena.

New Lemon
A UNIVERSAL favorite and invaluable for its fragrant leaves, so graceful when mixed with bouquets. They will retain their fragrance for years when dried. As a plant for the garden or for pots it is equally valuable, its fine sprays of foliage, with its delicious fragrance, making it always desirable for bouquets, etc. They flower profusely, and each plant in good, rich soil will cover a space of 3 to 4 feet in diameter, profuging, if the blooms are removed as soon as they begin to fade, a mass of bloom continually. This plant is well known and is very easy to grow. Admired by all folits unrivaled splendor and brilliant beauty. A plant that is necessary to every collection. You should include it in your order. Strong and healthy plants only 10c. each.

CLIMBER. THE NAPOLEON

nowers send out an amount of fragrance that is truly wonderful, and the aroma to a great degree resembles cinnamon, which, to say the least, is very pleasing. The cordate foliage is exceedingly pretty, being of a glossy green hue. The Napoleon climber, though easily grown, will fully reward any extra attention given it. Soil should be very light and rich, and the plant mulched thoroughly every fall. Fine roots, that will bloom this year, grown from stock secured from "origital" at Versailles. 10c. each. Extra large roots, 20c. each.

CYCLAMEN. **New Giant** Flowered.

(PERSIAN VIOLET.)

Most beautiful of all pot plants, giving the richest profusion of ele-gant flowers; foli-age decidedly handsome, being variegated with variegated with different shades of green, helping to show off the richly - colored flowers. In fact, a plant in bloom resembles a tastily arranged vase of flowers and of flowers and beautiful foliage. Price of choice bulbs 15c. each or 2 for 25c.

NEW GIANT-FLOWERED CYCLAMEN

AN UNPARALLELED OFFER OF RARE BEAUT

MAMMOTH EVER-BLOOMING WHITE CALLA -One of the grandest, most majestic of all Callas, being a great favorite everywhere. Its foliage alone makes it desirable as a decorative plant, being of perfect form with large, stately leaves of a bright green color, giving it a tropical appearance. Add to this its profusion of superb white flowers, yielded throughout the season, and you have a plant you may well be proud of. My select stock is adapted for pot culture everywhere; also for aquariums, etc.

may well be proud of. My select stock is adapted for pot culture everywhere; also for aquariums, etc.

Try this beauty. Strong bulbs which will please you. 15c, each; 3 for only 40c.

TRUE LITTLE GEM—The pet of all is this new and beautiful miniature Calla, growing only about 8 inches high. It is indeed a beauty, completely enveloped, as it is, with its regal white blossoms, throughout the entire season. It is as easily grown as the other Callas, and will be a constant delight to you and your friends. Be careful of spurious stock. Send to me for true, fine bulbs. 15c. each; 3 for only 40c.

NLW SPCTTID LIAF OR EDUQUIT—A great favorite everywhere, each plant being a veritable bouquet in itself. It is of the dwarf, compact, bushy habit, producing a mass of amazingly beautiful leaves, and an abundance of small, pure white Callas, so small that they serve admirably for corsage bouquets. Foliage is deep green, covered with innumerable white spots, giving the plant a magnificent appearance. Fine bulbs 15c; 3 for 40c.

WONDERFUL BLACK CALLA OR KING SOLOMONIC LILY.

WONDERFUL BLACK CALLA, OR KING SOLOMON'S LILY—This grand new variety is the wonder and amazement of all. Comes direct from the "Holy Land." The magnificent flowers are sweet scented, and often measure more than a foot in length by 5 to 8 inches in width. The inside color is of the richest velvety purplish black imaginable, while the outside is of pleasing green. The center spadix rises to a height of 10 to 12 inches and is of the depest black. The foliage is of solid texture, rich, deep green, and elegantly reticulated. True original stock, strong, well-grown bulbs, 20c. each; 3 for only 50c.

SPIREA Beautiful hardy shrubs of easy cultivation, rapid growth, furnishing an abundance of beautiful flowers.

NEW CRIMSON SPIREA, Anthony Waterer -- It outshines all the Spireas in brilliancy of color, a bright crimson, and is a persistent bloomer; bearing continuously large clusters of lovely bloom throughout the summer and autumn. Fine plants 15c, each; 2 for 25c.

BRIDAL WREATH.

Spirea Frunifolia.

Spirea Frunifolia.
Very hardy, flowers pure white and borne profusely in long sprays the entire length of branches; a beautiful floral wreath is made at once by bending and tying the ends of branch. One of the most beautiful hardy shrubs in existence. Fine plants 15c, each; 2 for 25c.

MRS. H. W. BUCKBEE.

Thousands of Blossoms on a Single Plant. The Very Best and Latest Varieties. . . .

Charmer—(Single)—The grandest of all winter bloomers. Tube and sepals waxy carmine. Its clusters of long, drooping, tube-like, brilliant flowers, and very large, green foliage give it a most striking and beautiful appearance. Five thousand flowers have been counted upon a single plant. Worth 15c.; my price 10c.

Trophee—(Double)—Violet blue corolla; very dark rich red sepals, waxy lustre. Plant of fine form, easy to grow, continually in bloom. Positively one of the grandest varieties ever offered. Worth 15c.; my price 10c.

Carmeliata—(Double)—A decided acquisition to the Fuchsias. Plant is of a dwarf habit, forming round, beautiful shaped bushes, co.npletely covered with exquisite flowers. Foliage is small—exceedingly pretty and waxy. Flowers are of mammoth size, elegant form and exceptionally handsome coloring; a beautiful combination of white and coral red. The sepals are prettily reflexed, giving an additional charm to this grand Fuchsia. These flowers have been grown to the size of a small tea cup and are so full of handsome blooms as to resemble a perfect ball in shape. You will be amazed at the rare qualities possessed by this magnificent Fuchsia, for w rds cannot convey half the beauties of this floral gem. Never out of bloom. You will find it even necessary to remove some of the buds, at times, or the branches will break under the weight of flowers. Fine plants, 15c. each.

GRAND SPECIAL OFFER

The Set of SEVEN Prepaid by Mail ONLY 50 CENTS.

Any THREE for 25 CENTS.

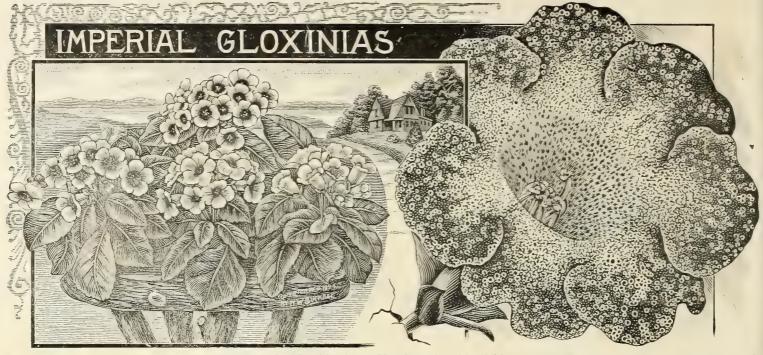

Pres. F. Gunther—(Double)—A grand variety with immense double flowers. Light prune corolla; rich red sepals. Color new and distinct. Produces thousands of flowers. Worth 15c.; my price 10c.

Trailing Queen—(Single)—Nothing is so pretty as a pot suspended in a window filled with luxuriant foliage and bright blossoms. This new Fuchsia never grows erect, but always trails down or over the side of the pot. Robust and easy to grow, the branches reaching a length of four or five feet, blooming nearly the whole year. Flowers and buds long and graceful, of a bright, rosy scarlet. 10c. each.

Beauty of Exmouth—(Double)—The largest of all Fuchsias. Very distinct in its rich, dark coloring. The flowers are of enormous proportion, very double and broad, of great substance; well reflexed, tube and sepals of beautiful coral red, while the corolla is of the very richest violet shade imaginable. A plant of this variety in full bloom presents a picture never to be forgotten. 15c. each.

Pres. Carnot—(Double)—Enormous double corolla of a rich violet purple with velvet reflex, with most beautiful carmine sepals. One of the grandest of all Fuchsias, and is very striking from the immense size and beautifully marked flower. 10c. each.

The Grandest and Most Liberal Fuchsia Bargain on Earth. DON'T MISS IT.

THE MOST BEAUTIFUL FLOWER THAT BLOOMS.

NEW IMPERIAL GLOXINIAS—GLOXINIAS are certainly among the handsomest of our summer flowering plants, presenting as they do, such a variation of rich and exquisite coloring, equal to the orchid in novelty and beauty. The flowers are of handsome shape and large size, and a great variety of colors that are velvety in the depth and richness of shading. The flowers often measure 3 inches in length and 2 in width, and are upright and pendulous. They succeed well with ordinary care, and should be grown in a moderately shady place, as the sun burns the foliage when wet, causing brown spots to appear. Plant bulbs in a mixture of light loam, manure and sand, equal parts, giving but little water until signs of life appear. You will have a succession of bloom from June to September, and words cannot describe the rare beauty of these flowers to one who has never seen them. When done blooming, dry gradually, and keep in pots over winter in a warm place. Special prices, 10c. each; 3 for 25c; 12 for \$1.00.

WONDERFUL COMET PLANT.

NEW COMET PLANT—(Acalypha Sanderii)—The most unique flowering plant of the century. Fluffy, trailing, tail-like blossoms, soft crimson scarlet. It is difficult to tail-like blossoms, soft crimson scarlet. It is difficult to conceive anything more unique, more pleasing, or more satisfying than this new plant fresh from the Orient. It is easily grown, and must become immensely popular. There is nothing approaching it, with its soft, crimson scarlet. fluffy tail-like blossoms 20 to 30 inches long on specimen plants. We have it growing in our greenhouses, and it has been the admiration of all visitors. Try one or more of these very heautiful plants, which are always in bloom. Fine Plants 15c each. Snap Dragon GIANT WHITE SCENTED.

Always in bloom. This Always in bloom. This remarkable new plant has in one season jumped to foremost place among choice winter blooming plants. No novelty in our greenhouses has attracted the attention or received the praise equal to this. It is a perpetual bloomer, compact and branching in habit, sending up flower spikes by the dozen. 1 to 2 feet in flower spikes by the dozen, 1 to 2 feet in length, almost as large and beautiful as Gladiand beautiful as Gladi-olus. Color pure white, with lemon tinged throat and lovely fra-grance. Flowers keep two weeks after being cut. It has created a sensation in the New York flower market. Fine plants only 15c. each; 2 for 25c.

NEW AND MAGNIFICENT GLADIOLUS.

Dazzling in Splendor.

A Perfect Rainbow of Colors.

Mrs G.L. Schoeny of Lena, Illinois, writes: Buck writes: Buck-bee's Seeds and Plants are favorites with me, I have grown Buck-bee's Beefsteak

bee's Beefsteak
Tomatoes 17 inthes around and weighed 1½
1bs. It is just grand. The Radishes were flue, the Onions
Turnips and Lettuce were good
and the pansies also; the Gladiolus were magnificent. I will
try to secure you many new
customers.

New Giant Gladiolus.

(Gorgeous Colors and Marvelous Markings, Flowers Size of Tea Plates.

Tea Plates.

This new race of extraordinary beautiful Gladiolus represents the perfection of this genus since its introduction. The flowers have reached enormous dimensions, often 7 to 9 inches across, far surpassing any others and much resembling Orchids of the brightest hues and most curious designs. Every color known among Gladioli is represented, and many never before seen, many having beautifully mottled and spotted throats, made up of white, crimson, pink, yellow, etc. of unsurpassed beauty.

New Giant Mixed Gladiolus.

Buckbee's New Queen.

Certainly one of my friends gave this grand Geranium an appropriate name, for there

never has been a Geranium to surpass it in exquisite beauty. The individual florets, which are often larger than a silver half dollar, are mostly red and white, and under favorable or expert care, will produce markings of delicate violet blue as well.

The plant is a strong, vigorous grower, thriving well in almost any situation, a remarkably free ever bloomer, producing quantities of its high-colored trusses, which cause unbounded surprise and astonishment to all who have been fortunate enough to behold its charming beauty. Notwithstanding its rarity, it will be sold for 25c. each.

THE SET OF 9 VARIETIES ONLY 75c. POSTPAID.

ANY 3 FOR 25c.

SWAINSONIA GALEGIFOLIA ALBA.

This is certainly a most charming ever-blooming plant of wonderful freedom of growth, and blooming the whole year through. Every shoot, as soon as it attains the height of 6 inches, begins to send forth large spikes of ivory-white flowers, which resemble a "Roman Hyacinth." The individual flower is fashioned after the "Sweet Pea." Its lasting qualities as a cut flower are remarkable; will last several days when cut and placed in water. The cut flowers of this charming plant are in great demand, and during the past season sold readily for \$1.00 to \$2.00 per dozen spikes. Strong plants 15c. each.

Swainsonia Carminea—Grows with same freedom as Alba; the color is a beautiful carmine red. 15c. each.

Set of 2 Varieties only 25c. Pestnaid.

Set of 2 Varieties only 25c. Pestpaid.

HONEYSUCKLE.

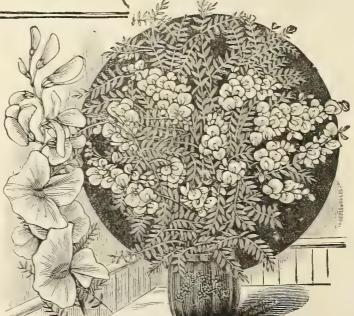

15c each; the 2 for only 25c.

The dear old Honeysuckle is never out of place at the rich man's mansion or the poor man's cottage. For a cheap, hardy, robust yet lovely vine, it is the chief stand-by. Flowers exceedingly beautiful and very fragrant.

and very fragrant.

Golden Leaved—Marvelously effective. It bears innumerable sprays of the most perfect little leaves that are covered with a net-work of gold and green, often marked with pink also. The gold deepens at the tip of the sprays and there is nothing finer to combine with corsage bouquets, while for trimming floral baskets they are the finest thing we know of. A strong grower with white blossoms. A unique vine.

Halleana—The best monthly Honeysuckle, with dark green foliage, which keeps fresh and green nearly all the winter, and beautiful clusters of the sweetest-scented flowers that open a snowy white and turn a pale yellow. These flowers are produced in profusion from early spring until late fall. A fine vine for a large trellis, or to train at the end of a veranda, or over tall screens.

SWAINSONIA GALEGIFOLIA ALBA

Perpetual Flowering CLEMATIS

The Wonder of All Hardy Ever-Blooming Climbers. Extremely Graceful, every established plant producing hundreds and thousands of picturesque and strikingly beautiful blossoms. The flowers are produced so freely that the exquisite green drapery-like foliage is completely covered with a perfect mass of bloom.

CULTURE Our plants are ready from March until June 1st. As soon as plants are set out, shield them with wire netting, 2 feet high by 2 feet in diameter, completely encircling the plant. The best way of growing Clematis is to dig large holes about 3 feet across and 2 feet deep, and fill in with fresh loam and well rotted manure in the proportions of three-tourths loam and one-fourth manure. Place one or more plants in the center of this hole and press firmly around roots; also place two stakes for plants to climb on, which they will do very readily after being tied once or twice and given a fair start. Give a medium supply of water, not enough, however, to sour the soil.

Beautiful Jackmanni—A nerfect heavity. In growing Clematics

supply of water, not enough, however, to sour the soil.

Beautiful Jackmanni—A perfect beauty. In growing Clematis, plant Jackmanni and Paniculata first, then think of others. 5.000 blossoms have been counted on a single specimen plant, and I dare say when you have secured such a plant, that \$100 in gold would not tempt you to sell it. Jackmanni is of rapid growth, early, abundant and continuous bloomer. Perfectly hardy and adapted to all kinds of culture. In flower from middle of June to middle of October. The blossoms are of large size, intense royal velvety-purple when in full bloom, varying through all the exquisite shades of violet; 6 inches across, richly veined and handsomely shaded. The most striking and picturesque variety known. Strong field-grown 3-year-old roots, well worth \$1.50; my price 50c. each; prepaid by mail; greatest bargain of the century.

CLEMATIS, HENRYII.

CLEMATIS, HENRYII.

New Red Clematis—(MAD, EDOUARD ANDRE)—An entirely distinct and most novel variety, and the nearest approach to a red ever sent out. The plant is a strong, vigorous grower, being a hybrid of the popular Jackmanni, which it resembles in freedom of bloom. Thousands of flowers produced on a single specimen plant; blooms of large size; in color it is a most distinct striking carmine-red of a very beautiful shade entirely different from all other varieties. Large 3-year-old roots, well worth \$1.50; my price 50c.

Ramona-One of the most striking beauties ever offered. In color it is a most exquisite lavender-blue of large size, often measuring 6 inches across. Thousands of flowers may be produced on a single plant. Every year's growth adds to its beauty. It is a perpetual bloomer. Large roots 3 years old, well worth \$1.50; my price 50c.

Chinese Wisteria.

PERFECTLY HARDY, STRIKINGLY BEAUTIFUL.

One of the most elegant and rapid growing of all climbing plants; attains an immense size, growing at the rate of 15 to 20 feet in a single season. Bears an abundance of long, pendulous clusters of purple-lilac flowers in May and June and again in autumn. Single specimen plants are often valued at \$100. Large 2-year-old plants worth \$1.50; my price 35c.

BUCKBEE'S PLANTS HAVE VIGOR, GROWTH AND FREE-BLOOMING QUALITIES.

CLEMATIS, PANICULATA.

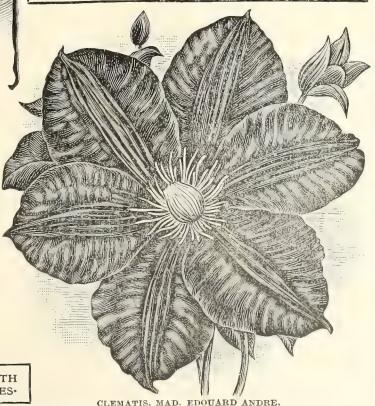

CLEMATIS, PANICULATA.

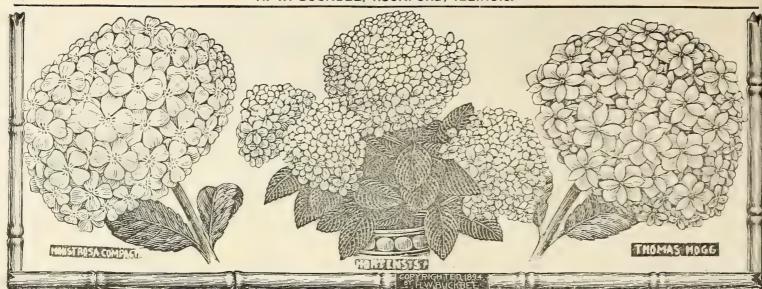

Clematis, Paniculata—(Japanese Virgin's Bower)—One of the most beautiful of our hardy flowering vines. The flowers of pure white, three-fourths of an inch in diameter, star-shaped, and are borne in great panicles or clusters of bloom, fairly covering the plant. These clusters are borne on long, slender stems, which stand out boldly from between the glossy-green leaves. The fragrance is delicious, resembling the English hawthorne blossoms, and will fill the air with fragrance. It begins to bloom in August, at a time when most other hardy climbers are out of bloom—an inestimable advantage. It is a strong, rapid grower, quickly reaching a height of from 15 to 20 feet and spreading out when trained to wires or string. It is perfectly hardy in all sections of the country, and it is, in our opinion, the most valuable among hardy climbing vines. Large, strong 2-year-old roots, worth 50c.; my price 35c. each; 3 for \$1.00, postpaid.

Henryii—White as the driven snow, glistening like gems in the sunlight; flowers measure 6 inches across under good cultivation, and thousands are often produced on a single well grown plant. Positively the finest white perpetual climber known. Large field-grown roots, 3 years old, well worth \$1.50; my price only 50c. each.

SPECIAL NOTICE On account of the brittleness of the bark on Clematis it cracks very easily, and many people believe the plant to be permanently injured, when such is not the case. We wish to say, also, that we examine all plants carefully before shipping, to see that they are in good condition, and if they die after being planted, as must sometimes happen, we do not agree to replace them.

SEE In all instances we would advise that Clematis plants be shipped VIA EXPRESS, though we can send safely by mail, if desired.

Grand Hydrangeas

Beautiful Hardy Decorative Plants.

Grand Hydrangeas

THE Hydrangea is the most magnificent and highly ornamental out-ofdoorshrub known; easy to grow; nothing is more striking or effective.

I am so in love with the beautiful shrub Paniculata Grandiflora
that I will plant 500 plants of it this season to beautify our
home flower gardens. It is as hardy as an oak, and in
the thousands of plants that have been sold I have yet
to hear a single complaint. It should be called the
hardy satisfaction plant.

Monstross Compacta—The flowers are
something enormous; trusses 18 inches in
diameter being of common occurrence,
white the individual florets measure 3
inches in diameter, and are of the most
pleasing shade of bright satiny-plak.
Plant is of a compact bushy growth, and
attains a height of 2 feet. While not
perfectly hardy, it will stand out with
good protection, but can best be
wintered in a dry, dark cellar. When
brought to light in early spring, will
produce its blooms in time for Easter
decoration. 15c. Large plants by
express, 25c.

Thomas Hogg—Splendid variety; has all the characteristics so
valuable in a plant of this kind.
When fully grown, attains a height
and width of over 6 feet, and fairly
covered with immense trusses of
creamy-whiteflowers, often measuring
15 inches in diameter. 10c. each.
Larger plants by express, 25c.

Otaksa—A splondid now variety
from the Orient. Flowers large, bright
pink, tinted blue, produced very freely.
15c. each. Large plants by express, 25c.

Otaksa—A splondid now variety
from the Orient flowers, which gradually
turn pink as they open; strikingly showy and handsome. 15c. each. Larger plants by express, 25c.

Red Branched—Thisvariety, with heads of blooms
as large as a water pail, commences to bear its enormous
trusses of deep rose-pink blooms while very small, increasing

constantly in size and profusion. The stems and branches are dark purplich-red, which, with the green leaves, sct off the clouds of rosy blossoms admirably. Price 15c. each. Larger plants by express, 25c.

Paniculata Grandiflora—Most valuable and ornamental shrub in existence. Completely covered with gigantic pyramidical trusses of bloom from 16 to 18 inches long, and as much in diameter; it is composed of hundreds of florets of a most dazzling white, changing to an exquisite pink, the whole producing a porgeous effect. These blossoms remain from 6 to 8 weeks without fading. Perfectly hardy in all parts of the country; needs no protection. Grand for cemetery use and all kinds of out door bedding. Price 15c. each, by mail prepaid; large size, by express, not prepaid, 25c. each; extra strong plants, 3 years old, 50c. each, by express.

SPECIAL OFFER. SET 6 BY MAIL 75c.

Spongsionally will improve the health of o, and notallowing asionally wi tain the root to bury the s loam is the r enough to re

Asparagus Sprengeri-The charming new decorative plant. When Asparagus Sprengeri—The charming new decorative plant. When introduced, at a high pirec, a litthe over a year ago, this variety was received with some hesitation as to its desirability, but after only a limited trial it has come forward with such prominence that the supply will be inadequate to the demand for some time to come. Not only is it useful for cutting in sprays for fine cut-flower work, more particularly in connection with large roses, etc., but grown in suspended pots it makes one of the prettiest decorative house plants we know of. Used in decorations, as, for example, in the decorations of mantles, nothing can equal it. 10c. and 15c. each.

The "Boston' Fern—(Nephrolepis Bostoniensis)—One of the most useful and ornamental of the "Sword Ferns." It is now grown by the thousand for the market in all large cities and is steadly increasing in popularity. In well grown specimens the fronds train a length of 6 or 7 foot, like plumes, arching over in every direction, in a most graceful manner. This beautiful Fern is excellent for outside planting in shady borders. It is a very fine plant for hanging pote or baskets on the piazzain summer and conservatory or window in winter. 15c, to 25c, each.

SPECIAL PRICES ON LANGE SPECIMEN PLANTS.

RUDBECKIA LACINIATA

Fl. Pl., "Golden Glow"

A HARDY perennial plant growing 8 feet high, branching freely, and bearing by the hundreds on long, graceful stems, erquisite double blossoms of the brightest golden color, and as large as Cactus Dahlias. The cut represents a plant liam Falconcr, the best authority on plants in this country, says of it: "When I saw the double-flowering form of Rudbeckia Laciniata in bloom in your grounds in summer last year, I was amazed, for notwithstanding my long and intimate acquaintance with plants, I had never before seen a double-flowered Rudbeckia, and I was delighted with the fullness and gorgeousness of the blossoms and their clear, bright yellow color. You gave me a plant last spring, and it was set out in good garden ground. It grew vigorously and threw up strong branching flower stems 6 feet high, laden with sheaves of golden blossoms salarge as fair chrysanthemums, and all having an elegant graceful appearance, without any of the stiffness in habit or blossom peculiar to sun flowers. Many eminent florists and amateurs have seen it here and all admired it. As cut flowers, the blossoms last well. In fine, I unhesitatingly regard it as the most desirable introduction among hardy perennials since we got Clematis Paniculata." It is the most effective flowering plants which will bloom freely this season, 15c. each, 2 for 25c. for 25c.

TUBEROSES

Buckbee's Monstrous Flowering.

Good Sized Bulbs, 5c. each; 40c. per dozen; \$3.00 per 100.

CLASSED among the finest of plants, producing hundreds of beautiful, pure white, double flowers on long and upright stalks, which are delightfully fragrant. They may be planted and cultivated in pots or in open ground. If planted in the open ground they should not be put out until the summer is well advanced. It is agood plan to buy the bults early, pot and keep in the house until they have made quite a little growth, and by thus doing the blooms will surely mature before frost. They begin to flower in September, continuing until frost. For flowering in pots late in the autumn, the bults should be kept dry and cool until July; pot them and place in a cool location. My select strain of bulbs has no equal, and will produce larger spikes of elegant doublesweet-scented flowers than any other strain offered. Mammoth bulbs, 10c.; 3 for 25c.; 75c. per doz. 75c. per doz.

SUMMER FLOWERING OXALIS.

NO BULBS are so valuable for edging the borders of walks and flower beds as the beautiful flowering Oxalis. When planted 3 inches apart, they produce an unbroken row of elegant foliage and pretty flowers, and as they bloom very quickly after planting, they furnish a neat and attractive border the whole scason. They are also splendid when planted in a mass, and make a very showy bed. The bulbs can be planted the first of May, or perhaps earlier, and will be in bloom by the first of June. No flower is easier grown than this, as they are sure to succeed in all soils and situations. They are also charming when grown in pots, and make a very attractive mass of fine foliage and gay flowers. They can be planted in this way at any time during the winter or spring, and will commence blooming at once. Every bulb will grow and flower beautifully.

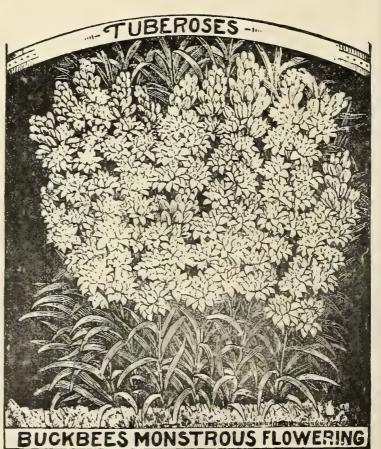

Price of fine bulbs, 10c. per doz.; 25 for 15c.; 100 for 40c.

Lasandria—Fine rosy pink, beautiful cut foliage, Dieppi—Pure white; very fine. Shamrock—Lovely clover-like foliage and pink blossoms. Mixed sorts—Several colors.

SOLDEN GLOW

mammoth-sized Gladiolus, and of bloom, at 5c. IMOTH BULBS—We can supply these Oxalis, nearly as large as ill produce a wonderful profusion for 10c; 12 for 25c. MAMMOTH bulbs of these C which will produ each; 3 for 10c.

OBCHID CATTLEYA MOSSIE.

CATTLEYA MOSSIÆ ORCHID

THESE grand, celebrated, beautiful air plants will thrive and grow everywhere, and are of easy culture, requiring a shady place and a considerable supply of water. I have the finest collection of Orchids west of Rochester, and consider this one of the finest in every respect. Flowers are large, of exquisite shape and the most beautiful colors, and sell readily at \$1.00 per bloom. Buyers or admirers of this rare and beautiful plant will be well repaid by visiting my establishment from March to June, when one whole house, devoted to these exquisite beauties, is in full bloom, showing a magnificent sight. Fine plants from \$1.00 to \$10.00 each.

NEW HARDY PÆONIES

THE PÆONIES are among the showiest and most useful of all hardy plants. They succeed well in almost any situation, but flowers will be brighter and finer if planted in deep, rich loam, well manured. The flowers are of immense size, perfectly double and richly colored. Are gorgeous when planted alone on the lawn, attracting attention from everyone.

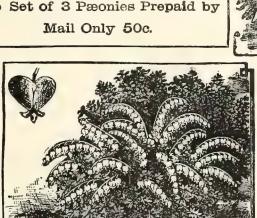

VENUS-An elegant double white of the purest color. Of immense size and queenly in its splendor. 25c. each.

ZADA—A delicate soft pink of exquisite shade and reat beauty. Free bloomer of excellent merit. 25c.

CHIEFTAIN—The finest red variety, being a deep, rich red, of rare beauty, the favorite color of Our Grandmothers, and very beautiful. Nothing can take its place.

SPECIAL OFFER.

The Set of 3 Pæonies Prepaid by Mail Only 50c.

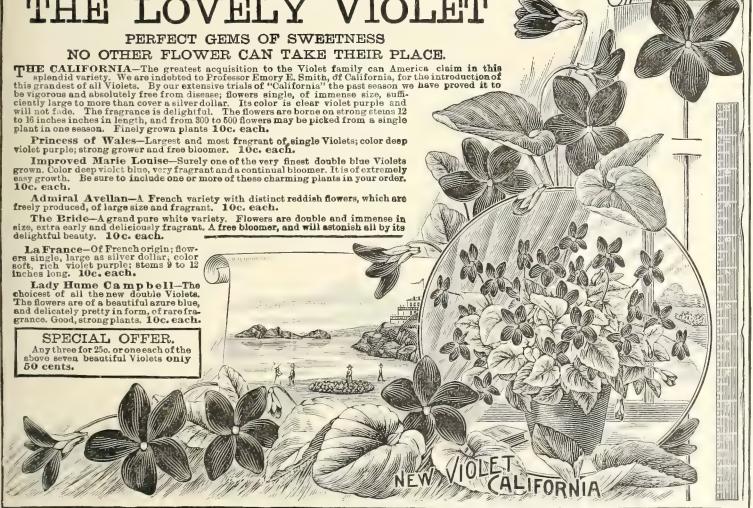

POIELYTRA OR NEW BLEEDING HEART

TRUE GIANT PAEONY

DIELYTRA,

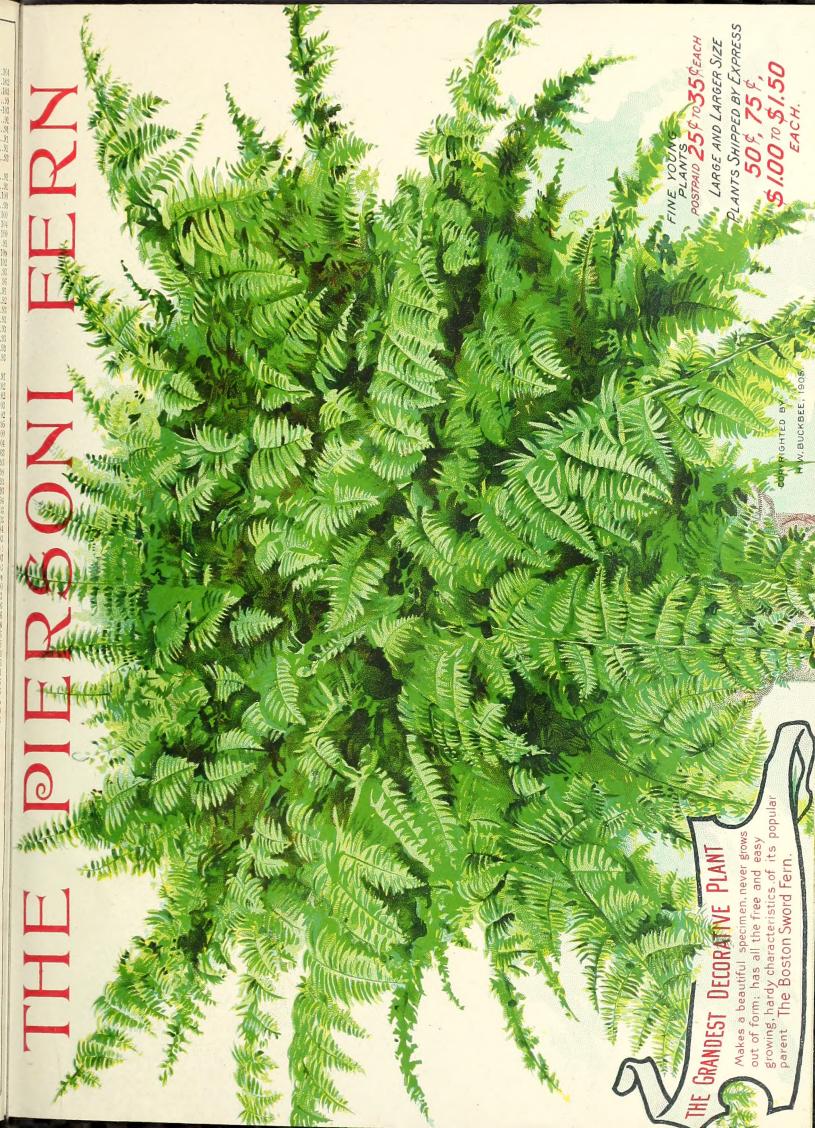

Or New Bleeding Heart.

ONE of the best herbaceous plants in cultivation, and one of the very first to flower in the spring. An old favorite, bearing long chains of graceful heartshaped pink flowers. Special price, 15c. each.
